WEDDING BELLS

CAMPBELLFORD, June 20.—A very pretty wedding was solemnized at Rosetown, Sask., on Wednesda. June 14, when Miss Hilda Mae Anderson daughter of Mr. and Mrs. Henry Anderson, became the bride of Mr. Arthur Kenneth Johnston of the C.P.R. office staff, Brandon, Manitoba. After the ceremony the happy couple left on a trip to Vancouver and upon their return will reside in Brandon.

Mr. Johnston, who is the only son of Mrs. Clark Johnston of Campbellford has many friends here in town and country who extend heartiest congratulations.

WILEY—LATIMER.

A quiet but very pretty wedding took place on Wednesday of this week at the home of the bride's parents, 68 Wilson Avenue, Toronto, when Louise Isabella, eldest daughter of Mr. and Mrs. D. D. Latimer, was united in marriage to Palmer L. Wiley, son of Mr. and Mrs. C. E. Wiley, of Peterborough. Rev. W. H. Hincks, D.D., performed the ceremony.

The bride was charmingly gowned in white crepe de chene, with veil of embroidered net and wreath of orange blossoms. She wore the bridegroom's gift, a beautiful rope of pearls, and carried a shower bouquet of Ophelia roses and lily of the valley. Her sister, Miss Stella Latimer, acted as bridesmaid, wearing tangerine canton crepe, with hat to match, and carrying pink roses. Mr. H. Malcolmson, of Toronto, sunported the bridegroom.

Following the ceremony, a dainty buffet luncheon was served at the home of the bride, and Mr. and Mrs. Wiley left later for an extended honeymoon. They will reside in Toronto.

The gift to the bride were many, showing the esteem in which she was held by a large circle of friends. The bridegroom presented the bridesmaid with a pearl ring, and the groomsman with a gold watch chain.

CLARKE—MITCHELL.

A quiet wedding took place this morning at the parsonage of St. James' Methodist Church, when Mary, daughter of Mr. C. H. Mitchell, of Peterborough, was united in the holy bonds of matrimony to E. C. Clarke, of Tamworth. The bride was attired in mauve organdie, and carried roses. Rev. J. F. Chapman performed the ceremony, and Mrs. Chapman, with Mr. K. Lang, witnessed the signing of the register.

Mr. and Mrs. Clarke left for a honeymoon in Kingston, to reside later at 550 Romaine Street.

Mrs. John Maloney is spending the summer at Chemong Park.

Many members of St. John's motored to the Zion church social held at Mr. J. Smithson's last night, and among them the singers who provided the programme: Mr. and Mrs. W. E. Conway, Mr. and Mrs. George Farrow, Mr. and Mrs. H. W. Morphet, Mr. H. Rush, Mr. and Mrs. R. J. Devey, Mr. and Mrs. H. J. Devey, Mr. and Mrs. F. C. Roberts, Mr. and Mrs. D. J. Eldred, Mr. and Mrs. Fred Johnson and Mr. Lorne Conway. Mr. and Mrs. Wm. Buller, Mrs. R. Burns and Miss Buller, of All Saints, were also present.

The Field Day for ladies held yesterday at the Peterborough Golf and Country Club brought to a close a series of four successful events for ladies at the local Club. The competitions, which made a unique and pleasing change to the usual procedure, were arranged by Mrs. G. R. Langley and Miss Rosamond Huycke. The first was an obstacle driving competition, played with the club drawn, won by Mrs. R. Grant, played with a putter. The second, a blind handicap, nine-hole round, was won by Mrs. L. F. Cross, of Amherst, N.S. The third, an eighteen hole round, was won by Mrs. G. R. Langley. Afternoon tea was served to a number who dropped in at the tea hour. These field days will be continued in September.

Mr. and Mrs. Russell Lee of Auburn, wish to thank their many friends for their kindness and sympathy in their recent bereavement in the loss of their only daughter, Mildred; also for the beautiful flowers sent.

An appreciative audience in the Conservatory of Music Hall last evening, listened to a short, enjoyable vocal recital by some of the pupils of Mrs. Dorothy Allen Park. Mrs. Park's pupils gave an admirable exhibition of careful training, with special attention to clear-cut articulation and breath control. The pleasing programme was appreciatively received, a feature being the adaptation of the different solos to the several types of voices rendering them. Six of Mrs. Park's pupils took part, as follows: Mrs. Ford Turner, "One Morning Very Early," and "The Lute Player," Miss Edna Borbridge, "Down Here," and "Homing," Miss Ina Allen, "Yonder" and "A Throne of Roses and "Mavis." Miss Grace Todd, "Tell Me, My Heart," and "Give Me Your Hand," Miss Hazel Davidson, "Babye Mine" and "The Brownies."

Mrs. Park was assisted in the accompaniments by Mrs. G. G. Evans, whose ability in this line is exceptionally good.

EASIER ARREST BOYS THAN GET LIQUOR DEALER

School Staff and Pupils Were Daily Witnesses of Bootlegging Operations in Montreal.

WAS UNCHECKED

MONTREAL, June 30.— (Special).—Six small boys from Alexandra School were arrested within ten minutes by the Montreal police for playing baseball on the school closing day while under the very noses of the police, bootleggers were conducting their operations on a wholesale scale and in the shadow of the school walls according to the headmaster of the school F. B. Spinney and members of the staff. The bootlegging has gone unchecked for months, they say, under the school windows in a lane back ing up to the school the principal teachers and 1,000 scholars being daily witnesses of this wholesale breaking of the law. It is claimed that the liquor commission has been notified and the police have been complained to again and again, but the bootlegging continues. Loads of liquor have be carted away in the presence of the municipal police officers, remonstrance of the teachers having no effect.

Cocaine, it is said, to has been openly dispensed in full sight of the school windows, teachers having witnessed a man having an injection of the drug, while gambling has been openly and frequently practiced outside the school. Describing the circumstances surrounding the arrest of the boys, the principal said: 'On the closing day of school immediately after the early morning dismissal six boys were arrested for lingering in a lane on the rear of their school to indulge in brief game with a very soft ball".

"At the same time a number of bootleggers were operating in the aforesaid lane, as they have been doing daily with impunity for many months. The game of ball at the unusually early hour interrupted their lucrative business and thus the police were notified and the six very wicked boys arrested on a charge of disturbing the peace by two stout officers of the law who had responded to the emergency call with surprising promptitude the arresting taking place within fifteen minute after the close of school.

JURY ADJUDGES DELORME INSANE

IMPORTANT LEGISLATION LAST DAYS OF COMMONS

Exemption Granted for Children of Person Making Income Tax Returns is $300 Instead of $200 —Concessions For Travellers

Mr G. N. Gordon, M.P., has returned to the city after finishing his session's work.

During the last ten days of the session, Mr. Gordon stated that some very important legislation was passed, one of which was that the exemption granted for children of the person making his income tax returns is $300.00 instead of $200.00 for each dependent child, and in addition to that. railway men and commercial travellers, and those who require to be away from home in their pursuit of business, will be given exemption for the amounts they require to expend for board and lodging.

Commercial travellers and others who have for many years complained that large expenditures take place for board and lodging while away on business trips, and the government has always refused to allow this as a return on their income tax, but now this change has been made, which will prove beneficial to every person required to travel.

FARMER FOUND SHOT TO DEATH

Belleville Police Are Seeking Morris Pearson—Two Quarrelled.

BELLEVILLE, June 30.—Morris Pearson, aged 20, a farmer's hired man, was being sought by the Provincial police to-day in connection with the murder of Wesley Moult, a middle aged farmer, on the seventh concession of Tyendinga township, fifteen miles from here. Pearson, only recently came from Montreal, according to word reaching the police here early to-day. Moult was shot during the night, it is alleged, by Pearson, after a quarrel over a motor car which Pearson had borrowed from Moult and which he returned later than expected, Pearson is five feet, eleven, sharp featured and rather dark complexioned, so the police are informed. Provincial officers Nappin, Hughes and Davis set out from here before daylight, accompanied by Sergts. Trumisch and Boyd of the City Police Department. Pearson was seen early to-day at Shannonville, it was reported here.

Moult's body was found covered up in a granary. Coroner Dr. Boyce of this city, is on the scene investigating the tragedy.

A LOAD OF HAY FOR 15 BERRIES

A Good Market This Morning—Lots of Green Feed.

There was a good market this morning, with plenty of fresh garden produce. Strawberries opened at 22 cents a quart box, ascending later to 23 and 25 cents for ripe, large fruit. There were fresh red currants at 10 cents a box, gooseberries at 15 cents, with quantities of lettuce, small green onions and rhubarb at 5 cents a bunch. New peas were 10 cents a quart, new carrots ten cents a bunch, beets 10 cents, new cabbage 15 and twenty cents. New potatoes in small quantity were 90 cents a peck, with a few bags of the old variety going at $1.75 and $2. A ingle load of hay on the open market was demanding $15.

In the basket section, butter and eggs were plentiful, the former from 30 to 35 cents a pound, with eggs generally at 30 cents per dozen.

Troops Mustered In Mining Areas

CHARLESTOWN, W. Va., Jnue 30 Canadian Press).—Two companies of the National Guard were sent into Cabin Creek and Paint Creek districts to-day to break up an incipient march against the mines on Cabin Creek which had been operating on the open shop basis.

The troops were mobilised and despatched on the order of Governor Morgan after he received reports that bodies of men were gathering on Paint Creek and marching toward Dry Branch, Cabin Creek.

LABOUR BOARD INTERVENE TO AVERT STRIKE

Are the Only Hope for Staying 400,000 Rail Men From Walking Out To-morrow.

MEDIATION TODAY

CHICAGO, June 30.— (Canadian Press.)—The United States' Railway Labor Board remained to-day as the only visible agency to avoid a strike of 400,000 union shop men on the United States' railroads, authorized by leaders to lay down their tools at 10 a.m. to-morrow. When the Labor Board stepped into the breach yesterday to interxene as an arm of the government by summoning before it to-day, officials of the unions and railway executives, new hopes rose over the horizon— hopes that the Board would repeat its successful meditation of last October, when it averted a nation-wide strike on the eve of a threatened walk-out.

REDUCE FREIGHT RATES

OTTAWA, June 30. — (Canadian Press.)—In many quarters it is expected that the judgment of the Board of Railway Commissioners, which is expected late to-day, will make general reductions in freight rates on basic commodities. The judgment is eagerly awaited.

NO ARGUMENT BY DELORME DEFENCE

MONTREAL, June 30.— (Canadian Press.)—At the opening of the Adelard Delorme hearing this morning, Gustave Monette, K.C., counsel for the defence, announced that he would present no argument to the jury, but would rest his case solely on the evidence already submitted. Crown Prosecutor J. C. Walsh offered to argue, but Judge Monet considered it unnecessary, and after fifteen minute session the court adjourned until this afternoon for His Lordship's charge to the jury.

FREE STATERS CONTROL SITUATION IN IRELAND

LONDON, June 30. (Canadian Press.) Winston Churchill, Colonial Secretary, stated in the House of Commons this afternoon that two membcrh of a sall party of British troops in Dublin, being escorted to the bank by a free state armoured car, were wounded by insurgent sappers. He said that the British troops generally were confined to their barracks but that orders had been given to reply immediately if they were fired upon. Mr. Churchill stated that so far as disorders in other parts of Ireland were concerned, he was informed that Free Stat troops in most cases had obtained control of the situation, particularly in Drogheda.

IS FILTERING WATER WORTH THE DIFFERENCE

Costs Consumers 75 Per Cent. More, but City Supply is Now Absolutely Pure.

NO TERRORS NOW

Is protection of the city's water supply worth the price? This question has probably been decided one way or the other by every water user who knows that since the installation of the filtration plant by the Utilities Commission, he is paying 75 per cent. more for his water than before. At first a mighty verbal upheaval against the Commission and against filtered water took place, but of late months either time has relieved the first sting of the increase or citizens have concluded that, after all, the filtered water is worth the difference. No mere newspaperman could hope to solve the weighty problem, but can only point to results and let the water users draw their own conclusions.

100 Per Cent. Pure.

One year ago the water the citizens were drinking was a strange composition. As it first came to the waterworks it was heavily charged with mud and bacteria. It could not be used "neat," so chlorine was added to take the kick out of it. Had it not been so treated authorities claim the death-rate would have been terrifying. Just one year ago 14 pounds of yellow liquid were put into every million pounds. Even after this dosage the people were advised to boil the water. No such measure will be necessary this summer. Repeated tests for bacteria made at the plant, and by Dr. A. Y. McNair, director of the Provincial Laboratory here, have failed to show any trace of harmful material in the water, and only three pounds of chlorine is being administered. Even this amount would not be necessary were it not for the Provincial Board of Health regulations. The water is absolutely 100 per cent. pure, according to Waterworks Superintendent R. L. Dobbin, and an Examiner man who visited the plant can testify that the Utilities are successful in extracting all the bad out of the water.

No Terrors Now.

The approach of warm weather has had no terrors for the Waterworks Superintendent this year. As a matter of fact, the June water has been better than in May on account of the disappearance of small animal bodies that abounded in the raw water last month. This unsual condition cleared up as mysteriously as it started. Although the pollution in the raw water has increased, and tests show it to be in a serious condition, as a result of the thorough filtration process, there has not been a single successful test for bacteria in the filtered water.

Efficiency and Capacity.

The filtration plant is meeting with the expectation of the engineer in respect to efficiency and capacity. The plant is being operated 24 hours a day when necessary, and about three and one-half million gallons make up the day's product of filtered water now. With the exception of the installation of another wash water pump now under order, no changes in the plant are expected. The engineer considered that the strain on the one pump was too great, and especially was this illustrated and the importance of having an auxiliary pump emphasized, when the water became so dirty that the filter beds had to be cleaned every four hours instead of sixteen, as at present.

One Man Operates.

Through complete control by delicate machinery one man operates the entire plant. The three men on the shifts work nine hours each, so there is an overlap of three hours. The principal expense in connection with operating the plant is not labor but alum. Half a ton of this material is used daily in coagulating the particles of dirt in the water. A small piece about as big as a pea goes into each gallon of raw water. In the winter time, however, it is thought that its use will not be necessary, and a saving will then be made.

A Show Place.

The filtration plant will soon be one of the show places of the city. The trip through the works provides plenty of sensations, and the grounds are being put in a most prepossessing condition. James O'Keefe, who was awarded the contract for sodding, has succeeded in improving the appearance of the property considerably. Four thousand square yards of sodding has been put in, and there is still some to do. In order to hold the steep banks of the sedimentation basins and the reservoirs sodding was imperative. The practical and beautiful has been combined, and when the programme of improvements is complete the original beauty of the property will be developed through the gardener's hand. Plans for improving the property along the road call for a concrete retaining wall and more gentle slopes.

The entire plant came in for an interesting write-up in the June issue of Municipal Governments, the magazine of the Canada Cement Company. A number of views show the great amount of concreting in the job. The fact that the total cost was $25,000 below he estimated cost of $350,000 was referred to.

Gasoline Prices Increased Today

The anticipated rise in the price of gasoline took place today, and as a result motorists were paying at the pumps 41 1-2 cents and 43 1-2 cents a gallon.

Kerosene rose 1 cent per gallon also.

The advance, according to the oil companies, is due to the increased cost of crude oil at the wells. Many motorists, however, say thef are at a loss to understand the situation.

In the case of gas, they say, the old law of supply and demand does not seem to enter at all, for reports show there are larger stocks on hand than at any time. The price of crude oil, the companies say, is now practically the same as during the war.

While the initial cost of automobiles has taken a big downward slant, the upkeep, as represented by gasoline costs, rather than declining, are going higher.

MINER OFFICIALS MAY WAGE ELECTION DUEL.

GLACE BAY, N.S., June 30. Canadian Press. — Robert Baxter, district president of the United States Mine Workers of Nova Scotia, has challenged J. B. McLachlan, to resign from the office of secretary and run against him as president in the aproaching annual elections. This, ccording to Baxter, would simplify the issue between himself as leader of the conservative faction of the Miners, and MacLachlan as leader of the radi l element. The latter has not replied to the challenge.

STILL HOLDING ON.

LONDON, June 30. — (Canadian Press).—A message from Dublin, timed at 1.25 o'clock this afternoon, indicated that Rory O'Connor's men were still occupying portions of Four Courts building, front and rear, with Free State troops occupying the intervening section, thus dividing the Republicans.

A Query From Mr. Burnham

Mr. J. H. Burnham, ex-M.P. for West Peterborough, is inquiring what steps are being taken to call an Ontario Conservative Convention to arrange for the appointment of delegates to the Dominion Conservative Convention in Ottawa next September. The Maritime Provinces, Mr. Burnham points out, have both held their convention, and he thinks it high time Ontario Conservatives begin to show some enterprise in regard to the coming Dominion gathering.

INSURGENTS IN DUBLIN HOISTED THE WHITE FLAG

Rory O'Connor, Commander of Republican Army Rebels, Surrenders to Free State Forces

IRISH SITUATION

LONDON, June 30.— (Canadian Press.)—At 4 o'clock this afternoon the insurgents in Four Courts at Dublin hoisted the white flag, says a Press Association despatch from the Irish capital received at 4.30 o'clock.

O'Connor a Prisoner.

Rory O'Connor, commander of the Republican army insurgents, who surrendered Four Courts building to-day to the Irish Free State forces, was taken prisoner, says a correspondent for the London Press Association.

Irish Republican Army insurgents occupied the town hall at Rathmias in the southern suburb of Dublin.

LYNCHED OFFICERS.

LONDON, June 30.— (Canadian Press.)— An Ulster correspondent, says the Exchange Telegraph Company to-day, reports that three British officers, who were kidnappped at Macroon several months ago, and have since been among the missing, were lynched by hanging from a tree shortly after they were captured.

FREE STATERS KILLED.

LONDON, June 30.—(Canadian Press.)— Message from Freeman's Journal, a Dublin newspaper, says that during the assault on Four Courts, three Free Staters were killed and fourteen wounded, among the latter being four officers, Commandant J. Leonard, Vice-Commandant Marron, Lieut. Murtagh and Capt. O'Toole.

THE CASUALTLY LIST.

DUBLIN, June 30. — (Canadian Press.)—Unofficial estimates of the casualties in the tow days' fighting here place the number of killed at thirty, with more than fifty wounded. This forenoon twelve deaths were reported and twenty wounded, the latter including both men in the fighting forces and private citizens.

PARLIAMENT POSTPONED.

DUBLIN, June 30. —(Canadian Press.)—A meeting of the Irish Provisional Parliament which has been set for to-morrow has been postponed until Friday, July 7th, it was announced to-day.

GENERAL O'CONNELL SAFE

DUBLIN, June 30. (Canadian Press.) — Lieut. General O'Connell, assistant chief of staff of the Free State forces, who was captured by insurgents early this week, is safe and free, says a correspondent. The casualties among the insurgent troops are said to be few.

ENTIRE GARRISON PRISONERS.

A despatch from Dublin says: The Four Courts building, the Dublin stronghold of the Irish insurgents, was surrendered unofficially to the Free State forces at four o'clock this afternoon, it was announced by the Free State authorities.

Commandant Rory O'Connor, Liam Mellowes, and the entire garrison, including all the principal executive officers, were made prisoners. Forty insurgents were badly wounded by an explosion this morning.

Start on a 425 Mile Wheel Trip

Alan Trussler and his father, Joseph Trussler, Charlotte Street West, leave early to-morrow morning on a 425-mile bicycle ride to Sherbrooke, Quebec.

They expect to reach Sherbrooke on Wednesday night.

Night stops will be made at Kingston, Aultsville, Cornwall, and Montreal.

While they are wheeling, the rest of the family have chosen to go to Sherbrooke on the train.

The father and son are travelling light. They will get their meals along the route, and have every confidence of making the trip successfully. They are riding ordinary bicycles.

The longest trip they have ever made has been to Cobourg and back, but both father and son have been so enthusiastic over bicycling that the long ride was decided upon, and in this way they are spending their vacation.

CORNER STONE YOUNG PEOPLE'S TEMPLE IS LAID

Large Gathering Attends Interesting Ceremonies of Great Import to the Local S A. Corps.

CONGRATULATIONS

The laying of the corner stone of the new addition on Aylmer street to the Salvation Army Temple was performed last night in the presence of a large number of members and friends. The event marked a fresh beginning on a bigger and more extensive scale of the Army's fruitful endeavours in Peterborough. Addresses by the Chief Secretary, Col. John McMillan and the Divisional Commander, Brigadier Moore of Toronto, by His Worship Mayor Taylor, Mr. G. A. Gillespie, and Mr. R. C. Braund featured the occasion.

Briagdier Moore acted as chairman, opening the programme with the song, "O God, Our Help in Ages Past" impressively sung by the entire gathering. Prayer by Adjutant Bunton, with a Scripture reading by Mrs. Bunton followed, with a few words of congratulation to the local Army staff and Adjutant, from Brigadier Moore.

Sgt. Major Braund.

Mr. R. C. Braund, who is Young People's Sergeant Major, spoke briefly, emphasizing particularly the example of Christ in His love for children, the example of a good mother in her care of her family, and the need of the Army to "care for the lambs of the flock." The many sections of young people's work which have suffered in the past from lack of proper quarters were enumerated, and an idea given of the facilities offered by the new addition. Mr. Braund recounted the contents of the corner-stone box, for the information of his audience. The box contained a copy of the War Cry; one of the Chinese edition of the same, with its English section; two copies of The Young Soldier; a list of the Cradle Roll and of the juniors in Peterborough and Brownton; a list of the band, a history of the work in Peterborough, a copy of last evening's "Examiner," with pictures and photographs, and a list of the benefactors who donated to the work.

Col. John McMillan.

The laying of the stone was supervised by the chief secretary for Canada East, Col. McMillan, of Toronto, with the concluding words: "In the name of God and of the Salva-

HELD BANQUET IN HONOUR OF REV. F. E. MALOTT

Retiring Pastor of Trinity Methodist Church Leaves For Belleville Today.

THE ADDRESSES

The respect and esteem in which Rev. F. E. Malott, B.A., B.D., is held by the citizens generally was evidenced to-day at noon, when the Chamber of Commerce held a complimentary luncheon at the Empress Hotel in his honour.

About fifty business and professional men attended the luncheon, and the labours of Rev. Mr. Malott during his four years pastorate at Trinity Methodist Church, which he is leaving for Bridge Street Methodist Church, Belleville, were highly eulogised.

On acount of the holiday, a large number of citizens found it impossible to attend, and a large number of letters were read expressing regreat at being absent, but asking that their expressions of regret at Mr. Malotts departure be added to the general feeling of the citizens.

Owing to the illness of President J. J. Duffus, of the Chamber of Commerce, R. R. H. Kenner presided, proposing the toast to the King, and later turned the programme over to G. A. Gillespie.

The service Rev. Mr. Malott has rendered in a public manner was eulogised by Judge E. C. S. Huycke, who proposed the toast to Rev. Mr. Malott. He described him as one of the citys most distinguished, respected and beloved citizens. "We respect Mr. Malott, not because he's a clergyman, which in itself is worthy of our respect, but he is respected and beloved because he is a man first." Rev. Mr. Malott, he said, did not fit in with Oliver Wendell Holmes' segregation of humanity into "men, women and clergymen!"

Object Lesson.

To the citizens he endeared himself on account of his wide sympathies and kindly hand in all movements for the public good. "Mr. Malott has been an object lesson to the people of his church. His interest has been in all the churches, but he has been a faithful minister of his own. Above all his fine qualities he is a gentleman and a friend. We wish him and his wife and his two daughters all the good, all the happiness that this world can bring, and we wish him and his a long life full of much joy and reward for labours well performed."

Rev. Mr. Malott was visibly moved by the eulogistic references to his work. "It has touched me very much to have a thing of this kind after so many, many kindnesses from the people of this city," he said. "I want to do my work as a citizen, not merely as a minister of one particular church. There are duties that lie outside a man's work, and if these were not recognised we would not have what is called civic life. I little dreamed that I should be honoured as you are honouring me today when I took up two or three forms of community service. Judge Huycke's words indicate what I have tried to do, although I have not always succeeded."

Second to None.

Rev. Malott was confident of the future of Peterborough. He said he had an opportunity to observe the citizens in many places, and he declared that in public-spiritedness, ability, and integrity the men of this city were second to none. He particularly stressed the importance of public service, and he expressed the wish that young men would fit themselves for the important work of guiding Peterborough to its rightful destiny.

Good Citizen.

Mayor W. H. Taylor said that Mr. Malott was a type of citizen that Peterborough can ill afford to lose. In wishing him every success in his work, he felt he was voicing the sentiment of the people generally.

G. N. Gordon, K.C., M.P., declared that Mr. Malott's place would be hard to fill. He has proved a splendid counsellor to Trinity congregation, he said, and his optimism has characterised his ministry. To the public his tolerance and generosity have appealed, and his interest in boys' work brought him into such commendable prominence "that all the boys knew him," said the Deputy-Speaker of the House of Commons.

CORNER STONE YOUNG PEOPLE'S

(Continued from page 1.)

tion Army, to His honour and to His glory, I declare this stone to be well and truly laid." The stone, simply inscribed "Young People's Temple, 1922," was placed in the northern corner of the building, facing on Aylmer street.

Col. McMillan, in a friendly, humorous address, remarked on the new building as "one of the milestones in the history of the Salvation Army," and prophesied the finding of the War Cry in the box many years hence, perhaps, "when this little fellow is a grandfather," pointing to a surprised, large-capped little boy who occupied a position of prominence in the front ranks of his audience. Harking back to the 14th of July, 1888, when the present Temple was formally opened, Col. McMillan thanked God for the power and strength vouchsafed to the Army to accomplish what it had in the meantime. He believed that the addition would furnish facilities not only for religious instruction, but for training in good citizenship as well, providing tuition in morality and right living for the boys and girls of the city. The addition itself was only a beginning, for a re-modelling of the old Temple, to make the entire building one of the most up-to-date places in the city, to further an institution that might send out throughout time "boys and girls to the uttermost portions of the earth, who will take life and salvation wherever they go."

His Worship Mayor Taylor, in a few words, congratulated the Army and its officers on the work that had been accomplished by them in Peterborough, and hoped it would not be long before they would once more be enlarging their premises. "Every citizen realizes the good work that is being carried on by the Army, and wishes them Godspeed."

Sgt. Major Williams, speaking for the local unit, was interrupted several times by the clatter and clang of the fire engines in the fire hall opposite, where practice was being carried out, a counter attraction that deflected a good deal of the interest of his audience from his remarks. The Sergeant Major referred to the spirit of unity in the corps, and its interest in the junior work. The remark of a previous speaker, asking for the sympathy of the citizens in prosecuting the good work was regarded by the speaker as a good thing, but he thought that a little help along financial lines would be a splendid idea also.

Geo. A. Gillespie.

Mr. G. A. Gillespie's short, well-worded address opened with a warm eulogy for the work of Adjutant and Mrs. Bunton and the qualities of leadership in the former evidenced in his carrying through this new addition to the premises of the Army in Peterborough. The importance of looking after the children, "who are the men and women of to-morrow" was commented on, with the duty devolving on the community to see that their training was properly supervised. The Young People's Temple, when completed, would fill a long-felt want. In concluding, Mr. Gillespie referred to the motto which Sir Thomas Lipton made his own, "It is great fun to work."

The ceremonies, which were brought to a close by the singing of the Doxology and the Benediction, were made especially pleasing by several fine renditions of music by the Salvation Army Band, and a pleasing vocal selection by the Songsters of the local brigade, entitled, "The House of Many Mansions."

GEO. F. CHIPMAN IS ADVANCED AS NEXT PREMIER OF MAN.

Seems to Be Logical Man to Lead United Farmers After July Election.

CAMPAIGNS ON.

WINNIPEG, June 30 (Canadian Press). — There is a growing belief in well-informed political circles that if the United Farmers of Manitoba are called upon to form a Government after the elections on 18th July, the man who is most likely to succeed Hon. T. C. Norris as Premier is George F. Chipman, editor and managing director of the Grain Growers' Guide, and, as such, one who has been in close touch for years with the political and educational movement of the farmers' organisation.

Other names mentioned some weeks ago in connection with the farmer leadership are now little discussed. There seems to be a feeling that Mr. Chipman, more than any other available person, would be acceptable alike to city and country, and that he might be expected to reveal qualities of leadership and administrative ability which would launch successfully a Farmer Government.

Mr. Chipman heads the slate of eight Provincial candidates in Winnipeg city, who are allied with the United Farmers and support their platform.

There may be significance in the official progressive advertising matter, which states that Mr. Chipman's candidature "establishes a firm bond between the progressives of the city and the United Farmers of rural Manitoba," and again, that he "brings together the progressive forces of city and country in a manner which ensures a progressive administration that will serve the needs of the entire Province."

There will be no formal step taken towards the appointment of a farmer leader until after the election, but reports from the country are said to indicate an inclination favourably to view the posibility of Mr. Chipman's elevation to that post.

In the meantime the constituency organisations of the farmers are conducting their own campaigns, with such advice and assistance from the central offices of the organisation as may be desired.

Mr. Chipman is a Nova Scotian, forty years of age, and a resident of Winnipeg for seventeen years, of which thirteen have been spent with the Grain Growers' Guide.

BIG POW-WOW BY NOBLE RED MEN.

EDMONTON, June 30.— (Canadian Press.)—Indians from all over Canada were represented in convention at Chief Samson's Hobbema Reserve when proceedings of the League of Indians of Canada took place recently.

There were present 1,500 Indians, including Blackfoot, Bloods, Peigans, Stonies and Crees. Chief F. O. Loft, president of the league is a Mohawk from Ontario; the vice-president from Alberta is Rev. Father F. P. Beaudry, Edson, and Rev. Robert B. Steinhauser, Saddle Lake, is chief interpreter. The objects of the league are the educational and general uplift of the Indians in Canada and it is non-denominational and non-partisan. Delegates came from as far as Lesser Slave Lake in the north, from McLeod Block reserve in South Alberta, and from Mistawasic reserve near Prince Albert, Sask.

CIVIC HOLIDAY MAY BE A BLANK

The Exhibition Board Will Confine Efforts to the Fair.

Civic holiday will be a blank in Peterboro in so far as the Exhibition Board is concerned. They decided last night to concentrate their plans upon the fair itself without taking a chance of a set back from wet weather on the mid-August holiday. It was reported that the Peterboro Athletic Association might stage a field day of sports but the Board itself, facing conditions that require rigid economy, have passed up the proposal of putting on a race meet with other attractions.

President Denne mentioned the Dominion Day celebration by Rev. Father Costello and the men of St. Peter's and requested that any of the members who could lend help on that occasion do so.

Proofs of the prize list were scrutinized last night, and some of them will be published shortly. The lists will be completed and issued as soon as possible.

Township teams and any others who intend to compete in the tug o'war are reminded of this contest, and are asked to prepare for it. This is also intended as a special notice to the Smith team.

Robert Grandy and his committee are making some changes in the drawing competition which will be held during the afternoon of the concluding day of the Fair.

The directors present last night were: Messrs. Denne, Steinkrauss, W. H. Young, Dickson Hall, Paxan, Hodgson, Holmes, Grandy. J. T. O'Connell, S. Oak, J. Williams, C. G. Graham, E. B. Fowler, Jos. Kelly, T. N. D. Kelly, Lush Jordan, Merrell

NEW RAILWAY BOARD WILL BE APPOINTED.

OTTAWA, June 30.— (Canadian Press.)—It is not unlikely that the new board of management of the Canadian Naticnal Railways will be appointed shortly. The cabinet is busy with arrears of business which accumulated during the latter part of the sessions, when the time of the government was fully occupied with the immediate problems confronting it in parliament, especially the budget and the railway rates reduction. These matters of administration which had fallen into arrears are being disposed of as rapidly as possible; and it is understood that the appointment of the new board for the Canadian National will be one of the earliest problems dealt with as soon as the decks are cleared for it.

POINCARE RECEIVES A CONFIDENCE VOTE IN FRENCH SENATE

Premier Outlines Stand Taken on the Question of Reparation By Germany.

FOE IS FLOURISHING.

PARIS, June 30 (Canadian Press). —The Senate yesterday gave Premier Poincare a vote of confidence following a debate on the question of German reparations, in the course of which M. Poincare declared that the Allies had arrived at the turning point on the question of reparations, but that the French Government will make every endeavour to avoid getting into a "blind alley."

Germany, M. Poincare said, was struggling with a financial crisis; but she had provoked it herself, and meanwhile her industries were flourishing.

"German companies," the Premier continued, "distributed 40 per cent. in dividends on an average in 1921, and the German fleet already has recovered, and now occupies third rank in the world."

Germany was buying back ships delivered to Great Britain, was building heavily, and was engaged in considerable extensions of her railroads. these extensions even comprising some of a distinctly military character. M. Poincare declared, adding. "We cannot accept these outlays unless Germany begins paying her debts."

The Premier suggested as remedies for the situation, "the putting into effect of a really effective organisation for the collection of taxes on Germany's exports, the proceeds of which should be deposited with the Reichsbank or, if that is insufficient, credits accumulated abroad by Germans in foreign money must be applied to the payment of the reparations."

TO DEMOCRATIZE SOCIAL CLASSES.

The Duke of York Will Discourage Snobocracy.

LONDON, June 30.—(Associated Press).—The Duke of York, second son of the King, will repeat this year the experiment he made last year for what has been called "the discouragement of snobocracy and the encouragement of democracy."

So thorough an understanding was then established between boys from Westminster School and boys from a Welsh steel works, following a football match, that a summer camp was set up by the Duke to encourage good feeling between boys of different social status. Two hundred public school boys with an equal number from congested and industrial areas were invited to share the camp.

The selection of the boys and the arrangements for the camp this year are in the hands of the Industrial Welfare Society, of which the Duke of York is President, but beyond that the society will have nothing to do with the project.

In order that the boys meet on terms of perfect equality cricket, football and kindred games will not be played because it is felt that public school boys, having more opportunities for practise, would hold an advantage over the other boys at such games.

They will be divided into sections of 20, ten being public school boys and ten industrial lads. They will share the same huts, eat the same food and engage in the same sports and recreation.

APPOINTED MAGISTRATE

OTTAWA, June 30. (Canadian Press.) — His Honor Lucien Dubuc, judge of the district court of Peace River and junior judge of the district of Edmonton, has been appointed a stipendiary magistrate for the northwest territories. The order-in-council approving the appointment was made public to-day.

United States Government May Intervene to Avert the Threatened Railroad Strike

400,000 Shop Men Ready to Walk Out To-Morrow. Other Unions May Follow

MEETING TO-DAY.

CHICAGO, June 30.—(Canadian Press.)—Intervention by the Federal Government under the authority of the Transportation Act, created to maintain the orderly course of the nation's transportation arteries, loomed last night as the final hope of averting the threatened rail strike of 400,000 shop men, and possibly half a million more railroad workers.

Their ultimatum to the railway executives rejected, chief executives of the six shop crafts unions, which have called a strike for ten o'clock Saturday morning, and the leaders of four other unions now polling a strike vote, prepared last night to answer the summons of the United States Railroad Labor Board to appear in a Federal investigation this afternoon at two o'clock.

With the union heads were summoned the executives of twenty-three railroads, charged by the employees with illegally contracting shop work in violation of the Board's orders, one of the three questions on which the shop men have been casting strike ballots for the last two weeks. Other railway executives of the 201 Class One roads in the country also were asked by the Board to be present.

New Developments.

Developments of the strike situation came in rapid sequence yesterday.

International presidents of the six shop unions announced telegrams authorizing their membership to walk out Saturday morning. The Labor Board immediately recognized a threatened interruption of traffic and acting under the authority of the Transportation Act, issued a citation to the strike leaders to come before it for official inquiry.

The Association of Railway Executives, meeting here on other matters, considered and rejected the union proposal of a truce pending negotiations over wages and working conditions.

The executive declared that a strike would be against the orders of the Labor Board, and against the United States Government, and thus absolved themselves from further responsibility with regard to the present situation.

There is little likelihood, officials said, that any conference could be arranged to mend the differences of the employees and the roads and most of the exccutives departed last night for their homes. Executives of only 16 of the 23 roads cited were present at yesterday's meeting, but they expected to appear before the Board to-day.

The July first, $60,000,000 wage cut and the modification of seven rules were the two questions involved in the shop men's strike vote, which are conditions laid down by the Labor Board, according to the carriers' position. Defiance of those orders by the roads would be "to recognize your power and authority as greater than that of the Government," said the executives' reply to the union ultimatum.

No Cause For Complaint.

Ben. Hooper, chairman of the Labor Board, who was credited with having the leadership in averting a threatened railway strike last October, last night issued a statement declaring that "it is evident to every student of the situation that the railway labor organizations have no just cause for serious complaint at the treatment they have received at the hands of the Federal wage tribunals during the war period and since." The statement follows in part:

"The poor people of the United States are sick and tired of having railway transportation and traffic periodically interrupted by controversies between railway managements and employees. It was this feeling which moved Congress to enact the Transportation Act of 1920.

"The right to strike and tie up private business is quite a different thing from any supposed right to choke and obstruct the flow of interstate commerce in this vast continental nation. Railway transportation is not a private business. It is essential to the very existence of our Republic and to the individual well-being of every citizen.

No Successful Strike.

"I do not hesitate to make the prediction that never again will there be a sucessful railroad strike of any considerable proportions of importance in this country. The people will not stand for it.

"There must be peace on the railroads. This cannot be obtained by leaving the carriers free to impose unjust conditions upon the employees, or by permitting the employees by organizations, however powerful, to impose unfair conditions upon the carriers and unbearable burdens upon the public.

"The wages fixed by the recent decisions of the Board will purchase more than the wages received by them before the war. In other words their wages have increased by a greater percentage than has the cost of living. In some instances the increase is strikingly noticeable.

"With few exceptions, the great carriers of the country have paid the wages fixed by the Government tribunals. Now that the decreases have come, the employees should be sports and accept the reductions.

"The employees do have one substantial grievance against certain of the carriers, and that is the contracting of railway employment to so-called independent contractors. This is not simply a labor grievance, it is a public grievance. This policy carried to its legitimate end, destroys the labor articles of the Transportation Act, treats the United States Congress with contempt, deprives the public of lawful protection from railway labor troubles and grievously imposes upon the employees.

"It is highly gratifying, however, that several of the carriers have withdrawn from the contract policy this week and it is hoped that all the others will follow."

ENTRANCE CENTRES PETERBORO COUNTY

Five Lakefield Entrance Pupils Have Measles—Lakefield News.

Lakefield, June 30. — There are nine entrance centres in Peterboro county, seventy-eight pupils are writing at Lakefield centre. Five pupils of the Entrance Class prepared at Lakefield are suffering from measles. In each case the home is quarantined for a period of three weeks. Inspector Lees is the presiding officer at Lakefield and Miss Duff is the assitant.

200 LOADS OF PEAS DAILY TO FACTORY.

SIMCOE, Ont., June 30. —Over 200 loads of peas have been coming in daily for the past week to Dominion canners at Simcoe. Farmers here are hauling until midnight and the factory force is working until 3 a.m. The same situation exists in Waterford, Delhi, Port Dover and Vittoria. Norfolk farmers report an unusually large pea crop, mostly Alaskan peas. Canners have extra forces day and night to shell, sort, steam, can and ship the peas. Carloads of canned peas are going out daily. Dominion canners report the strawberry crop just fair and dwindling now. Cherries of all descriptions are ripe and an abundant crop is expected.

THE JUDGE TREATS ALIENISTS ROUGHLY IN DELORME CASE

Judge Monet 'Would Give a Lot Not to Know Anything of This Science.'

ENDS TO-DAY.

MONTREAL, June 30.— (Canadian Press.) —Severe handling by Judge Monet of alienists called to decide whether Adelard Delorme, charged with the murder of his half-brother, Raoul, is mentally able to stand trial, was the feature of the hearing of the case in the Court of King's Bench here yesterday. His Lordship severely scored Dr. Omer Noel, Assistant Medical Officer of the St. Jean De Dieu Lunatic Asylum, for negligence in not having read the proceedings of the Delorme hearing at the coroner's inquest, and asked him if he knew how much a city street cleaner was paid per day, in connection with the doctor's salary of $1,200 a year or four dollars per working day, when the doctor first accepted the appointment to the asylum.

Dr. Noel replied that he had not come into the court to be insulted.

His Lordship then ordered that the coroner's court proceedings be read in court, and after this had been done, put the following question to Dr. Gaston De Bellefeuille, chief defence alienist:

"You have just heard the reading, for one hour and a half, of the deposition given by Delorme at the coroner's enquiry?"

Dr. De Bellefeuille: "Yes."

The Judge: "So you swear before God and man that a person who could give such perfect evidence for an hour and a half without a single error in style and language, could, all the while, in despite of his perfect evidence, not be sane in mind?"

Dr. De Bellefeuille: "He is insane."

The Judge: "But how can we ever find a single criminal guilty, in view of this perfect evidence??"

Dr. Bellefeuille: "If you will allow until to-morrow . . . ."

The Judge, (interrupting): "No to-morrow about it. Right away."

Dr. De Bellefeuille then proceeded to quote from authorities as to cases resembling that of Delorme, but Judge Monet refused to listen to him and summarily dismissed the witness with the comment: "I would give a lot to know anything of this science of yours."

Judge Monet then announced that he revoked his edict against women attending the court on the ground that everything was now finished and "nothing shown that Delorme sinned against public decency."

Argument of defence and Crown counsel will occupy at least the entire morning session to-day. Judge Monet will deliver his charge to the jury in the afternoon should time permit.

NEW PRINCIPAL OF BISHOP'S COLLEGE.

MONTREAL, June 30.—(Canadian Press.)—Bishop Farthing yesterday announced the appointment of the Rev. A. H. McGreer, M.A., M. C., formerly assistant curate at Christ Church Cathedral, this city, and now resident in England, to the position of new principal of the University of Bishop's College, Lennoxville, Que.

Dr. McGreer was born at Napanee, Ont., in 1885, and gained a wide reputation during his service with the Canadian Chaplain Corps in the great war. He graduated with honors from Trinity College, Toronto, in 1906 and is now engaged in post-graduate work at Queen's College, Oxford. He will assume his new appointment in the fall.

CITY REGINA DOES NOT PAY INTEREST

Court Hands Down Ruling on Payment of Interest on 1918 Debentures.

REGINA, Sask., June 30.—(Canadian Press.)—The contention of the city of Regina that it does not have to pay interest on its 1918 sterling issue of debentures at par rate of exchange was upheld by a judgment handed down in the Saskatchewan Court of Appeal yesterday. The judgment reverses the finding of the court of King's Bench.

In 1918 the city of Regina sold certain debentures. Each of these debentures contained a promise to pay to bearer at branches of the Bank of Montreal in London, England, New York, Toronto or Regina the sum of £100 sterling on March 21, 1938 and to pay interest at the rate of five per cent. on presentation of interest coupons which were attached to the debentures.

The court of appeal points out that each of these coupons contains a promise by the city of Regina to pay to the bank two pounds ten shillings.

The Toronto General Trust Corporation, plaintiff became holders of 91 of these debentures and in March 1920, they presented at the bank coupons for interest falling due to date. They were in payment of interest £227.10 calculated at the current rate of exchange at which sterling could be purchased. The current rate was at that time considerably below par.

LEADING CITIZENS ARE PATRONIZING THE BOOTLEGGER

Chief Constables Discuss the Frailties of Human Nature at Annual Convention.

OTHER EVILS.

VICTORIA, B.C., June 30 (Canadian Press). — "I find some of our most respectable citizens — with a question mark—patronising bootleggers, and yet they sit in front pews in our churches," Attorney-General A. M. Manson, of British Columbia, told the Chief Constables in convention here yesterday.

Inspector A. McKinney, Toronto, declared severe measures were necessary if the disorderly house evil were to be abolished, and he believed penalties for adultery would materially aid in effecting a cure.

Desire for easy gain had caused many good men to go wrong, as gambling was a mania which led to stealing. With the exception of bookmakers at horse races, all classes of gambling in Canada could be eliminated by a simple amendment to the criminal code—the removal of the word "intended," the speaker said.

Toronto had been permeated with gambling in connection with "racing form," an American race publication, whereby betting was made possible and the police secured convictions in the lower Courts which were reversed in the Court of Appeal because that one word "intended" was in the code, the Inspector said.

The speaker also referred to the drug evil, and made an appeal to the Convention to take a determined stand regarding necessary amendments to the code which will enable the Police Department to carry out the law.

Chief Anderson, Vancouver, referred to the baseball and football competitions which, he said, were also taking a lot of money.

A resolution was adopted asking the executive to prepare suggested amendments to the code and take the matter up with the proper authorities.

Steps should be taken to prevent entry of all persons of an undesirable nature into Canada, declared Chief Belanger, Montreal.

"If a man has been in Canada for forty years, why should he not be deported if he commits a crime? If these people understood if they do not obey our laws they can be sent back to their own country, it will result in securing a better class of immigrants," said Inspector McKinney, Toronto.

Shredded Wheat

Eat it for breakfast, for dinner, for lunch—you can't eat too much of it. Shredded Wheat contains just enough carbohydrates and proteins to sustain the human body in top-notch condition, also the mineral salts that are so necessary to life and normal growth.

Shredded Wheat Biscuit is delicious with hot or cold milk, sliced bananas, prunes or canned fruits. Triscuit is the Shredded Wheat wafer and is eaten with butter, cheese or marmalade.

Had Your Iron Today?

Let's Have Raisin Bread Tonight

HOW long since you've had delicious raisin bread—since you've tasted that incomparable flavor? Serve a loaf tonight. No need to bake it.

Just telephone your grocer or a bakery. Say you want "full-fruited bread—generously filled with luscious, seeded, Sun-Maid Raisins."

The flavor of these raisins permeates the loaf. A cake-like daintiness makes every slice a treat.

Serve it plain at dinner or as a tasty, fruited breakfast toast.

Make delicious bread pudding with left-over slices. Use it all. You need not waste a crumb.

Raisin bread is luscious, energizing, iron-food. So it's both good and good for you.

Serve it at least twice a week. Start this good habit in your home today.

But don't take any but a real, *full-fruited, genuine* raisin bread. Your dealer will supply it if you insist.

FLY THE FLAG.

It has frequently been remarked of Peterborough people that they are not flag wavers, and the accusation in the light of past experience is difficult to shake off. For some reason or other we in this city are not given to lavish displays of the national flag. Important anniversaries may come and go, famous personages may visit the city, but so far as flags are concerned, Peterborough invariably fails to arise to the occasion. Let us hope that to-morrow, Dominion Day, will see an improvement in this respect. On Canada's birthday every Canadian should be glad to do honor to the occasion, and the least that can be done is to prominently display the flag of the Empire. No flagpole in the city should be without its ensign to-morrow, and business houses should see that their flags are hung out. A multiplicity of flags should be evidence that Peterborough is a loyal Canadian city with a natural pride in the national birthday.

DOMINION DAY.

Canada celebrates her natal day to-morrow, and as a birthday gift comes the announcement that the population of the Dominion has increased by 1,581,840 in the past decade, a gain of 21.95 per cent. The total population is now 8,788,483, so that it is evident that the land of the Maple Leaf is making substantial progress and that if the world war had not stopped the stream of immigrations the increase would have been considerably greater. Canada should be in a happy mood on her national day of celebration. She has weathered the shock of the war, and the dislocation of trade and industry that was a natural aftermath of the gigantic struggle in much better condition than almost any other country in the world. It is true that there has been a depression in business and industry that has caused a large amount of unemployment, but on the whole Canadians have reason to congratulate themselves that their native land is, compared with other countries, a country of peace and plenty. Never were there better crop prospects than at present, and Canada cannot fail to benefit from the Atlantic to the Pacific as a result. The industrial depression is slowly but steadily passing. It will have gone ere long, and the wheels of industry will be turning even more briskly than of yore. The interrupted influx of immigrants will begin again, and hundreds of thousands of new citizens will help to develop the Dominion's resources and to solve our financial problems. Canadians can celebrate with happy hearts to-morrow; the outlook is of the brightest.

COST OF GOVERNMENT.

Continuing its investigation into the cost of government in the cities of Canada, the Citizens' Research Institute has issued another of its most interesting bulletins, giving much information as to increases in expenditure on the part of cities throughout the country. The Western cities show the largest additions, but the per capita increase in the East is sufficient to afford food for thought. The figures do not of themselves afford a sound foundation on which to form conclusions, for while they may suggest municipal extravagance and waste of the money of the ratepayers, a high rate of taxation may only mean that the municipal authorities have recognized the need of improvements and have not hesitated to bring them about. The Citizens' Institute refers to that anagle of the situation in its latest bulletin, declaring that the fact that in any particular year one city has per capita costs higher than another does not necessarily mean that it is being extravagantly managed. It may mean the opposite. The first city may have adopted a pay-as-you-go policy after a period of extravagance, while the second has not. One city may be installing much needed improvements, while the other may be postponing the inevitable. The first may be improving its financial position, while the second may be going behind financially.

The Institute is doing a splendid work in these inquiries, and its plea for uniformity in accounting methods on the part of Canadian cities has considerable merit. Under the present multiplicity of systems, comparisons are difficult, and the annual financial statements are liable to mislead.

A "GRATUITY" FORSOOTH.

The House of Commons on Saturday, voted a "gratuity" of $2,000 to Dr. C. E. Saunders, Dominion Cerealist, who retired from the service recently, says Advance Journal. Replying to a question Mr. Motherwell, Minister of Agriculture, said he "understood that Dr. Saunders would receive a pension of $900 per annum under the Calder Act." The only redeeming feature in the incident was ex-Premier Meighen's declaration that "if the amount of $2,000 was made an annual payment to Dr. Saunders it would be none too much."

Those who have any appreciation of the value of Dr. Saunders' work, of the importance of the people at large of his achievements, will rise from a reading of the newspaper report of the brief discussion with a feeling of personal meanness. Dr. Saunders' researches and discoveries in the matter of Marquis wheat alone would, if he had not been a civil servant, have made him a wealthy man. It has been stated, by men in a position to know, that Dr. Saunders' discoveries have already added fifty million dollars to the profits of the farmers of Western Canada. To measure the injustice, one might contrast the huge financial rewards that have been Henry Ford's with the very modest salary that has been Dr. Saunders' during his employment as a Dominion Government official.

Physically, Dr. Saunders has never been strong; he finds it necessary to retire when he would much prefer to continue the work he loves. The people of Canada through Parliament show their appreciation of exceptional loyalty and ability by offering him a pension less than the income of an unskilled laborer and a "gratuity" of $2,000! We quote the word "gratuity" because it seems in this case to be an insulting term. If Parliament gave Dr. Saunders $20,000 as back pay, it would be acting only like any ordinary employer of men of the stamp of Dr. Saunders; if it gave him $50,000, with a resolution of thanks and appreciation, it would be doing something more commensurate with the public debt to Dr. Saunders.

It is a curious fact that, on the same day, the House of Commons voted $16,500 "to provide for the payment of sessional indemnities to senators who have been absent through illness, public business, or death." Without declaring the latter item unjustified, we do assert that the services of Dr. Saunders, of which Canadians generally and Canadian farmers in particular have been the beneficiaries, and which have under-mined his health, are worthy at least of as great reward as senators who have absented themselves for one reason or another from their duties.

The gratuity to Dr. Saunders was passed on the understanding that the Minister would take up the matter of obtaining a larger pension for Dr. Saunders. It would have been more pleasing if the instructions of the House to the Minister and the Government had been less indefinite; but it is to be hoped that Mr. Motherwell and his colleagues in the Cabinet will in the future voluntarily show more interest and concern in Dr. Saunders' case than they appear to have shown in the past.

Meanwhile, the people of Canada, through Parliament, stand guilty of niggardliness in their treatment of an exceptionally valuable public official.

THE RAILWAY STRIKE.

The threatened strike of 400,000 railway shopmen in the United States is a serious thing for the people of that country, and to a considerable degree for Canadians as well. The community, whatever its views in the matter may be, cannot help but be affected by the cessation of work that will follow the walk-out of the railway shopment. The issue in the present trouble is clear. The railway employees simply refuse to accept a cut in wages, considered by the United States Railway Board as necessary in view of the general deflation in almost every other industry. Most people are of the opinion that the wages of these workers have been too high when compared with the remuneration of other industrial workers, and the claim of the men that they should not be asked to accept a lowering of wages when freight and passenger rates have been kept almost at a war level will doubtless appeal to some as reasonable. The concensus of public opinion is opposed to the strike. The majority feel that a strike in a public utility like the railways is not justified and that it should be possible to arrive at satisfactory terms if those at the head of the rail unions would appreciate the fact that the people as a whole are opposed to a railway strike, and regard the promised walkout as an attack upon them as well as upon the railways. Industrial conditions are serious enough at present without a dislocation of the transportation system, which will re-act upon workers generally, and add materially to the unemployment. Workers who know the railway men have been receiving bigger wages all along than they have will not relish being thrown out of employment because these well-paid employees refuse to come down to something near the normal level.

INJURED INNOCENCE.

When was there ever a cowardly crime committed by union strikers that Mr. Gompers has not assumed an air of injured innocence, and raised the familiar cry of "Stop thief!"? Here is his latest, intended to show that the victims of the Herrin massacre were to blame for the tragedy, in fact, almost committed suicide:

"The strike is on far too high a plane for violence to have any place in it."

And then, Mr. Gompers, President of the American Federation of Labor, went on to say that the firing first came from within the mine stockade, and not until then did the miners open fire. Cherubic innocence!

The union miners quit work at a mine near Herrin in order to compel the employer to accede to their demands. A small body of non-union men went to work there, which was perfectly lawful for them to do. A warning was sent them to get out or be run out. The head of the mine union sent a message that these men should be treated as ordinary strike-breakers, knowing that in union ethics a "scab" has no rights which others are bound to respect.

This message was circulated and union miners began hurrying towards the mine, some in automobiles and others on foot. By some coincidence they carried rifles, with belts full of cartridges. Cherubic Innocence might say they had the weapons in their hands when seized with a desire to visit the spot where some of their numbers had recently worked and hadn't time to lay them aside. Others who had no guns at once went after some. A store was compelled to deliver its stock and automobiles were sent to another place for a supply, and all the time the hegira towards the "scab" mine continued. Union men who were met on the way were told that "we are going to run the scabs out of the mine," and they too fell in line.

Arrived at the mine, at least 1,500 strong, armed with rifles, Innocence may assume that it was to pay a friendly visit to the 40 or 50 non-union men at work there. The high plane on which the strike is based proved of strategic advantage. Up the hill sides they swarmed until on a much higher plane where they could look, and shoot, down into the mine stockade. Only Innocence can be assured that the little handful of "scabs" working down below, filled with envy fired into this company of peaceful men who had come such a long distance with their rifles just to watch them working.

Hours after that the "scabs" surrendered, and then followed another of those "regrettable" incidents so familiar to every labor chief. After the hangings, beatings, drowning, barbecuings at the stake, target practice and stabbings were over with there were no prisoners. There were still some fugitives in the woods, but they furnished a fine man-hunt that continued through the next day, and made life a joy to the down-trodden union men.

Yes, the plane on which the strike is based has been established. But it is too "high" for the American people. If Mr. Gompers wants to know, it is as "high" as putridity can make it.—Wall St. Journal.

EDITORIAL NOTES AND COMMENT.

Make it a safe and sane "First."

If Dempsey is really looking for a fight he should have no trouble in being accommodated in Ireland.

The horse-play at the closing of Parliament will make many people wonder why the members consider their services are worth $4,000 a session.

As the Wall Street Journal expresses it, horse-power under a hood requires supplementing with horse-sense under a hat.

And a maiden of worth,
A maid of the wheatfields and pine;
On her cheeks there is health,
In her hands there is wealth

So great are her charms
That your Uncle Sam's arms
Keep waving the red, white and blue
But she says with a smile,

Our First Year

(Continued from yesterday).

Chapter LXXVIII

ALL OUR WOE IS TURNED TO JOY.

"We won't have to scrape along an hour!" Jack exclaimed. "Peggins! I've got a job! Better—much better—than any I've had, dear.

"I forgot to mention it—you threw those letters—and Bonny—and Barrick's money at men as soon as I came in—didn't give me a chance to tell.

"Mr. Tearle is going to open a new branch. Bart and I shall run it. I'm going to work tomorrow to learn the tricks!"

Of course we spent the next hour taking over a wonderful opportunity—we looked ahead years and years—not until after dinner did we get back to the present.

"I like this chance more because you like it Peggy. A man wants his wife to like what he's doing.

"You see, dear, I love you so. You've thought all along I wasn't jealous of Bart. Dearest, I've been furious!

"But I loved you so, little girl! So I couldn't let you see. I was willing to compromise, darling!"

"I suppose when a man loves a girl in the best way he forgets about himself," I murmured. "And I suppose when a girl forgets herself for a man they've found the greatest love ther is."

"Right there you've hit the flaw in our prenuptial contract, dear. We wanted to remain independent human beings. We took it for granted we were not to consider each other—"

"Modern stuff—the popular cult—individualism—"

"And at the end of our first year we've discovered good old-fashioned self-forgetting is the only recipe for happiness."

"There's something stronger than cults and opinions shaping human institutions," said Jack. "Instinct made them to start with. And that's why instinct sustains them.

"Instinct has built up the home and the idea of one man for one woman and the dependeuce of the woman on the man.

"We can't escape our instncts. masculine or feminine."

"I see," said I. "Common just-average jealously has its uses. It roused you and me, dear Jack. We couldn't scorn it, nor get rid of it, nor live it down."

"Peg, do you remember what we were saying lately about partnership? That in every combination of two, one was bound to rule?"

"In a partnership of two, yes! But Jack! This isn't going to be a partnership of two—next year!"

I hid my face on my husband's shoulder.

"Peggins! Peggins!" Jack whispered. "Look at me! What Tell me!"

"I mean that next year—there'll be a junior partner—added to this firm!".

"And I bet he won't arbitrate!" Jack was positive. "And I hope he'll take after his mother—"

"And be one grand little determiner! Oh, I understand you, all right, Jack darling!"

MUSIC DAY is now an annual institution at the Canadian National Exhibition. On Thursday, August 31, Canada's amateur bands will again compete for $2,950 in cash prizes, a handsome Challenge Trophy and individual awards. Every band has an equal chance of winning the right to call itself champion of Canada, as each band will be competing with bands in its own class.

Is Your Band Good Enough?

You know it is. Call a meeting to discuss ways and means. See that your Band is entered for the contest immediately. It will not only give pleasure and financial gain to the winning contestants, it will also be a source of pride to the old Home Town, and will bring it into prominence before the thousands who will be present on this day. Every member of competing bands admitted to the Exhibition free.

A PEASANT MEAL IN ROYAL PALACE.

Soviet Executive Lived in Former Czar's Home.

MOSCOW, June 30.—(Associated Press).—Three hundred members of the all-Russian Central Executive Committee, the Parliament of Russia, mostly peasants and workmen, recently had their first glimpse of the magnificent quarters in which the czars lived when in Moscow. The committee met in the Great Palace at the Kremlin, which has not been in any way deranged during the revolution, except for the placing within its great reception and ball rooms of red covered wooden tables and ordinary benches, which contrast startlingly with the glided columns, marble walls, jasper fireplaces, silk hangings and gilded and crystal chandeliers.

The throne room was used as a meeting hall. The hall of St. George in white and gold with its parquet floor of rare wood, which was once a ball room where the royalty and nobility of Russia danced when in Moscow, was a lounging room tramped over by booted peasants who lined up like soldiers when the call for dinner to be served in an adjoining room was sounded.

The committeemen were served with cabbage soup and black bread, a meat dish and tea at tables covered with royal linen, but equipped with cheap china and tin spoons. While most of the members were roughly dressed and soft shirts or blouse coats predominated, higher officials of the Soviet Government who appeared to present legislation wore stiff white collars, and some of them could even be described as "smartly" attired.

GAIETY WILL REIGN SUPREME DURING NORWOOD'S BIG REUNION

Extensive Programme For Old Home Celebration Beginning on Dominion Day and Ending Tuesday Night.

SOME OF THE EVENTS.

After months of preparation in which the whole community has worked together with keen enthusiasm inspired by sentiment and expectancy, the Norwood Reunion Association will begin on Dominion Day the unfolding of their elaborate programme for the old boys and girls who return for what promises to be the happiest and most successful old home week ever held in this district. When a similar celebration was proposed for Peterboro some saturnine critics crushed it with the deprecating epithet of "an old chestnut," and succeeded in discouraging those who were actuated by the simple desire of bringing together again for a few days the friends of years ago.

Norwood like many other towns and cities, is about to demonstrate that these re-unions have a strong appeal to those who have moved away from the old town. They have three big days of entertainment and amusement of all kinds. The curtain rises or Saturday (Dominion Day) at 1 p.m., and will be rung down on Tuesday night.

Some of the features of this reunion are as follows:

First Day—Saturday, July 1st.

Afternoon 1.00—Band will parade from corner of Peterboro and Colborne Streets to schools.

1.30 p.m.—Visit to the High and Public Schools. (It is requested that all Old Boys' and Girls' with their friends meet at the schools promptly at this hour.) The Public School bell as of yore will call every one to school. Addresses by E. P. Cuffe, Chairman Board of Education, John Davidson, M.A., L.L. B., and R. G. Lawlor, B.A. High School principals and teachers.

2.30 p.m.—Baseball Match at Exhibition Park, Havelock vs Keene.

3.30 p.m.—Athletic Sports 18 events

Evening 8.00 to 9.30—Old acquaintance Contest in Government Armouries. Pencil and paper will be provided for autographs of old friends. Largest number wins the prize.

9.30 to 9.45—Collection and judging of contest slips.

9.45—Addresses of welcome by President. Brief adresses by G. A. Brethern, M.P., E. N. McDonald, M.P.P., and members of Honorary Committee. Impromptu Speeches by Old Boys and Girls.

Second Day—Sunday, July 2nd.

Special services and music in all churches at usual hours. both morning and evening, in honor of Old Boys' and Girls' home-coming.

3 p.m.—Masonic parade from lodge room and service in Methodist Church. Visiting brethern welcomed at lodge room at 2.30 p.m

Third Day—Monday, July 3rd.

Morning, 9.00—Back to school again, assembling for merry hour at the old schools.

10.00 a.m.—Parade of First Northumberland Band from corner Peterboro and Colborne streets to Exhibition Park.

10.15—League Baseball, Warkworth vs Norwood.

Afternoon, 1.15—Band concert and parade.

1.30—Lacrosse Match, Campbellford vs Hastings.—A real game.

2.00—Big Programme of Horse Races—2.15 Class Trot or Pace—$500.00; 2.20 Class Trot or Pace—$300.00; 2.40 Class Trot or Pace—$200.00.

Evening—The Town cut loose and heads knocked out of all the red paint barrels Have all the fun you want, the sky is the limit. Reeve Montgomery will throw the keys of the town in the bottom of the pond.

8 p.m.—Garden Party and Street Carnival and boulevards and spacious residential grounds in the vicinity of the park. 'Twill be called Frolic Avenue, the home of mirth and amusement. Merriment will be rife. Join in. Music by the First Northumberland Band.

10 p.m.—Assembly in the Government Armouries Paul Gliddon's Orchestra of Peterboro. Subscription $1.50.

Fourth Day—Tuesday, July 4th

Owing to the probability of the big program of athletic sports and races not being completed on Saturday and Monday definite announcement of Tuesday's program will be made from the judges' stand on Monday afternoon and at the Garden Party and Armouries at night.

Twenty special attractions have been secured from Toronto and Montreal. A complete midway will be in full swing for the three big days, including merry-go-round and ferris wheel.

MANY PASSENGERS LEAVE FOR ENGLAND

MONTREAL, June 30. (Canadian Press.) — What is believed to be the largest list of cabin passengers ever carried from the port of Montreal by any steamer will leave for England to-day on the Canadian Pacific liner Montcalm.

Exact figures could not be ascertained to-night but the C.P.R. officials stated that she would carry over 600 cabin passengers and 300 third class passengers. The largest previous cabin passenger list was taken out June 10 by the White Star-Dominion Liner Regina, which left port with a total of 587.

Rev. R. B. Grobb of this city is among those who sail to-day.

HEAVY FIRE LOSS.

ARMSTRONG, B.C., June 30. — (Canadian Press.) — This town's third fire within a month early yesterday morning destroyed the new fire hall and a large section of China-town. Assistance in fighting the fire was rendered by the Vernon fire department. The loss may reach $50,000.

Montreal Woman Finds Health by Taking Lydia E. Pinkham's Vegetable Compound

Montreal, Quebec.—"I was a sufferer for three years, not able to do my housework. My husband was discouraged, for I was no better and had had the doctor all this time and nothing helped me. I was always sleepy, had no appetite and suffered with my left side. My mother in England recommended Lydia E. Pinkham's Vegetable Compound because it had helped my sister, so I have been taking it. I am now able to do my housework and I can not praise your medicine too highly as I have great hopes for the future. I will tell anyone who writes to me what good it has done me."—Mrs. E. Masson, St. Henry P. O., Montreal.

For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been helping women just as it helped Mrs. Masson; oftentimes after doctors and other medicines failed.

If you are suffering from disagreeable symptoms caused by some female weakness, try this splendid medicine. It is a woman's medicine for women's ailments, and can be taken in safety by any woman.

Not a Laxative

Nujol is a lubricant—not a medicine or laxative—so cannot gripe.

When you are constipated, there is not enough lubricant produced by your system to keep the food waste soft. Doctors prescribe Nujol because its action is so close to this natural lubricant. Try it today.

Nujol For Constipation

THE secret of getting well is finding the right medicine. The fact that Dr. Caldwell's Laxative Syrup Pepsin has the largest sale in the world would seem to prove that several million people find it THEIR right medicine. Miss Evelyn A. Craig of Sherbrooke, Que., once a semi-invalid, says Dr. Caldwell's Laxative Syrup turned her sickness into health.

DR. CALDWELL'S LAXATIVE SYRUP PEPSIN FOR CONSTIPATION

Use Dr. Caldwell's Laxative Syrup Pepsin for constipation, biliousness, headaches, feverishness, and to head off a cold. Unlike physics and cathartics, it acts gently and does not gripe. The formula is on the package, and a dose costs less than a cent.

HALF-OUNCE BOTTLE FREE

Few escape constipation, so even if you do not require a laxative at this moment let me send you a Half-Ounce Trial Bottle of my Laxative Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, at Front Street, Bridgeburg, Ont. Write me today.

YOUNG'S POINT SCHOOL PICNIC

The Program Included a Presentation—Personals

YOUNG'S POINT, June 30.—A very pleasant time was spent by the pupils of the local school and their friends on Tuesday afternoon on the school grounds.

It being the close of the term a picnic had been arranged and the following program of sports run off.

Little girls race—Daisy Wilson, Alice Charlton, Thelma Duggan.

Little boys race—Max Cummings, Douglas McNaughton, Ralph Charlton.

Girls under 12 years—Olive Mc Naughton, Bessie Wilson, Ettie Bullock.

Boys under 12 years—Art Cummings, David Farrow, Jack Young.

Girls over 12 years—Ethel Wilson, Edith Hockaday, Hilda Wilson.

Boys over 12 years—Rex Wilson, Manley Godfrey, Darcy Wilson.

Girls boots race—Dorothy Wilson, Bessie Wilson. Ethel Wilson.

Boys Boot race—Leslie Thomas—Rex Wilson, Ralph Charlton.

Wheelbarrow race—Hector Robinson and Rex Wilson.

Darcy Wilson and Manley Godfrey.

Girls three-legged race—Edith Hockaday and Ethel Wilson.

Married women's race—Mrs. Bruce Kidd, Mrs. Wm. Bullock.

Girls free-for-all race—Olive McNaughton, Mildred Charlton.

Boys obstacle race—Rex Wilson, Manley Godfrey, Art Cummings.

Girls obstacle race—Helen Brooks, Edith Hockaday.

A Baseball Match.

Another interesting feature was the baseball match between the girls and boys the latter winning out, after a close game.

After this the people gathered in the school where an impromptu concert was given, also a presntation to Mr. Elmer Frost, who has resigned his position as teacher.

Rev. J. L. Hughes in a few well chosen words spoke very highly of Mr Frost and of the good work he has accomplished during his three years in our midst

A Presentation.

Miss Gertie Bullock then presented him with a handsome mantel clock and a purse, while Miss Ethel Wilson read the following address:

Dear Mr. Frost—It was with feelings of deep regret that we, your scholars and friends learned of your intention to resign the position as teacher of this school.

For the past three years you have worked among us, and your efficient teaching together with the excellent results produced, have gained for the school a high standard of success.

Your vision of education has not been limited to the minimum subjects of a syllabus. you have always taken a keen interest in the freer side of education, encouraging in the pupils a love for sports, recreations and music, the annual concerts and Fall Fair standing out in prominence.

You have also endeavored to cultivate in those under your care the qualities of character which make for the development of true and loyal citizens.

In addition, you have ever been ready to enter into the life of the community in anything which would be for its betterment.

We ask you to accept these gifts of a clock and purse, in appreciation of the esteem in which you are held.

We trust that your future may be one of health and happiness, and marked with continued success.

Signed on behalf of the school.

Gertie Bullock,

Ethel Wilson.

Mr. Frost was taken completely by surprise but replied in a very pleasing manner.

Everyone then arose and sang "For He's A Jolly Good Fellow" while three hearty cheers were also given.

Ice cream and lunch was then served by the women and girls. Evening was gathering over the village by this time, so after bidding farewell to Mr. Frost everyone wended their way homeward.

Personal Mention.

Mr. and Mrs. T. Miller of Peterboro have returned to the village where they will spend the next month Mr. Miller being engaged in government duties.

Mr. W. Blewett of Peterboro was in the village on Tuesday evening.

Messrs. D. Johnson and G. Deyell of Peterboro were in the village on business Tuesday.

AT STONEY LAKE AND THE VICINITY

Mast From "Ship Island" Blown Overboard—May Restore Landmark.

JUNIPER ISLAND, Stoney Lake, June 29. — The mast from "Ship Island" went overboard in the high wtaer this spring and one looks in vain for the old landmark which guided many an inexperienced navigator. A cottager was heard to say that he would attend to the business of replacing the mast "Ship island" has been a point of interest for years since the late Mr. Hopkins, of aMsachusetts, with quaint humor, fixed it up to resemble a full rigged ship. The rigging has gone bit by bit for a good many years; now only the mast remained. Those who know and love the old landmark willl bless the man who restores it.

Unique Sign.

A sign made of pebbles improves the appearance of the shore above the dock at Kawartha Park. It is neatly done and can be seen from a considerable distance.

New Captain For St. Empress.

Capt. Robinson, for many years captain of the steamer "Empress," has gone to similar work in the Lindsay district and his place has been filled by Capt. Wm. Copperthwaite of Peterborough. Mr. Fred Holland, the popular purser for the past sixteen years, is still on the job and also Mr. Richard Oliver, the first mate.

Planking Dock.

The government steamer "Bessie Butler" is at McCracken's Landing, where new planking is being laid on the government dock.

SCHOOL BOARD HAVELOCK MET

Principal Davidson Advises That He Will Retire at End of Year Owing to Ill-Health.

HAVELOCK, June 30.—A special meeting of the School Board was held on Monday night, when all the members were present except Trustee Carter.

Miss Brewster's application for increase in salary from $1400 to $1600 was taken up and one motion of Messrs. Barlow and Forde her salary was fixed at $1500 and in event of her not accepting that amount the Secretary was instructed to advertise to fill the vacancy.

Chairman Barlow advised the Board that Miss Brown would accept the fourth book room at a salary of $1050, and on motion of Anderson and Forde the appointment was confirmed. Miss Crowe requested a change to Miss Condon's room and on motion of Messrs. Anderson and Barlow her request was granted, her salary to remain at $900.

Misses Long and Hubbel asked to be allowed to etain their present rooms and on motion of Barow and Forde, it was acceded to, their salaries to remain as at present.

The Secretary was instructed to advertise for a teacher to fill the vacancy in the third book room and on motion of Barlow and Anderson, the chairman and Trustees Roche, Anderson and Forde were appointed a committee to deal with the applications.

A communication was received from Mss Olive Hay applying for a position on the staff, but the Secretary was instructed to advise her that no vacancy existed at present in the lower rooms.

Mr. Wood advised the Board that he expected to commence operations on the roof of the school on July 3rd and on motion of Barlow and Anderson the Secretary was instructed to have trepass signs placed about the grounds while the work was in progress.

Principal Davidson advised the Board that he would have to retire at the end of the year on account of ill health and presented his resignation to take effect December 22nd next.

On motion of Roche and Forde Mr. Davidson's resignation was accepted and he was requested to stay on the staff in the event of inability to secure a competent principal, providing his health permitted. Mr. Davidson stated that his interest was just as great as ever in the work and he would be glad to comly. He was giving ample time in which to secure a capable person and he would assist in helping to secure a proper man for Havelock.

PRIZES AWARDED TO SCHOOL PUPILS

Closing Event Central Home and School Association.

The Central Home and School Association held their closing entertainment Wkdnesday in the Kindergarten, when a short musical programme was rendered, and prizes given to the pupils obtaining highest standing in each of the several class rooms, Mr, A. Mowat acted as chairman. and, in his opening remarks, spoke of the good works accomplished by the Home and School Associations of the city in helping to make the school a clearing centre of co operation between the teachers, who always tried to make the school a pleasant as well as a profitable place for the children to be in, the parents and the pupils themselves.

Mr. R. F. Downey, in making presentation of the prizes, spoke particularly of the high standard maintained by the pupils themselves, in the school, the discipline which was maintained, and the honor system which put the children on good behaviour and maintained order through their own efforts. During his fourteen years as principal, Mr. Downey said, the work of maintaining order and discipline seemed to become easier with each succeeding term.

The prizes, which were donated by the Home and School Association for highest standing in the several classes, were won as follows—Senior Fourth—Leslie Trevor. Junior Fourth—Alda Bartlett. Senior Third (a) Murray Hartley. (b) Gerald Cullen. Junior Third, (a) Lizzie McKinley. (b) Howard Doxsee. Senior Second—Hazel Grey, Junior Second, (a) Bernice Ferguson. (b) Molly Pomerantz.

Refreshments were served by the ladies of the Home and School Association, and during the evening, a pleasing musical programme was given, with vocal solos by Miss Dix and Master Kenneth McCannon, readings by Miss Vincent, a musical quartette composed a piano, violin, 'cello and flute, by Messrs. M. B, Chenhall, Martin, Fred and Harry Chenhall, and a chora number by fourteen pupils of Miss Caldwell's class.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beausejour, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

RADIO PRIMER

....CAT-WHISKER—A thin strand of wire attached to the crystal detector so as to form a light contact between the crystal and the incoming radio frequency current. It is usually a strand of copper wire coiled so as to fall lightly on the cystal.

EMBERS MALE QUARTETTE.

An excellent singing quartette coming from Los Angeles to Chautauqua this summer. The Embers Male Quartette will give two splendid concerts. They are a mature group of singers, with powerful voices, fine harmony and a well-chosen programme. They use many humorous selsections. Mr. McKenzie's Scotch numbers, given in Scoteth costume, make a decided hit, as will Mr. Rand's group of Irish songs. The base of Mr. Lintz is one of the outstanding features of this quartette. Hear them at Peterborough Chautauqua.

Reader Takes Newer Form of Iron--Feels Years Younger

"Six weeks ago I saw a special offer in the paper telling how thousands of people grow old in looks and energy long before they are really old in years. because, as examinations by physicians have shown an enormous number of people do not have enough iron in their blood. I have been taking Nuxated Iron for two weeks: the results are simply astounding. The roses have come back in my lips and cheeks, and I can conscientiously say that I feel ten years younger."

The above is a typical hypothetical case showing the results that have been achieved by a great many people since we started this "satisfaction or money back" offer on Nuxated Iron. We will make you the same guarantee. If, after taking the two week's treatment of Nuxated Iron; you do not feel and look years younger, we will promptly refund your money."

Call at once for a bottle of Nuxated Iron at Warne Drug Co., McDermid & Jury, or any other good drug store.

The Festival at Bailieboro Was A Huge Success

Grounds of Presbyterian Manse Crowded With Guests — Visitors From Far and Near.

Bailieboro, June 30. — On Thursday evening a very succesful strawbery festival was held on the manse grounds at the Presbyterian church, Centreville. Several carloads of visitors were present from Peterboro, Millbrook, Cavanville and other places as well as a large turn out from the surrounding district.

The amount taken in at the gates was over $200 besides a large fund being realized at the booth where a good business was done.

Baseball Game.

A game of baseball was played between the Cavan boys and the U. F. O. team. Until the end of the 4th inning it looked as if the teams might break even, neither side scoring any runs, but finally the U.F.O. team started to show their real playing and at the end of the seventh inning the score stood 16 to 1 in favor of the U.F.O.

Open Air Programme.

After supper a splendid open air programme was held, eRv. A. H. McConnachie officiated and told of the beautiful scenery he saw on his trip to Scotland last summer. Miss Hazel Davidson of Peterborough gave several splendid readings, each winning a hearty encore. Mr. John Smith of Peterboro rendered several vocal solos while excellent music was provided by Miss Jean and Mr. E. Eagleson, the former playing the piano and the latter the Hawaiian guitar. The programme was then brought to a close by the singing of the national anthem.

40 HOURS' DEVOTION ST. PAUL'S CHURCH IN LAKEFIELD.

LAKEFIELD, June 30. — The Forty Hours' Devotion opened in St. Paul's Church on Sunday morning with high mass, and on Sunday evening, Monday evening, and Tuesday evening there were devotional services which closed on the latter evening. These services were attended by large numbers of people. On Tuesday evening, the closing, the choir of St. Peter's Cathedral were in charge of the musical portion of the service.

On Sunday evening the special preacher was Rev. P. J. McGuire, of Peterborough, on Monday evening,

TORTURED BY KIDNEY TROUBLE

Quickly Relieved By Short Treatment With "FRUIT-A-TIVES"

MADAM LALONDE

170 CHAMPLAIN St., MONTREAL, P.Q.

"I am writing to tell you that *I owe my life to "Fruit-a-tives"*. This fruit medicine relieved me when I had given up all hope of recovering my health.

"I suffered terribly from *Kidney Trouble, Dyspepsia and Weakness*. I had these troubles for years and all the medicine I took did not do me any good.

"I read about "Fruit-a-tives" and I tried them. After I had taken a few boxes, I was entirely relieved of the Kidney Trouble, and Dyspepsia, and had gained in strength.

"I hope those who suffer with Kidney Trouble, Dyspepsia and Weakness will take "Fruit-a-tives" to recover their health".

JEANNETTE LALONDE.

50c a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Rev. J. V. McAuley, of Ennismore, was the special preacher, and on Tuesday evening Rev. P. J. Costello, of Peterborough, was the preacher. The following clergy were present, and took part in the services: Right Rev. W. J. McColl, V.G., of Peterborough; Dean Whibbs, of Lindsay; Rev. P. J. McGuire, Rev. J. V. Powers, Rev. J. J. O'Brien, Rev. P. J. Costello, Rev. C. C. Cantillon, Rev. V. J. Gillogly, all of Peterborough; Rev. J. V. McAuley, of EEnnismore; and Rev. J. J. McGuire, of Douro, and the parish priest, Rev. W. P. Meagher.

THERE IS DANGER IN WATERY BLOOD

If Not Corrected Serious Results May Follow.

In no trouble is delay or neglect more dangerous than anaemia, a poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized.

But taken in time there is a tonic medicine which increases the number of red blood corpuscles thus enabling the blood to carry the life-giving oxygen to all the tissues of the body. Dr. Williams' Pink Pills have had much success in the treatment of this stubborn trouble because of this wonderful property.

The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. Take as an example the case of Miss Mary D. Kelly, Charlottetown, P.E.I., who says:—"My blood was thin and watery, and my system very much run down. I could not do any work or walk upstairs without resting. I suffered greatly from headaches, my appetite was poor and I was also troubled with indigestion. I began taking Dr. Williams' Pink Pills and in a short time the results showed they were just the medicine I needed. I only used six boxes but am now feeling stronger and better than I have done for several years. From my personal expericice I can strongly recommend Dr. Williams' Pink Pills.

These pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for $2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

Although the month of June is drawing to a close, the subject which Evangelist Torrie has selected for Saturday evening will be, "Choosing a Wife." The meetings close on Sunday night, and have been largely attended.

Dr. O. C. Watson has quite recovered from his recent illness, and is again on duty at his Front Street office, with a lot of real new stories.

Mr. Thos. Varcoe, Mr. Kingsbury, Mrs. Varcoe, and Mrs. Geo. Oliver motored to Peterborough on Thursday, and spent the day with friends.

SOVIET RUSSIANS FIND SUPPORT IN MARSEILLES CITY.

Pressure Being Brought to Effect Some Settlement With the Reds at The Hague.

MARSEILLES, June 30.—(Associated Press).—Soviet Russia has firm supporters in Marseilles. Everyone from the dock laborers to the wealthy manufacturers wants Bolshevik Russia's trade. The petition of the Marseilles Chamber of Commerce for the re-establishment of trade with Russia produced such an impression on former Premier Briand that he went far toward bettering Russian relations. Northern France rebelled and Raymond Poincare succeeded him.

France's attitude at the Genoa Conference did not appeal to Marseilles with its idle shipping and smokeless factories, and pressure is being brought by Marseilles interests of all sorts to effect some settlement at The Hague Conference which will facilitate France's trade relations with Black Sea ports.

Marseilles is the greatest flour milling city on the Mediterranean. Before the war one-fifth of its flour mill products went to Russia. It also had a great Russian trade in soap and oil.

The population of Marseilles is so largely industrial that the Socialists are always in the majority. While the Marseilles Socialists frequently fly red flags and display sympathy for Bolshevik Russia, they are really a "faint pink" in contrast to the Russian Communists. On the occasion of the recent municipal elections in which the Socialists won their usual overwhelming victories, there were many parades in celebration of their successes. Red flags and banners demanding the release of French sailors who are still in prison for refusing to fight the Bolsheviki at Odessa, were displayed. The mutiny of the French Navy at Odessa, when it was ordered to attack Soviet forces in 1918, has always been a favorite theme with Ffench Socialists of the extreme type, who also opposed the Wrangel and Denikine movements.

To the party of American bankers who were visiting here at the time of the recent election excitement the street parades seemed very extreme. But demonstrative red flag parades are no novelty to old residents of Marseilles, who realize how largely Russia's collapse has contributed to economic depression in France's great Mediterranean port.

Marseilles has an immense foreign population engaged in shipping and industrial pursuits. Italians, Greeks and Levantines outnumber Frenchmen on the docks.

Arabs, Turks, Moroccans, Algerians and Egyptians, frequently wearing their native costumes, also contribute to the international character of Marseilles' waterfront.

Plenty of work at good wages clearly means more to this cosmopolitan crowd than political beliefs, but Bolshevik agitators have found willing listeners among the unemployed.

"Oh, Buddy boy! Look what Mother went and put into the lunch basket — a whole whopping big package of Kellogg's "WAXTITE" Corn Flakes! Buddy, I believe I can eat just about twice as much as you do— my, how I love Kellogg's "WAXTITE."

Time to stop eating heavy food!

Kellogg's WAXTITE CORN FLAKES wonderful for the whole family

Nature rebels against heavy foods in warm weather. Much illness in summer is caused by overtaxing the stomach. Change your diet—and keep snappy in mind and muscle!

Kellogg's "WAXTITE" Corn Flakes with cold milk and fresh fruit are wonderful for the hot days — for breakfast, for lunch, for supper or for "snacks." They digest without taxing the stomach and supply the nourishment the body needs.

For children, for the workers and for the aged there is no more delicious, sustaining summer food than Kellogg's "WAXTITE" Corn Flakes.

Precision plays an important part in the manufacture and assembly of the Special-Six. It is largely responsible for the dependable service that has singled out this Special-Six as an incomparable value.

Six hundred and eighty inspectors safeguard precision in the Studebaker factories. They literally inspect every part that goes into every car—and every operation on every part. Before a car is passed for delivery 9,500 inspections are made.

In the Special-Six there are 1,120 mechanical operations to the accuracy of one-thousandth of an inch, 360 to one-half-thousandth.

As to the car's performance, a brief experience will reveal its superiority far more convincingly than we could tell it.

Studebaker cars make friends quickly, because they give most for the money. And they invariably keep these friends, because of the universal satisfaction they give in fine performance, economy and service.

EGG MARKETS.

OTTAWA, June 30. —(Canadian Press.) — The general tendency of eastern market is firmer under reduced receipts and increased local demand. No changes of note in western markets.

Toronto firm, specials jobbing 38c., extras 37c., firsts 33c., seconds 28c. Receipts light, quality fairly good. Country markets firmer. Some shippers now asking 28c. f.o.b. for straight gathered.

Montreal firmer under increased local demand. Extras jobbing 35c. to 36c., firsts 33c., seconds 28c. Poultry firm, prices unchanged.

Winnipeg dealers quoting country shippers 19c. for straight receipts delivered. Receipts continue light, straight candled jobbing 25, firsts 28 to 29c., extras 34c., carton specials 36c.

CHICAGO WHEAT.

CHICAGO, June 30.— (Canadian Press.)—Predictions of bullish crop estimates to-day, black rust reports from South Dakota, and uncertainty over railroad strike talk, led to higher prices yesterday for wheat. The market closed unsettled, 3-8 to 1 1-8c. up. July $1.14 5-8 to -1.14 7-8 and September -1.15 3-4 to $1.15 7-8. Corn gained 1-8 to 3-4c.; oats lost 1-4 to 5-8c. and provisions finished at a range varying from 5c. decline to 15c. advance.

CASH GRAIN.

MONTREAL, June 30.— (Canadian Press.)— Trade in cash grain locally was again quiet yesterday. Weakness and lower prices in prospect is developing in the flour market. A much better feeling prevails in baled hay but the rolled oats market is dull. There was no new feature in the baled hay situation. The egg market shows nothing of significance. The market for potatoes is dull. There is no change of importance in the butter and cheese markets.

STERLING RATES.

MONTREAL, June 30.— (Canadian Press.) — Sterling exchange rates were quoted here yesterday: Sterling demand 4.4901. Sterling cables 4.4926.

MISS MACPHAIL RETURNS $1,400 OF INDEMNITY

But is Convinced That $2,500 is Not Enough Allowance For an M.P.

OTTAWA, June 30.— (Canadian Press.)—It was because long before she became a candidate in the last election she had denounced very strongly an increase in the sessional indemnity, that Miss Agnes MacPhail, M.P., yesterday turned over $1,440 of her sessional indemnities of $4,000 to Hon. W. S. Fielding, Minister of Finance. In effect she was returning $1,500, $60 being income tax on the amount.

"I am quite convinced that $2,500 is not enough for a man who devotes himself to serving his country," Miss MacPhail explained. "What I did object to was the time when the indemnity was increased and the circumstances."

The Food Value of Good Milk

MILK has everything needed in the diet. It is a complete mixed diet in itself. It has sugar and fat, which give energy (force) to move the body—like coal to the engine; it has mineral salts, which build up the bones and keep the body in good shape; and albumin (protein), which—like meat or white of egg—is important in making brawn and sinew. Of all the different kinds of protein to be found in food, the best is found in milk. Sugar, mineral salts, fat and protein are all necessary in a well-balanced diet. But these substances without vitamines will not nourish the body or promote growth. Milk is rich in vitamines. They are absolutely necessary for the growth and nourishment of the body. Therefore, vitamines are indispensable to everybody, but particularly to growing children and to persons recovering from illness. The easiest way to get vitamines is in milk.

The appetizing, pure, clean Pasteurized Milk from this Dairy is what you need for your family.

THE MARKETS

NEW YORK, June 30.—(Canadian Press).—Rails, Oils, Shippings and Steels were strong features at the opening of to-day's Stock Market. Short covering, based on growing convictions that further railroad labor troubles would be averted, gave impetus to a higher rate of prices. Foreign conditions remained very unsettled, however, as indicated by yet another low record for the German mark at 0265.8.

Apart from the Rails, where early gains were maintained or enhanced, prices dropped back sharply before the end of the first hour. Oils were the heaviest issues, fresh selling being mainly directed at Mexican petroleum, which re-acted more than 5 points. Pan-American Producers and Refiners, Standard Oil of New Jersey, Pacific Oil and Marland Oils were one to two points below yesterday's final quotations. Call money opened at 4½ per cent.

Speculative sentiment was more hopefully disposed in the afternoon, sustained demand for Railroad shares, many of which were one to two points higher, intimating shorts into covering in other quarters. Oil shares rebounded strongly, and a large number of Industrials and Specialties ruled from one to three points above yesterday's closing. Shipping, Equipment and Public Utility issues were conspicuously strong. American International, Pittsburgh Coal, Baldwin and American Locomotive, Studebaker, Coca Cola, American Ship and Commerce, Brooklyn Rapid Transit, Vanadium and Gulf States Steels, U.S. Alcohol and Standard Oil of California showed improvement of between two and three points.

STERLING EXCHANGE.

NEW YORK, June 30.—(Canadian Press).—Sterling exchange irregular. Demand rates, Great Britain, 4.41 3-16; Canadian dollars, 11 3-16 per cent. discount.

CHICAGO GRAIN MARKET.

CHICAGO, June 30.—(Canadian Press).—The opening of the wheat market, which varied from unchanged figures to 12 cents higher, July 114 7-8 to 115 1-8, and Sept. 116 to 116¼, was followed by a slight sag and then by substantial gains all around.

After opening 1-8 off to ¼ cent up, September 66¾ to 66 3-4, the corn market underwent a slight general decline and then rallied somewhat.

Oats started 1-8 cent lower to a like advance, September 39 to 39½, and held near to the initial range.

Provisions were dull and irregular, lard declining a little and ribs showed an advance.

TORONTO STOCK MARKET.

TORONTO, June 30.—(Canadian Press). — Strength and activity shown in Toronto Rails was the feature of an another dull morning session on the local Stock Exchange. Elsewhere, trading was very light, and in only three stocks were any fluctuations made from the opening prices. Opening unchanged at 74, Toronto Rails advanced 1¼ points and closed at the highest point of the morning. Brazilian closed unchanged at 46¼, and Barcelona 1-8 lower at 6½. Bank stocks, Government bonds and unlisted stocks were very dull.

ROSE PETALS.

Rose petals of taffeta are sprinkled all over the georgette frocks for summer. They have a very charming suggestion of summer and airiness. Needless to say, they are very inexpensive decorations for the home dressmaker.

FOR SPORT.

Velveteen coats, with or without sleeves, are very smart, particularly if they come in unusual tones of green, lavender and reds.

CLAIMS MONEY NOT CREDITED BY HIS BANKER

Division Court Case in Havelock Has Aroused Local Interest There—The Manager's Denial.

DEPOSITOR MISTAKEN

A Division Court case that has attracted public interest in Havelock was heard here on Thursday after noon by Judge Huycke. The Plaintiff is A. Coon who sued Mr. H. F. McNicholl manager of the Bank of Toronto, for $90 which he claims to have deposited on April 25th. His evidence was that he and a man named Hubble had gone in together on the purchase of a car load of hay. They both counted the money before leaving Coon's house and finding themselves one dollar short borrowed the dollar from Mrs. Coon. They then went to the bank, and, according to the evidence, deposited the money with the manager. Coon didn't have his bank book and when he retured a few days later he found that he had been credited with only $72 for that day. The evidence was that he had deposited $72 on the 22nd of April and not on the 25th the day on which he alleged he paid the $90. The bank records showed that he had deposited $87.15 on that day, but Coon declared that this $87.15 had been deposited on April 13th. His implications was that the manager hadn't credited him with the sum of $90 on April 25.

Mr. Hubble supported the plaintiff even to the detail of the denominations of the bills which had comprised the $90, which he said he had seen counted at Coon's house and handed over by Coon to Mr. McNicholl.

Says Plaintiff Confused

Mr. McNicholl and the ledger keeper and teller of the bank all swore that the deposits had been made as shown and that the records were in their original entries and in proper condition. Mr. McNcholl's explanation was that Coon had many transactions with the Bank, was often behind in his account and gave notes which, it was said he must have confused in regard to the $90 item.

Mr. McNicholl said in his evidence—"On April 22nd Coon presented three notes Earl Pollock, Jason Roe and Dafoe. I said W. H. Dafoe's mark was not witnessed. He said he could get his wife to witness it. He gave me $87 and while I was walking with him to the teller he gave me 13c. I said it didn't matter, but he said to take it as it would make even money with Dafoe's note of $27.85. I asked him if he would have the note back by three o'clock. He said he didn't know as he was busy at the car. I had given him a talking to. I said surely you can get cash, or make people borrow at the bank so as not to make his liability too high. He said he though he would telegraph not to send another car.

Coon and Hubble came in on April 25th. Coon said he wanted the bill of lading for a car. He handed me bills which I listed and counted twice. I mentioned the amount $72. He said I will show you what I have here. He handed me some notes which I looked over, and there was one I refused to take He said he could get James Ketchen to endorse it. I said he had better get him on the note and bring it back. I said "If I was to take that note you would have a little more than would pay for the car".

Mr. McNicholl recalled other details about the notes and conversation relating to them on that day.

"On May 2nd Coon came in with a deposit had as he had nearly enough to meet the draft ($207) which he had signed in front of Hubble I put through all the notes given to me an April 22.

First Mention of $90

Coon went out. He came back shortly and said he had made a deposit of $90 on April 25, which was not in his bank book. I looked in the ledger and told him he had deposited only $72 on April 25. He said he hod counted it at home where he kept a record of everything. I told him to go home and get the book. He didn't return that day.

Coon came in early the nevt morning. He showed me his own book dhich I saw was only a copy of his book. I told him he had deposited $72 on April 25 and $87.15 on the 22nd. I got out the slips to show him the dates. He would not be convinced and said all the dates must be wrong.

On May 4th he and Hubble came in. Hubble said he saw Coon count the money at the house. Coon asked me if I was going to put it in his bank book. I said—"No I would have to pay it and I was not going to pay $90 I never received". Hubble came back after he and Coon left. He said he couldn't swear as to what Coon handed me, only what he had at the house. He said he wished he had never gone into the hay business as he was money out. He paid his note for $50 which he borrowed on the 25th and told me he was going to Niagara to get a job."

Mr. V. J. McElderry appeared for the plaintiff and Mr. Joseph Wearing for the defendant. The case was argued at the Court House this morning, and Judge Huycke reserved his decision

HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast, will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up in the morning with bad taste, foul breath or have colds, indigestion, biliousness constipation, or sour acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

MILLBROOK NEWS

MILLBROOK, June 30.—Mrs. C. Larmer, of Semen, Sask., is visiting her sisters, Mrs. T. Douglas and Mrs. J. Hutchison, Cavan, and other friends, arriving from the West last week.

Miss Margaret Luxton returned on Tuesday from her school at Woodville, and is holidaying at the home of her parents, Mr. and Mrs. Thos. Luxton.

Rev. S. G. Rorke, of Cavan, returned from attending Conference at Whitby on Monday evening, and Rev. S. T. Tucker on Tuesday at noon. Both report that this was one of the best and most interesting of these annual business and devotional gatherings in connection with the churches within the bounds of the Bay of Quinte Conference.

Died—In Millbrook, on Tuesday, June 27th, J. B. McMahon, in his 79th year. The funeral will take place from the family residence, Marshal Street, on Thursday, June 29th, at 2.30 p.m. to Gardiner's Cemetery. Service at the house at 2 p.m.

GETTING BIG FISH BELOW THE LOCKS

Fishing below the Locks is better than in many years, according to the catches that have been made since the season opened. Mr. H. B. Rye remarked to The Examiner that he was surprised by the many large fish that have recently been brought in, especially 'lunge, landed above and below the boathouses. Most of the success has been farther down the river, to T.A.S. Park and in that direction. Mr. Rye incidentally pointed out that he is now beginning his eighteenth season at the Otonabee boathouses, and that in all those years there has been no drowning from any of the canoes or skiffs rented from him. "Some of the young people came home wet, but they all came home," he added. The colony of campers from the foot of Lock Street to Yankee Bonnett, with a few others down as far as Robinson's Island, appears to be bigger than ever, although the June weather hasn't been the most conducive to pleasurable camping, and some of the nights were like mid-September.

DELAY DANGEROUS TO FREE STATE FORCES.

LONDON, June 30. — (Canadian Press.) — Despatches from Dublin emphasize that if the free state government troops in Dublin had been able to capture Four Courts from the insurgents in a couple of hours after the siege began, a comparatively bloodless rebellion would probably have flickered out, but the prolonged resistance of O'Connor's forces and the growing operations of their sympathisers in other parts of the city, had an important influence in favor of the Republicans. The siege of Four Courts is remarked as being only a single phase of the civil strife and perhaps in no wise the chief one.

THE REGION OF ROMANCE

The Lake of Bays is one of the scenic gems of the Dominion of Canada, which is so richly starred with lovely lakes. It has a shoreline indented in such a manner that it affords constant delights and surprises, and is designated as "the lake of a thousand bays". On sites overlooking these bays have been erected charming cottage homes with, here and there, hotels that are in keeping with their setting of wistful waters and brooding woods. To spend a summer vacation here is to be near to Nature in her most fascinating mood. An entire season may be spent in exploring the Lake of Bays and her sister lakes, and you may choose for your excursions, according to personal desire, canoe, sailing craft, motorboat or steamer. There is also the widest choice of vacation pastimes—bathing, golfing, fishing, boating, bowling, tennis, etc. Perfumed by millions of pines invigorating breezes blow across these lakes, providing a real tonic that is "easy to take". The average altitude is about one thousand feet above sea level. The Lake of Bays is reached through Huntsville on the Grand Trunk, 148 miles north of Toronto. A handsomely illustrated booklet telling you all about this lovely district sent free on application to:—any Grand Trunk Ticket agent, or C. E. Horning, D.P.A. Toronto, Ont.

SHIP'S STOWAWAY TALKED TOO MUCH

And is Arrested in Connection With Rathenau's Assassination.

HOBOKEN, N.J., June 30.—(Canadian Press).—Max Peterson, a stowaway, said by officers of the steamer President Taft to have admitted his membership of the Ehrhardt Brigade, and to have said he "know all about" the plot that led to the recent assassination of Dr. Walter Rathenau, German Minister of Foreign Affairs, was removed from the ship by Justice Department agents when she docked at Hoboken to-day. He was taken to Ellis Island as a stowaway. The ship's officers reported they found him aboard after receiving by wireless a request from the Government at Berlin to search for escaping participants in the plot to assassinate Rathenau.

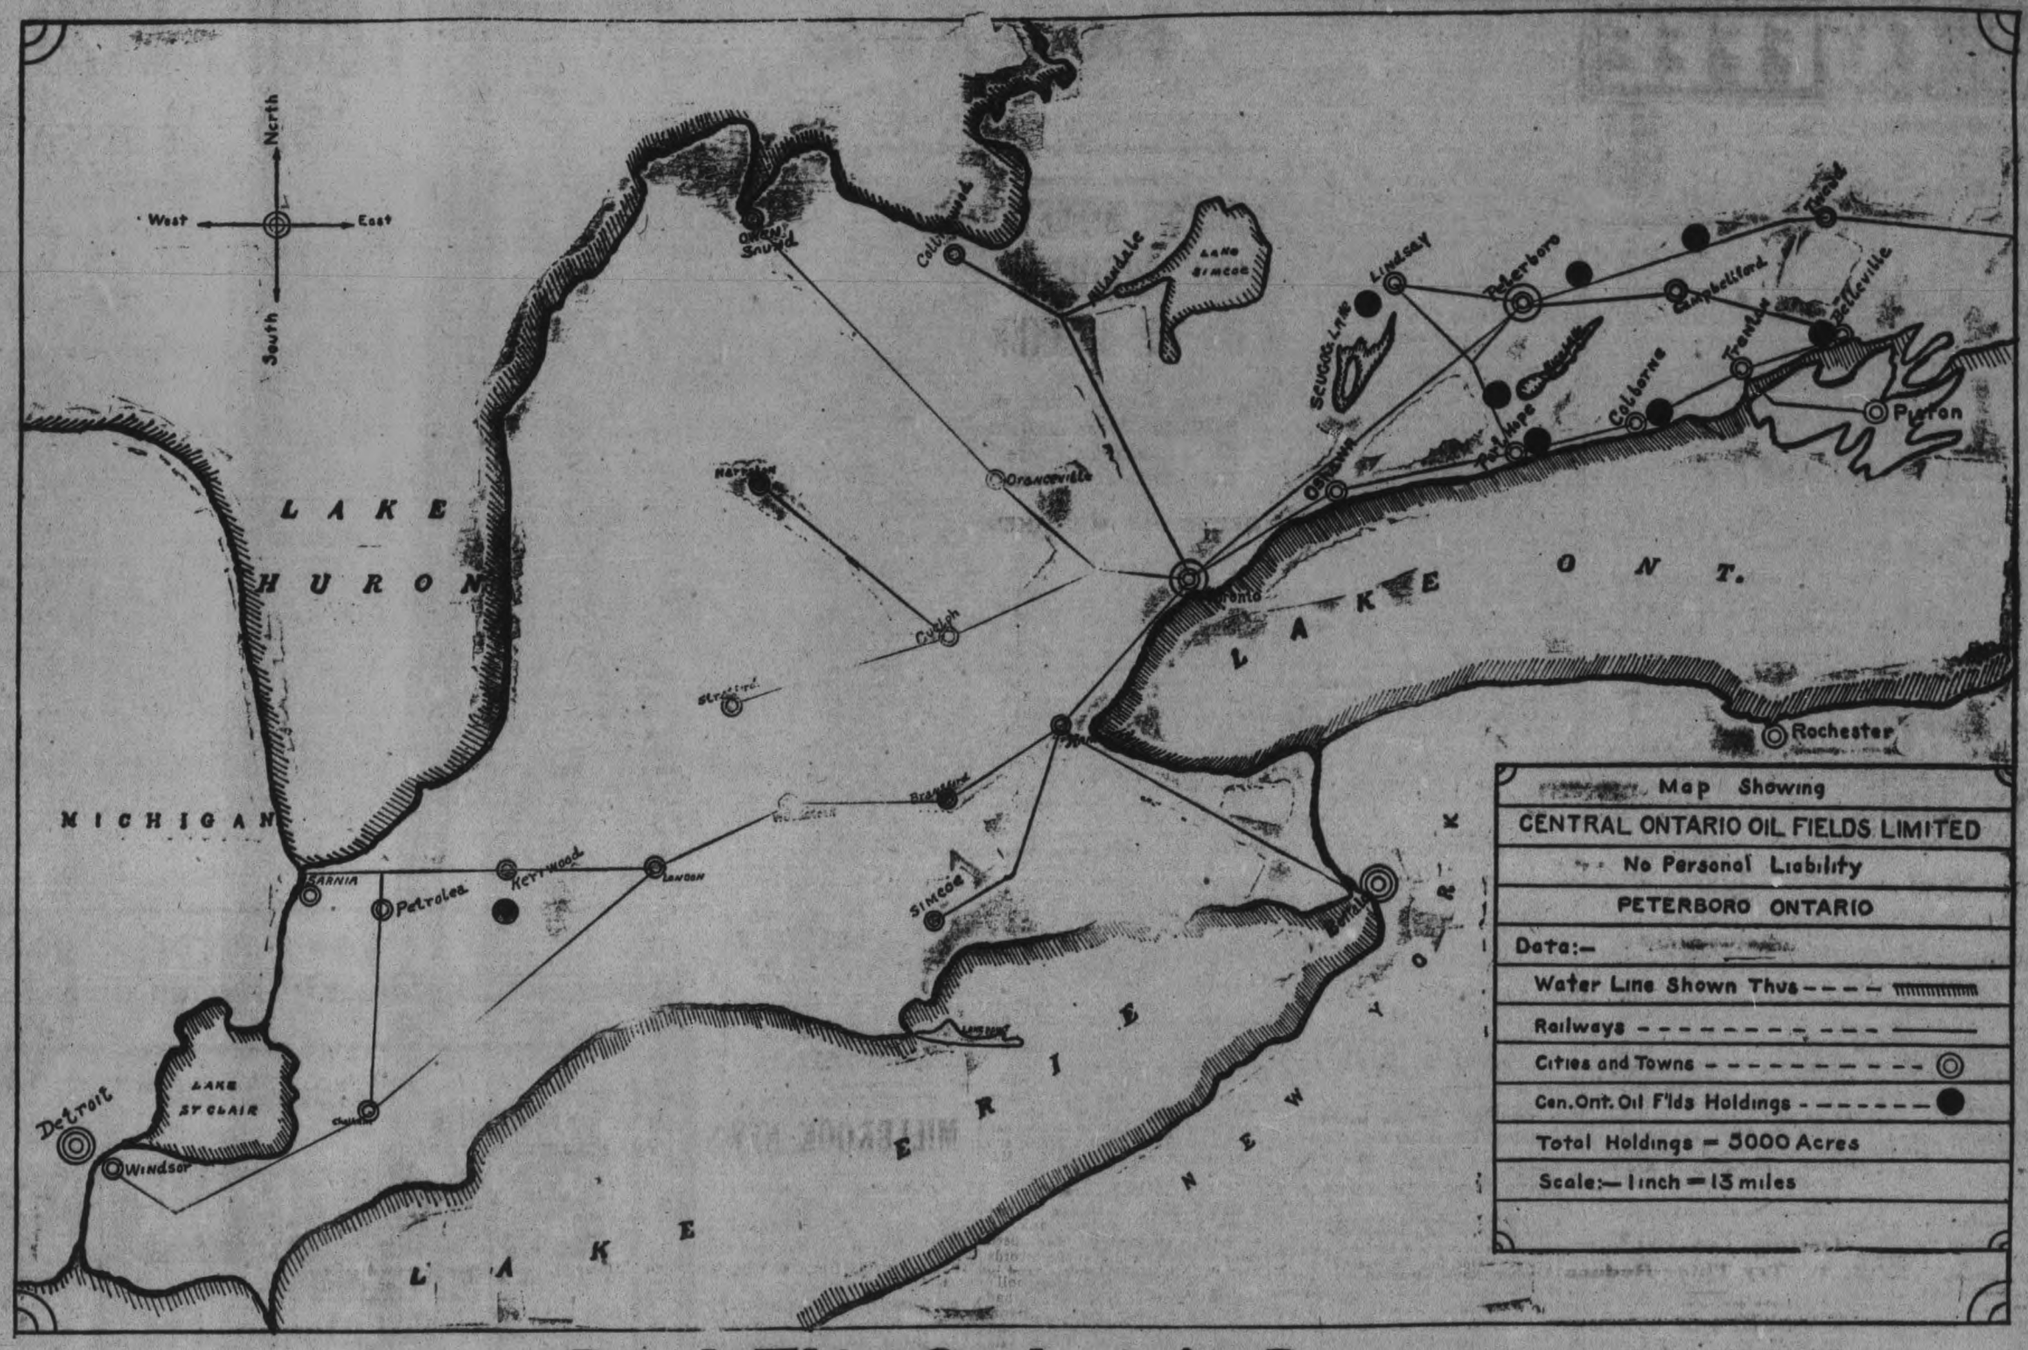
POTENTIAL MILLONS LIE ALMOST AT YOUR DOOR



Read This Geologist's Report:

"There is a tide in the affairs of men which taken at the flood leads on to Fortune." One would almost think that Shakespeare had some belief in the existence of an oil field a few miles west of the city of Peterborough when he penned the above lines, for they are so appropriate when applied in this connection.

I say west of the city of Peterborough, for the city itself is not built on oil-bearing rock. The rock in the immediate vicinity of the city has come from far down in the outer crust of the earth and is eruptive, not sedimentary in character. Eruptive rock in its natural state contains no oil, for it is non-porous, while oil-bearing rock is always porous, like a very fine sponge.

PREHISTORIC LAKE OF MARIPOSA.

At one time the city of Peterborough's present site was directly over a sedimentary rock formation which might in this present century have become a great oil field, but Nature planned otherwise. A folding of the earth's crust appears to have occurred in this very region, and while the site of the city gradually rose the land to the west and north sank until a great valley was formed directly to the north and west. Through this great valley a mighty river flowed southward, and in the well-known township of Mariposa, in the county of Victoria, the prehistoric river widened out into a lake. The bottom of this old lake, which is now perhaps more than two thousand feet below the surface of the fertile fields of Mariposa, is the natural home of a great pool of very high-grade oil. How was that bed of porous, sedimentary, oil-bearing rock formed? It is too long and interesting story, too long in truth for this pamphlet, but I shall endeavor to sketch the main outlines.

Picture for yourself that great valley west of the city of Peterborough through which flowed a deep river. There, in what is now the township of Mariposa, the river widened out into a deep placid lake. For centuries and centuries it so remained. The climate was much warmer then than it is now, and the shells of minute organisms which had accumulated through the ages in the upper stretches of the river were in the course of time carried down to the lake, where in quiet waters they sank to the bottom along with great quantities of sediment which the current of the river had thus far borne along. The shells and the great quantities of foreign substances which sank to the bottom of the lake along with the sediment tended to make the rock, which formed there much more porous than it otherwise would have been. It was in this porous rock that all the oil which flowed into this region from the far north gradually collected through the ages. Perhaps you read with surprise that the oil in Eastern Ontario came from the Far North, but it is true, and I shall dwell on that phase of the subject in a few minutes.

Where is the prehistoric lake of Mariposa today? Far beneath the surface of the earth, far beneath those level fertile fields, pleasant picturesque roads and comfortable homes. What caused the change?

THE GLACIAL AGE.

The most important agency which contributed to the filling up of the old river basin and the complete obliteration of the prehistoric lake of Mariposa was the ice which swept down through that deep valley during what is commonly known as the Glacial Period or Ice Age. It is a well-recognized fact that during that geological era immense quantities of ice from the barren fields of the Northlands bore down upon all this Province of Ontario. As the huge fields of ice, mountain-high, came southward they followed to a great extent the course of the river valleys which ran in a northerly and southerly direction. No natural barrier, however, was able to stem their southward push. Owing to the tremendous weight of those floating mountains of ice, rugged peaks of granite and other northern rocks were polished off as by the hand of a giant and the debris thus collected was carried southward. That was the begining of the end of the life history of Mariposa's prehistoric lake, for its deep basin was piled high for ages with mountains of invading ice.

SUPERIOR TO FORT NORMAN.

A change at length occurred. A lengthening summer succeeded an Arctic winter, and the ice gradually began to melt. Year after year as the climate grew warmer the invading ice fields retreated northward, but the great quantities of granite silt and debris which the glaciers had collected in their southward journey were left behind. It was partly that granite silt, that debris, which choked up the old river course west of the city of Peterborough and filled in Mariposa's prehistoric lake. Over a lake floor of limestone was thus deposited a capping of granite silt which formed into a very hard cement. Was not this an admirable reservoir for oil? The porous limestone would hold enormous quantities of petroleum, and the granite capping would hermetically seal the reservoir or pool. In other words, Mariposa has what Fort Norman has not, a perfect capping for an immense oil field. If Fort Norman had only had the proper capping for her oil she would today be quite as rich in petroleum as Mariposa.

I am quite aware that my last statement is rather startling. Did I intentionally link up the oil of Ontario with the oil of Fort Norman and the Arctic? I did, yes, and moreover with the oil of Texas and Mexico, too, for the oil of Fort Norman, the Peace River country, Petrolia, Pennsylvania, Oklahoma, Texas, Mexico and Venezuela originally came from the same enormous pool lying beneath the frigid waters of the Arctic Ocean. All the oil of North America, and of South America, too, came from that very region. Let me enlarge upon this intensely interesting part of my topic.

ARCTIC OIL RIVER.

Geologists long have known that in the remote past the Arctic Ocean was a warm tropical ocean. At noon-day the sun shone vertically over its blue waves. The Mackenzie River (on which is situated Fort Norman, and which flows northward to the Arctic Ocean) was once the Amazon of the North and tropical forests grew along its banks, while butterflies fluttered over its sluggish surface. Even the ancestors of the crocodile dozed in the sunshine on its reedy shores, and its waters abounded with much the same sort of animal life as we find along the river Nile in Africa today. The remains of the mammoth are still found scattered over these northern wastes of Siberia and America, a scientific fact which must be accepted as conclusive proof of the truth of the statement that the Arctic Ocean once lay beneath a tropical sun.

Where are the tropics, or turning points of the sun today? The Tropic of Capricorn is in the central part of South America and the Tropic of Cancer (so far as we are concerned with its geographical position) is slightly south of the southern part of the United States. If the tropics were once in the region of the North Pole it is evident that in the intervening ages they must have "migrated" southward a distance equal to that from Labrador to Vancouver Island. That is exactly what occurred, and that is the reason why the oil of the Arctic migrated southward, too. The oil, so to speak, followed the sun.

Fortunately for us, not all the oil of the Arctic Ocean which migrated southward towards the Gulf of Mexico (where there are immense fields of oil) ever reached there. From the Sea of Beaufort in that part of the Arctic Ocean which lies directly north of the mouth of the Mackenzie River, the oil of North America started southward, between the Rocky Mountains and the great Laurentian Plateau around Hudson Bay. Turn to a map of North America and see if you can mark the following oil and gas fields along its course: Fort Norman, Peace River country, Calgary, Medicine Hat. The Arctic Oil River when it reached Montana turned eastward (the map will show you why) towards Lake Superior, and in Lake Huron we have an immense reservoir of petroleum.

THE SECOND RIVER.

This is where we become even more interested, for we are getting nearer home. Will Central Ontario be favored or will it not? Two oil rivers are draining the oil reservoir of Lake Huron, and I have pleasure in stating that the larger and deeper flowed eastward, almost beneath the Kawartha Lake system to Mariposa, where it turned south. The smaller oil river, which is much nearer the surface, flowed southward from Lake Huron through the counties of Lambton, Middlesex, Kent and Elgin to Lake Erie. Perhaps you can trace its course through such well-known oil centres as Petrolia, Kerwood, Glencoe and Chatham. As this oil river was near the surface its presence was discovered more than half a century ago, while the main Arctic Oil River, which took a deeper course eastward towards the Kawarthas, lies hidden in the earth. Mariposa and many ANOTHER ONTARIO TOWNSHIP lies on the direct course of that great Arctic Oil River. For reasons which I shall explain elsewhere it would not be profitable to drill for oil at any point on this subterranean river's course. Profitable drilling can only be done by interested oil companies in those places where the ARCTIC OIL RIVER has widened out into a lake, and then it must be borne in mind that those subterranean lakes of oil have islands of non-porous rock much the same as surface lakes have islands of very hard igneous rock. It would be disastrous to drill into the very centre of an OIL lake island, for the result would undoubtedly be a "dry-hole."

NEARBY STRIKES OF OIL.

I hope I have said enough about Ontario's Arctic Oil River and Mariposa Prehistoric Lake to interest the most casual reader of this article. Before I close, however, I desire to say a few words about the gas-mains of Eastern and Western Ontario. From every great reservoir of oil there are great natural fissures or "mains" extending out in a hundred directions and forming a very net-work over the whole surrounding country for many miles. It is true with regard to the great reservoir of oil under Lake Huron; it is equally true with regard to the great oil pool in the limestone bottom of Mariposa's old lake, and Lake Ontario, for Lake Ontario has a large oil field beneath it, too. At places as widely separated as Indian River, Rice Lake, Port Hope, Colborne and Belleville these gas and oil-mains have been discovered by my colleagues when engaged in field operations, thus proving the truth of my contention. I have great hopes that the gas from these natural gas-mains when tapped will provide fuel for that part of our Province lying between the St. Lawrence River and Sault Ste. Marie. The oil industry in Ontario, as elsewhere in the other Provinces of Canada and the States of America, is in its infancy, and time alone will unfold the richness of Nature's lavish gift to man.

To the investor in oil stocks, however, I would say "Beware," for many will come to your door seeking your hard-earned gold and claiming that their fields are located on the Arctic Oil River when in reality they are located over the most barren and most highly "electrified" rock in the world.

Not so, however, with The Central Ontario Oil Fields, Limited, of Peterborough, for whom I am writing this article. The President of that company has promised me that no drilling operations will be carried on in districts which my colleagues and I state to be "dry" areas, and I have every reason to believe that this policy will be strictly adhered to by them.

In closing, I desire to emphasize the fact that CANADA IS THE HOME OF THE OIL OF NORTH AMERICA, and that the Province of Ontario is dotted with subterranean oil lakes, each capable of producing hundreds of thousands of barrels of the finest Canadian high-grade oil. Moreover, The Central Ontario Oil Fields, Limited, of Peterborough is the only oil company which is in possession of the necessary scientific knowledge to enable them to establish in Ontario an oil industry which will rival in production the richest northern fields of any northern country in the world.

ALL SET FOR BIG BATTLE

Derry and Heckman Will Be Opposing Pitchers in To-Morrow's Clash at Riverside.

TWO GREAT GAMES.

Indications all point to the fact that when at 10.15 o'clock tomorrow morning, Al Heckman slants the first strike over on Thompson, Cobourg's fast fielding short stop and lead-off man there will be a record crowd at Riverside Park. Fans from all over the Central League circuit will flock into Peterboro to see this clash which has such an important bearing upon the League standing. Cobourg out in front have to win to stay there, while the Petes up in the first division and still in the race for the first section honors need the visitors to keep in the competition. Cobourg will start Derry their pitching mainstay, while Heckman, hailed by Peterboro fans as the best pitcher in the Central circuit will be on the firing line for the Solomon crew. With the two crack twirlers opposing each other and everything at stake on the outcome, the battle promises to be one of the most exciting fixtures ever staged at Riverside Park. Jack Rosevear of Port Hope and Dick Butler of Lindsay are billed to officiate, and the game will get away sharp at 10.15 o'clock.

Cobourg will have a big crowd of rooters with them. and fans are coming from everywhere. Even Port Hope enthusiasts with a big day at home are planning to see the battle and chase back to Port Hope for the afternoon's doings.

In the afternoon at 3.15 o'clock the crack St. Andrew's team, leaders of the Toronto Senior League will meet the Central League team at Riverside Park in what should be a rattling fine exhibition of senior ball.

WOOLLENS LOSE TO THE QUAKERS

Fast Game at the King Edward Park in Semi-Final Round For the Charity Cup.

Woolens and Quaker Oats met in the semi-final round of the Phelan Charity Cup at King Edward Park and after a hard fought game the Quakers won 2 to 1.

Quaker Oats kicked off facing a stiff breeze and were immediately on the defence, Woollens forcing a couple of covers in as many minutes. Their attack was broken up and in Quakers Oats' first crossing of midfield Foster broke away on the left wing and gave a hard high shot to Williams in the Woolens goal. The goalie had some difficulty in holding the ball and was bundled through by G. Logan for the first score. Woollens kept at it and a cross from Downs' was headed through by R. Willshaw. In attempting to clear shortly before half time Woollens got a score. A long shot from Clark was misjudged by Williams the ball falling on the goal line and rebounding into play.

In the second half Quakers played a grand game every man doing well and palying a paying game by keeping the ball swinging. A corner taken by Young was placed right in the goal mouth and in a scrimmage Russel breasted through the winning goal. Woollen defence were having an anxious time against a team playing with lots of confidence and several times were lucky in not going further behind. Near the close Williams brought off a one handed save at the foot of the post.

Teams: Quaker Oats—Griffin, J. Willshaw, R. Willshaw, G. Logan, Clark, Hepburn, Young, Russell, G. Logan. Croft and Foster.

Woollens—Williams, Read Cridland, Kippax, Hillman, Rappe, Gaskell, Shuttle, Chambers, Roberts, and Downes.

ST. ANDREW'S STRONG OUTFIT

Conant and Stringer Are Among the Stars of the Toronto Team Which Plays Here To-Morrow.

AFTERNOON GAME.

The St. Andrew's team, leaders of the Toronto Senior League who meet the Petes at Riverside Park tomorrow afternoon at 3.15 o'clock are one of the strongest outfits in Toronto, and the Petes will have to be at their best to hold the visitors in check. They are challengers for the S.P.A. cup now held by Oslers and will undoubtedly take a lot of beating. With St. Andrew's coming in the afternoon and Cobourg here in the morning there will be plenty of baseball for local fans to-morrow.

Here is some dope on the St. Andrew's team:

H. Brookes (Bunny) catcher—Second year with St. Andrew's and rated as one of the best hitters and fielder of the league and possesses a good arm.

Harry Side, catcher—Captain of last year's Bellwoods. Left hand hitter and good receiver.

James Orr, pitcher—Known as the Carl Mays of amateur ball, his record this year stands out, not having lost a game.

G. Hardman, pitcher—Second year with team, left hand pitcher and very effective when going right. Is used in outfield when not pitching on account of his hitting ability.

W. Doyle, first base — Left hand first baseman and ranks with the best in Toronto, being a good fielder and hitter.

S. Simpson (Pee-Wee) second base—Premier second baseman in Toronto, being one of the finest fielders, and brainiest players in the game. Has played for St. Andrew's since breaking into senior ranks.

Walter Stringer (Rip) short stop—Veteran of the team, having played on more championship teams than any other player in the City of Toronto.

Alf. Potts. third base—This is Potts' first year with the St. Andrew's. Is considered one of the best third-sackers in Toronto. Hits and throws right-handed.

S. Weyms, left fielder—The Kilties made a ten-strike when they landed this boy, as he is recognized to be the fastest man playing ball in Toronto.

S. Hueston, outfielder—Recognized to be one of the best ground coverers in amateur ranks. Hits and throws right hand.

G. Cameron, outfielder—Has been with club six years. Hits and thows right handed and pulls off Nick Altrock's comedy stunts on the coaching line.

Saul Simon, outfielder—First year with club, has played ball in Western Canada. Hits and throws right handed, and is useful man, being able to play any position in the infield.

Fred Barker (Sailor) manager, pitcher—Has been with this club for ten years, being one of the men instrumental in putting the club in the position it occupies today. Through his long conection with amateur ball and experience he has been able to bring to the front some of the amateur stars of Toronto. Has plenty of speed and good control. Hits and throws right handed. Played overseas on the all-star Canadian team against the American's at Pershing Stadium, Paris France.

Fred Conant, outfielder, captain—The most versatile ball player in the amateur ranks of Toronto today. being able to fill any position. Learned the game in Chicago and frequently catches or pitches when needed.

All Women Will Be Pugs

MISS JEANNE LA MAR.

(By Bob Dorman)

NEW YORK. Junet 30.—"Some day all the women will be fighters and not afraid to admit it, and then the world will be much better."

Rather a revolutionary doctrine, but that is the opinion held by Miss Jeanne La Mar, French flyweigth boxer, and feartherweight champion, now in this country seeking matches.

She's not like the mental picture that you would draw of her.

Twenty-six years old, she's just a slip of a thing, five feet tall with dark bobbed hair and wistful brown eyes.

You would look in amazement at those dainty hands when she told you that she had eight knockouts to her credit in her climb to the European championship.

"Why shouldn't a woman be a fighter?" she said.

"Men are fighters, and aren't women the mothers of men. and don't men take the character of the mother?

"The fighting spirit is born in every woman. It's part of her nature.

"Men have suppressed it in her, but once in a while it breaks out and then the world sits up and wonders.

"I think that every woman ought to take up boxing.

"It should be made a part of the regular physical exercises in every high school.

"Boxing develops character, quickness and intelligence.

"It is especially good for a woman because it makes her strong and self-reliant."

Asked if she thought mastery of boxing on the part of a wife would be a guarantee of domestic happiness, she answered:

"That is a personal matter. But do you imagine a man's respect for his dear little wife would diminsh any if he knew that she carried the makings of a black eye n her little fist?"

Football

Comrades and Owls will meet at King Edward Park in the second semi-final game of the Phelan Charity Cup.

Comrades line up will be: Fenner, Anderson, Hill, Jackson, Hogarth, Sayers, Hansen, Brown, Shaw, McDougall and Mallinson. Reserves are Dingwall, Ward and Craig.

The following team will represent Owls: W. Jones. H. Frost. R. Ralston, H. Burrows Hotston Edwards, A Burgess, Hutton, H Turner, E. Hardie. E. Hotston. Reserves Roberts, Willis and Howe

C.G.E and Lindsay play at the Holy Name Society Field Day at the Exhibition Grounds tomorrow Kick off at 3 p.m. A McKinley will referee.

GIRL BALL PLAYERS WILL HOLD MEETING.

A meeting of the Girls' Baseball Association will be held this evening at the Y.W.C.A. for the purpose of getting the names and entries of all clubs wishing to compete in the next League games. Representatives are invited from following teams: Colonial Weaving, Bonner-Worth, Quakers, C.G.E., De Laval. Westclox, City Hall, Richard Hall, Cressmans, Woolworth, Barries, Y.W.CA. and any other teams who wish to join.

Lacrosse

The following games remain in the schedule of the local group O.A.L.A. games:—

July 5—Hastings at Havelock; Peterboro at Marmora.
July 12—Havelock at Hastings.
July 13.—Marmora at Peterboro.
July 20—Peterboro at Hastings; Havelock at Marmora.

Both the Havelock-Hastings games are important. Their result will bear heavily upon the final result in this district.

Walter Smaill is endeavoring to organize a local midget group and has been promised teams from the Strathconas, Riversides and Crescents.

If his efforts succeed the games will be played on Tuesdays and Thursdays.

There is a proposal mooted for a game between the juniors and a team of old timers. Nothing definite has been arranged yet, but if the men who played the game in days of yore will turn out for an exhibition match it should have the effect of helping the youngsters in their methods.

The Junior O.A.L.A. team has not devoted enough time and attention to the fast passing game which Campbellford's great performers developed to a science last year

It applies particularly to the work on the home and may be well illustrated by one of the fudamentals of baseball. When Swanston is throwing to second base to catch a runner going down from first he pegs the ball on a line for the bag or a little to the side of the bag toward first base. The second baseman is probably ten or fifteen feet away when the play starts, but on the start of the throw he runs toward second and catches the ball. usually for as perfect a play as if he had been standing on the bag when Swanston delivered it. Every school boy knows that the runner would generally steal the base if the throw went to the second base man when he was standing down the line. By the time he caught the ball in that position the runner would be breezing past him.

The juniors learning lacrosse have depended to much on taking their passes standing still instead of being in motion and reaching for or getting in front of passes that have been shot toward positons in which he can reach while on the run. This is one method of getting inside the defense, but of course it should not be attempted until it had been thoroughly practiced. Lloyd Hart of the Campbellford team together with Jim Kerr, Abe Jacobs, Jack Nesbitt and other men of their firing line made this a spectacular stunt last year. Most of their tries went wide, but they got quite a number of goals by this method which when excuted perefectly and finished off with a goal is one of the bright lights of lacrosse.

This play may be recommended to the junior home players Johnston, Ranger, Killoran, Miller, O'Toole and Porteous. In their games this season they have attempted it a few times probably because they have not been practicing together enough to become confident in putting it over.

DEMPSEY ACCEPTS WILLS' CHALLENGE.

No Date Set For Meeting of Champion and Big Negro Contender.

NEW YORK, June 30 (Canadian Press). — First steps in negotiations which, it is believed, eventually will bring Jack Dempsey and Harry Wills, negro pugilist, into the ring for a titular match for the heavyweight crown, were taken yesterday when Dempsey formally accepted Wills' challenge.

This acceptance was announced by the New York State Boxing Commission. This body officially acknowledged receipt of the challenge and deposit of $2,500, and later issued a proclamation stating that unless Dempsey, before 10th July, accepted under reasonable conditions, his title would be declared forfeited as far as New York State boring territory was involved.

No date for a conference was mentioned in the statement issued by the Boxing Commission, but it is understood the managers of the two heavyweights will meet and arrange the necessary preliminary details within the next week or ten days.

Manager Mullins, speaking for Wills, said that he desired a bout before fall, but such appeared improbable. Tex Rickard, the promoter from whom it is understood both heavyweights expect an offer, stated emphatically that he would not be interested in a contest before next summer.

Dempsey has stated that he required several building-up matches before he is ready to risk his title against such a formidable contender as the "Black Panther." He is understood to be considering matches with Bill Brennan, Jess Willard, and Harry Greb, and while not all these contests would be of championship calibre, they would lead, in training and combat, to preparation for a clash with Wills.

So far as is known, the negro heavyweight has no prospective matches in sight at present.

CARNIVAL OF RUNS AND ERRORS

C. G. E. Proved Best Marathoner in Loose Game With Raybestos.

The C. C. E. and Raybestos City League teams ran around the bases so often in their League game at Riverside Park last night that Groundskeeper George East has doubtless been kept busy all day repairing the runways for to-morrow's battle. The C.G.E. crew proved the best Marathoners, outscoring the Raybestos outfit by 16 runs to 9, which is pretty tall scoring for a 7 innings affair. The infielders on both teams were neevr lonesome for they generally had visitors on their bases even if they did not linger very long.

Runs were nothing in this engagement. C. G. E. started off with two and the Brake Liners came right back with five in their half of the first. The Electricians tucked on 6 more in the second, leading by 8 to 5. Neither team scored in the third, but in the fourth the C.G.E. bagged one and the Raybestos three leaving the score 9 to 8 in favor of the Electricians. Lefty McElroy had been twirling for the leaders up to that stage but he was derricked in favor of Chris McCarney, whereupon the Raybestos crew proceeded to tie the score in the fifth by scoring a run off the relief pitcher. McCarney held his opponents scoreless for the ballance of the game while the Electricians scored three in the sixth, and added a needless quartette in the seventh. Wolfe went the route for the Raybestos team.

It was a weird exhibition of baseball, both teams contributing a flock of errors and dumb plays.

ST. JOHN TO HAVE BIG WINTER MEET.

International Skating Races Will Be Held in Maritime City.

SARANAC LAKE, N.Y., June 30. —(Canadian Press)—According to the present plans of the International Skating Union, which were discussed at the recent Chicago meeting. St. John, N.B., will receive the sanction for the international races this winter. The United States national events will probably be awarded to Chicago.

The sections were approved by the majority of officials at Chicago and final decision on the awards will be made at the meeting of the I.S.U. in Montreal in November.

Eastern United States and particularly the Adirondacks will not receive sanction for any big meets this winter, officials reported on their return from Chicago. This action, they said, follows the ice skating controversy between the East and the West brought about by the mid-summer protest of Lake Placid officials against a decision given last winter.

GOLF SEMI-FINALS.

KANSAS CITY, Mo., June 30 (Canadian Press). — "Chick" Evans of Chicago, George Von Elm, of Salt Lake City, Clarence Wolff, of St. Louis, and Fred Wright, of Los Angeles, will fight it out to-day in the semi-final rounds of the Western Amateur Golf Tournament on the Hillcrest course, as a result of their victories to-day.

MUST RUN IN ALL EVENTS ENTERED.

BOSTON, June 30.—(Canadian Press)—Track athletes must compete in every event and in every meet in which they enter or else face suspension proceedings, the Registration Committee of the New England A.A.A.U. has ruled. In Independence Day, meets a year ago many athletes entered three of four events in each of many New England meets and did not compete in more than two or three events.

Complaints from the managers of several meets led to the Committee's ruling, Frank Facey, of the Committee, said today.

THE NEW NORTH

A Sportsman's Paradise.

To men who spend their vacation fishing, hunting or canoeing, Canada is first among the countries of the world for the opportunities it affords for indulgence in either of these inviting, invigorating and exciting pastimes.

But there is one part of the Dominion which is particularly inviting to the sporting fisherman, the big game hunter, or the canoeist. It is what is aptly termed Canada's "New North", reached via Cochrane, and comprehends that vast stretch of virgin country contigious to the Canadian National Railways, Transcontinental Division extending across the upper part of the provinces of Ontario and Quebec for a distance of over a thousand miles, with Hudson Bay as its northern limit. To quote a traveller who knows it well: "It is a virgin country just as God made it."

To the sportsman this northern country is a veritable paradise. With in its vast forests there roam at will nearly all species of big game common to the North American continent. Of the big and burly moose it is the home. Red deer have a wide range and in some section are numerous, while caribou are to be had by the hunter who seeks them in their feeding ground. In several districts bear are to be found, while the smaller fur-bearing animals are common to a wide range of territory.

Disciples of Izaak Walton will find in the numerous rivers and lakes all that the most ardent of them can desire, both in regard to extent and variety of fish which abound in their waters. Lake, or grey trout, ranging in weight from six to twenty pounds, are common to several of the lakes. Waters in which speckled trout abound are easily accessible, although, naturally, the more remote the districts the better the sport. In some of the rivers and streams are to be caught speckled brook trout (known also as the square tail trout weighing from five to seven pounds. Good bass fishing is to be had in certain parts, and particularly in northwestern Quebec. One specie of fish which is common to some of the older parts of Canada not found in this far-northern country is the maskinonge. But in some of the waters flowing into James Bay are to be caught sturgeon, sportsmen having landed fish of this species ranging in weight all the way from twenty to two hundred pounds. In the waters contigious to Hudson Bay excellent salmon fishing is occasionally experienced. Pick and pickerel are common to the waters of this northern wild.

To the canoeist who seeks adventure in territory beyond the fringe of civilization the waters of the northern parts of Quebec and Ontario afford ideal facilities. Rivers, many of them mighty streams which for generations have served as highways to adventurers, fur-traders and trappers bound to and from Hudson Bay, are almost beyond compute in number, the country being grid-ironed by them. Wonderfully interesting canoe trips, either extended or limited, are available. Take for example the six routes to Moose Factory, all of which find their way into Moose River about 30 miles south of Moose Factory on James Bay.

Until recent years this great new north was impossible to those who had but a few weeks' vacation at their disposal. It could not be reached during an ordinary vacation term. Now, over the lines of the Canadian National Railways, the sporting fisherman, the hunter, the canoeist and holiday seekers in general can, occupying en route modernly appointed steel-constructed trains, reach points in this "Happy Hunting Ground" in the course of a twenty-four-hour journey from such centres as Toronto and Montreal and from New York, Chicago and Boston in approximately thirty-six hours.

And there is an interesting little booklet "Where to Hunt, Fish and Paddle in the New North" obtainable from any office of the Canadian National Railways, which enables the holiday seeker to select his camping ground in this primeval paradise.

A number of sectional maps covering the sporting territory from west of Lake Nipigon to Western Quebec, in which are shown canoe routes and trails, will prove invaluable to the sportsmen visiting the territory.

The Booklet also furnishes information regarding guides, outfit and other necessary details.

GEORGE MELFORD PRODUCES "THE WOMAN WHO WALKED ALONE"

In next week's picture at the Capitol, Dorothy Dalton will be seen in two completely different sorts of roles—in the first part of the picture, she is a member of British aristrocracy, a part which calls for the kind of acting the beautiful star excels in; no one knows better than she does how to wear lovely clothes and appear to advantage as a haughty, proud member of the most exclusive society in the world. Later on, when life has drawn her into the whirlpools of emotion and things grow rather uncomfortable in England, the scene changes to South Africa and as the "Woman Who Walked Alone" proud, fearless and unaproachable, Dorothy Dalton brings back visions of her earlier triumphs in tales of the border and up in the Alaskan snows. She can ride, dance, flirt and make love tenderly as a Spanish senorita, only to defy openly the next minute, the police force and any one else who might dare to offend her or trespass on her rights.

Many conjectures are heard as to the nature of the picture—a great many people read Mr. Colton's clever short story but somehow or other they do not connect the picture with "The Cat That Walked Alone." Mr. George Melford produces motion pictures which are famous for the excellence of detail that characterises all his work, and which has resulted in some of the best releases made recently. He produced, "The Sheik" which is a record picture for many reasons—it may never be surpassed and people are constantly comparing other pictures with it. Besides this picture, Mr. Melford is responsible for "Behold My Wife." "Moran of the Lady Letty." "The Jucklins" and now comes "The Woman Who Walked Alone"—from from English scenes to pictures taken out under the burning African sun, the local atmosphere is most striking, and no discrepancies occurr to mar the story for those who may be familiar with either England or Africa.

In the cast besides Miss Dalton are some very good actors—among them Milton Sills, the leading man who plays the role of hero in straight forward, manly fashion; he is a very capable actor and has had much experience playing opposite some of the best liked women in pictures—he was in "At the End of the World" with Betty Compson, in "Behold My Wife" and with Gloria Swanson in "The Gerat Moment."

AT THE CAPITOL.

Enid Bennett, the dainty little film star, has a rollicking vehicle at the Capitol Theatre this week end, in "Keeping Up With Lizzie." As Lizzie Henshaw, belle of Pointview, a small country town, she keeps things moving in great shape in her own immediate neighborhood. Sent to a fashionable school by her ambitious father, one of the town's leading grocers, she imbibes extravagant ideas. After a tour of Europe, she returns home to set the community by the ears with her excessive spending and mode of living. Her old sweetheart, Dan Pettigrew, is obliged to play second fiddle to the Count whom Lizzie has imported from abroad, and who looks for money with his bride. Lizzie's father by this time is nearly bankrupt, but manages to scrape up $10,000 to buy a titled son-in-law, and Lizzie's wedding is interrupted only at the minister's house, where the Count suffers a change of heart with regard to matrimony and gets away with the money. A good deal of quick action on the part of Dan rescues the cash finally, and wins him the temperamental Lizzie, who has had quite enough by this time of high-life complications.

A distinct novelty in the vaudeville line is the attraction in the harmony, singing and dancing act of the three Yaquis Indians: Princess Eyes, Prince Aquilla and the "big chief" White Bear. The trio, arrayed in full panoply of blankets, mocassins, beaded draperies, with the chief's feathered war bonnet dominating his massive frame, go through a series of eccentric steps and vocal numbers, in solo, duet and trio, that received general applause last evening. White Bear gives a dramatic rendering of a plea for the Indian race, in splendid effect. Their final number is a weird "Indian jazz" song and dance with tom-toms that brings down the house.

A Christie comedy, "Exit Quietly," featuring Bobby Vernon, and the usual excellent short reels, complete the programme.

AT THE ROYAL.

SCORE A NEW SUCCESS FOR SHIRLEY MASON

A very positive success was scored last night, at the Royal Theatre, by Shirley Mason, who opened an engagement in the Fox picture, "The Ragged Heiress"—a picture embodying a story as dainty as the star herself. It is a story of sweet girlhood made the victim of circumstances originating in a father's conviction of crime and progressing toward drudgery as a maid of all work—though rightfully the possessor of independent means. All is righted eventually, of course, and to the accompaniment of a very delightful romance of the heart; but meanwhile there is much of pathos and not a litle of humor in the development of the story.

The star role is one in which Miss Mason revels, and belongs in the category in which she has achieved her most pronounced success under the Fox banner. To a personality of great charm this actress unites a talent that never fails to win for her new admirers with each succeeding photoplay.

Her support includes John Harron as leading man, Edwin Stevens, Cecil Van Auker, Claire Mac Dowell and Aggie Herring.

AT THE REGENT.

CHANGE FROM SUB-DEB TO MATRON ROLE

May Allison in "Big Game" Interprets More Mature Type of Woman.

"One never does anything so well, but that it could be done better," is a saying that might be attributed to May Allison, whose latest picture, "Big Game," is now showing at the Regent Theatre. The popular young Metro star has forsaken the dashing, vivacious type of comedienne roles which she has recently portrayed on the screen, and has taken up the more serious parts of the young matron.

'I always have said that I would never play in a picture that called for me to enact the part of a married woman," said Miss Allison. "I have held out for the young girl type, the fun-loving American girl personification, in all my recent pictures, as I believed that was the part I was most suited to enact.

"I am no believer in signs, but my last picture, 'Big Game,' calls for me to play the part of a young matron. So I suppose I am making my debut as the young married woman, and my screen fan friends will see a more dignified me than they have been accustomed to."

"Big Game" is a Metro special production adapted from the New York stage success of Willard Robertson and Kilbourn Gordon. Dallas Fitzgerald directed and Jackson Rose photographed. Edward T. Lowe, Jr., made the scenario, and the art direction was done by Sidney Ullman.

May Allison's supporting cast includes Forrest Stanley, Edward Cecil, Zeffie Tillbury, William Elmer, and Sidney D'Albrook.

Voice of the People

Peterborough, Ont., June 30, 1922.

To the Edior of The Examiner,—

Dear Sir,—I was much surprised to read on the front page of your issue of last night a long article headed "Police officer badly mawled" in which a mountain has been made of a mole hill, and a very unfair and one sided version of the occurrence in question has been given.

P. C. Bromley was not badly mawled or was he mawled in any way by any members of my family. Furthermore your statement that Frank Schwerdt became violent is absolutey untrue. There was no battle stiged and no member of my family was detained in the Police Station during the night. My son Frank Schwerdt did not have his hand injured in alleged melee. He had his hand injured in a mowing machine two days previous on the farm, where he had been working. In endeavouring to explain to the Constable that none of my family had been conducting themselves in a disorderly manner, and that none of them had been playing ball on the street P. C. Bromley used a lot of violent as well as vile language both to my son Frank and to the other members of my family including my wife whom he addressed by a name which is unutterable. The bad language that was used on this occasion was used by P. C. Bromley. He became so violent that he struck my son Frank on the injured hand causing the wound to reopen and causing it to bleed rather profusely.

In addition the officer was so rough in his conduct that he tore the clothing both of myself and of my son Frank.

I have been a resident of the city of Peterborough, for sixteen years and I consider the action of the Police in arresting myself and detaining the other members of my family an outrage. We were detained at the Police Station until such time as my Solicitor, Mr O'Brien, after an interviewing Inspector Reid resorted to the Crown Attorney, who on hearing all the circumstances ordered the Police to release myself and my family.

I consider the facts in connection with this incident should be brought to the attention of the citizens of the city of Peterborough, so that the high handed action of the Police can meet with the censure that it properly deserves, and that the Police Officers who under the misaprehension of their duties imagine themselves the masters and not the servants of the public.

Yours truly,
CONRAD SCHWERDT.

OBITUARY

MRS. G. F. SMITH.

After a week's illness, Mrs. G. Smith passed away at her late home, 535 Bolivar street, at 11.30 last night. She is survived by her husband, four sisters, Mrs. R. J. HARDLY KNEW HIMSELF SAYS CHAS. LACOSTE

Quebec Man Tells of Astonishing Improvement in His Health After Tanlac Rid Him of Severe Case of Stomach Trouble.

"I am such a different man since taking Tanlac that I hardly know myself" said Charles Lacoste, 21 Roberval Street, Quebec.

"For about a year I had no appetite and my stomach was so disordered I often went to bed without eating rather than go through the suffering it would cause me. My stomach was as sour as vinegar and I had cramping pains that almost drew me double. I bloated with gas and my heart palpitated as if it would jump out of my body. I got to where I felt like I couldn't stand it any longer.

"Five bottles of Tanlac ended all my troubles and made me feel fine. I never have an ache of a pain, eat good, sleep good and my work, which I used to dread, is easy for me now. I am glad to tell others about Tanlac."

Tanlac is sold by all good druggists.

AN AFTERNOON WITH A BOTTLE COST HIM $300

Police Court Cases Disposed of This Morning

An afternoon at Jackson Park with a bottle cost James Martin $300 and costs in the police court today. G. W. Hatton, K.C., put Martin through a rigid examination to find out where he got the liquor but the most that he could glean was that a Toronto man by the name of Kohen, whom he had previously known slightly, gave it to him yesterday, at the corner of Charlotte and Aylmer streets. He had had his teeth out last Saturday, and he thought it would do him good.

"Do you expect us to believe that story?" Mr. Hatton demanded.

"Well, I'm telling you the truth."

"Would you believe it?"

"Yes."

"I submit this story is altogether unsatisfactory, and I would ask that the minimum fine be not imposed, partly to remind these men that they must tell the truth here," said Mr. Hatton. The Crown Attorney wanted a lecture from His Worship upon the strict way O.T.A. offenders will be dealt with in court and upon the short shrift prevaricators will get. "But there are only the constables, the prisoner and the inspector here" objected the Magistrate.

"There's the Examiner." Magistrate accordingly discoursed briefly as requested.

The name of William Bell, of Toronto, rang through the court room in the Scottish tones of Constable T. Y. Stratton. There was no response and Bell upon the evidence of Stratton that he was speeding on the Gravel Road at the rate of 35 miles on hour on June 10th, was fined $5. The money will be collected through the Toronto court. William Roper, manager of the Royal Bank, Port Hope, paid a fine of $5 for speeding on the 21st.

WEDDING BELLS

CLARKE—MITCHELL.

The marriage was solemnized on Thursday, June 29, at 11 a.m., at St. James' Parsonage, of Miss Mary Edna Mitchell, Peterboro, and Ernest Gerald Clarke, also of Peterboro, son of Rev. W. H. Clarke, Tamworth. Mr. and Mrs. Clarke left on the C.P.R. for points east. They will reside in Peterboro. Rev. J F Chapman officiated

SHIELD—DORMAN.

The home of Mr. and Mrs. W. W. Dorman, Seeley's Bay, Ontario, was the scene of a pretty but quiet wedding on Wednesday, 28th June, at 11 o'clock, when their daughter, Mabel Estelle, was married to Mr. Thomas Harold Shield, B.S.A., only son of Mrs. C. H. Shield and the late Mrs. Shield, of Peterborough.

Rev. G. W. Dustin performed the ceremony, and Miss Hilda Dorman, sister of the bride, played the wedding march.

The bride, who was given away by her father, wore beaded navy canton crepe, with touches of honey-dew, and a corsage bouquet of Ophelia roses and orchids, and a beautiful rope of pearls, the gift of the groom.

Her only attendants were two little flower girls, Misses Jean Dorman and Juan Shield, both aged 4 years, who wore dainty little frocks of white crepe de chine, with handeaux of rosebuds, and carried baskets of roses and orchids.

Following the ceremony, an informal reception was held, after which the bride and groom left on a motor trip, the bride wearing a navy tricotine suit, with hat to match.

On their return they will reside at 153 Benson Avenue, Peterborough.

BIRTH.

HENRY.—On June 28th, to Mr. and Mrs. W. T. Henry, 12 Brown St., a son.

DEATH

SMITH—Died on Thursday night, June 29, at 11.30, Mrs. G. F. Smith.

Funeral from family residence, 535 Bolivar street to Little Lake Cemetery on Saturday at 4 o'clock.

ANNUAL PICNIC AT WALLACE'S POINT

About 150 members of the Peterborough District A.Y.P.A. attended the annual picnic at Wallace's Point yesterday afternoon and evening. Perfect weather prevailed, and nothing was lacking to make it an ideal and enjoyable outing.

Most of the picnicers arrived early, the first auto loads arriving at the grounds about two o'clock, while others kept coming all afternoon. Many of the Peterborough members were obliged to work in the afternoon, and so left the city at 6 o'clock, arriving in time for the supper which was served at 7.

During the afternoon baseball games were played between picked teams, and swimming and other games were enjoyed. Additional pleasure was given by the presence of the members of the George Street Methodist Church, who made a stop for the afternoon while on a boat trip up the river.

All the branches clubbed together for a picnic lunch, which was served at about 7 o'clock.

Temporary Damper.

A temporary damper was thrown over the festivities by the discovery that the five-year-old son of one of the ladies present was missing. A hasty search was made without any results, until it was suggested that he might have gone off with the other picnic party when the boat left. A hurried trip was made to Peterborough and the boat met at the locks, where the missing youngster was found, having a most enjoyable time with the other young folk on the boat.

Sports Programme.

After supper games were played and a programme of sports run off. The winners of the various events were: Ladies' sack race—Miss Alice Ebbs. Egg race for ladies—Miss Adams. Thread-the-needle race — Miss Dorothy Anderson. Married ladies' race—Mrs. Walden. Single ladies' race—Miss Isabel Connally. Three-legged race — Miss Elsie Wheeler and Theodore McBride. Sack race for men—I. R. M. Murray. Potato race—Ralph Turner. Married men's race—H. Sisson. Single men's race—I. R. M. Murray.

A tug-of-war between the Peterborough and the country branches was won by the country team, who twice pulled the Peterborough boys over the line.

After the sports all hands adjourned to the pavilion, where dancing was enjoyed for a couple of hours.

CALICO.

Calico dresses were once the symbol of a lowly station. Now they are smartly trimmed with braid or bands of white organdie and are popular for morning wear in the country and at summer resorts.

PENDANTS.

Little pendants of semi-precious stones, arranged with a pin attachment on the back, are used instead of ribbon ties with the popular Peter Pan collars.

Social Calendar

Mr. and Mrs. F. O. Phillips are spending the week-end with Dr. and Mrs. McKenty, 413 Sherbourne street, Toronto.

The lawn social, held at the G.W.V.A. grounds last evening under the auspices of the Ladies' Auxiliary to the G.W.V.A. was very successful. The grounds presented a bright and attractive appearance with their gay booths, small flower-decked tables for service of refreshments, and strings of Japanese lanterns. Mrs. A. McIntosh, acting president of the Auxiliary, was assisted by acting convenors, Mrs. R. Bugg and Mrs. J. Black. Booths for the sale of strawberries and ice cream were in charge of Mrs. A. Thorndyke and Mrs. Tamlin; Mesdames Devall and Houghton dispensed soft drinks and cones; Mrs. J. McLeod sold candy; Mesdames Hughes and Johnston supervised the dancing, carried on the hall; and Mrs. T. Allston with Mrs. George Rowe, looked after the fish pond, which did a rushing business all evening. Mrs. F. Mallinson in gypsy queen costume, related fortunes to enquiring future-seekers. The refreshment committee was composed of Mesdames Patterson, Clark, Chambers and Hopkins, with Mrs. Austin and Miss M. Allen helping with the service. Mrs. R. Biggs acted as treasurer.

A number of pretty solo dances on the lawn were given by Miss Annie Logan, the graceful little Scotch dancer, in full costume, and the Band of the Peterborough Rangers assisted splendidly with the entertainment. Their musical selections throughout the evening was very much appreciated. Mrs. Massey-Cooke and Miss Margaret Flowers acted as accompanists for the dancing.

Mr. V. Evan Gray, Superintendent of Insurance and Registrar of Loan Companies for Ontario, was a recent visitor to Lakefield, spending a few dais as the guest of Mr. A. E. Dawson.

Miss Renwick of Calgary, is the guest of Mrs. R. Harding, Reid street.

Mrs. C. W. Fowler and Miss Evelyn Fowler, of Toronto, are guests of Mrs. G. C. Carruthers, Brock Street Apartments.

Mrs. R. McQuaid is home on vacation from New York, where she is training as a nurse in the French Hospital.

Miss Lilas Mason, of the Conservatory of Music, Toronto, is visiting her aunt, Mrs. Jas. Shadgett, 188 Perry Street.

Mr. T. H. Sills of Niagara Falls Ontario, is in the city, visiting with friends over Sunday.

Mrs. A. T. Lumley and son, Raymond returned to Toronto, this morning after spending a vacation with Mr. T. Foster and family, Chemong Road.

Mr. A. E. Lucas, Charlbond Apt. left last night for a vacation to London, England.

Mrs. Relph and two children are visiting Mrs. A. Simmons at 250 Euclid Avenue.

RAILWAY SHOP WALKOUT ONLY DEVELOPMENT

Strike Situation Turned Today on Vote on Maintenance of Way Employees.

PICKETS DISPATCHED

CHICAGO, July 3. — (Canadian Press.) — Railway strike interest which centred over the week-end on the walkout Saturday of shopmen, whose union holds in its ranks four hundred thousand men, to-day turned to developments dependent upon a canvass at Detroit of a strike vote of four hundred thousand maintenance of way employees and action by their union officials. Two days of the strike of the shop craftsmen have failed according to reports to interfere seriously with transportation or to produce a definite statement of the number of men out.

The six railway shop crafts union which went on strike Saturday were outlawed by the United States' Railway Labor Board to-day.

In a formal resolution the Board declared that the unions by their action forfeited all rights before the Board of on railway employes and that new organizations of shopmen taking the striking men's jobs should be formed to represent the shop employees in disputes before the Board.

BEGIN PICKET DUTY.

NEW YORK, July 3.— Several contingents of pickets were despatched to strike centres in this district to-day and union leaders set out for outlying points to assist in organizing strikers for systematic picket duty in accordance with plans made at an organization meeting of the general strike committee which will maintain general headquarters here.

COUNTING THE BALLOTS

DETROIT, July 3. — (Canadian Press.)—Whether a general railroad strike would spread to the maintenance of ways workers, numbering almost half a million, depends to-day upon canvass of a strike vote began by grand lodge officials of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers. Checking of the vote began at Brotherhood headquarters here this morning.

BOSTON, July 3.— (Canadian Press.)—Systematic picketing of engine houses, shops and terminals in this district was started to-day by striking railway shopmen. Union leaders predicted that the number of strikers would be materially increased to-day by agitation of men who were off duty when the strike began.

APPLY FOR BOARDS

OTTAWA, July 3. — (Canadian Press.)—Minister of Labor has received informal applications from shop employees of the Michigan Central and of Pere Marquette Railways for boards of conciliation in connection with reductions of wages which has been ordered by the United States' Railroad Labor Board. Formal applications are expected to follow. It is understood that employees will remain at work pending hearing of cases before the boards which have been requested.

Members of City Council Opposed To Adolescent School Requirement

That four at least of the City Council are opposed to the Adolescent School Attendance Act was evident at a meeting of the Finance Committee Friday night, when a resolution was passed memorializing the Ontario Government to repeal the objectionable legislation. A letter was read from Chatham City Council, urging the municipalities to take action against the Act. It was claimed that if fully or even partially enforced it will impose upon the ratepayers of the municipalities of Ontario, both rural and urban, excessive burdens for new school construction and maintenance at a time when financial conditions generally and especially the necessity of meeting the obligations incurred by the war necessitate the strictest economy in all government affairs."

There was little discussion, Mayor W. H. Taylor moved a resolution as suggested, and Ald. N. E. Phelan seconded it, after Ald. Walter Stocker and Ald. Joseph Crowe had declined, although they gave it their support. The resolution called for the repeal of the Act, "as the municipalities are not in a position at this time to bear the great expense of carrying out the Act."

FINAL BATTTLE ON POSITIONS

Heavy Fighting Reported in Various Parts of Sackville Street

DUBLIN, July 3. — (Canadian Press.)—Final assault on the positions held by the Republicans in Sackville street was begun at nine o'clock this morning. Other areas held by insurgents in various parts of this city was occupied by Free Staters during the night. Heavy fighting is going on in Sackville street, which is swept by machine gun fire. Free State forces are operating from O'Connell Bridge to Parnell Monument. Return fire of insurgents is feeble. Machine gunners are maintaining devastating fire against front of buildings, particularly pressing the attack on Hamman's hotel, where Eamon De Valera is believed to be holding out, following his bight from the Gresham hotel.

Stephens' Green Club, held since Friday by Republicans, was captured to-day by National troops.

Battle in Sackville street area was still raging this afternoon. Insurgents are responding vigorously to machine gun bombardment.

PROMOTION FOR CAPT. JAS. WARD

Appointed Assistant Chief of the Fire Department by Chief Gimblett.

His appointment to date from July 1st, Capt. James Ward has been appointed assistant fire chief by Chief George Gimblett, who has acted under a by-law passed September 7, 1920, giving him full authority to employ or dismiss men. Since assistant chief, Herbert Johnston resigned in March, the position has been vacant and who would get the appointment has been a subject of conjecture both in the Fire Hall and outside. The appointment of Capt. Ward is a recognition of a continuous good record since he first joined the brigade on March 16, 1911. He was made a lieutenant on June 1st, 1917, and exactly eleven years to the day after he donned the uniform, was appointed Captain of No. 1 platoon. Assistant Chief Ward is known by the citizens generally as an efficient, fearless officer who has won promotion solely on meritorious work. His appointment will be confirmed at to-nights Council meeting.

Speedy Recovery In Battle Areas

QUEBEC, July 3. — The Canadian Pacific Steamer Minnedosa, from Antwerp and Southampton, arrived here with 513 passengers, 286 cabin passengers. Among the 286 cabin passengers were a number of returned Canadians, including Mgr. P. L. De G. Belliveau of Grande Digue, N.B., and Mr. B. J. Doucet, Grand Rouse, returning from attending the Eucharistic congress where in the course of an interview, he said that the congress with its religious ceremonies were sublime spectacles. Bishop Belliveau said that while abroad he took occasion to visit the battlefields in France and Flanders, and was impressed with the recoveries he beheld, saying the devastated regions were quickly being rebuilt and that when the work of recovery is completed the war devastated regions of France would be very much improved by the better class of buildings to be seen.

George Hill of Hamilton Upset in Lovesick Lake —Saved by Motor Boat

George Hill, of Hamilton, a guest of Mr. and Mrs. Robert Parker, of Hamilton, at their cottage on Lovesick Lake, had a narrow escape from drowning yesterday afternoon when a canoe in which he was alone upset some distance out in the lake. His wife, and Mr. and Mrs. Parker were asleep in the cottage, but his cries aroused them. Mrs. Parker showed unusual presence of mind and an adeptness in starting a motor boat and Mr. Hill was rescued. He was such a distance out, it was reported, that had Mrs. Parker not had an expert knowledge of the mysteries of coaxing a motor boat engine into action, he would have been lost.

CELEBRATE SATURDAY HOLIDAYS ON MONDAY

Some Merchants Regard Friday Week-ends as Failures.

Light business on Friday instead of the usual week end volume which might have been expected to exceed the usual Saturday trade by reason of the two days' rest convinced some merchants that excepting, Christmas and New Year's, Saturday holidays should be swung over to Mondays. Business follows its regular course and experience has amply proved that Fridays preceding Saturday holidays are never successful. The people do not react to the change and the disturbance of the normal week end. Hence several merchants have remarked that it might be advisable to agree upon some general rule in such calendar occurrences in order that Saturday holidays might be generally deferred until Mondays. The merchants of Campbellford remained open on Saturday intending to recognize the holiday to-day, and they would probably have benefitted largely from that arrangement had it not been for the rain that fell all morning and until two o'clock. The proposal is one that would require concerted action and would have to be adopted generally.

LEWIS SQUAIR AND PARTY IN MOTOR MISHAP

Peterboro' Man and Sister in Hospital at Bowmanville—Car Turned Upside Down and Burned

TURNED OUT TO PASS

(Special to The Examiner.)

BOWMANVILLE, Ont., July 2.—As a result of a motor accident between Bowmanville and Newcastle this afternoon, Lewis James Squair, Wolsley street, Peterborough, is in Bowmanville hospital, badly bruised, and his sister, Mrs. J. A. Sheldon, Toronto, is in the same institution with a fractured rib, besides badly bruised.

Mr. Sheldon, who was driving the car, and his two sons, were badly shaken up, but not seriously. They were returning from spending a holiday in Peterborough, and while passing a car their auto skidded into the ditch, turning turtle and pinning Mr. Squair under the car for a time. The car, which is a new Studebaker, caught fire and is now a complete wreck.

It is expected the injured parties will be able to return to their homes in a few days.

ROTARY HEARS ABOUT SYSTEM OF GOVERNMENT

An Illuminative Address Given by Mr. G. N. Gordon Deputy Speaker of the House.

TODAY'S LUNCHEON

The members of the Peterborough Rotary Club had a special treat at their noon-day luncheon to-day, when Kiwanian G. N. Gordon, Deputy-Speaker of the House of Commons, sketched the development of responsible government in Canada, and in the course of a most illuminative address, explained some of the features of the Canadian system of government. Mr. Gordon's task of covering such a comprehensive subject in a brief address was most skilfully carried out, and the Rotarians gained much new light upon the manner in which Canada is governed as a result of the speaker's splendid resume of the subject.

Mr. Gordon first reviewed the beginning of responsible government as first seen in the shire system in England, and then briefly referred to the development of the system until it reached its greatest height in the reign of Queen Victoria. Canada's system of government had almost slavishly followed the British plan, he explained, but while most of England's parliamentary laws were unwritten, the British North American Act was the foundation for the Canadian system. Mr. Gordon explained the scope and provisions of that Act and dealt with the various responsibilities of the Federal, Provincial and municipal governments.

Of the Senate, which, he said, had become an unpopular institution, Mr. Gordon remarked that nevertheless the Senate had a stabilizing influence, and in its membership were many men who had served Canada well and were still doing valuable service. The theory of the Senate was that its membership, being appointed for life, were not likely to be swayed by waves of popular opinion. While the method of appointment might be modernized by having the Legislature of each province named the Senators from that particular Province, Mr. Gordon declared that the Senate was not without its value to the country.

On the whole the Canadian system of government was more responsible to the people than the British system, and much more so than the United States method.

President John Crane, in introducing Mr. Gordon, said that he was sure the members were proud of Peterborough's representative at Ottawa. He was a member who looked after the interests of his constituents.

Guests to-day included His Honor Judge Daniel O'Connell, Mr. Vincent Eastwood, Mr. R. Ross, Kiwanian Billy Phillips and Mr. De Mille, of the Chautauqua, who spoke to the Rotary Club for several minutes on the programme to be given here.

Mr. Edward Humphage sang "Thora" in excellent voice, and was heartily applauded. President Crane supplied the accompaniment for this number.

Montreal Man Did "Jumping Off Act"

MONTREAL, July 3.—(Canadiar Press). — William C. Strachan, known in Canadian theatrical brokerage and advertising circles, was found dead in his room at McGill Avenue over the week-end, following the inhaling of gas. He was married to Lotta Linthicum, a well-known actress of the early nineties. A letter found in his pocket read in part: "Maude, you doubted my word when I told you that I was doing a jumping off act and laughed. Tell them to cremate me and not bury me in the family lot. Scatter ashes."

His wife entered divorce proceedings some time ago.

BRANTFORD, July 3.—(Canadian Press). — "General" Riley and his assistants, who have been here organizing local veterans for another march on Ottawa, are confident that the hike, which commences from Brantford on Wednesday, will be an impressive one. They have signed up about 250 veterans here. The route of march has not been announced, but it is known that detachments are expected to join the hikers at Hamilton, Toronto, Port Hope, Cobourg, Belleville, Napanee and Kingston.

CHANGES C. P. R. STAFF.

MONTREAL, July 3.—(Canadian Press).—A number of important changes in the staff of the Canadian Pacific Railway, eastern lines, are announced to-day. Alfred Price, general manager of the eastern lines, is granted leave of absence after forty years of service, on account of ill-health, and is succeeded by J. F. Scully. George Hodge is appointed assistant general manager of eastern lines. W. N. Neal is appointed general superintendent of Algoma district.

SEVEN PERSONS ARE SENT TO THEIR DEATH IN RAILWAY WRECK

Midnight Flyer, a Philadelphia and Reading Express, Struck Open Switch and Plunges Thirty Feet Down an Embankment — Signals Misset.

32 PASSENGERS BADLY INJURED

WINSLOW JUNCTION, N.J., July 3.—(Special to Examiner). — "The Midnight Flyer", a Philadelphia and Reading Express, struck an open switch while travelling at high speed through here to-day, left the rails, plunged thirty feet down an embankment and was completely wrecked.

At least six persons are known to have been killed and it is feared the tangled wreckage, over which wrecking crews worked frantically, held other victims. About seventy of the hundred passengers on the train were seriously injured.

Twelve perons are still unaccounted for, and it is believed their bodies are buried deep in the yellow mud beneath the wreckage.

Wrong Signals

Missetting of signals is believed to have been the cause of the accident.

In a second the engine and the coaches were a mass of twisted wreckage at the bottom of a ditch. There were cries of the injured and those nearby who heard the crash were hastening to the scene to offer assistance. The operator in the Tower flashed the wreck signal over his wire and soon help was coming from all directions.

Nurses at Hand

Red Cross nurses and American Legion men in nearby towns were organized and rushed to the scene. They worked frantically to extricate the injured. A man, covered by debris, died just as he was being taken from the wreck. A bride too hysterical to give her name, watched the workers remove her husband from the wreck. His back was broken and he was near the point of death when rushed to a hospital in Atlantic City.

John Mace of Camden, N.J., conductor, was badly injured. The body of Walter Westcott the engineer, was missing. The fireman, William T. Saudder was killed.

The bodies of the dead were removed to the Camden Morgue. The injured were rushed to Atlantic City and Hammonton Hospitals by relief trains.

Dead Identified

The known dead are: Walter Wescott, Gloucester, N.J., engineer of the train.

William T. Sautter Atlantic City, N.J., fireman.

Joseph Dilasuo, Pleasantville, N.J.

Solworth Cape May, N.J., Railroad telegrapher.

One of the bodies removed to the wreckage was identified by papers in his pockets as Alfonzo de Lancio, 40 of Clintonville, N.J.

Tracks Blocked

The Pennsylvania tracks were completely blocked.

The relief trains arrived at the scene at 3.30 o'clock.

Shortly after four o'clock they pulled out with their first load of dead and wounded.

John Mace, conductor of the train is ot expected to live. He is in the Atlantic City Hospital.

John Dewalt, the sixty-eight year old Tower Master, who flashed a hysterical message to Atlantic City, could not be found at daylight.

The train left the track with such terrific force that the road bed was plowed up for 750 feet and an electric light pole pulled down, crippling the entire lighting system at Winslow Junction.

A Pitiful Sight

ATLANTIC CITY, N.J.—July 3.—(Special to Examiner).— The first relief train to leave the wrecked "midnight flyer" at Winslow Junction, near here, reached the station about two hours after the wreck.

As the train pulled slowly into the station it presented a pitiful sight Travellers were still bewildered by their terrible experience, and mothers with babes in their arms were on the verge of collapse.

The train carried about sixty persons.

Ambulances were at the station and the injured were immediately removed to the hospitals.

Fighting in the Dark

Irene Famywerler of Atlantic City, a passenger in the fourth coach, told of her experience.

Everything was going smoothly when suddenly there came a peculiar dizzy sensation. The next I knew we were fighting in the dark at the bottom of the embankment. I fainted. The next thing I knew I was being carried to an ambulance."

SIGNAL APPARATUS FAULTY.

WINSLOW JUNCTION, N. J., July 3.—(Special to The Examiner). —Six persons were killed, according to official figures, and 32 injured, when the "midnight flyer" of the Philadelphia and Reading Railway plunged from the rails here early to-day. Faulty mechanism of the signal apparatus was blamed for the disaster by John Dewalt, the aged towerman, who disappeared after the accident and locked himself in his home.

"My God! I Have Sent the Train on The Wrong Track"

ATLANTIC CITY, N.J., July 3.—"My God I have sent number 33 on the wrong track."

John Dewalt, signal man at Winslow Junction, hammered out the above frantic telegram to the dispatchers office at Atlantic City a few moments after the midnight flyer flashed past his tower.

Atlantic City made desperate but unavailing efforts to raise Dewalt after his message had been received.

He had fainted.

TRAFFIC SIGNS FOR STREETS

Board of Works Will Be Asked to Endorse Project of Association.

If the consent of the Board of Works is given the Peterborough Automobile Association will proceed with the erection of signs at Hunter street hill west to direct traffic around the Cathedral. One sign will be placed at Rubidge and another at Reid directing all traffic "to the right." The Board of Directors have long considered that signs are needed here as confusion exists over the conflict in direction. Many drivers persist in turning to the left to the danger and annoyance of other drivers. A resolution was passed by the Board requesting the Police Commission to prohibit the parking of cars at the corner of Park and Charlotte, as passengers discharged from the street car here are placed in a dangerous position through the presence of automobiles at the curb.

The Hydro-Electric Commission were requested to arrange their street car service so that the south bound George street cars would not discharge passengers before crossing Charlotte street. The motorists alleged that while the cars were not supposed to stop, on account of the motorman sometimes having to open the switch, passengers were given an opportunity to get off directly in the path of motor traffic. The association desires that the regulations be such that no passengers can be discharged in any way until the street has been crossed.

The road maps recently brought out by the association were commended by the members. It was stated that 50 more had to be secured to meet the demand and on account of their accuracy in regard to the Kawartha lakes, it was stated that Toronto club ordered 48.

MARRIAGE A LA MODE.

American fathers, awaiting the harvest of bills sowed by the June bride, would appreciate the custom in some parts of India, where the friends of the couple provide the trousseau.

They borrow all the finery they can to adorn the bride and groown for the marriage. Sometimes the elaborate wedding ceremonies last for a fortnight during which time the bridegroom does not see his bride.

WRINKLED SILKS.

Fabrics woven in deep wrinkles seem very popular now, particularly when the fabric is gold or silver metal cloth. For coats this material is most effective.

STAND AGHAST AT MURDER OF WESLEY MOULT

Slain Man Was Very Popular in the Township of Tyendinaga, Near Belleville.

CROWDS AT FUNERAL

(Special to The Examiner.)

BELLEVILLE, Ont., July 3.—A wife lies in a state of collapse and five little children, not old enough to understand the tragedy, are deprived of a father by the murder on Thursday last of Wesley Moult, a prominent farmer living some fifteen miles out of Belleville.

The city of Belleville and the surrounding country, particularly the township of Tyendinaga, stand aghast at the murder of a quiet, peace-loving man, while Moult's hired man, Maurice Barrie, also known as Maurice Pearson, is under arrest in the Belleville jail, charged with the murder of his employer, an employer who he himself says always treated him with the utmost kindliness. Since his arrest, Barrie has declined to make any statement to the police. His preliminary hearing will be next Friday in Belleville, the inquest being held the evening before, Thursday next.

Crowds at Funeral.

On Sunday crowds such as were never seen before, gathered to witness the funeral of the murdered man and to follow the body to its last resting place in Victoria cemetery. As Rev. G. M. Sharp spoke on his text, "Whosoever hateth his brother is a murderer, he hath already committed murder in his heart," Mrs. Moult collapsed and had to be carried to her room. But her little children sat dry eyed by the head of the coffin in which the body of their murdered father lay. By his first wife, Mr. Moult had one son, Kenneth, now a boy of fourteen, who lives with his grandfather, Mr. Sam Moult.

Leaves Four Children.

Besides his wife, Mr. Moult leaves four tiny children, ranging from five years old down to a baby of five months. While their mother followed the funeral to the cemetery, little Mary, aged five, and Betty, aged three, played around the house, their laughter stilled by the vague knowledge that something was wrong, something they knew not what. Tiny two- year old Wesley toddled about the house with a worried frown on his face, while Baby Rhoeda cried fretfully.

Story of the Tragedy.

Mr. Edward Wilson, whose daughter Lillian married the late Wesley Moult six years ago, told the Examiner that at the breakfast table on Thursday, the day of the tragedy, Wesley Moult said to Barrie: "Did the horse get away on you last night," referring to a horse Barrie had been driving.

"No," replied Barrie.

"Why didn't you feed it then?" queried Moult.

"I did."

"No you didn't," retorted Moult. "I put grain in the box and the horse hadn't touched it. It was outside."

On Thursday morning Barrie was working out in the fields and he had a little twenty-two calibre rifle with him that he usually carried. At noon Barrie did not come in, and Moult made no remark beyond saying, "Go on, we won't wait any longer." The last thing Moult did in his home was to put his little boy Wesley, two years old, to sleep and then he went off to the barn, making the laughing remark to the hired girl, "You had better come out and look for him, he may have fallen into the well."

Twenty minutes later, Mrs. Moult went out to the barn, where Barrie met her at the door of the cowshed

30,000 ISLANDS GEORGIAN BAY

It is impossible to describe this wonderful waterway with any degree of satisfaction, Nature having been so generous in beautifying and adorning it and having dowered it with so many gorgeous scenic effects, including rugged promontories, intricate channels and narrows, and vast amphitheatres of open water. This entire district is so full of interest and altogether so charming that to go there once is to want to return and take your friends. The air is dry and bracing, and a sure cure for hay fever. There is no end of good fishing—deep fishing for big fish and fly fishing for black bass. And for those who do not care to fish, there is motor-boating, a row or sail, bathing and dancing, lawn tennis and other pastimes. And always there is the wildwood that welcomes, rejuvenates and sends the visitor home with happy memories. The principal gateway is Midland, 101 miles north of Toronto and reached by the Grand Trunk. Free copy of interesting publication with map and list of hotels sent for the asking. TRUE DETECTIVE STORIES

MURDER WILL OUT

(Copyright 1921, By The Wheeler Syndicate, Inc.)

When Detective Chouard of the Parisian police force came to investigate the details of the disappearance of the widow Houet, he found that, in spite of the fact that the woman had lived for many years in her house on the Rue des Mathurins, there were few of the neighbors who knew anything about her.

Madame Houet, it appeared, had borne the local reputation of a miser, for the reason that she was seen but seldom outside her house and then only when she needed some food or some other necessity.

"It's doubtful if she spent ten sous a week," declared one of the neighbors, "and she came out after dark—as if she were afraid of some one or something."

"What was the reason of the report to the police that she was missing?" inquired Chouard.

"No one around here had seen her for a fortnight or more. There was no light in her house, no smoke from the chimney. We were afraid that something had happened to her and, of course, we had no authority to break in the door."

Inside the house the detective found nothing that would give him any idea of the reason for the old womsn's disappearance. The place was very sparesly furnished, and evidently had not been cleaned or dusted for at least two weeks. But nowhere was there the slightest trace of the widow Houet. She had gone, vanished, disappeared entirely. Nor did her daughter, a Mme. Robert, who was found to be living in another part of Paris, have any solution of the mystery.

"I have not seen my mother for some years," she stated. "There was a difference between us—a serious difference—quite a long time ago, and she has not come here since we have lived in this house, and that's a matter of at least five years."

"Did you ever visit your mother in the Rue des Mathurins?" Chouard asked.

"Never! I tell you I haven't laid eyes on her since we quarrelled."

As a result of inquiries made in the vicinity of the missing woman's home Chouard found that no one had ever seen a woman enter the Houet house—but he also found out something else which interested him extremely. A man had called there several times within the past few months and the description of the visitor tallied precisely with that of M. Robert, husband of the Widow Houet's daughter.

When, a few days later, Robert came to police headquarters with a letter from his mother-in-law, stating that she "was going away to the country to find a place in which to die," and naming Robert as the sole heir to her fortune of more than 50,000 francs, Chouard's suspicions became distinctly more real. He felt certain that the letter was a forgery, but there was no way of proving this, because not a scrap of paper bearing the old woman's writing had been found in her house, and her daughter declared that she had preserved none of her letters.

"The writing," she added, "is certainly that of my mother. Robert is entitled to the money if he wants it. For myself, I would not touch a sou."

When he came to sum up the evidence he had collected, Chouard clearly was up against it. The widow had disappeared. Her son-in-law had been seen going into her house, had received a letter stating that she contemplated suicide. That was all there was to the case from a legal standpoint, for until Chouard could prove that Madame Houet had been murdered—and this, under the French law, could be proven only by production of the body—or that the letter was a forgery, there was no charge on which Robert could be held.

The only consolation that the detective had was that Robert could not come into possession of the widow's money until ten years had elapsed. Then the 50,000 francs would be his—but then also he would be immune from arrest under that section of the law which declared a crime to be "outlawed" after half a decade.

Apparently there was nothing to be done and Chouard had to content himself with doing it, though he never lost track of the case in the years that followed. No matter what crime he was investigating, his mind returned constantly to the disappearance of the old widow and his feeling of certainty that her son-in-law had been responsible for her death.

It was more than nine years later, within a few months of the time when Robert would come into possession of the Houet money, that Chouard stumbled across the first real clue to the mystery.

The governor of the Paris prison one day called his attention to a note which one of the prisoners had written, for delivery to a person on the outside.

"Looks harmless enough, doesn't it?" inquired the governor. "But the man who wrote it—a fellow named Bastien—seems to think that we don't know anything about codes. Read every third word."

Following instructions, Chouard spelled out the message:

"Remember the garden at 43, Rue Waurigard. I must have money at once."

A glance at the address of the communication caused Chouard to give an exclamation of joy.

"Addressed to a M. Robert!" he cried "and palpably a black-mailing letter. Maybe it's hoping for too much, but I think this will aid in solving a crime which occurred nearly ten years ago."

It required less than an hour of digging in the garden of the house specified in the code letter to bring to light the gruesome solution of the Houet disappearance. The body of the old woman, still with a rope about the throat, was found practically concealed in a bed of lime. But the men who had buried it had neglected to throw water on the lime which, instead of consuming the body, had preserved it during the intervening years.

The arrest of Robert and Bastien, who had been his partner in the murder, was followed by the securing of a full confession of how the old widow had been lured from her home, throttled and buried in the lonely garden, the letter from her being subsequently forged, as Chouard had suspected. On account of this confession, Bastien and Robert escaped with life sentences to penal servitude, but the 50,000 francs was turned into the national treasury and Chouard received official commendation for his persistency in following the crime for nearly ten years.

Who Pays For Advertising?

THIS is a direct and reasonable question; and in the case of Daily Newspaper advertising, intelligently used, the answer is simple: Nobody. **It pays its own Way.**

Nobody pays for the new carburetor that gives added mileage to your motor car. **It pays for itself in the gasolene it saves.**

Nobody pays for an improved cash system in a modern department store. **It pays for itself in economy of human time.**

Nobody pays for well planned and written Daily Newspaper advertising. **It pays for itself by reducing the cost of sales and by increasing production.** And it often receipts old bills for follies with advertising labels.

The advertisement in your own local **Daily Newspaper** tells you the best things to buy and where to buy them. Every new purchase helps the whole community to command cheaper and better goods.

REBEL IRISH ARE DEFEATED BY THE NATIONAL TROOPS

400 Prisoners Captured in Several Rebel Strongholds in City of Dublin.

OFFICIAL REPORT.

DUBLIN, July 3 (Canadian Press). — The National troops were victorious in the battle in Dublin yesterday. Early in the evening they opened with a heavy fire, and several rebel strongholds were captured, together with nearly four hundred prisoners. An official bulletin issued shortly before nine o'clock last night says:

"Thirty irregulars who occupied Moran's Hotel are now in our hands, as is also the section bounded by Talbot, Purdon, Amiens and Gardiner Streets.

"General Ennis telephones at 8.20 that the irregulars have been driven from eight positions they held."

A fresh outbreak of firing occurred in many parts of Dublin, and throughout the city there has been increased activity on the part of the National sand heavy concentration at tactical points.

Free State troops began by occupying the buildings commanding the field of fire to the principal buildings in possession of the irregulars.

"All quiet," is th significant report from Cork and Limerick.

The peace efforts of Lord Mayor O'Neill and Archbishop Byrne on a basis of the evacuation of the occupied buildings proved unsuccessful yesterday, and as soon as this was known the Provisional authorities prepared to dislodge the rebels.

The attack on the Sackville Street area was developed on the west side, while other operations were prepared in another section of the city.

Several former officers of the Mid-Clare Brigade, who were engaged in recruiting and organising against the National Army, were placed under arrest.

The irregulars posted a machine gun on the tower of Arnott & Company's premises in Henry Street on Saturday night, and brought it into action against the Telephone Exchange in Crown Alley.

The National garrison replied with brisk firing, which continued for several minutes.

During the night there was only intermittent firing, which had been heavy up to midnight. As the church bells were ringing the Angelus at six o'clock in the morning, they were accompanied by the sound of guns in action again.

From seven until eleven the lull was broken only by the occasional crack of a sniper's rifle, but later the shooting increased.

An official report detailing National successes in the Provinces announces that the army operating in Kilkenny captured the Callan Barracks, which was evacuated by the insurgents before its investment was completed.

The Mullinivat and Thomastown Barracks were also captured.

CORK, July 3 (Canadian Press). —There seemed good reason to believe that the Republican forces were mobilising last evening preparatory to a move to take possession of the city and occupy strategic points.

Several buildings, including the general post office, are indicated as likely to be taken over by the insurgents.

BELFAST, July 3 (Canadian Press). — Republican insurgents at Fahan, North Donegal, broke camp yesterday morning and joined the forces at Inchfort, on the Lough Swilly, six miles from Londonderry.

Before retiring, they blocked the roads with trees in order to delay the advanct of National Army troops.

Inchfort is being fortified to withstand a siege.

PROBABILITIES.

Fresh north-westerly winds, mostly fair and a little cooler. A few scattered showers.

MONTREAL TUG IS SUNK IN RIVER.

RAILWAY RATES TO BE REDUCED IN NEAR FUTURE

Reduction of 7½ Per Cent. on Basic Commodities Will Be Effective on August 1.

STILL HIGH.

OTTAWA, July 2. (Canadian Press.) — A reduction of 7 1-2 per cent. in the railway rates on basic commodities, to become effective August 1, has been ordered by the Board of Railway Commissioners. The decrease reduces the increase of September, 1920, to 12 1-2 per cent. in western Canada and 17 1-2 per cent. in eastern Canada. The original increase ordered by the Board in 1920 was 40 per cent. in the east and 35 per cent. in the west. Subsequent reductions brought these figures down to 25 per cent. in the east and 20 per cent. in the west. The present decrease aplies to forest product, building material, brick, cement, lime and plaster, potatoes, fertilizers, other than chemicals, pig iron, blooms and billets, ores, wire rods and scrap iron.

Grain and flour rates were fixed by parliament during the session just closed in accordance with the rates prevailing under the Crow's Nest Pass agreement.

The judgment rescinds all increases provided for in September, 1920, on coal, other than anthracite, and coal from the head of the Lakes westward. The principal of arbitraries from the Maritime Provinces to all points west of Port Arthur has been approved, the St. John arbitrary being 24c per 100 lbs., first-class, and 12½ fifth class. The Board has no jurisdiction over the Canadian government railways and no directions were made regarding that system. The arbitraries do not apply to traffic between the Maritime Provinces and Montreal or to points west of Montreal and east of Fort Fort William.

MUST BURY MAN ENCASED IN METAL.

PHILADELPHIA, July 3.—(Canadian Press)—A flood of molten iron poured over Andrew Poltarak, a laborer in the Midvale Steel Works, in such a manner that his entire body was encased in hard metal when cool air reached it. It will be necessary to bury him in that condition. The man was shovelling beneath a furnace when a plug loosened.

VESSEL SINKS BUT CREW IS RESCUED.

SAULT ST. MARIE, July 3.—(Canadian Press)—The steamer Samuel Mitchell, upbound, with a load of cement, ran on the boulders near the Black Can buoy Saturday, in a heavy fog, and is resting in eighteen feet of water. The crew are safe. The Favorite, from St. Ignace, is on her way to the sunken vessel.

The Mitchell was proceeding slowly when she struck the jagged rocks, tearing a big hole in her bottom below the engine room.

THREE GENERATIONS SERVE THE CHURCH

Grandfather and Father Attend the Ordination of Rev. Henry K. Coleman at Kingston.

KINGSTON, July 3.—(Canadian Press)Thursday a remarkable and somewhat unique event took place in Mary Madelene's Chuch, Napanee when the Rev. Henry Ker Coleman was admitted into the deaconate by the Bishop of Ontario assisted by the neighboring clergy. The candidate for ordination is the only son of the Rev. John H. Coleman, M.A., vicar of Napanee and also grandson of the Rev. A. H. Coleman, M.A., a well-known and now retired clergyman of the Diocese of Ottawa Thus the three generations of ministers in the same family were present.

CUSTOMS RECEIPTS INCREASED IN JUNE

Reports Show Big Increase in Revenue Over That of Corresponding Period of Last Year.

OTTAWA, July 3 (Canadian Press). — June was a good month for customs and excise revenue, showing an increase of $4,351,000 aver the same month last year. The total revenue reported by the Department of Customs and Inland Revenue for the month was $22,243,000, as compared with $17,892,000 for the corresponding month in 1921.

There is also an increase in revenue over last year for the three months' period ending with June, though in this instance the increase is not as great as for the month of June alone. The total customs and excise revenue for June, 1922, was $58,953,000, as compared with $56,198,000 for June, 1921.

The large increase in revenue in the month of June was due in part to an increase in import duties and in part to the increase in the sales tax. The customs import revenue showed an increase of $3,173,000, while excise taxes (which include the sales tax) showed an increase also.

On the other hand there was a falling off of $87,644.00 in the revenue from excise duties, which include the taxes on liquor and tobacco.

The customs duties revenue for the month was $11,861,000, that from excise taxes $7,009,000; and from excise duties $3,284,000.

The increased taxes on cheques and telegrams have not yet been enforced, but come into effect tomorrow, while the new tax on receipts does not come into effect until 1st January next.

MET DEATH IN TRAIN WRECK

Holiday - Seekers Killed When American Flyer Plunged From Rails.

WINSLOW JUNCTION, N.J., July 3.—(Special to the Examiner) —Eight persons were killed, twelve others are missing and 7 holiday seekers were seriously injured when the "m'dnight flyer", a Philadelphia and Reading Express plunged from the rails while traveling at a high speed on a curve [illegible] early today.

The bodies of the dead were dug out of the wreckage and removed to the local morgue.

The known dead are: Walter Westcott, Gloucester, N.J. engineer of the train.

William T. Sautter, Atlantic City, N. J., fireman.

Joseph Dilasuo, Pleasantville, N.J.

Solworth, Cape May, N.J. railroad telegrapher.

FRENCH AND GERMANS CLASH

A state of siege has been proclaimed and French armored cars are patrolling the city.

GAMBLING DEBT.

LONDON, July 3.— Canadian Press)—The bill fathered by Lord Muir-Mackenzie to establish liability for cheques given in settlement of gambling debts has now passed both houses of parliament and will shortly become law.

TWO EARTHQUAKE SHOCKS ARE FELT IN MARITIME PROV.

Seismograph Shows That Disturbance in Earth's Crust Was About 100 Miles From Halifax.

AT WASHINGTON.

HALIFAX, July 3.— (Canadian Press.) — An earthquake shock, which, according to reports here, was distinctly felt in various sections of the Maritime provinces, was recorded at Dalhousie University last evening from 5.23 to 5.30 o'clock, reaching its maximum at 5.24, Atlantic Standard time.

It was thought at the college that the shock was very near, possibly about one hundred and fifty miles away. The vibrations were very sharp and rapid, about thirty to the minute.

Another shock, also comparatively near, but not very severe, was registered at Dalhousie yesterday from 9.55 to 10.53 a.m., reaching a maximum from 10.20 to 10.30.

WASHINGTON, July 3.—(Canadian Press.) — Two earthquake shocks were registered on the seismograph of Georgetown University yesterday, one in the afternoon apparently at a distance of 700 or 800 miles from Washington.

The other was felt yesterday morning and was at a greater distance. The one in the afternoon continued from 4.28 to 4.34 o'clock, but was not as pronounced as the one of the morning.

SEYMOUR TEACHER GETS PRESENTATION

Presented With Suit Case, Umbrella and Jewellery.

CAMPBELLFORD, July 3.—On Thursday evening about one hundred and fifty of the firends of Miss Jean Armstrong, teacher of S. S. No. 2, Seymour, assembled at the home of Mr. John Simpson to spend a social evening and to show their appreciation of Miss Armstrong in more than mere words. The accompanying address was read by Miss Agnes Thomas and the presentation of a leather suitcase, silk umbrella and two pins was made by Mr. Harry Barnum:

Miss Jean Armstrong:

Dear Miss Armstrong:—To-night we feel that if we had it in our power to make laws, we would enact one at once which would say that teachers in making their decisions about departure from sections must be guided by the feelings of the people. This would enable us to hold you here. But we have to further acknowledge our inability to produce any 'charmer' who might succeed in charming you to stay, and so you and we suffer for our weakness in these lines.

But before you go, let us express to you the pleasure that we have had in your presence for the past two years. We have enjoyed your smile, your friendship and your help in both church and school has been invaluable/ We present to you these gifts, which we hope will always remind you of our very best wishes for your success and happiness in future days. Let us assure you that we are not going to forget you, and all foster a silent hope, that it is to be our pleasure to meet you again.

Signed on behalf of the school section and its young people: Harry Barnum, Allan Simpson.

Miss Armstrong replied, thanking the people for their kindness to her during her stay with them and also for the beautiful gifts which would always remind her of a happy two years. Dainty refreshments were then served and the remainder of the evening was pleasantly spent in music and dancing.

GALA TIME FOR YOUNG AND OLD AT NORWOOD'S GREAT REUNION

Hundreds of Former Residents Return From All Parts of the World to Renew Old Friendships.

(Staff Correspondence.)

'Mid pleasures and palaces, though we may roam,
Be it ever so humble, there's no place like Home.

This is the song in the hearts of Norwood's Old Boys and Girls who are home for the re-union that opened on Saturday.

The young and old who have gone forth from the peaceful village into the busy marts of the world, into the professions, ministry, law and medicine, into the Golden West, to the cornlands of the Middle West, have hearkened to the call from Home, so long unheeded in the press of business and pleasure. Never has there been such a home-coming, and never such a reminder of the sturdy, intelligent, splendid type of manhood and womanhood that the village has produced, and of which it may well feel proud.

The village is honouring those who have brought credit upon it. The warmth of the welcome has overwhelmed them. The old boys and girls are being tenderly, hospitably looked after, and there will be no complaints that the characteristics of the people have changed from those of one or two generations ago.

Every train has brought back a smiling, cheering, garrulous crowd of Old Boys and Girls. All last week they came, and on Saturday the numbers arriving grew. A certain liveryman made a wager with his driver that there wouldn't be 25 get off the trains on Friday night. The more optimistic driver took him up at $25.00, and won the bet. Over 50 came in on the two evening trains.

Saturday's trains disgorged great numbers, one of the arrivals being Charles Puffer, son of Constable Isaac Puffer, who holds the long distance record, having come all the way from Los Angeles. More were expected on Sunday, and another contingent on Monday, the big day of the celebration.

Motoring Home.

The youth of Norwood went forth to make a name on foot, and returned in luxurius automobiles. Dr. Fred Buck motored from Minnesota, William Rogers and family from Williamsburg, Pa., Thomas E. Rogers and family from Flint, Michigan, T. N. Johnson and family from Marshalltown, Iowa, Dr. Otto Howson from Kalamazoo, Michigan, and James and George Honeybell from Watertown, New York. Other automobiles are en route.

The Preparations.

The preparations for the Re-union have been going on for months. Fifteen hundred invitations were sent out, and it is expected that the figures will show that one-third have succeeded in getting home, which represents a splendid average. Up to Saturday night there had been 300 registrations at the Town Hall, and it was known that large numbers had not officially signified their presence.

The programme has been in charge of the Norwood Re-union Association, of which T. E. Finlay is president, Miss B. Pearce, secretary, and D. B. Cutcliffe, treasurer.

The majority of the old boys and girls have not been home in at least ten years. Many have not been in the village for 30 years, and one elderly gentleman, R. W. Reynolds, of Kansas, left Norwood 52 years ago to make his way in the world. So far, no one has disputed his claim of being the longest away from home.

The scenes of affectionate greetings, the joy when old friends meet, the tears and sorrow at mutual loss of loved ones have been worthy of a Dickens.

The Decorations.

The village has been put in a gala dress for the re-union. Flags and bunting have been generously used with an attractive result. Huge banners tell of the loyalty and hospitality of the people, and not the least satisfying is the manner in which the houses have been decorated and the lovely grounds that characterise the village made extraordinarily neat.

The village the old boys and girls have come home to reflects the character of an industrious and prosperous people.

The Opening Day.

Saturday was the opening day of the Re-union, and was devoted to renewing old acquaintances. The Town Hall was opened as the headquarters, and here the old boys and girls registered and received striking badges and name plates identifying them, so formal introductions were eliminated.

The re-union reached a supreme height on Saturday afternoon at the High School, where about one hundred of the old boys and girls met the principal, under whom most of them were conducted into the mysteries of geometry and Latin—John Davidson, M.A., LL.B., Principal at Norwood for over 25 years, and after long service now Principal at Havelock.

PRESENTATION TO REV. W. E. HONEY KEENE VILLAGE

Gets a Purse of Money From Congregation on Eve of Departure For New Charge.

KEENE, July 3.—A very pleasant evening was spent at the Methodist church on Friday evening, when the members of the church and Young People's Society assembled for a social evening for Rev. and Mrs. W. E. Honey on the eve of their departure to a new field of work. The evening was spent in addresses and musical selections, following which the members of the official board asked Mrs. Honey to come to the platform, and Mr. Kindred read the accompanying address:

Dear Mrs. Honey,—We, the members and adherents of the Methodist church have met together socially this evening to express to you our appreciation of the services you have rendered so faithfully in the interests of our church work, more especially in the musical department; as leader of the choir you have been most efficient and indefatigable in your labor during the four years you have been with us. It is therefore our pleasure to request you to accept this little gift as a token of our esteem. Trusting that you and your may long be spared to years of usefulness to the master whom you serve.

Signed on be half of the congregation: Joseph Taylor, Benj Kindred, Stanley Braden, David Tucker, David Edwards.

Mrs. David Edwards was called upon to make the presentation of a purse containing $30.

THE WEATHER

The rain on Saturday had the effect of throwing a damper (literally as well as figuratively) on many anticipated holiday picnics and excursions. The "probs" promised warm weather with thunderstorms, but early risers on Saturday were greeted with all the evidences of an all-day rain. However, late in the afternoon the sun came forth and the clouds dispersed. Total for the day .78 of an inch, one-half of which fell during the nigh[illegible]—W. D.

This test is Free

Don't you owe it to yourself? It will bring to your home a new conception of what cleaner teeth means.

Watch for ten days the delightful effects, then decide for yourself.

Added Charms
Whiter, More Sanitary Teeth
Millions now enjoy them

If all knew what millions know, all would brush teeth in this new way.

Everybody wants whiter, cleaner, safer teeth. Those who lack them envy those who have them.

The way is easy and delightful. It means just combating film. And this ten-day test will show you how to do that.

That dingy film

Teeth are coated with a film—that viscous film you feel. It clings to teeth, enters crevices and stays. Stains cause it to discolor. Then it often forms dingy coats, including tartar.

Old ways of brushing do not effectively combat film. So much remains to night and day threaten serious damage.

Film clouds the teeth's luster. It often becomes badly stained. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. So most things that wreck teeth and make them unsightly are now traced to that film.

A way to combat it

Dental science, after long research, has found two film combatants. Able authorities have proved their efficiency. Now leading dentists the world over urge their daily use.

A new-type tooth paste has been created, based on modern requirements. The name is Pepsodent. These two film combatants are embodied in it. Now careful people of some forty races apply it every day. And the glistening teeth you see everywhere show one of the results.

Other benefits

This new-day tooth paste brings two other much-desired results. It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth. If left to ferment they form acids.

It multiplies the alkalinity of the saliva. That is there to neutralize the acids which cause decay.

Those are Nature's tooth-protecting agents. Every use of Pepsodent multiplies their powers.

Watch it act

Learn what it means to you and yours. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using, how refreshing the mouth tastes. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

You will continually combat film-coated teeth when you learn what this method does. Cut out the coupon now.

STARTLING FIGURES.

The annual figures given out by the Dominion Bureau of Statistics are not usually of a startling nature, yet The Examiner readers will agree that the statement for 1920, showing that no fewer than 244 children were burned to death in that year in Canada, exclusive of the Province of Quebec, for which no returns are given, merits that description. The figures for the various Provinces are Ontario 89, Prince Edward Island 2, Nova Scotia 21, New Brunswick 14, Manitoba 34, Saskatchewan 46, Alberta 24, and British Columbia 14. All these children were under nine years of age. The report is not complete, inasmuch as the cause of the tragedies is not given, but it is safe to assume that the majority of the deaths were the result of carelessness. No wonder a Safety League has been organised to endeavour to educate people to exercise greater care in protecting themselves and their families, when in Ontario alone nearly one hundred children are burned to death in one year. Many of these fatalities were caused, no doubt, because matches were not kept out of the reach of little fingers or because children were allowed to play around bonfires. Other deaths were brought about because of the destruction of dwelling-houses by fires largely due to carelessness on somebody's part. The majority of the tragedies could have been prevented with ordinary care. The death total for one year is large enough surely to impress upon everybody the necessity of using greater precautions against fire.

NORWOOD'S RE-UNION.

Those pessimistic individuals who threw so much cold water upon the proposal to hold an Old Boys' re-union in Peterborough that they eventually succeeded in having the project abandoned, should be in Norwood to-day and judge from what has been accomplished by the hustling Re-union Committee in that village as to what could be done here if a similar event were undertaken with the same enthusiasm. Norwood is putting over the biggest success of its kind in the history of the village. The committee has not only been able to arrange a complete and well-planned programme, but has met with equally good results in securing the attendance of Norwood Old Boys and Girls from all parts of the continent. They were eager to come back to the old home village, to renew old acquaintanceships, to see the old faces and the old places, and no difficulty was experienced, once the project was announced, of obtaining the promise of hundreds of former Norwood people to attend the re-union. Norwood's success in this respect shows that Peterborough would have had little trouble in staging a monster Old Boys' Week that would have brought ex-Peterborough citizens back to their home city in huge numbers, and that could have been made the most memorable week in the city's history. The Examiner has no apologies to make for having first proposed that such an event should be held here, and our only regret is that the enterprise and "peptomism" possessed by the people of Norwood seem to be lacking in this community.

PEOPLE WHO ARE CARELESS.

Doubtless people in a mass are much the same everywhere, but there are times when one is inclined to wonder if Peterborough is not afflicted to an abnormal degree with citizens who have little regard for others, citizens who display a selfish lack of thought, and who must have rather unpleasant homes if they conduct themselves there as they do in public. For instance, at a band concert where there are many nuisances. First the motorists who persist in driving around in the vicinity of the park with all the noise their machines are capable of. Then the people who allow their children to romp around over those who are trying to listen to the band. And the larger class still, who bring newspapers to sit upon and then go away and leave them on the grass, regardless of the fact that picking them up means hours of work for the park staff. So, too, with picnic parties at Inverlea and other parks, who scatter the remnants of the feast around the sward, careless of the effect upon the appearance of the park or of the fact that much unnecessary work is caused. And the others who go to theatres and munch peanuts and oranges and then drop the shells and the peel upon the floor for somebody else to pick up. The list could easily be extended, but what is the use? They'd go on spreading newspapers and banana peels and tag ends of sandwiches around the parks just the same if The Examiner condemned the practice every night for a month. Nevertheless, there is a certain amount of satisfaction in calling this much attention to the matter.

TAXATION PROBLEMS.

An experienced tax collector has just made an estimate that the Government lost last year, by evasion of income tax, more than $150,00,000.

Because of this evasion, which bids fair to become a national habit, the Government is pushing forward its new Finance Bill, which is in fact a stronger net for taxpayers. This Bill will give the tax collectors more power to probe for undeclared sources of income and undistributed profits.

In short, a keen struggle has begun between the collectors and evaders of taxes. The Government is preparing new weapons for the hunting of its prey; and the prey are finding new and better ways of concealment.

Taxation in this island has become almost intolerable. No people but the British would endure it. Taxation has increased until it is sheer looting and confiscation.

"I myself paid 75 per cent. of my income in taxation last year," said Lord Burnham recently; "and some of my friends are paying 90 per cent."

Many are actually paying more than their income, because of the three years' average, which is taken as the basis of payment.

One Peer, who owns 47,000 acres, told me that he paid 125 per cent. of last year's income in taxes. He is now living in a small corner of a 60-room house, with only four servants and with his gardens leased to a local florist.

All told, the Inland Revenue Department collected $3,500,000,000 last year. A host of 10,000 tax collectors gouged all this money out of a sorely distressed nation, at the close of an exhausting war.

The total amount taken by the Government in all ways ,by rates and taxes both, was fully $6,000,000,000. Such a self-spoiliation has never been known in history, and no one knows what its final result will be.

The wonder is that so little has been lost by arrears and evasion, as the amount of both would amount to less than 10 per cent. of the total sum collected.

There are so many urgent reasons for evasion. There is the high cost of living—the depression in trade—the wastefulness of the Government—the general impression that evasion is being widely practised.

Above all, there is the reason that the income tax law itself is vague and complicated. As Lord Wrenbury has said, "no censure could be too strong for having expressed an act, and that a taxing act, in language so involved, so slovenly, and so unintelligible as is the language of the Acts of 1842 and 1853."

No one clearly understands the income tax law. Textbooks on it are sold on the news-stands. It is a dark, dark mystery, out of which accountants and lawyers reap large profits.

Few taxpayers can make out their own income tax forms. I tried to do so once, but soon gave it up. Now I pay an accountant $125.00 a year to fill out my forms. On the whole, it pays to do this, as the tax collectors are so apt to demand too much. Only once in eight years have I had a bill from the tax collector which was correct.

Consequently, when confronted with a vague law, enforced by zealous bureaucrats, it is not to be wondered at that taxpayers give themselves the benefit of any doubt.

The process of tax collecting in England has become a duel. On one side, the collectors try to collect too much, and on the other side, the taxpayers try to pay too little.

In theory, the people of Engand are taxed by law; but in fact they are taxed by four commissioners of taxation, who interpret and enforce the law.

Frequently, the tax collectors demand the payment of taxes not due. They make threats. One collector, who was for a time notorious in London, had his office decorated with newspaper clippings, giving accounts of the conviction and imprisonment of tax-dodgers.

Many tax commissioners conduct inquisitions. They put citizens through the third degree. They haze and harry men who are entirely honest and reliable. All this has created a profound feeing of resentment, which will presently be shaped into action, by the amendment of the tax laws.

As a matter of fact, there are right and wrong methods of evading income tax in England. The Earl of Plymouth, for instance, has recently organised his estates into a limited company. By doing this, he has reduced his taxes from $70,000 a year to $15,000. This is legal and legitimate.

Other ways, not legal, are the keeping of two sets of books—the juggling with stock figures—the transaction of business without records and the charging of personal purchases to company expenses.

The penalty for tax-dodging is fairly severe. The culprit is fined three times the amount of his evaded tax, or imprisoned for not more than two years, or both. For aiding and abetting, there is a fine of $250.00.

On the whole, the tax commissioners have not been quick to throw delinquents into Court. Public opinion would not permit this. No one has been punished who confessed to any evasions.

The worst tax-dodgers, in all parts of Britain, have been the wage-workers. On one occasion, 30,000 warrants were served on Welsh coal miners, for non-payment of income tax.

A very strong and aggressive organisation has recenty been formed, called the "Income Taxpayers' Society." It has 50,000 members and Lord Decies is at the head of it.

Its aim is to have the income tax law re-written, in clear language, and to protect people from extortion.

Last week, this society recovered $100.00 for a taxi-driver, $400.00 for a grocer, $1,200.00 for a manufacturer, and $2,500.00 for a landlord.

So, at the moment in Great Britain, the twin evils of extortion and evasion of taxes are existing side by side. Both are socially destructive, and the whole mattr is being talked about and discussed freey in the press.—Herbert Casson in Barron's.

EDITORIAL NOTES AND COMMENT.

Saturday's rain may have been worth millions to the country, but you couldn't make many people believe it.

Even the Liberty Leaguers prefer Ontario to be dry on a holiday.

Miss Agnes MacPhail, M.P., has returned a portion of her sessional indemnity. Hats must be doffed to the lady member.

Many Ontario towns are providing camping facilities for motor tourists. Peterborough should get into line.

Peterborough occasionally furnishes a reason why a blue sky law should be passed in Ontario.

The reductions in freight rates are not huge, but they are nevertheless welcome.

Norwood old boys are invited to "paint the town red" to-night. Doubtless many of them used to do that in the old days without any formal invitation.

The Legislature's special hotel committee is visiting the summer resorts. Perhaps they may be able to suggest, after their inspection is over, a method of defence against rapacious mosquitoes and ditto landlords.

EVENT OF SEASON AT MILLBROOK.

Attractive Features at a Strawberry Festival.

MILLBROOK, July 3. — The strawberry festival held at Centreville on Thursday evening, under the auspices of the Presbyterian church, was the only event of the kind in this vicinity so far this season to be favored with fine weather, hence the number in attendance was unusually large, $200 being taken at the gate, and there were also the receipts from the sale of homemade candy, cones, etc., at the booth.

The tea tables were laid in the open ,and after the appetites of all comers had been satisfied with the abundance of good things provided, Rev. Mr. McConnachie took the chair, and the excellent programme which had been arranged for, was proceeded with. In his opening address the chairman related a number of interesting facts in connection with his trip to his home town of Ayr "in bonnie Scotland," where he was about this time last year. Rev. D. N. McCamus, now of the London conference, who several years ago was pastor on the Millbrook circuit for a three year term, was also present and many of his former friends and acquaintances were delighted to listen to him once more when he was called upon to speak As Mr. McCamus possesses a fine voice by special request he sang a Scotch lullaby, "Now, bairns, cuddle doon," at the conclusion of his remarks. His statement that he was born and spent part of his boyhood not far from Centreville (in connectoin with which he related some interesting facts regarding the early church history of the township) together with the information that though he is a Methodist minister, yet his father was an Anglican, came as a surprise to many.

The order of the programme was as follows:

Chairman's address—Rev. A. McConnachie.

Vocal address—"Mary o' Argyle," Mr. Smith, Peterboro.

Recitation, "Wednesday, Bargain Day," Miss Blanche Davidson.

Selection on Hawaiian Harp, Mr. Edwin Eagleson, with piano accompaniment by his sister, Miss Jean Eagleson, Bailieboro; address, Rev. McCamus; Solo, "Nancy Lee," Mr. Smith; Recitation, "Bill," Miss Davidson; Selection, Hawaiian harp, Mr. Eagleson; Solo, "In an old-fashioned Town," Mr. Smith; Recitation, "Pulpit Oratory," Miss Davidson.

All the numbers received hearty encores which were kindly responded to by those taking part, the singing of the National Anthem finally bringing the pleasant gathering to a close.

CHAUTAUQUA OPENING EVENT IN PETERBORO.

The Ottawa Morning Journal, for June 26, 1922, says of the first day's programme at Chautauqua:

FINE ENTERTAINMENT AT THE CHAUTAUQUA—CROWDS ENJOY EXCELLENT MUSIC AND ADMIRABLE LECTURES.

Unique among entertainments, bright, interesting and profitable, Chautauqua opened a six day Ottawa engagement Saturday with a morning, afternoon and evening programme all given in a great airy tent on Cartier Square. Three comfortable audiences heard excellent music, and admirable lectures worth considerably more than the moderate admission charge. Mayor Plant was present in the afternoon and introduced the Superintendent, giving his hearty commendation of the Chautauqua principle. In the evening Rev. R. B. Whyte, of Knox Presbyterian Church, introduced John Duxbury, as "England's Greatest Reciter."

A GARDEN PARTY AT ST. GEORGE'S.

Pleasant Event in Which Old and Young Found Pleasure.

A very pleasant garden party was held on the grounds of St. George's church, south Peterborough, Thursday evening. The weather was all that could be desired, and a large crowd was in attendance.

The ice-cream booth was under the capable management of Mesdames Huxley, Moore, Sister, and McWilliams. Mesdames H. Rew, Sr., Hopkins and Sowden supervised the fancy-work table, and Mrs. Brownlee and Mrs. H. Rew Jr., were in charge of the fish-pond.

The grounds were gayly decorated with streamers of red and green The Melody Band were in attendance and provided excellent music throughout the evening. Before the last number Rev. W. R. Courage tendered a vote of appreciation to the Band.

Under the management of Mr. Cole, some of the younger people amused themselves tripping the light fantastic in the basement of the church.

During the evening a raffle was held, the lucky winner, Mr. Albert Cole, becoming the owner of a warm quilt for the sum of 10c. The proceeds were quite satisfactory, and the ladies in charge wish to thank all those who helped make the affair a success.

METHODIST GARDEN PARTY, AT CAMPBELLFORD, PLEASANT FUNCTION

CAMPBELLFORD, June 29.—Although the weather on Tuesday was for the greater part of the day, most unpromising, the evening became more favorable and the garden party under the auspices of the Methodist Church was quite well attended.

The grounds were prettily decorated and well lighted and those in charge of the various booths, were unusually busy. In charge of the candy booth, with its generous supplies of delicious candy, were Mesdames L. B. Glover, P. Denyes, W. Wiggins, H. Denike. The flower booth in charge of Mesdames G. A. Payne, and F. J. Smith and T. Varcoe was a bower of loveliness. The Ice Cream Booth in charge of Mesdames W. H. Ashton, C. Williams, Joseph Hore, P. Sherwin, W. Abernethy and Mr. Willie Hore did a flourishing business. The Soft Drink Booth in charge of Mrs. J. A. Kingston, assisted by Misses Minnie Winters and Eleanor Ferris and Messrs. Gerald Wilson and Howard Wood did a flourishing business. The Home cooking was in charge of Mesdames J. T. Frederick, W. E. Carnahan, G. W. Hammond, L. F. Gould, G. Oliver, The Tea Table was in charge of Mesdames J. A. Irwin, C. Davidson, E. J. Bonney, Mrs. R. Moore, E. T. Morton, A. J. Beavis, Wm. Bateson, Mrs. Holmes Miss Boyce and Mrs. Wilson.

Good Programme.

A very interesting programme of readings, drills, etc., given by the little folks in pretty costunes was rendered in the basement under the efficient direction of Mrs. R. T. Cowell, and was well attended. A novel feature was "The Wishing Well," in charge of Miss Hilda Cowell with her charming little tots, which proved most attractive. The telegraph office had a large staff of operators. Messengers, who were kept busy receiving and transmitting humorous little messages. The Northumberland Regiment Band, under the direction of Mr. Cowell, contributed most pleasing numbers, they contributing very materially toward the evening's pleasure.

The proceeds of the evening, which it is thought will reach well over three hundred dollars, is most gratifying, considering the rather inclement weather.

IN MILLBROOK AND DISTRICT

Social Events in District—Quarterly Meeting.

MILLBROOK, June 30. — The strawberry festival held on Tuesday evening at the home of Mr. Jas. Paul, 8th line, Cavan, was quite successful, though the attendance was considerably lessened by the heavy rain which occurred about 6 p.m., just when the majority of car-loads were prepared to motor out.

However over $75 was taken in at the gate, and the receipts from the booth, which was in a sheltered part of the grounds and consequently well patronized, brought the total amount to a sum well over $100. The junior ball team from Millbrook played their return game with the Cavan Centreites in the earlier part of the evening, the result being a score of 6-5 in favor of the latter. The tea was served in the big driving shed, which was cleared out and appropriately arranged for the occasion, the waiters being most attentive in seeing that all comers were bountifully supplied with strawberries, and the other good things provided.

Mr. H. R. Armstrong made a very capable chairman for the excellent programme, which began about 8.30 p.m., using the wide verandah as a platform. Miss Ethel Richardson, the organist of the church, whose musical ability is too well known to require comment, played a number of instrumental selections while the tea was being served, and the audience afterward comfortably seated upon the lawn, and also rendered an opening piano solo, which was followed by a vocal solo by Rev. Mr. Gervan, and a men's chorus, "Canada My Country," those taking part in the latter being Messrs. H. W. Johnston, H. Hubbeard, V. Hunter, G. S. Gervan and E. Armstrong. Others who assisted were Mrs. Gervan, whose vocal solo, "Thorah," and Miss Richardson's "When the heart is young," received hearty applause, as did also an enjoyable duet by Mr. and Mrs. H. W. Johnston, readings by yMiss Anna Hawthorne, and Rev. G. S. Gervan, and some community songs by the Canadian-Girl-in-Training, the latter concluding with their group "yell." A closing chorus by all the performers, "Good-night," with the National Anthem, brought a very pleasant gathering to a fitting conclusion.

Ministerial Changes.

The final draft of stations for the Bay of Quinte Conference, which closed its sessions at Whitby on Monday evening, contains some changes of interest to people in this vicinity. Rev. G. R. Clare, who spent four years on the Millbrook circuit, was elected President, and is also chairman of the Cannington district, but on account of ill-health, was, at his own request, left without a charge for at least one year. His brother, Rev. D. R. Clare, B.A., B. D., who spent some time as pastor on the Cavan South circuit, removes from Colborne East (Salem charge), to Marmora. Rev. S. F. Dixon goes from Lakefield to Odessa and Wilton. Rev. C. S. Reddick taking the circuit he vacates. Rev. S. T. Tucker, B.A., B.D., of Millbrook, was elected chairman of the Peterborough district, and Rev. Andrew McLaughlin, B.A., B.D., who has spent five prosperous years at Pontypool, moves to Keene, and has also been appointed Secretary of Religious Education for the Campbellford district.

Rev. W. Higgs, who preceded Mr. Tucker at Millbrook, is chairman of the Madoc District, and Rev. L. S. Wight, at one time in charge of the Cavan South circuit, is financial secretary, while Rev. G. C. R. MacQuade, who during his student days was also on the same charge, goes to Bloomfield.

The charges against Rev. C. S. Applegath, preferred by Messrs. W. T. R. Preston and W. F. Wilson, of Port Hope, were officially wiped off the slate, being merely taken as read, and the whole affair passed over to the Hamilton Conference, of which Mr. Applegath is now a member; hence, unless they seet fit to take some action, nothing more will be heard of the matter. Rev. J. W. Baird, of Hamilton, succeeds Mr. Applegath at Port Hope by invitation of the Quarterly Board.

Quarterly Meeting.

The annual quarterly meeting of the Methodist Sunday school executive was held on Tuesday evening, the superintendent, Mr. F. W. Fallis, being in the chair. After the opening prayer by the pastor, items of business were discussed, the principal subject for consideration having reference to the time and place for holding the annual picnic. It was finally decided that Thursday, July 20th was the most suitable date, and, if a sufficient number of cars could be secured, the outing would be held at Victoria Park, Cobourg. Other matters relative to the welfare of the school were attended to, including the necessity of appointing a teacher for the Beginners' class in the Primary Dept., as Miss Gertrude Richards, who has very capably filled the position for some time, is leaving shortly for Fenelon Falls, intending to spend the next year there with friends. The matter of sending delegates to the training camp for leaders in boys' work at Pine Tree Point, Rice Lage, July 10-17, also received consideration, though no one was definltely decided upon, as the Tuxis Boys and Trail Rangers expect to have a local camp of their own in the vicinity of Millbrook this summer.

The usual bills were ordered paid, and the meeting was closed with prayer by Rev. Mr. Tucker.

Manvers Station Festival.

Messrs. J. L. Byam, Alvin Richards, Miss May Byam and Messrs. Lloyd and W. Byam were amongst those assisting with the musical part of the programme at the strawberry festival held at Manvers Station on Tuesday evening. Though the rain compelled the holding of the event in the church, contrary to previous arrangements, yet $75 was cleared from gate receipts, and other sources. The tables, fairly groaning with their weight of berries and other appetizing dainties, were laid in the basement, and the programme which followed was given upstairs, Rev. A. McLaughlin, of Pontypool, acting as chairman in his usual efficient manner. The Bethany Band was in attendance and rendered several enjoyable selections during the evening, others assisting being Miss Ida Payne, and Mr. and Mrs. Perry, of Pontypool, the former whose readings are becoming increasingly popular, twice delighting the audience with her numbers, and the latter being heard in vocal duets which called forth well-merited applause.

"Golden Link" Meet.

The "Golden Link" Mission Circle of the Methodist church held their closing meeting, until after the holiday season, on Wednesday evening, June 28th, at the home of Miss Martha Lunn, Carmel, the members going out by motor. The president, Miss Marjorie Skitch, occupied the chair, and Miss Marian Spence read the Scripture lesson. Following the devotional period, items of business were taken up, arrangements for working the autograph quilt, during the summer months being attended to, and in the absence of the secretary, Miss M. Spence was appointed assistant, after which the "Heralds" reported for the "Watch Tower," several interesting facts from the mission fields, both home and foreign, being given. Miss Gertrude Richards gave a reading, "A Wedding in China," which was much enjoyed, as was also one by Miss May Donaldson, "Mary's Change of Mind."

All present took part in a very cleverly arranged contest in which the answers to the questions asked were the names of the Circle members and Miss Lunn and her mother served refrsehments in their usual well-known hospitable manner during the social hour, which brought a most delightful meeting to a close. Those present included: Misses M. Byam, S. Hetherington, A. Brock, M. Luxton, A. Stewart, M. Skitch, M. Donaldson, M. Spence, O. Fallis, G. Richards, M. Lunn, M. Bristow, M. Gibson, Mrs. S. R. Nicholls, Mrs. J. L. Byam, Mrs. Hubbard, and Mrs. R. Lunn.

Acceptable Talent

In the report of the Strawberry Festival held at Mr. Joshua Smithson's, Zion, the name of Mr. Harold Devey was inadvertently omitted from the list of those who took part in the programme. Mr. Devey gave a reading that was well received and also acted as accompanist for some of the musical numbers.

HAPPY CROWDS AT THIS GARDEN PARTY

CAMPBELLFORD, July 3.—Nothing short of a Mardi Gras in Sunny Italy could have, rivalled the Garden Party given under the auspices of St. Andrew's Church at Burnbrae on Friday evening. To watch the happy crowds was to realize that it was one of the biggest events of the season. Cowell's all star band furnished the music.

MOTHER SAVES DAUGHTER'S HEALTH

Lydia E. Pinkham's Vegetable Compound Helped Both Mother and Daughter

Lumsden, Saskatchewan. — "My mother had taken Lydia E. Pinkham's Vegetable Compound and when I needed something for my periods I took it and got good results. I recommend it to women with any female troubles and I know other women who have been helped by it and do the same"—Mrs. Max Retzer, Lumsden, Saskatchewan.

Many cases like this come to our notice. Lydia E. Pinkham's Vegetable Compound is often recommended by the mother and the grandmother too, for bear in mind, it has been helping women for nearly fifty years.

Women Tell Each Other

In your own neighborhood are women who know the value of this wonderful medicine and they talk to one another about it. So if you are troubled with pains and irregularities, a tired feeling, nervous and sleepless spells, or have other annoying symptoms caused by some female trouble, you have only to ask some neighbor what she thinks of your taking Lydia E. Pinkham's Vegetable Compound.

CAMPBELLFORD AND DISTRICT

Garden Parties Under Auspices I.O.D.E. and St. Andrew's Church — School Board Engages Teachers.

GENERAL NEWS.

CAMPBELLFORD, July 3.— On Sunday morning, July 9th the Orange and True Blue Lodges of town, with visiting brethren, will attend divine service in the Methodist church. This being the first of the union services, Rev. C. F. McIntosh, M.A., B.D., will have charge of the service.

Garden Party.

As in previous years, the annual garden party held under the auspices of St. Andrew's church, Burnbrae, was most largely attended. The weather was ideal, and the reputation the ladies of Burnbrae have aready attained for the serving of abundance of toothsome viands, together with the charming music, always rendered by the Northumberland band, drew unusually large crowds. The proceeds were most gratifying to congregation and pastor.

I.O.D.E. Garden Party.

The I.O.D.E. garden party to be held on the school grounds on Wednesday afternoon, under the auspices of the Campbellford Chapter of the Daughters of the Empire will, it is anticipated, be a grand success. Ice cream, soft drinks, and lunch will be sold and a novel feature will be a 'dog show,' at which Mr. I. A. Humphries has kindly consented to act as judge. The ladies are sparing no pains to make this an unqualified success. The proceeds are to be devoted to the War Memorial Fund, and it is to be hoped all will help the I.O.D.E. in this most worthy cause.

Teacher Engaged.

The Board of Education held a meeting on Thursday evening in the Public Library and the following teachers were engaged; The Misses Ruth Diamond, Evelyn Irwin, Helen Cairns, —. Ketcheson, May Hubble, replacing Miss Florente Hislop, Miss Fitzgerald, Miss F. Smith, Miss Weir, and Miss Dorothy Hislop, who have resigned.

Funeral of Mrs. Mitchell.

The funeral of the late Mrs. George Mitchell took place Friday afternoon from the family residence, Grand Rd. to Mount Pleasant cemetery. The service was conducted by the Rev. C. F. McIntosh, of St. Andrew's church. There were many beautiful floral tributes, and messages of sympathy from friends at a distance, who were unable to attend, testifying to the esteem in which the deceased was held.

Town Council To-night.

The Council meets to-night July 3rd, at the Library, when the question of the 'Old Ogilvie Stone House' property comes up for discussion. Many of the citizens are of the opinion that this would be the right place for a town building, as at present the offices are scattered. Every reasonable person will admit that the west side of the river has been overlooked and is really entitled to something, so, interested ratepayers, be on hand.

HEMORRHOIDS

Do not suffer another day with Itching, Bleeding, or Protruding Piles or Hemorrhoids. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free.

PREM. DRURY OPENS THE NEW COMMUNITY BLDG. AT WARKWORTH

A Memorial to Canada's Youth Who Played Their Part in the Great Struggle By Canadians For Civilization and the World's Safety.

SPORTS POSTPONED.

"The greatest service that Canada can render to the British Empire or to the human race; the greatest contribution that Canada can make; will be to interpret to each other the two great branches of the Anglo-Saxon race; the British Empire on the one hand and the United States on the other," declared Hon. E. C. Drury at the opening of the new Memorial Community Building at Warkworth on the after noon of July first.

Despite the steady downpour that visited Warkworth as well as surrounding centres on the holiday, a downpour that effectually postponed the elaborate program of sports which had been planned for the afternoon, the Town Hall was filled to its capacity of between three and four hundred for the address by the Premier.

Ideals of Peace

Referring to the part played by the youth of Canada in the great struggle for civilization and the safety of the world, Mr. Drury said: "One of the tragedies of war is that; while the folly of older men brings it about, it is the boys of the country that pay the price. Some feared that the influence of the great conflict would turn Canada into a military country but the idals of the boys who went over were the ideals of peace. The ideal that sustained them and that they brought back with them was that of a world dependent on justice rather than on might.

A Lasting Monument

"You have to-day opened a fitting monument that stands for common service, and for the upbuilding of the peace of the community; it is a fitting monument and yet no monument of brick or stone could be a fitting or sufficient monument to those who made the sacrifice. The monument that must be built will be a monument of national service and national ideals, to fulfill the obligaton laid upon us to make Canada, "a nation in the British Commonwealth of nations", to quote Mr. Lloyd George. Canada is the keystone of the British Empire and as Canada solves her problems so will the problems and destiny of the British Empire be solved. To do the thing for which our boys fought and suffered and died, to promote international justice, peace and good will, we must be a united people. There is room on this North American contigent for two great nations with two forms of goverment, but there is no room for a single misunderstanding nor for a atom of ill-will, and we thank God for the three-thousand mile frontier that has existed between ourselves and the United States for the last hundred years, with not a gun or sentry along the length of it. It represents in a small measure the spirit of common service that was the ideal of those sacrificed in the Great War, but we must have a living monument in the minds and hearts of our people of peace and justice and good will. May that monument be built in your heart and in mine and in the hearts of all good Canadians, because in the building of that monument lies our highest service to our land, to the British Empire and to humanity."

A repeated round of applause greeted the Premier's speech, following which the Last Post was sounded by the bugler of the G.W.V.A. organization, thirty of the members of which attended the meeting, with about fifty of the Girl Guides. The Rev. R. McGillivray acted as chairman of the meeting.

Evening Concert

In the evening, the Town Hall was again filled for the concert given by the Gourley Concert Company, a bright musical company which included an excellent baritone and a contralto soloist, a pianist, a couple of comedians, a trio of clever tumblers and acrobats and a really excellent accordeon player, who gave some remarkably fine selections and imitations on a full-sized and a toy accordeon.

The Memoral Hall

The new Memorial Hall is a splendid testimoniat to the enterprise of the citizens who conceived and carried through the erection of the handsome red brick building, with its pillared porch and imposing marble entrance, where is inset a beautiful slab of green-veined marble, inscribed in gold with the names of the thirty-men from Percy Township who fell in the Great struggle. The interior contains a small, brightly-lighted reading room adjoining the stack room and desk which will be utilized for a library, while the other portion will be a community rest room. Facing the street outside the front entrance is a small trench mortar, flanked on either side by machine guns, the whole building, with the sensible uses to which it will be converted, forming a lasting and beautiful memorial to the boys of the township of Percy.

WOMEN POLICE.

LONDON, July 3.—(Canadian Press)—In view of the protests against the abolition of the London women police, Rt. Hon. Edward Shortt, home secretary in the house of commons Friday offered to retain a nucleus of the li her officers of the force in order to secure a new force when financial conditions warrant.

The women members of the house Lady Astor and Mrs. Wintrigham were the champions of the women's cause.

RECEPTION OF NORWOOD OLD BOYS, NORWOOD

Many Old Friends Met Again After an Absence of Years — A Happy Occasion.

MASONIC PARADE.

NORWOOD, July 3.—On Saturday evening a reception was held in the armouries. Many old friends who had not seen each other for a number of years, met and a very pleasant time was spent. An old acquaintance contest made it possible for some to meet who would not otherwise have done so.

The winners of the contest were Mrs. Jno. Weir and Mr. J. R. McKelvie.

Mr. T. E. Finlay, President of the Re-union Association, read the address of welcome from the Society, after which Reeve Montgomery extended greetings on behalf of the village. Others who addressed the gatherings were Mr. John Davidson, a former principal of the High school, Mr. Chas. O'Reily, Mr. J. B. Pearce, Mr. Arthur Brethen, M.P., Mr. E. N. McDonald, M.P.P. and Mr. R. J. Stuart of Toronto,

Sunday Events.

The weather on Sunday was all that could be desired. Services were held in all of the different churches.

In St. Paul's Roman Catholic church mass was said at 9 a.m. by the Rev. Father McCarthy, and at 1.30 by the Rev. Father Neil McNulty, a former Norwood boy.

In the Methodist church three services were held at which the regular choir was augmented by a number of Old Boys and Girls, who were former members of the same. The Rev. Mr. Rogers, pastor of the church, conducted the services. In the morning an anthem, "O Come Let Us Worship," was sung by the choir and Mrs. Porter, leader of the choir, sang a solo.

At 3 p.m. there was a Masonic service when about a hundred of the craft paraded from the lodge room to the church. After the service in the church, when again in their room, several of the visiting brethren made short speeches.

In the evening a song service was held which was enjoyed by all present. Large congregations attended at all three services.

In the Presbyterian church the services were in charge of the Rev. D. A. Thompson of Hastings, who gave two very interesting and appropriate sermons. In the morning the text was: "Other men laboured and yet have entered unto their labours." The choir, assisted by some of the old members, rendered an anthem, entiled, "Sun of My Soul," the solo parts being taken by Mr. Hubert Calder of Toronto. Miss Leslie Berry rendered a solo, 'The Lord is My Shepherd."

At the evening service the text was: "Remember this day," Ex. 13-3. Solos were rendered by Miss Berry and Mr. Calder, who both possess splendid voices.

GALA TIME FOR YOUNG AND OLD

(Continued from Page 1.)

all kindly and most of them amusing, flew about fast and furiously. Mr. Davidson recalled many incidents in connection with the High School life that brought smiles and tears alternately.

E. P. Cuffe, chairman of the Board of Education, regulated the din and controlled the school by the good old bell.

Wesley Reynolds, the Kansas veteran, who has been away from the village for over half a century, pointed out that when he attended school 69 years ago there were not many conveniences or luxuries. His mother, he said, used to give him brown sugar on bread for dinner, with the injunction, "Now be a good boy, Wesley, and some day you'll turn out to be a storekeeper," which he did. At school they sat on slabs of wood, he said. He declared they should be thankful for the luxuries and blessings to-day.

Rev. J. J. McCarthy, of Norwood, who was one of Mr. Davidson's pupils, remarked many changes even in a quarter of a century. The theory of relativity and the radio were undreamed of. Times have changed politically, socially and economically. He started to teach school at $225.00 a year, he said.

Gave Them Success.

"We can't throw this man too many bouquets," said Dr. Otto Howson, of Kalamazoo, of Mr. Davidson, who was deeply affected by the tributes paid him. "Absolutely, boys and girls, we owe our success to Mr. Davidson. He was stern, but I want to say the fellows who have gone out from here and made a success, did it on the basis they learned here."

"Never did I go to him for advice or assistance, but he gave it to me," said Mrs. Walter Fowlds, of Hastings, a former teacher at the school.

Other speakers who eulogised Mr. Davidson and spoke highly of the work of Norwood High School were: Edward Bewell, Unionville, a brother of Henry Bewell, a former principal, now in Winnipeg, who expressed his regret at not being able to attend; Jack Chandler, Detroit; Dr. B. Scott, Sault Ste. Marie; F. N. Rutherford, St. Catharines; Dr. Arthur Scott, Michigan; Mrs. F. Forward, Ottawa, and the present principal, R. G. Lawlor, B.A.

While the photographs at the Town Hall proved of much interest, a photo at the school of the late Joan Moore, who was principal before Mr. Davidson, and who taught many of those present ,was of interest, as was a testimonial to his work, dated 1874, signed by P. M. Grover, chairman of the High School Board, William E. Roxburgh, Peter Pearce, Richard Clark, John A. Butterfield, and W. H. Stephenson. A register was kept of those pupils who have entered the teaching profession, and on Saturday afternoon twelve names were put down.

Baseball Game.

An exhibition baseball game between Havelock and Keene that should have been an interesting fixture, was scheduled, but on account of the inclement weather the railroad boys failed to put in an appearance. As it was too late to notify Keene, Norwood, to make some excitement, got up a scratch team to play them. They were considerably weakened by the absence of their twirler, Doc. Jack Green, and Keene had little difficulty in winning the game. According to count, the score was 23 to 2. The line-ups were:

Keene—A. Fletcher, 2b; O'Dette, p; C. Nelson, 3b; A. Renwick, 1b; F. Hawkins, c; M. Robertson, cf; J. O'Dette, lf; J. McCarthy, ss; M. Renwick, rf.

Norwood—Tom Robertson, 1b; T. King, ss; L. Levingstone, p; C. Watson, cf; R. Portway, lf; E. Finlay, rf; A. Kempt, 3b; F. Whettan, 2b; Borland, c.

In addition to the ball game, a number of concessions that have located at the Fair Grounds got an afternoon's crowd, and look for bigger business on Monday.

The Alderville Indian Band furnished music.

The Wanderers.

Among the hundreds of old boys and girls who registered on Saturday were those in the list that follows. No one is likely to dispute Mr. Reynolds' name at the head, as he has waited 52 years for the privilege:

R. W. Reynolds, McLouth, Kansas; Susie J. Stenhenson, Kamloops, B.C.; Dr. F. H. Buck, Shakopee, Minnesota; Dr. J. Scott, Sault Ste. PROF. JOHN DUXBURY—"ENGLAND'S GREATEST RECITER."

It is a recorded fact th t Prof. Duxbury delivers annually a greater number of recitals than any other artist in the United Kindom. He will be greeted with enthusiasm wh en he appears here at Chautauqua this week.

PART OF PETERBORO CHAUTAUQUA'S FIRST DAY.

The Ottawa Journal says: Preceding Mr. Duxbury, the Ferguson Operatic Quintette, beautifully costumed presented scenes from "Martha," including the spinning wheel quartette. "The Last Rose of Summer" was particularly appreciated.

Afternoon Programme.

In the afternoon the programme was given by the same company, which consisted of Miss E. Burgess, soprano; Miss Frances Burgess, contralto; Mr. Francis Dier, tenor; and Mr. Harry O. Ferguson, baritone, Miss Margaret Mullowney was a most acceptable accompanist. The singers were uniformly good as to voices and interpretive power, and they presented a programme which displayed their versatility. The negro spirituelles were most enthusiastically received; also selections from Cadman's "Morning of the Year." A big undertaking was Dudley Buck's "Te Deum." There were also light opera selections, the sextette from "Floradora," Harry Lauder songs and others.

MANY CELEBRITIES ATTEND CANADIAN DINNER IN LONDON

Duke of York Among the Speakers, May Pay Visit to Canada in the Near Future.

THE EMBARGO.

LONDON, July 3.—(Canadian Press).—Premier Lloyd George was unable to attend the Dominion Day dinner Friday night owing to pressure of other duties. The Duke of York, however, was present and Winston Churchill, Secretary of State for the Colonies, was another prominent guest. Owing to Dominion Day falling upon Saturday, the annual dinner, as well as other events in celebration of the establishment of the Dominion held by the Canadian colony in London, took place Friday.

The Duke of York, responding to the toast to the Royal family, suggested that before very long he might have an opportunity of again making the acquaintance of the Dominion. The Duke made happy reference to the Canadian flag "carrying the lions of England and the lillies of France." Among his humorous sallies was an allusion to the Great Lakes carrying most of the fresh water of the world, a fact which precluded Canada from being described as a dry country.

Mr. Churchill, referring to Canada's part in the Washington Conference, said. "We may look forward to a long period of fair weather, for which condition of things we owe a great deal to Canada."

Touching on the embargo against Canadian store cattle, the Colonial Secretary remarked: "I shall rush in where angels fear to tread. I look forward with high hopes to the day when the embargo will be removed. Nobody who knows anything of the burdens of British agriculture would speak with want of sympathy regarding a matter so vital, not merely to the prosperity, but even the health of these islands; but means can be found to help British agriculture without placing an altogether unwarranted stigma upon Canadian herds."

Here Mr. Churchill was interrupted by a cry about killing the fatted calf. "It is not a case of killing the fatted calf," he replied, "it is the case of a calf yet to be fatted."

Speaking of the Irish situation, Mr. Churchill described the present position as far too soon to voice any expression of confidence that the dark days were passing away.

Guests at the Cook cottage are Messrs. C. Powell, McLung, Spence and McCracken, all of Toronto.

YEAST NO "FAD" SAY SCIENTISTS

The greatest scientific minds agree that yeast is one of the most important medical discoveries. No method of banishing skin eruptions or building health has yet been found which can equal it. This is because yeast contains certain vital elements which are lacking in the modern diet. Already millions of people have secured amazing benefits from yeast. Recently, however, a new process has been discovered, called "ironization," through which people are securing benefits from yeast in just half the usual time. This process, embodied only in Ironized Yeast, helps to immediately convert the vital yeast elements into firm tissue and rich pure blood. If weak, thin or run-down — or if troubled with pimples, blackheads or boils, it will pay you to try Ironized Yeast at once. To try Ironized Yeast entirely free simply mail postcard for Famous 3-Day FREE Test. Address Harold F. Ritchie & Co., Ltd., Dept. 87, Toronto. Ironized Yeast is recommended and guaranteed by all good dealers.

GOLDEN WEDDING AT OLD HISTORIC HOME.

RATHER DAMP

Old Jupiter Pluvius seems to be a very fickle fellow. When Leaside came to visit us he was right on deck batting a thousand for the locals, but he changed his tune Saturday and played for the Cobourg aggregation. He turned on the moisture early in the morning and forgot to turn it off until he had ruined a perfectly good July 1. As a result the local game with Cobourg and St. Andrews and all Central League games had to be called off.

RAIN PREVENTS BALL FIXTURES

Saturday's Games With Cobourg and St. Andrew's Both Had to Be Cancelled

A BIG GATE LOST.

Saturday's rain knocked the baseball programme, like nearly every other Dominion Day activity, galley west, and both the Central Ontario League game with Cobourg in the morning and the exhibition game with St. Andrew's of Toronto in the afternoon had to be called off.

As a result, the fans were robbed of two good games, and the Peterborough club suffered the loss of a much-needed gate, and have another postponed game on their hands. It is certain that with fine weather the attendance record for Riverside Park would have been shattered at the morning game, for the fixture had fandom widely excited. Cobourg were well satisfied not to have to play on Saturday, for McCaffrey, their big first baseman, was on the injured list, and they were not anxious to face the Petes at Riverside Park without their full strength, especially as a loss would have pulled them out of first place.

The Petes play Belleville here on Wednesday evening, the game being called for 5.30 o'clock at Riverside Park. On Saturday they go to Bowmanville and after that they have two postponed games to play up, one in Lindsay and one in Lindsay here with Cobourg.

CAMPBELLFORD WON HOLIDAY LACROSSE FROM BRADFORD

Free Scoring Game Gave Treat Team 18 Goals to Visitors' 11—First Period Was Close But Campbellford Cut Loose in Second Period and Ran Up a Big String.

CROWD FAIRLY LARGE

CAMPBELLFORD, July 3.—For the first period and part of the second the exhibition lacrosse game between Campbellford and Bradford intermediates on Dominion Day gave every promise of being a close, fast and hard contest right up to the end, with the likelihood of only a goal or two either way in the final score. And at that stage, playing around the practice net which they are so familiar with they could locate blindfolded, Elbe Somerville and his mates started a rally that ran the score at half time to 7-2 for Campbellford, 14-3 at the end of the third and 18-11 at the finish. Two substitutes were used in the final quarter, and Bradford found the change to their liking, getting six goals to Campbellford's four in that session.

At two o'clock the lacrosse club executive looked up at the still dripping skies and announced that rain or shine the game would be started promptly. Bradford had arrived by motor cars about two o'clock Saturday morning in charge of T. E. Bell, manager of the Standard Bank in Bradford and secretary-treasurer of the lacrosse club, which has several championships to its credit. Mr. Bell lived here at one time and was manager of the local branch of the Standard Bank. His visit with the team therefore had a special significance, and he was warmly welcomed by his old fellow townspeople and friends.

Mr. Bell is keenly interested in lacrosse and has a team that looked mighty good in spots, and in others seemed weak and unable to keep their pace. Several of the men were juniors, Busby and C. Evans, but they did not noticeably weaken the team. In fact, they gave a good account of themselves.

The Personnel.

The teams lined up as follows:

Bradford—Goal, W. Waldruff; points, O. McKinstry and W. Reeves; defense, L. Church and J. Busby; centre, Ed. Armstrong; home, F. Collings and J. Harvey; outside home, C. Evans and O. Robinson. Spares, George Webb and H. Gapp.

Campbellford — Goal, Garrison; points, T. Thomas and C. Montgomery; defense, Somerville and Gannon; centre, C. Holmes; home, J. Nesbitt and Paul Thomas; outside home, Harte; inside home, Heagle. Spares, Ackers and Copperthwaite.

Referee—Dick Cole. Judge of play—Harry Chapman.

Some of the Play.

Ackers, playing in the first period, started the scoring for Campbellford on a pass from Paul Thomas. Dick Cole voluntarily decided that the umpire behind the Campbellford net had failed to register a goal and accordingly credited the visitors with one that looked somewhat doubtful from the side. T. Thomas took a pass from Ackers in close, but his shot was cleverly blocked by Waldruff. Harvey broke through the Campbellford defense for their second goal.

After the intermission Campbellford's home section were on their favorite stamping ground, and although play remained close for a few minutes, the break came with a pretty combination from Harte from behind the net to Somerville who was in front and flipped the ball past Waldruff. Bradford were continuously pressed in their own stockade for nearly all the rest of the period. Short passes had the visitors' defense in the air. Nesbitt got the next on a flip from Holmes and big Tom made it 4-2. Holmes and Heagle worked the next play, which Waldruff turned aside, and Nesbitt's shot was also batted out. Heagle scored on a pass from Paul Thomas and Nesbitt tossed another into the net while Waldruff had temporarily vacated it.

Paul and Harte engineered the next combination, Harte fooling the goaler with an easy toss. Campbellford's yellow and black shirts buzzed around the Bradford net without let up, and reversing goals in the third period maintained their bombardment. Somerville carried the ball in for the first score in the third. Holmes followed for another. Both plays were carried out with lightning combination. Heagle and Nesbitt sifted through for the tenth goal, and Heagle found an opening from outside, making it 11-2.

Robinson finally put Bradford back on the scoring sheet, but Somerville and Tom added two more, and the piling-up process continued to the end of the quarter, while Bradford got two, leaving the score at the last intermission 14-5.

The Last Quarter.

The concluding quarter opened with a goal for Bradford, the ball rolling in from a play in front. Robinson breezed through for another and Collings got two in a row, while Heagle moved Campbellford's count up one. Bradford's home was breaking away better in centre field at this stage. Armstrong improved the score to 15-10, but Heagle whizzed two more past Waldruff, and young Vopperthwaite, Gannon and Heagle executed a fine piece of combination with Heagle on the [illegible] end for Campbellford's [illegible] goal.

Diamond Dust

Lindsay has been ordered to play their postponed game in Cobourg on July 12th. In view of the fact that the big celebration for this section is being held in Lindsay on this day, it is hardly fair to order the team to leave town and the team is quite justified in objecting. President Parsons could be excused for requesting our esteemed friend Dick Butler to leave Lindsay on that date, but there can be no good reason for sending the ball team away.

JR. CITY LEAGUE TWILIGHT GAME

Battle Between Lakeviews and Holy Name at Riverside Park To-Morrow.

The game between the Lakeviews and the Holy Name Society tomorrow evening at 6 o'clock on the Riverside Park diamond is expected to be a set to of the liveliest order. In the previous meeting of these two teams the H.N.S. boys went down to defeat and are now looking for revenge. Their team has been strengthened in preparation for the event and they are confident that they will turn the tables this time.

The Lakeviews however have not been at all behind in the matter of preparation. Their recent defeat at the hands of the Adanacs taught them a lot and they have been profiting by their instruction. It is as confidently whispered in their camp that the game will be a victory for them and another defeat for the Holy Name boys.

TWO GAMES PLAYED IN C.M.E. LEAGUE.

MILLBROOK, July 3.—The ball games in the C-M-E League played on Thursday evening when Millbrook went to Mount Pleasant and Omemee to Bethany, resulted in the first case in a score of 12 to 8, favor of Millbrook, and in the later the score was 7 to 6, favor of Bethany. These were the last games of the first round, and before the second round can be arranged, it will be necessary for Bethany and Millbrook to play off as they are equal in the number of games lost and won. The standing is as follows:

	W	L.	P.C.
Millbrook	4	1	.800
Bethany	4	1	.800

C.G.E. PROVES TOO MUCH FOR LINDSAY

Fast Game Played at the Exhibition Grounds in Spite of the Rain on Saturday.

The C.G.E. soccer team were the winners in the set-to with the Lindsay team, 3 to 1, in the exhibition game played Saturday as part of the sports programme of the H.N.S. field day. The game was played at the Exhibition Grounds and was as fine a display of good clean football as has been put on some time. Owing to pressure of time, only one hour of play was staged, but the curtailment of time did not in any way interfere with the sporting spirit shown by both teams.

Dyer of the C.G.E. scored first with a low grounder that slipped past Abraham in the Lindsay goal. Harry Mann, late of the C.P.C., played for the C.G.E. and was responsible for the second goal for the locals.

In the second half George Munt, Lindsay's centre, went right through, only to be pushed off in the act of shooting. However from the resulting free kick, he had the satisfaction of seeing his shot bounce off the upright into the goal.

Dyer scored the third goal for the C.G.E. men with a fast shot in the second period.

The players were:

Lindsay — Abraham, Newman, Mount, McConnel, Burchall, Bolan, Rhodes, Halliwell, Munt, Murphy and Harper.

C.G.E.—Griffin, Parkins, Williams, Mann, Hurrle, Gatfield, Mander, Dyer, Monk and J. Shaw.

Referee—H. McKinlay.

OTTAWA, July 3. (Canadian Press.) — Irving J. Macklin, night telegraph editor of the Ottawa Journal, was drowned in the Ottawa river on Saturday afternoon.

BELLEVILLE TO PLAY HERE NOW

Old Rivals Will Meet Petes at Riverside Park on Wednesday Evening.

A TWILIGHT GAME.

Although the rain on Saturday cheated local fans out of two good ball games, they have not long to wait for another exciting struggle, for the Petes' old rivals, the Belleville team, will be here on Wednesday evening for a twilight game that promises to be a real fight. In the history of the Central League Belleville and Peterborough have never had a one-sided game, and the majority of the contests have been won by one run. Wednesday's fixture promises to see the old rivalry as strong as ever, for the Petes must win to keep in the running and to get revenge for the 4-2 beating they sustained in Belleville on May 31st.

The fans are asked to note that the game is called for 5.30 o'clock, an hour that will allow merchants and clerks as well as the factory employees a chance to see the battle. Al. Heckman will pitch for the Petes and he will be opposed either by Jack Williams, Belleville's Indian southpaw who fanned fourteen of the Solomon crew in Belleville, or by Mullen, the new righthander who has rather mysteriously arrived in the Central League loop. Mullen pitched against Lindsay last week and showed himself a smart twirler during the seven innings he worked, and the Grand Trunks may decide to shoot him in against the Petes on Wednesday. Right now, however, Manager Solomon's outfit don't care what twirler Belleville elects to work, for they are confident they can hammer a victory off either southpaw or righthander.

Jack Rosevear of Port Hope will be umpire-in-chief and Barnes of Cobourg will call the decisions on the bases.

There promises to be a record twilight crowd, for the fans are hungry for a ball game, and they are always anxious to see Peeney Mills, Weir, Ross and other Belleville stars in action.

LOCAL SOCCERITES WIN AT LAKEFIELD

Canadian Woollens on Top in Fast Game Played on Saturday Afternoon.

LAKEFIELD, July 3.—The Canadian Woolens defeated the local football team 3 to 0 in a fast game played Saturday afternoon on the Exhibition grounds. Owing to the rainy weather the game did not start till 5 o'clock and for the same reason only a small crowd was on hand to watch the game.

The players were, Canadian Woollens — Williams, Reed, Cridland, Chambers, Monkman, Roberts, Gaskill, Shuttle, Downes and Jones.

Lakefield—Bell, Crowe, Wasson, White, Lansborough, Darling, D. Summers, Robertshaw, Sanderson and Dodds.

Referee—Clarke.

MAN IS OUT.

Sport Editor, Examiner:

Will you please give me the decision on the following play? The batter has two strikes no one out and first base is not occupied. The pitcher delivers a low ball which the batter swings at and missses. The catcher receives the ball on the bound and holds it. Must the batter be thrown out at first or is he automatically out.

ST. PETER'S WON FROM LAKEFIELD

Ran Up Score of 20-7 in Holiday Game

St. Peter's B team journeyed to Lakefield Saturday and defeated the homesters by the long end of a score 20 to 7. Holland's superb pitching held the locals in check. The main feature of the game was the hitting of the visitors, Begley having a homer and two doubles. Garvey had two triples, double and a single. Batteries: St. Peter's B—Holland, Begley, Garvey. Lakefield — Moore and Porter McManus.

ELKS PROVE EASY FOR THE WILDCATS.

"THE WOMAN WHO WALKED ALONE" AT THE CAPITOL

In one of her very latest releases a picture which has met with very favorable criticism in New York Chicago and in every large city where it has been shown, Dorothy Dalton has added to her laurels as a screen actresses of the very highest standing. She is without a doubt one of the handsomest women on the stage— possessed of a manner and bearing which enables her to win friends among all classes of playgoers. When she is at her best, she is capable of portraying the emotional woman par excellence—she is a match for any man, be it a battle of wits, a game of cards or the more interesting if somewhat somewhat more difficult warfare of the exclusive drawing room. She has been starred in such plays as 'The Flame of the Yukon" and other stories of the same sort in which she played the hoyden or wild woman of border dance halls, but always she was 'woman'—the eternal feminine personified. In society dramas, she always scored heavily because she can wear beautiful clothes and look the part of a woman to whom life's luxuries are as natural as the air she breathes and who accepts all the good things the gods provide as her due. In "The Woman Who Walked Alone", a screen version of the short story, "The Cat That Walked Alone" by John Colton, Miss Dalton has many rare opportunities to display her versatility and the result is, a picture that is not easily forgotten. The scenario was written by Will M. Ritchey, a man who has done some excellent work in adapting stores and novels for the screen and George Melford really needs little introduction to the public which always recognizes his really artistic work. The cast is well balanced including as it does, Milton Sills one of the best leading men in the business, and Mabel Van Buren. There are also in the play John Davidson, Wanda Hawley, "Lefty" Flynn, a ex-athlete and Mayme Kelso and Charles Ogle.

The story of "The Woman Who Walked Alone', is that of an elder sister's sacrifice to save the honor of her younger sister whom she has already aided by her loveless marriage. It evidently happens in other countries than' France—the loveless marriages—marriage de convenances they call them there, but in England they happen just the same and the results are sometimes painful, just as they are in this picture. But there are very few Dorothy Daltons in real life—she is wonderful in the early scenes where she consents to marry the elderly Earl of Lemister in order to give her younger sister an education and later on in life, she has to do the same thing again to save this young girl from an unscrupulous blackguard. When she finally is compromised and her husband divorces her, Dorothy Dalton as the wife of one of England's most aristocratic peers, drops out of society, leaves the places she used to frequent and in which she was sought after and admired, goes out to South Africa and starts life over again. From that time, she is certainly what the title claims for her. — 'The Woman Who Walked Alone"—she runs at tavern out on the veldt in the midst of scenes and among men who might terrify even a man but always she plays alone—men have not ceased to interest her but she has to fight shy of them. The love interest is a vital part of the story and during the telling of it some thrilling events take pace. It would only spoil a plot which is very intriguing to give any further details, so when you see this big picture you will realize that it is one of the best vehicles which Paramount could find for the talented actress.

THE STORY OF "A RIDING FOOL"

JOCKEY ALFRED JOHNSON

(By Bob Dorman)

"A riding fool."

That's what they call Jockey Alfred Johnson around the race track.

No opening is too small for him to attempt in a race, even though failure may mean a fall, with death or mutilation under pounding hoofs a possibility.

Yet with all his daredevil riding he is known as one of the coolest and most skillful riders in the game.

During the last month he has won $70,000 in three races piloting Morvich to victory for a stake of $50,000 and putting the veteran Exterminator over twice, each time for a purse of $10,000.

Is Unassuming.

No trace of his daredeviltry shows in his appearance.

He is ust a dark, slender fellow, quiet and unassuming, his one distinguishing feature a pair of keen black eyes, looking out of a network of wrinkles, etched there by much gazing across sun-swept spaces.

He'd rather talk of the latest movie than discuss his daily work, thought his love for horses is the one supreme interest in his life.

He says:

"Ever since I was a kid I've loved horses.

"I was always hanging around the livery stables out in my home town, Spokane. Wash., helping feed and water the horses, currying them, and I used to think that I was in heaven when I got a chance to ride one.

"All sorts of horses came to the stables those days and I naturally got to be a pretty good rider.

His First Race Job

"When I was 15, Stuart Polk, the racing owner, offered me a job with his stable.

"You ought to have seen me grab it.

"I worked like a slave as stable boy, keeping my eyes and ears open so as to learn the tricks of the game.

"Gee, but I was a proud punk when I got my first mount.

"Even prouder than when I won the Derby with Morvich.

"But I don't think that a jock has a cinch, especially as you get older and begins to pick up weight.

"It means hard work and lots of it to keep down to riding weight.

"A fellow can't hit the high spots and keep fit.

"You've got to diet and do road work, and lay off the bright lights.

"And this constant training sure gets on your nerves.

"A prizefighter gets grouchy with only a few weeks of training, but us fellows are training for months.

"The jock's room becomes a regular battle ground toward the end of the season.

Nerves? Sure!

"Nerves! Everybody gets 'em.

"The best horse I ever rode

"Morvich, undoubtedly. I think he is the same kind of a wonder horse as Man o' War, but this season's record will tell.

"But over a distance there never was a grander horse than Exterminator. They don't breed them any gamer.

"And it's the gameness that even a plug will show that makes a man love a horse.

"It's the thing that holds me tight to the track, and it will sure be a sad day for me when I get too heavy to ride.

"But I hope that day is a long way off.'

THE MARKETS

NEW YORK, July 3.— (Canadian Press.)—Early dealings on Stock Exchange to-day were light and irregular, reflecting small attendance of members. Rails continued to ignore strike developments changes again being limited to fractional declines with New York central as one conspicuous exception at one point advance. Specialties of types represented by Coco Cola which rose almost two points and Dupont at gain of 4 3-4 points, featured miscellaneous issues. More acute situation in Central Europe precipitated further weakness in foreign exchanges.

Market lapsed into absolute stagnation soon after opening. Sales during first hour fell below 70,000 shares low record of year. Only popular issue to show any activity and strength and Studebaker which rose 1 1-2 points. Ontario and Western was only heavy railway issue declining 2 1-2 points. An opening rate of five percent. for call money was soon reduced to 4 3-4 per cent.

Speculation became progressively duller with fluctuation in usual leaders confined to trivial fractions. Initial transaction in United States Steel of 99 1-8 did not occur until 11.41 and for next two hours range held between 99 and 99 1-4. Certain stocks were in scant supply when demand arose resulting in an advance of 3 1-4 points in consolidated gas.

STERLING EXCHANGE

NEW YORK, July 3.—(Canadian Press.) — Sterling Exchange easy. Demand rates. Great Britain 4.42 1-4 Canadian dollar 1 23-32 per cent. discount.

CHICAGO GRAIN PRICES

CHICAGO, July 3. —(Canadian Press).— Opening wheat prices which ranged from 1-8c lower to 1-4c advance with July 1.17 1-2 to 1.17 3-4 and Sept. 1.17 3-4 to 1.18 1-8 was followed by a moderate down turn all around.

Persistent buying for leading elevator interest rallied the Corn Market from early weakness that was associated with heavy deliveries on July contract. After opening unchanged to 38c lower Sept. 66 --2 to 66 3-4, prices underwent a slight further sag and then rose to above Saturday's finish for all deliveries.

Oats were relatively easy, opening a shade to 3-8c lower, Sept 38 5-8 and later rallying somewhat but less readily than corn.

MONTREAL STOCK MARKET

MONTREAL, July 3.— (Canadian Press).—Local stock exchange this morning was dull and uninteresting. With exception of few fractional price variations nothing of interest transpired. General tone was steady.

TORONTO STOCK MARKET

TORONTO, July 3—)Canadian Press).—Activity and strength displayed by Toronto Railway proved sole feature of morning session of local stock exchange to-day. Opening at 75 1-2 transactions of approximately 1200 shares advanced quotations to 79 with close at 78 12 net gain of 3 1-4 points. Balance of list was very dull.

TORONTO CATTLE MARKET

TORONTO, July 3.—(Canadian Press).—Cattle market — Receipts 4737 trade heavy. Quotations:— Heavy beef steers, $8.25 to $8.75 butcher cows medium $3.50 to $4.50 butcher steers, choice $8 to $8.50; calves $9 to $10; lambs $13.50 to $14.25; hogs select $14.50.

SPORT GOSSIP

Herm. Wolff, third baseman and pitcher, with the Raybestos team, has turned out with the Central Leaguers and will likely be seen in action with Jake Solomon's crew. Wolff is a likely looking prospect. He has played every position on the diamond and usually hits well. Moreover his conduct in local baseball has always been exemplary and he has a lot of friends who believe he will make good in senior company.

Lakeviews and Holy Name Society are down for a junior game at Riverside park on Tuesday evening. H.N.S. defeated Adanacs in their last meeting and hope to tighten the race by winning from the fast travelling Lakeviews.

Belleville will be here Wednesday evening in force for a battle with the Petes and it should be a rare contest.

The Juveniles come back to Riverside park on Thursday afternoon. Two games will be played. Holy Name Society and Sacred Heart starting at 2.15 o'clock and Lakeviews and Maple Leafs taking the second game. The youngsters are playing smart baseball and the series is bringing out a number of promising players.

At 6 o'clock on Thursday evening Lakefield and Otonabee play again as ordered by the East Peterboro league executive following a protest entered by Lakefield against the win by Otonabee when Emmett Sheehan was used. A win for Lakefield will tie the Northerners with Keene for the championship of the first half and an Otonabee victory will give the first half to Keene. All three club interested will have big contingents of rooters.

Canadian Generals and Y.M.C.A. come together again next Saturday afternoon and a junior series game will also be played.

Two players from the Mercantile League of last season are now to be found with the Central League team. The Mercantiles therefore did not exist in vain.

Maple Leafs will work out at King Edward School grounds on Wednesday evening at 6 o'clock.

The Lakefield team did not put in an appearance at the Exhibition park on the holiday for their game with Otonabee.

Adanacs have signed a new arrival in the city and are now ready to make a new attempt to regain some of their lost laurels.

Special Double Show at the Royal To-night

ONE-HALF MILLION DOLLARS IN JEWELS SHOWN IN PICTURE

Earle Williams in "The Man From Downing Street" Wears Trinkets of Rajah.

Jewels valued at one-half million are worn by members of the Earle Williams company in "The Man From Downing Street," which will be shown at the Royal Theatre to-night. In this production the star appears as a rajah and wears many jewels such as sunbursts, rings, ropes of pearls, diamond collars and other decorations of a native prince of India. Boris Karloff, as Maharajah Jehan, also wears a great number of expensive jewels.

In addition to this a collection of valuable jades, the property of a Pasadena collector, and insured for an enormous sum, were borrowed for several sequences.

The female members of the company also wear costly jewels in the way of necklaces, rings and brooches. At the banquet scene is a riot of brilliant colors and sparkling gems. It becomes a veritable fairy land under the attractive lighting display used in this set.

The story of "The Man From Downing Street" is a combination of a thrilling detective story, a political intrigue and an intense love affair. The ending comes as a surprise.

"BLIND HEARTS" BOSWORTH'S NEW PICTURE DRAMA

Yukon Story Selected as Famous Actor's Initial Film From His Own Studios.

Through arrangements concluded to-day with Associated Producers, Inc., the Royal Theatre has arranged for a showing of the first Hobart Bosworth production which has been released since that popular star formed his own producing company. "Blind Hearts" is the title and from the selection of the story to the final titling it is entirely a Bosworth production. It is from the story of Emilie Johnson, and was directed by Rowland V. Lee.

The story is of the type which has made Bosworth the most admired portrayer of rugged, virile men roles there is on the screen. Starting in the gold fields of Alaska where he goes through thrilling adventures in a successful quest for gold, it develops into a tense dramatic story when he makes a discovery that indicates that his wife and his best friend have betrayed him.

The production has an added interest in that it maks the screen debut of Madge Bellamy, a young actress whose ability so attracted Thomas H. Ince, the noted producer, that he has put her under a long term contract under the confident belief that she will develop into one of the most popular actresses on the screen. In "Blind Hearts" she heads the cast in support of Mr. Bosworth.

Also Mack Sennett comedies.

ARE NOT READY FOR CONVENTION

Little Chance of Conservatives Gathering in September Next.

(Toronto Globe.)

Great interest was manifested by Toronto Conservatives at the week-end over the demand of J. H. Burnham, ex-M.P. of Peterboro', for the immediate calling of a meeting of the Provincial Conservative Association, to name delegates "for the Dominion Conservative convention to be held in Ottawa in September."

J. R. McNichol, Secretary of the Provincial Association, said that the Ontario Conservatives were ready for a convention in the Dominion field of politics, but the said there was no intention, at the present time, of holding a Dominion convention in September. The time was too short, now, he said, to arrange for such a convention, and he expressed doubts about the Western Provinces being ready.

He had been told that every Province from Manitoba to the Atlantic had been organized with a Dominion convention in view, but the rest of the country had to be heard from.

It is promised that when the convenion is held it will be something far more than a gathering together of delegates to discuss party affairs. A new platform will be decided upon, and the matter of the permanent leadership of the party will be given the fullest consideration.

The decision not to hold the convention in September is disappointing news to the Toronto Conservative Club, representative of the wing of the party which is demanding great chanegs from the ground up.

A CAUSE CELEBRE IN DELORME CASE

Interest Centres on Collection of Insurance

(Special to Examiner.)

MONTREAL, July 3.—Just as the trial of Father Adelard Delorme wrote new and strange history in Canadian criminal annals, so, too, will the intended collection of the $25,000 insurance policy which was taken out on the life of the slain boy Raoul by Father Delorme, usher in another cause celebre, this time in the civil courts.

As yet the application for the $25,000 has not been made by the Delorme heirs or their administrator, but a family council is scheduled to be held this week when the formal application will be drafted and sent to La Sauvgarde Insurance Company for payment of the entire amount. Part of the amount will be sought from the Sun Life Insurance Company, which divided the policy with the first mentioned company.

Officials of the Le Sauvgarde were reluctant to comment upon their possible course of action when the application would be made, declaring they were not yet certain whether any attempt would be made by Delorme's sister or L. C. Gaudreau, Delorme's rent collector and administrator to collect the $25,000.

The same officials at Le Sauvgarde headquarters agreed that the case was without precedent.

WEDDING BELLS

MIMEMMO—MATTUICI.

The Church of the Sacred Heart was the scene of a pretty wedding on Saturday, July 1st, when Marietta Mattuici and Dominic Mimemmo were united in the holy bonds of matrimony by Rev. J. J. O'Brien.

The bride, who was given in marriage by her brother, Camilli Mattuici, was attired in white silk, with a bouquet of roses, the bridesmaid, Madeline Asta, wearing pale pink georgette and carrying roses and carnations. The bridegroom was supported by Leonard Casciano.

After the ceremony, the bridal party were entertained at the home of Mr. James Crebar, brother-in-law of the bridegroom, where a dainty wedding breakfast was served to sixty-five guests. The wedding gifts were numerous and costly, conspicuous among them a Morris chair, the gift to the bridegroom of the boys of the lock rooms at the Peterborough Lock Company. A dance until midnight completed the wedding festivities.

Mrs. Mallott and family, and Mr. and Mrs. F. Crebar and family of Toronto were among the out-of-town guests at the ceremony.

OBITUARY

FUNERAL OF THE LATE M. C. TOOLEY

The funeral of the late Michael Charles Tooley, 273 Rubidge street, took place this morning at 9 o'clock from St. Peter's Cathedral, where the Funeral Mass was sung by Rev. Father Guiry, to St. Peter's cemetery, Rev. Father McAuley and Rev. Father Costello officiating at the final service.

The late Mr. Tooley, who passed away at 4 o'clock on the afternoon of Friday last, June 30th, at St. Joseph's Hospital, after a lengthy illness, was 58 years of age. He was born in Ireland, but spent his early years in Shaprsville, Penn., removing later to Oshawa, Ontario, where he lived for some years. During his residence in turn in Oshawa, Manchester and Myrtle, in Southern Ontario, he was in business, and was prominent in political circles, being a staunch Liberal all his life. He settled in Peterborough in 1900, and for a number of years conducted the Queen's Hotel on Charlotte street. For the past twelve years he has lived a quiet, retired life. Mr. Tooley was a member of the Curling and Bowling Clubs, one of the Knights of Columbus, who marched in a body to his late residence on Sunday evening. He had a large circle of friends in the city and was generally liked for his outstanding qualities of big heart, broad mind and cheery good nature. He is survived by his sorrowing wife, one sister, Mrs. Thomas Finn, of Holyoke, Mass., and his adopted son, Earl Judge, of Peterborough.

Pall-bearers at the funeral were Messrs. Wm. Merrell, F. Fairen, Thos. McQuillan, Edward Hickey, R. Sheehy, Sr., and George Lynch.

RIBBON RUFFS.

Ruffs, made of ribbon and flowers, are a pleasant midsummer substitute for the summer fur. The most lovely ones are made of metal ribbon, pink or blue predominating, with flowers caught in between the loops. These are appropriate for only festive occasions.

CENTRAL SMITH IS DOWN TO FAIRVIEW.

No. 11, at Colborne's Farm. R. Brown pitched for the winners and the visiting team had some trouble hitting his fancy curves. Lorne Northey and Wilbert Rosborough acted as umpires. The players were:

Central Smith—Archer p, Bell c, T. Milburn 1b, MacGregor 2b, V. Millburn 3b Sanderson, ss, Tridle rf, Edmunson cf, Simpson lf.

Fairview—Brown p, Harrison c, M. Lewis 1b, H. Lewis 2b, Darling 3b, Treenum ss, E. Millburn rf, Bell cf, Pulley lf.

REFORMATORY FOR ROBBING COT AGE

Indeterminate Sentence on Chas. Quibell by Magistrate Langley.

For breaking into the cottage of V. W. Lancaster at Pigeon Lake and stealing goods goods valued at $100, Charles Quibell was sentenced by Magistrate Langley in Police Court this morning to the Ontario Reformatory for a period of not less than six months, and not exceeding two years. Quibell was arrested on Sunday night near Lindsay by Inspector Thornbury and Provincial Constable T. Y. Stratton.

Two men were charged with being drunk in a public place. One was fined $10 and costs of $11.50, and the other was fined $25 and the same costs of $11.50. The first said he had got his liquor at home and the other told a story about a Toronto source.

The Mercer reformatory will receive for six months a young woman whom the police have had under surveillance for some time, and who was charged with being a prostitute.

HOLY NAME PICNIC BRAVED THE RAIN

Day's Success at Exhibition Park Curtailed but Not Washed Out.

Notwithstanding the almost steady downpour which effectually dampened the splendid arrangements for a successful day at the Exhibition grounds by the Holy Name Socety, several of the booths were running with a fair patronage during the evening hours, and the ladies in charge stuck to their posts with praiseworthy fortitude regardless of the damp grounds and the discouraging outlook. The Christian Mothers' Society of St. Peter's Cathedral served a splendid supper, with the president, rMs. John Coughlin, in charge; the Catholic Women's League had a lottery booth, supervised by Mrs. G. H. Popham and Mrs. J. R. Corkery; the oungY Ladies' Sodality served ice cream and soft drinks, with the Misses May C. Kelly, Norah Shevlin, Kitty Sharpe, Kathleen Clancy, Aleen Ahearn and Margaret O'Brien assisting; and the fish pond, filled with good things for the juniors, was in charge of the Misses Annie Simons, Josie Lynch and Hannah Fraser.

A booth for the sal eof ice cream and soft drnks was also run by members of the Holy Name Society, Mr. W. Scollard acting as convenor.

A SUCCESSFUL DANCE AT CHEMONG PAVILION.

A very successful and well attended dance was held under the auspices of the Peter Robinson Chapter I.O.D.E. at Chemong Park Pavilion on the evening of Saturday last, July 1st. The Misses Helen Thompson, Daisy Davidson and Genevieve McCarthy were in charge of arrangements, and Mrs. J. S. Coulter acted as chaperone for the occasion. Among those present were: Mr. and Mrs. Coulter, Mr. and Mrs. Gordon Matthews, Mr. and Mrs. Scott, Mr. and Mrs. F. Sedgwick, the Misses Dorothy Hill, G. Mulholland, P. Young, H. Bulmer, Jean Eastwood, H. Thompson, M. Neill, H. Davidson, G. McCarthy, M. Folkinghorn, J. McPherson, M. Jones, F. Giroux, K. Holmes, Pearl Burnham, M. Holmes, Audrey Huycke, Rosemond Huycke, Messrs. H. Bradburn, D. Carmichael, G. Lambe, F. Skinner, D. Fitzgerald, R. Morrow, F. Cubitt, E. Rudge, V. Eastwood, R. Breyfogle, G. McClelland, M. Rishor, M. Huycke, J. Blaiklock.

Seger's orchestra provided excellent music for dancing.

S. A. BAND SPENT HOLIDAY IN TORONTO.

The band of the Salvation Army went to Toronto for the holiday week-end, as guests of the Earlscourt Corps. Leaving Peterborough at 4.58 on Saturday morning, the band arrived at North Toronto Station at 8 o'clock, breakfast being served at the Earlscourt Citadel. At 2 p.m. an open-air service was held, after which a musical programme was given in the Citadel. At 8.15 in the evening, another musical festival was rendered by the band, the chairman being Mayor McGuire, who welcomed the bandsmen and commented on their excellent playing. Bandmaster Frank Robinson had charge of the musical programme.

On Sunday the meetings were conducted by Captain T. Robertson, of Toronto, assisted by the band. In the afternoon a musical programme was given in the Oakwood Theatre, the chairman being Mr. J. R. McNickle. A large crowd was present, and in the evening the same building was packed, the band also rendering a short concert in Earlscourt Park after the theatre.

BOY SHOT WHILE SNIPING FROGS

Donald Gunn of Toronto Wounded on Saturday But X Ray Fails to Reveal Bullet.

Donald Gunn, son of Brigadier-General John A. Gunn, of Toronto, received a bullet wound in the left side from a small calibre rifle while shooting frogs near Kawartha Park on Saturday morning in company with the son of Mr. E. Wyly Grier, the widely known Toronto artist. He was brought to Peterborough on Saturday evening, and at the Nicholls Hospital was attended by Doctors G. S. Cameron and C. H. Amys. Several examinations by X-ray had up to noon to-day failed to locate the bullet, which is believed to have been ejected from the wound. It was reported that two small holes were found in the boy's sweater and one in his undershirt that would correspond with only one puncture of his flesh near the ninth rib.

Dr. Amys said the boy's condition appeared to be highly favorable, and that he had rested well since he was admitted to the hospital. The accident is said to have been caused by the jamming of the breach of the rifle while in the hands of young Grier.

CALEONIAN CLUB HAD A JOLLY OUTING.

The Caledonian Club had a jolly outing on the holiday, over one hundred members and friends taking the train to Lakefield in the morning, and proceding to South Beach, where dinner was served to the party at the hotel. Sports were the order of the day, including racing, football, and baseball, with music furnished by the Caledonian Pipe Band, Mr. Alex. McArthur playing for the reels and strathspeys that formed the dancing programme at the hotel. Returning by way of Young's Point, a stop was made there, and at the request of a number of onlookers, Mr. McArthur played the pipes for the eightsome reel danced by the band members on the landing stage, finished to great appause.

Much of the success of the outing was due to the energetic work of the committee composed of Messrs. G. Low, R. French, W. Petrie, D. Duncan, R. Veitch, and N. Hurry.

and asked, "What are you coming out here for?"

"I am coming out to feed the chickens," Mrs. Moult explained. She did not see her husband, and wondering, she asked Barrie where he had gone.

"He's gone out to the field," replied Barrie.

In the evening, Mrs. Moult became worried over her husband's absence, and after Barrie had helped her to milk she sent him over to Dan Coffey's a neighbor's home, to ask if her husband had been there. Barrie came back and said Mr. Coffey was away. It was when Mrs. Moult found that Barrie had never been at Coffey's that her suspicions took form. Neighbors were called in and a search was started, which ended at two o'clock in the morning, when the body of Wesley Moult was found with a bullet wound through the head, the body being wrapped in canvas and covered with boards in a shallow bin in the granary.

Search For Hired Man.

The police had been called, and after their arrival, between two and three in the morning, a search was started for the hired man, Barrie, who had been missing during the evening.

After a chase through the fields in the early morning of Friday, in which one hundred and fifty farmers co-operated, with the Provincial, Belleville and Napanee police, under Inspector Naphan, Barrie surrendered to Peter McLaren, ex-Warden of the county, who cautioned him to say nothing until he got to Belleville. Barrie expressed a fear of the farmers man-handling him, and while waiting for the police, lay face downwards on the ground, with his head buried in his arms.

Makes No Statement.

Since his arrest Barrie has refused to make any statement to the police. He gives little particulars about his own history beyond that he was born in Sherbrooke, Que., for some years lived in Plainfield, near Belleville, and now his parents are believed to live in Montreal. Pearson is the name of his stepfather, and that is how Barrie was generally known as Pearson at the farm of the Moults, where he had been working four months.

Maurice Barrie is himself a very well set up young man, about six feet tall.

Was Very Popular.

Wesley Moult, the murdered man, was very popular in the neighborhood, and was never known to have an enemy. "He was a father to me," said one young man who had been Moult's hired man. The almost entire absence of a motive for taking the life of so even-tempered a man is one of the most puzzling circumstances of the case.

Moult was forty-one, and was the son of Mr. Sam Moult, of Tyendinega township.

FINAL DEFEAT IRISH REBELS NOW IN SIGHT

Insurgent Strongholds in Flames and Defenders Are Fleeing to the Open Country.

RESISTANCE BREAKS

(By George Macdonagh, For United Press—Passed by the Military Censor).

DUBLIN, July 4.—The backbone of rebel resistance broke to-day before the final assaults of the Free State troops.

The insurgent strongholds along Sackville Street were in flames. Rebel bands were escaping from shell-shattered buildings to flee to the open country.

Ireland's civil war, which has raged unabated since last Wednesday, threatened to-day to develop into a guerilla warfare.

A terrific bombardment raked the rebel positions during the night. The sky was bright with repeated flashes of heavy guns. Then a great red glare spread over the city from numerous fires in the hotels held by the last stubborn band, led, it was said, by De Valera.

There was quiet for a while this morning, with only occasional rifle shots from snipers' posts breaking an ominous stillness.

Hopes For Surrender.

Michael Collins hoped the extremists would agree to surrender without the necessity for further bloodshed. Free State troops were ready to go into the enemy nests and get the last man, but the Government was making every effort to avoid a finish fight, now that the victory was won.

Rebels were reported joining armed bands in the outlying districts to continue the fight.

Final Defeat In Sight.

An enveloping movement by the National forces in Sackville Street area is complete, and the final defeat of the rebels is in sight, says a communique issued from general headquarters at Beggars' Bush Barracks at 3 o'clock this morning. The insurgents have been driven from their positions in Earl Street, so that their comrades in Gresham Hotel and adjoining buildings are entirely surrounded.

Barracks Attacked.

An official bulletin issued at noon to-day says Glenfarn Barracks at Leitrim, near the Ulster border, held by National army troops, was attacked simultaneously by the Irish irregulars and Ulster specials from different positions. The small garrison stubbornly resisted, says the bulletin, but eventually was forced to yield to the combined forces.

REPORT CONTRADICTED.

BELFAST, July 4. — (Canadian Press.)—Ulster Constabulary Headquarters this afternoon stated that the Free State report, saying Ulster specials participated with the Irish irregulars in the capture of Glenfarm Barracks at Leitrim was absolutely untrue.

Most Urgent Wants

There's a world of interest in the Want Ads. They reflect the urgent desires of various businesses, households and individuals.

The Wants tell what is most needed. If the cook has left, if a worker is needed in the office or factory, if an article of value is lost or found, if there is urgent necessity to sell a piece of property, secure tenants, roomers or boarders—all such conditions are expressed and met in the Want Columns.

The Wants are close to the heart interests of hte people. It is interesting to watch them carefully.

A BANK PRESIDENT

ANNA BOIE.

The youngest bank president at the recent Iowa State bankers' convention was a girl, Anna Boie.

Though just 22, Miss Boie is president of the Hancock Savings Bank of Hancock, Ia., a town of 300 inhabitants.

"I've been in the business since I was a little girl," she says, "but beginning next year I'm going to study law."

Miss Boie's father is treasurer of Pottawattamie County, Ia.

She also was the first woman in her county to serve on a jury.

SOME HAVE FISH THRUST ON THEM

While Others Are Born to Greatness—Member of Finny Tribe Jumps Into Rising Young Lawyer's Boat.

"Some are born to greatness; some achieve greatness, and some have it thrust upon them." This utterance may have become a bromide through constant use, but nevertheless, it remains a truism. And the same idea might be applied to other things—fishing, for instance. Some men spent a great part of their leisure time during the summer months in wooing the strong-smelling dweller of watery depths; they get up at unholy hours to sit in a chilly boat attached to the end of a long rod with a slippery worm dying slowly at its other extremity, they go forth in triumph and return disconsolate, with an unveracious tale about the large fish that got away from them, or a gloomy expression of defeat. They even go so far in moments of desperation as to buy strings of fish from other lucky anglers and display them as their own.

And here we have a young man right in our midst, one of the town's rising young lawyers, in fact, who goes forth canoeing on a pleasant Sunday afternoon, with the thought of fishing perhaps the farthest of all from his mind, and the fish seek him out and jump right into his boat. That's what happened to this young man while enjoying a paddle with a fair companion last Sunday. His surprise was intense when a noble fish, one of the "sucker" variety, which measured fully thirteen inchs from tip to tail, took a sudden fancy to make "three in a boat," making a spectacuar appearance under the astonished young man's nose. The mime of the fish, which sought him out, taken in conjunction with the occupation of this particular young citizen, might even be considered by some as a happy augury for a future abounding in swollen brief cises.

ROYALISTS MAY ADVANCE TODAY ON BERLIN CITY

But Communists in Germany's Capital Demonstrated in Favor of the Republic.

A MURDER RING

(By Carl D. Groat for United Press)

BERLIN, July 4. — Armed Royalists were reported to-day about to march on Berlin, where Communists and workers demonstrated in favor of the Republic.

The Monarchist murder ring struck another blow at Liberalism in Germany yesterday when Maximillian Harden, the famous editor and bitter enemy of the Nationalists, was stabbed and beaten by two assailants.

Two men attacked the Liberal editor as he neared his home.

Covered with blood Harden reached at last his villa and fell unconscious. Latest reports indicated that he will recover.

The attack was made in the Gruenwald near the spot where Dr. Walter Rathenau, Foreign Minister, was assassinated a week ago.

Assailant Captured.

One of the assailants was captured. Papers that were found on his person showed that he was a member of the "Assassination of National-Minded Soldiers," a reactionary and royalist organization.

Harden was one of the bitterest foes of the Monarchists in Germany. In his newspaper, Die Zukunft, he has recently launched bitter attacks against the attempts of the Monarchists to return to power.

Die Zukunft was suppressed in 1917 after the editor had charged the Kaiser with responsibility for the world's war. Until that time he had utterly arraigned the Imperil-lists.

Assaults on Kaiser.

Consistent assaults on the Kaiser and against the submarine warfare made Harden known in America and his articles eulogizing President Wilson and his peace proposals were printed broadcast in America.

Harden's real name is Witskowski —he comes from Semeic parents.

The Berlin police have evidence that the same Nationalist Anti-Semetic murder "bund" that assassinated Rathnear, was responsible.

Pickerel Fishing Has Never Been Better at Hastings

To the cool weather that has prevailed since the fishing season opened veteran fishermen attribute the splendid catches that have been made. From the entire Trent district reports of splendid fishing pour in, and it is a poor day that a big fish is not caught. From no place have more optimistic reports been received than from Hastings, where the pickerel are providing good sport. During the course of a week hundreds of fish are taken out of the turbulent waters below the dam. Motorists must have remarked the large number of fishermen continually on the bridge. "I lived here for two years and there was always a crowd fishing," said a liveryman, "and I don't think I ever saw a fish caught."

One of the fishermen remarked that he couldnt have been around this year, for they had been bringing them in night and day. Several large pickerel weighing around eight pounds have been caught, and as many as eight and ten in the course of a morning. The best fishing is early in the morning, and in the evening, and on Saturday morning the Examiner was informed that the fishers deemed it such a privilege to fish in the rain that the best positions were hard to obtain. The pickerel being caught are in splendid condition on account of the cool water. The average weight of the pickerel ranges around two or three pounds.

Plan For World Disarmament Is Well Received by the Delegates

PARIS, July 4.—(Canadian Press) —The plan for general world disarmament which was laid before the temporary mixed commission on disarmament of the League of Nations yesterday afternoon by Lord Robert Cecil, of Britain, was presented in full detail at this morning's session of the Commission. The plan is said to have been favorably received by most of the delegates. According to the plan, all nations would sign a general disarmament agreement and would agree to go to the defence of nations in their respective regions or continents in case of aggression. A permanent military commission would be divided into four regions, and only the Powers in each region would be obligated to to aid the menaced nation upon the commission's recommendation.

ALD. MORRISON IS APPOINTED TO THE SUBURBAN COMMISSION

Succeeds Ex-Ald. Whitehouse As City's Representative on Commission Supervising Suburban Roads — Alliance Brass Co. Through.

FIRE CHIEF'S REPORT.

Ald. Robert Morrison was appointed representative of the city on the Suburban Roads Commission by the Council last night, succeeding ex-Ald. Frank Whitehouse, who resigned. He was nominated by Ald. Gainey in an amendment which was seconded by Ald. M. Turner.

In the motion submitted by Ald. Stocker and seconded by Ald. Hamilton, City Engineer Parsons was proposed for the position. In advocating the appointment of the City Engineer, Ald. Stocker referred to his special qualifications and also to the fact that he was at all times accessible.

Ald. Crowe referred to a report of the County Council proceedings in which certain alleged irregularities had been mentioned in the Commission's work.

"I wouldn't like to say there were irregularites," he explained, "but it appears that some members of the Commission benefitted from the work they had charge of. It appears they have gravel pits and their own teams and help were used on the roads. If any member of this Council took work that would be a benefit to him it wouldnt be legal. Why doesn't the County Council take some action to stop it? As far as the city is concerned all we have to do is to pay the bills. There is no accounting to us of how the money is spent."

Ald. Stocker said he had been at the meeting of the County Council when two members of the Commission explained that their teams had been engaged only when others couldn't be hired. It was a fact, he said, that teams had been used and gravel sold.

Mayor Taylor summarized the special obligations of the city's commissioner to see that the suburban road work was done economically, that labourers and teamsters from the city were given a fair share of the work, and that the designated roads should not extend too far into the country. At first, he said, the roads were only a few miles out of the city and now they were extended six miles. This, he pointed out, increased the outlay for maintenance.

Ald. Gainey said he had proposed Ald. Morrison once before for the Commission and was glad to do so again. Ald. Hamilton, seconding Ald. Stocker's motion, said he was influenced by the fact that City Engineer Parsons was "in a position to perform the duties of Commissioner, he is here at all times and would be able to give it all the time it needs."

Unable to Continue.

E. R. Briggs, secretary-treasurer of the Alliance Brass Co., Ltd., Hunter street east, asked the Council to accept in lieu of $200 for rent the repairs and improvements which they have made to this building, formerly known as the Rapid Tool shop. Implementing one of the clauses in the agreement, dated Nov. 1st, 1921, between the Council and the Corporation, the company gave notice of their intention to terminate the lease on July 23rd on account of their failure to establish themselves successfully before their resources were exhausted.

"The company, while it has not been declared insolvent, finds itself compelled to liquidate its plant and retire from the manufacturing business in order that it may fully meet its liabilities. It thus hopes to retain for itself its corporate name and the use of its trade mark," Mr. Briggs wrote.

The company, he said, admitted its liability of $200 for the rent of the building, but was unable to pay that amount at the present time. The letter recounted the various repairs and

Outlook is Bright In Western Canada

WINNIPEG, July 4.—(Canadian Press).—The third crop report, published this morning by the Manitoba Free Press, states that Western Canada is promised more than an average yield, as the outlook is certainly brighter than it was at this time last year. The wheat crop in Manitoba has held its early lead, and reports on grains are satisfactory. In Saskatchewan conditions are also very satisfactory, and while a good average crop is looked for in Alberta, the favorable progress expected during the past three weeks has not been made.

Opening at 79 and advancing to 79 1-2, reaction set in that took price down to 78 1-4 partial recovery was made and last sale at 79 1-4 showed net gain of 1-4.

SWEET TOOTH OF CHILDREN IS A MENACE

Should Be Satisfied With Fruit, Not Candy, Dr. Best Tells the Kiwanis Club.

SUGAR IS BLAMED

The sweet tooth of children should be satisfied with fruit not candy, Dr. E. S. Best of Minneapolis, addressing the Kiwanis club on Preventive dentistry stated today in the course of interesting remarks on the causes of teeth decay in children. He blamed sugar for most of the cavities in children's teeth. There was a close relationship between an unhealthy mouth and children's diseases, he said, and in turn a close relationship between children's and adults diseases He quoted Sir William Osler, the noted medical authority, who said "The diseases we die of in adult life are those acquired or made possible in early youth; and "of the two evils, alcohol or diseased teeth, the latter causes by far the greater damage."

The great contribution of medical science has been in preventing disease, and he said, dentistry must follow the same course. The two diseases that afflict more people than any other are dental caries (tooth decay) and pyorrhea, both preventable in a large measure. The former is in practically every case caused by an over-abundance of sugar in the diet. Uneven stress on certain teeth due to mal-position brought on by irregularities of the teeth and the loss of certain teeth, together with an unsanitary condition of the mouth, improperly constructed dentistry and harmful diet are the chief causes of pyorrhea

Preventive Dentistry

The first step in preventive dentistry, he said, was to discourage children using candy. Fruit will take its place, he said. The use of candy by adults whose teeth are developed was not so serious, but should not be carried to the state of intemperance. The human mouth he said, will transmit its condition to other parts of the body, and if teeth are diseased it is not unreasonable to expect heart, kidney nerve and joint troubles. People suffering from rheumatism almost invariably have decayed teeth, he said.

Dr. Best pointed out that infection of the mouth was of two types, either open or closed. Pyorrhea was an open type where pus entered the mouth from around the teeth while closed, infection came from abscesses found around the root ends of teeth which have been devitalized and which are in many cases crowned, have large fillings and are dark in color.

Dental Inspection

Children's teeth should be inspected every two months, Dr. Best declared and as cavities occurr they should be given attention. He warned the Kiwanians of the danger of regarding the first teeth, as of no consequence. Neglect in the care of these results in many diseases of young children, he said, and these teeth should be cared for in the same way as the second teeth. Adults require dental attention at least every four months, the doctor stated.

A Toothless Race

Dr. Best made the statement that the Italians have far better teeth than the Americans for the reason that the average Italian only consumes 15 pounds of sugar a year, as against the average American's hundredweight. While the Americans eat candy and pastry the Italians consume fruit. Such a quantity of sugar is being consumed by the people of this country,

The Indians Ask For Square Deal

REGINA, July 4.—(Canadian Press).—"Give us a little more of what you call a square deal," asked Chief Loft, president of the League of Indians of Canada, when addressing members of the Rotary Club here yesterday.

"Do you think so much of the almighty dollar and of station? It is to you white men that we are going to appeal on behalf of the Indians."

BEACHES OPEN ON LORD'S DAY

Ald. McIntyre Opposed to Their Use On Sundays But Council Consents.

When it came to the knowledge of Ald. Malcolm McIntyre at last night's meeting of the Council that the city's bathing quarters were being used on Sundays, he promptly registered his condemnation by proposing a motion that the beaches be closed to the public on Sundays.

"I wouldn't have them open," he declared. "I wouldn't stand for that."

The brief discussion arose out of a remark by Ald. Crowe that he had seen some boys on Sunday at the Lake street beach.

Ald. Gainey replied that the dressing quarters were not open last Sunday. "But we can't keep the boys out of the river," he added. "You would have to have the police there."

"I think the boys should go swimming as well as people go motoring," said Mayor Taylor.

Ald. Phelan said that those persons who wished to swim on Sunday had full privilege of the beaches at Chemong Park, South Beach and other resorts, and he contended that the same privilege should be given to those who remained in the city and wished to avail themselves of the bathing places. He moved, seconded by Ald. Holloway, that the local beaches be open on Sundays.

The motion carried on a division of six to two. The opponents were Aldermen McIntyre and Crowe. Ald. Jones and Hamilton were temporarily absent when the vote was taken.

Ald. Crowe said that the practice didn't look "just right" to him, and Ald. Gainey stated that the city's beaches had been open all last summer on Sundays.

"I didn't intend to bring this matter up in Council," he said. "The bathing places were open last year on Sundays, and from what I learned I understand they were quite successful during the hot weather."

OVERCHARGING LAKE VISITORS SAY TOURISTS

Americans Complain of "Being Bled" at Kawartha Resorts—Some Are Leaving for Muskoka.

THE JULY RUSH

Complaining that the service at summer hotels at the Kawartha Lakes was not in keeping with the rates and that they have been "held-up" at the stores, numerous American tourists, after a short time in this district, have gone to the Muskoka Lakes, The Examiner has learned from an authoritative source. The Americans claim they are regarded as legitimate prey by hotel and store proprietors, and, refusing to pay the exorbitant prices asked, have passed up this district attractive and desirable, as it is in favor of Muskoka, where the hotel service is declared to be paramount and prices in general legitimate.

Want Money's Worth.

"The Americans don't mind what they pay so long as they get their money's worth, but you can't bleed them," is the way one man who is in touch with the tourists explains the trek away from Kawartha. One item in particular on which the tourists claim overcharging is a popular chocolate bar that sells in the city for 60 cents and at the lakes for 90 cents.

The tourist business is not as large as it was a few years ago. At any rate the last two seasons have been dull, according to a G. T. R. baggageman. In his frank opinion, many of the tourists are going to Quebec to quench their prolonged thirst. The business was slow, he said, this year until the last two days in June, when a marked improvement was noticed. The rush of baggage to the lakes now resembles the pre-war trade, and if it continues the season will be a bumper one.

An arrangement has been made by the Collector of Customs, whereby an officer will be at the G.T.R. Station to examine all the incoming baggage. Americans complained that, arriving on the noon train, they often were delayed a day in reaching the lakes through having to wait for a Customs examination. At the C.P.R. Station for some time an officer has met all the trains.

BUILDING BYLAW WILL BE PRINTED

Council Extends Thanks to Mr. G. S. Matthews for a Gift.

Tenders for the printing of copies of the newly revised building by-law in lots of 250 and 500 will be called for by the Council in accordance with a resolution by Ald. Gainey last night. The decision as to quantity and other details was left to Ald. McIntyre, chairman of the Property committee and City Engineer Parsons.

Mr. Parsons said that some criticism had been made against his department because builders and others could not obtain for their permanent possession copies of the by-law.

Widen Bridge.

The bridge at the corner of Douro and Concession streets will be widened on its north side the full width of the street.

Ald. Hamilton, who made the motion, which was seconded by Ald. Holloway, said that this bridge was too narrow for all the traffic that flowed over it.

Thanks to G. S. Matthews.

A resolution of appreciation to Mr. Gordon S. Matthews of the Canadian Packing Company was presented by Ald. Morrison. The chairman of the Parks committee said that Mr. Matthews had donated five lockers for the bath house at Inverlea Park.

RUSS. ORTHODOX CHURCH LOSES ITS DOMINANCY.

Goes to Pieces in Its First Direct Conflict With the Soviet Regime.

MOSCOW, June 30.—(Associated Press).—The great Russian Orthodox Church, which for centuries was probably the most important social factor and one of the most important politically in Russian life, seems to have gone to pieces itself, rather than to have had any effect upon the Bolshevik Government, in its first direct conflict with the Soviet regime.

Whatever may have been the underlying purpose of the Communist Government in directing the requisition of church treasures for relief of the famine sufferers, the requisition itself has succeeded in splitting the church. Scores of priests are under arrest and revolutionary tribunals throughout the country are trying them for counter-revolution or theft and secretion of church valuables without any particular resentment on the part of the parishioners. Patriarch Tikon, the head of the church, abdicated when faced with trial by the civil courts on the charge of opposing the requisition. One of the men he suggested as his possible successor, the Metropolitan Benjamin, of Petrograd, is also to be put on trial, and in the meantime the control of church affairs has been turned over to a group known popularly as the "red clergy."

This group, pledged to simplify the church services and to work in harmony with the Bolshevik Government, already has taken over a number of churches. It, is headed by Bishop Antonin, of Moscow, who early in the conflict that developed over the requisition of treasures, volunteered to assist the Soviet Government. Now Antonin is planning to secure close co-operation between church and state by appointment in the Russian Cabinet of a commissar for church affairs.

The actual value of church treasures of Russia probably was several hundred million dollars, but the requisitioners obtained but a small proportion of this amount. They secured tons of silver, much gold, and thousands of precious stones, but for every diamond studded mitre the requisitioners found one or two similar articles listed as stolen or missing. For the theft of these, and for open agitation against requisition, there is scarcely a province in Russia where churchmen have not been arrested. In addition to the eight priests, one woman and two laymen sentenced to death at Moscow, and four sentenced at Shuya, other death sentences are being imposed. Except at Shuya, however, none has been carried out, and it is generally believed in Moscow that most of those convicted will be pardoned or receive reduced sentences. General Brussiloff, one of the heroes of the Russian war against Germany and Austria, has interceded for his daughter-in-law, Mrs. Barbara Ivanova Brussiloff, the woman sentenced to death in the Moscow trial.

Old residents of Moscow have told the correspondent that the arrests of the clergy were not resented because Russians ordinarily had very little respect for the priests. They were devout in their church worship, but regarded the clergy, particularly in the villages, as men who charged them for all the services the church rendered, making them pay for births, marriages and deaths.

NEWS OF HAVELOCK AND THE DISTRICT.

Monday Was Observed As the Holiday — Huckleberry Crop Ready.

HAVELOCK, July 4. — Dominion Day was observed in Havelock on Monday in place of Saturday, the local stores remaining open on Saturday. Reeve Jones issued a proclamation to that effect.

Pavilions Open.

On account of Saturday being a holiday, the dancing pavilions at Trent River were open and were largely attended.

Pick Huckleberries.

A large number of people from this district have left for the North Country to pick huckleberries, the crop of the fruit being reported exceedingly large. The season has opened unusually early this year. Some have ben picked more than a week ago.

Went to Campbellford.

A large number of the residents of town visited Campbellford on Saturday to attend the lacrosse match between Campbellford and Bradford.

Gave a Shower.

A miscellaneous shower was held at the home of Mrs. Ed. Williams on Friday evening last in honour of the bride-to-be, Miss Katherine Falkner. Miss Falkner received some lovely and useful gifts, one in particular being a very pretty silver pie plate from the members of the Parish Guild, in which Miss Falkner has been a member for a number of years.

WHERE HAPPINESS DWELLS AND BEAUTY EXCELS.

A summer day is long in Algonquin park, inviting to out door pastimes of all descriptions. The nights are cool and restful, with clear lakes reflecting the great stars that hang low in the northern skies, and there is silence except for an occasional fluted call, the dip of feeding trout or bass and the subdued song of water and stirring leaves. If you would experience such summer days as these visit Algonquin Park, drink in with your lungs the air of its heights, with your eyes behold its manifold beauties and you will become a lover of this big unspoiled forest of the Ontario Highlands. Reached by the Grand Trunk Railway. Illustrated booklet telling you all about it sent free on application to any Grand Trunk Ticket Agent, or C. E. Horning, D.P.A., Toronto, Ont.

IF YOU ARE WELL BRED—

You can listen as well as talk. You know there is no more subtle form of appreciation than that of the interested listener.

You draw out your guests and persuade them to talk, rather than occupy the centre of the floor yourself.

STRIKE OF THE MAINTENANCE MEN DELAYED

Meeting of Labor Board and Representatives of the Employees Will Be Held in Chicago To-Day.

PLANS PREPARED.

DETROIT, July 4. —(Canadian Press).—The United States Railroad Labor Board late yesterday averted, temporarily at least, a threatened strike of 400,000 maintenance of way employees of the nation's railroads, in protest against a wage reduction.

Just as the Executive Board of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers was mapping plans to send forth a strike call, the Labor Board made a request by long distance telephone that the union chiefs meet with the Labor Board in Chicago to-day in an attempt to adjust the differences between the railroads and their employees. The invitation was accepted and the five members of union board, with E. F. Grable, International President, left last night for Chicago.

The Labor Board's invitation to the conference brought to an abrupt end a meeting of the Brotherhood Board that began at 10 o'clock yesterday morning.

In addition to the brief statement announcing acceptance of the Labor Board's invitation, Mr. Grable declared that in the event the Chicago conference met with failure "a reasonable length of time," would ensue before a strike order would be issued. He said this meant at least 10 or 12 hours.

WAR VETERAN DIES.

EDMONTON, July 4.—(Canadian Press.)—The death of Major F. W. W. Fane, of Beaver Lake, Alta., is reported. Major Fane had a distinguished military career, having served with the 19th Alberta Dragoons, the Royal Northwest Mounted Police and the Third Canadian Mounted Rifles in European war. His death was undoubtedly due to the effetcs of wounds sustained in 1915 while on active service.

Major Fane came to Alberta in the late eighties and following his retirement from the Mounted Police took up ranching on a large scale at Beaver Lake.

MEMBER OF HOUSE 22 YEARS YET TO MAKE MAIDEN SPEECH

John Hope, Seven Times Elected From Berwick, Says Occasion Never Arose When Words Were Necessary For the Good of the Country.

LONDON, July 4.—(Canadian Press).—John Hope, M.P. Coalition member for Berwick, claims to have broken all parliamentry records by having sat in the House of Commons for twenty-two years without making his maiden speech.

He is a regular attendant at the sessions of the House, has survived seven hot elections in his district, proving his popularity there, but his voice has never been heard by his colleagues except in conversation.

When asked recently why he never spoke in the House, he said "a man can do more in life by not talking about it. When I first entered the House I never had any other idea but that I would make speeches but as time has gone on the occasion has never arisen when it would not be just as well to leave the speech undelivered.

"I have been tempted more than once and friends have urged me to make my maiden speech but I have not, simply because it wasn't necessary for the good of the country. Now I am afraid my maiden speech will never be delivered.'

His prolonged silence is not due to inability to speak for Mr. Hope gets along very well conversationally outside the House. He is regarded as a successful member and he says that whenever he wants anything he goes directly to the responsible minister. Because he has never attempted to browbeat ministers across the floor of the house, he finds he is always received with cordiality and he generally obtains satisfaction That is one of the reasons Mr. Hope maintains what he calls his successful silence.

There are only two records in Commons to compare with his. There was the case of William Hamilton in the eighteenth century, who was known as "Single Speech Hamilton". During his long service he made but one speech.

There is a legend of another member who spoke only once in the house in the hearing of his colleagues and on that occasion he asked that a window behind him be closed.

Relatives of Switchman Deny That He Is Responsible For Derailment of "Midnight Flyer."

SWITCH OPEN.

ATLANTIC CITY, N.J., July 4.—Investigation from four sources was under way last night to place responsibility for the wreck of a Philadelphia and Reading Railway train shortly after midnight Sunday night at Winslow Junction, near here, which cost the lives of seven persons and injuries to more than 65 others.

The wrecked train was the "Midnight Flyer" which left Camden at 11.40 p.m., and was due in Atlantic City at 12.55 a.m. The smash occurred on the Cape May-Wildwood branch, when the train, running at full speed, crashed into an open switch leading off from the main line to the Cape May line. The engine left the rails on the curve and catapulted down an embanked, taking with it five of the six cars it drew.

The Cape May switch had been opened by mistake and John Dewalt, 60 year old towerman at Winslow Junction, is under surveillance by the State police. He is in bed at his home in Hammonton where a State trooper remains with him.

Reports that Dewalt had assumed the blame for the wreck were denied by the towerman's relatives and also by the Reading management.

In explaining the apparent cause for the switch being open, Charles H. Ewing, Vice-President of the Reading Railway Company, in charge of operations, in a statement said Dewalt had set the switches for the movement of the Cape May branch, seemingly in the belief that a train of empty passenger coaches which had passed previously was the 'Midnight Flyer."

Railroad officials said that when a switch is open a signal warns the engineer of an approaching train to slow down. A train going 40 miles an hour, they said, would not have left the tracks.

The engineer on the Flyer took the junction switch at full speed, Mr. Ewing's statement said, and thus caused the derailment.

Ninty passengers, bound for the shore over the holiday, were aboard the train. They were mostly from southern New Jersey towns and from the vicinity of Philadelphia.

Five of the six cars were badly smashed, and the fact that five were of steel and the sixth had a steel underframe, is believed to have held down the casualty list.

Wrecking crews late yesterday had removed the wreckage of three of the coaches and found no additional bodies, and it is not thought likely any more will be found. The body of Walter Westcott, of Gloucester, N. J., engineman, still lies beneath his locomoitve.

Westcott was kiled instantly, and his fireman, William T. Souder, of Atlantic City, died on the way to the hospital Almost everyone on the train suffered more or less injuries, among them being 16 women and children.

Relief trains carried injured and dead to Atlantic City and to Camden.

Winslow Junction is 26 miles from Camden and is a lonely spot with few bluildings about. When the news of the wreck reached Margaret Loughmann, telephone operator at Hammonton, three miles away, she immediately summoned every physician nearby on her list of subscribers, the Hammonton Fire Department, the American Legion and Red Cross Chapter at Hammonton.

An unknown motorist played the role of a modern Paul Revere, using the siren of his automobile to good effect, awakening Hammonton residents and shouting for them to go to Winslow Junction. The residents and those in the vicinity tumbled out of their beds and did effective rescue work.

BIG FIRE LOSS.

KAMLOOPS, B. C., July 4. — (Canadian Press.)— The Northern Construction Co.'s mill containing about two and a half million feet of timber, was completely destroyed by fire Sunday. The loss is estimated at $100,000.

You will be astonished to find that a car of the size and weight of the good Maxwell can be so roomy and so remarkably comfortable to ride in.

Cord tires, non-skid front and rear; disc steel wheels, demountable at rim and at hub; drum type lamps; Alemite lubrication; motor driven electric horn; unusually long springs; new type water-tight windshield.

MANY CHANGES IN THE CIVIL SERVICE ARE TO BE MADE

Appointments Now Made By Civil Service Commission to Be Exempted By New Act.

THE CHANGES.

OTTAWA, July 4 (Canadian Press). — Exclusion of a large number of positions in the Civil Service Act, has been recommended by the Civil Service Commission and confirmed by the Government.

This means that the appointments made in the various classes specified will not, in future, be made by the Civil Service Commission. The classes of positions exempted from the operation of the Act include:

All positions where the salary does not exceed $200.00 per annum.

All positions for which the compensation provided in fees of office and positions of an honorary character to which no compensation is attached.

Positions of orderly in the offices of the Governor-General's secretary.

Positions of Indian interpreter, Department of Indian Affairs.

Positions of physician performing the duties of port physicians under the Department of Health at points in Nova Scotia, New Brunswick, Prince Edward Island, Quebec, and British Columbia.

Positions in 144 classes of skilled and unskilled labour specified in the regulations.

It is said that the Civil Service Commission finds that it is not practicable to prescribe a system of competitive examinations or tests as required by the Civil Service Act, for making appointments to positions of this nature. The Commission is further of the opinion that there is good ground for believing that the classes specified were among these which Parliament had in mind for exemption in amending the Civil Service Act during the session of 1921.

ATTEMPT ON LIFE OF GERMAN EDITOR

Maximilian Harden Sustains Five Wounds in the Head — Assailants Are Arrested.

BERLIN, July 4. — (Canadian Press.)—Two men attacked Maximilian Harden, editor and political writer, near his home in the Grunewald, a suburb of Berlin, yesterday. He was taken, unconscious, into the house, where he was found to be suffering from five wounds in the head. His assailants were arrested.

The attempt on the life of Maximilian Harden, one of the most noted European publicists, comes just a litle more than a week after the assassination of Dr. Walter Ratheneau, the German Foreign Secretary, which took place in the Grunewald.

Herr Harden in the course of the war published many striking articles in his newspaper Die Zukunft, mostly denouncing the policy of the German Government. He frequently aroused the ire of the Imperial authorities by his statements, and in July, 1917, his publication was suppressed for the remainder of the war.

In one of his articles that attracted much attention he eulogized President Wilson; in another he appealed for a German democracy.

NO DISTURBANCES IN STRIKE OF MEN IN RAILWAY SHOPS

Strike Leaders Are Busy Perfecting Their Organizations — Reports of Picketing.

NON-UNION WORKERS.

BOSTON, July 4 (Canadian Press). — Developments in the railway shopmen's strike were few in this district yesterday. While two of the three roads with terminals here, were receiving men in response to advertisements for workers to take the shopmen's places, the strike leaders were perfecting their organisations at several meetings throughout the section.

The Boston and Maine, Boston and Albany and New Haven roads reported that the pre-holiday train service which was very heavy, was uninterrupted.

Robert Henderson, secretary-treasurer of the New Haven Shop Crafts Federation, said that all shops of that road and the Boston and Albany were picketed yesterday.

Newspapermen reported that they could find no pickets.

HAPPY REUNION AT JANETVILLE

Special Addresses, in Which Rev. Geo. Ross of Peterborough Participated.

JANETVILLE, July 4. — Old boys of Manvers community assembled here over a thousand strong for their annual re-union. This event is growing in magnitude from year to year, and is an event that is always looked forward to with pleasurable anticipation.

This year the attendance has established a record, and the two-day event, which terminated on Monday, will long be remembered by those who participated in the ceremonies.

The large tent erected for the religious services on Sunday contained 1,000 people at the morning service, and a similar attendance featured the afternoon service. The morning service was featured by addresses by Manvers old boys, together with the reading of letters from old residents of the township.

In the afternoon Rev. D. N. McCamus, a Manvers old boy, delivered an inspiring address, and in the evening, before a gathering of 1,400 people, Rev. George E. Ross, of Peterborough, and one of Manvers' sons, delivered an eloquent discourse.

A feature of the services was the excellent singing of the Millbrook mixed quartette.

Monday was given up to pleasure, the renewal of old associations, and a general get-together event. Sports of all kinds were introduced, and the event marked an epoch in the history of the township.

STREETS OF DUBLIN STILL BATTLE SCENE

Rebels Are Surrounded and Are Holding Out in Two Separate Strongholds.

FEW CASUALTIES.

DUBLIN, July 4. — (Canadian Press).—The people of Dublin are now awaiting the result of the attack on the Gresham Hotel and other premises in O'Connell street, which has been in progress incessantly since yesterday morning. The rebels hold positions in two areas near each other, with a wedge of regulars between.

In the upper area on the high ground above O'Connell street abutting on the east of Parnell Square they hold Barry's Hotel and the Plaza Hotel but they, have lost all other strategical points in this section. The encirclement of this area is practically complete and the irregulars are confined within a position from which escape is not easy.

In the lower area of O'Connell street the rebels still hold a block of buildings running from Gresham Hotel to Cathedral street, fronting on O'Connell street, and backed by the parcel post office, the Catholic cathedral and other buildings in Marlborough street.

Until late yesterday afternoon on the south side of the city the people were moving freely; crowds thronged the streets or engaged in shopping, although many of the larger stores are still closed. All the entrances to Stephen's Green were open and many people basked in the sunshine there away from the noise of the guns in the O'Connell area.

Mount Joy Prison has been converted into a war prison with Demott Hagerty Secretary of the Provisional Government as Governor.

During the course of the fighting a heavy barrage of machine gun fire from the armored cars and rifle fire from the buildings opposite was answered by a brisk fire from the irregulars. The rattle of guns continued all day long and crowds of onlookers gathered outside the line of fire. Now and then especially heavy firing or the bursting of bombs or grenades caused a stampede, but the crowds soon returned fascinated by the spectacle.

Up to the present the casualties among the combatants are astonishingly small while the toll of civilians is heavy. Those who dare the guns seem to escape, while others going about ther business fall by stray bullets. A girl was killed in her bedroom in the training college in Talbot street this afternoon by a stray bullet.

OVER 1000 VISITORS IN NORWOOD YESTERDAY

Old Boys and Girls Return in Such Numbers as to Seriously Lower the Supplies.

A DAY OF SPORT.

Yesterday the Norwood Old Boys and Girls Reunion proceeded more vigorously than ever, and the climax of the successful affair was reached in the evening when after a day marked by one continuous round of excitement, a garden party and a dance were held and the old boys and girls accepted the invitation in the programme "to paint the town red." Norwood has never in its rather colored and long career experienced such scenes of hilarity and gaiety as occurred Monday and Monday evening. During the day there were over 1,000 visitors in town, excluding the honored guests, whose numbers according to the latest figures run up to 700. Registrations poured in during Monday, although most of those arriving were from immediate points. There were a few stragglers from far away, however, and like the others they received a warm welcome home.

There have been so many guests that the supplies of badges at the town hall have been practically all used up. The stocks of badges giving the name and residence of the person concerned gave out finally and the supplies in general went to terrifying low levels such were the flood of requests for these souvenirs. The registration continues apparently without any let up. Some 25 pages of foolscap have been filled with names and the reports continually being brought in say that many have not yet appeared at the town hall. These reports have proved rather alarming to the valiant ladies who have had charge of the work of registration and giving out the badges. They have almost concluded their task is endless.

The first machine was a Bristol fighter.

WILL OPEN BRIDGE.

NONTREAL, Que., July 4. — (Canadian Press.)— That the Wellington street bridge over the Lachine canal which the principal tram lines joining this city and the suburb of Verdun and outlying districts run, will be open by Friday, is the statement yesterday afternoon by Col. A. E. Dubuc, superintendent engineer of the Quebec canals. He indicated that repairs made necessary by the breaking of the pivot Sunday would be more extensive than at first supposed.

TOWN WIPED OUT.

VANCOUVER, B. C., July 4. — (Canadian Press.)—Fire which started in the small coal mining town of Bevan on Vancouver Island on Sunday, is reported to have wiped out most of the houses and spread to the bush and a serious forest fire has resulted in that vicinity Bevan has about one hundred residents and is seven miles from Cumberland. The Canadian Collieries (Dunsmuir) owns the site.

THE SALVATION ARMY.

The laying of the corner-stone of the new Salvation Army Young People's Temple the other night calls attention to the fact that the Army is making remarkable progress in Peterborough. The new building will provide quarters for many of the young people's organisations which have been handicapped by lack of accommodation in the present Temple, and will be of invaluable assistance to the general work of the Salvation Army in this city.

It is a matter for community congratulation that the efforts of the Army in Peterborough are to be increased because of the addition that is being erected. The Salvationists have done much for the people of this city; their work is known to and appreciated by everybody; and the fact that they are now in a position to enlarge their endeavours will be gratifying to citizens generally. From a very small membership the Army has steadily increased, until the Simcoe Street Temple is not commodious enough for the demands made upon it. At the same time the prestige of the organisation has made a corresponding gain, and it occupies a unique position in the regard of the community.

THE NEW ASSISTANT CHIEF.

The appointment by Fire Chief Gimblett of Capt. James Ward as Assistant Chief of the Fire Department will be pleasing to those citizens who know of the valuable work Capt. Ward has done in the various capacities in which he has served since he first connected himself with the department in 1911. Eleven years of service have fitted him for the responsible position to which he has now been appointed, and he seems well qualified, by reason of his knowledge of fire-fighting methods and of local conditions generally, and because of his influence over the men of the department, to become a most valuable Assistant Chief. At the same time his appointment is welcome because it is in accordance with the principle of promotion within the service. It will be an incentive to other members of the department to perfect themselves in their duties, inspired by the knowledge that the road to promotion is open to those with the necessary energy and ambition. Assistant Chief Ward has been a success as a lieutenant, and has been equally valuable to the department in the capacity of captain, to which position he was appointed last March. Citizens generally will wish him success in his elevation to the assistant chiefship, and will congratulate Chief Gimblett upon the choice that he has made.

A SPLENDID VOLUME.

The Examiner is in receipt of the Hal century anniversary number of the Daily Mail and Empire, a volume that reflects the greatest credit upon the publishers. It is not only the story of fifty years of a great newspaper, showing the advancement that has been made in journalism in this country, but it also comprises a comprehensive review of the social, educational, financial, industrial and commercial development and progress of Canada from 1872 to 1922. The Mail's anniversary number consists of over one hundred pages, dealing largely with Canadian history of the past fifty years, and it is splendidly printed and illustrated. Particular attention has naturally been paid to the Province of Ontario and to the city of Toronto, and the information presented in an attractive form and with splendid illustrations, will be of much interest to Canadians generally. The Mail and Empire is to be congratulated, not only upon having reached its fiftieth anniversary, but also upon the manner in which it has chosen to observe the occasion. It would have been easy to have devoted the space to self-advertisement. The Mail and Empire has preferred to present in attractive form the story of Canada's development during the fifty years of the paper's existence, and the publishers deserve thanks for what they have accomplished. The anniversary number will be prized by all who secure a copy.

THE NEW FREIGHT RATES.

The Canadian people will watch the effect of the reduced freight rates upon basic commodities with a great deal of interest. It has been argued that lowered rates would result in a speedy reduction in the cost of living. That happy consummation should, of course, follow to some extent at least the reduction authorized by the Railway Board. But will the benefit of the decrease be passed on to the consumer? There's the rub. If it is merely absorbed by the grain growers, the coal men and the producers and middlemen generally, the public will be no better off—indeed the average citizen will find himself suffering from a reduction that he expected would be a boon. The lower rates, you see, cut into the revenue of the railways. To the C.P.R. they mean a loss of some eleven million dollars a year, and Canada's own National railways will be the poorer by about the same amount. The C.P.R.'s decreased revenue of course will not matter to the public, but in the case of the National Railways, the situation is quite different. That eleven million dollars will have to come out of the pockets of the Canadian people. If they have to dig down and produce that amount of revenue for their railway white elephant, and at the same time are not getting the benefit of lower prices in the basic commodities, the reduced freight rates, instead of lowering the cost of living, will increase it. This may seem a pessimistic diagnosis of the situation, but it will materialize if those who directly benefit by the lower rates do not share that relief with the ultimate consumer.

INTERNATIONAL ACTION NEEDED.

Much has been written of the illicit opium traffic on this continent and of the big rewards which come to those engaged in it, says The Hamilton Spectator. Our Government is showing commendable energy in dealing with these unscrupulous peddlers; but in spite of all efforts to suppress the evil it not merely continues in undiminished volume, but actually increases in magnitude. The effective remedy would seem to be to deal with the sources of supply, and many of the great powers have taken action to check the trade, but the conviction is growing that it will be only through international agreements, specifying and restricting the supply of narcotic drugs to the amounts actually required for medical purposes, that a satisfactory solution of the problem will be found.

For many years India supplied China with vast quantities of opium, and for the sake of the profit derived from this trade the protests of the Chinese authorities against its corrupting influence went unheeded. Now the curse has extended to other parts of the world and has attained such proportions that it has become a universal menace. The situation in China has again become deplorable. For a time the rigorous measures taken against the opium users, and especially against the cultivators of the poppy, proved an effective deterrent. But the troubled political situation in China has led to a serious retrogression. Poppy growing has not only been permitted, but has been enforced in some districts. According to one authority, the Rev. Arthur Sowerby, who treats the subject in Overseas, "the method has generally been to put out a mandate forbidding the cultivation of poppy under the penalty of a heavy fine, and then soldiers are sent to the villages to compel the sowing of poppy seed that the fine may be imposed, unless the villagers pay up a handsome sum to the military captains. These tyrannical acts have been accompanied with the usual cruelties, men slain, women raped and villages destroyed by fire, whenever the soldiers have been resisted."

There is a large population of war refugees in the Far East, many of them of a class utterly devoid of the most elementary ideas of principle, who make their living by engaging in this underhand business. Russian, Greek, Turkish, as well as native Chinese smugglers deal with the raw material, and it is said that the morphia which has been manufactured in Great Britain and the United States is retailed in China by Japanese and Chinese agents. The morphia imported in this way has reached 1,000,000 ounces in one year, according to Mr. Sowerby, and cocaine is advertised by wholesale importers up to and over 1,100 tons. So that, if the Chinese are the largest offenders in Canada, so far as the illicit peddling of drugs in this country is concerned, the Chinese themselves have a grievance against other countries which convert the pernicious stuff into the seductive forms so extensively consumed throughout the world.

BOYS' WEEK.

Toronto has just celebrated a "Boys' Week," beginning with a monster parade of some 18,000 boys, Y.M.C.A. boys, Trail Rangers, Boy Scouts, boys from Protestant churches, Roman Catholic churches, and Jewish synagogues, sons of the wealthy and sons of the poor, but all boys in their eagerness, their enthusiasm, their outlook, and their preternatural activity.

Apart from the good which will be done to the boys by special sermons and addresses, we think the chief advantage will lie in focussing public attention upon the fact that there are boys in town, and that there are lots of them, of all kinds and conditions, and it may possibly lead a few thoughtful individuals to wonder if they are really doing anything for this great mass of boy life. And when men get startled into thinking, improvements are likely to follow.

There is an old saying "boys will be boys," but to-day some good people are ready to add "but not when I'm around." There are some men and women who seem to be continually at war with the child life about them. They cannot understand it. If they have a pet kitten and it bites or scratches them, they say it didn't know any better, and probably they had hurt it, but if the boy misbehaves, they say it is just the devil in him; and it never enters their heads that the boy is at least as good as the kitten. Yet the boy has really a soul and is really a human being, at least in embryo; and he is worth more than all our prize cats and dogs, and all our pure-bred colts and calves. And it is safe to say that he is neglected more than any of them. It is inconceivable that we should go to any man at night and ask him where his pure-bred $10,000 calf or colt is, and that he should say, "I don't know." Of course he would know; he would make it his business to know; and yet some men don't know where their boy—bone of their bone, flesh of their flesh, and worth more than all the pure-bred stock in existence—is spending his evenings.

One thing the boy needs is a father who is cognisant of his existence. The father who remembers to make money but forgets his boy is making a fearful mistake. There is no one to whom the boy looks up so naturally as to his father. There is no man whom he is willing to trust so implicitly as "dad." And when the father becomes so immersed in bonds and stocks, in business and pleasure, that he forgets his own boy and fails him in his hour of need, that father is sinning against his own soul and sinning most grievously. We never remember hearing a sermon upon this, but tragic illustrations lie all around us.

Next to the father, the boy needs brothers. The only son is a lonely lad. Boys need boys, and God intended boys to grow up in a family group with brothers to play with, and keep them in order, and incidentally trim them into good citizenship. We were reading an article the other day on the "gang" spirit in boys, and we wondered a little at the author's treatment of it, until it suddenly dawned upon us that the boy he was talking about was the "only son." God meant the average have to have plenty of boys and girls, and there seems to be nothing that will civilise and Christianise a boy like a few good brothers. And they do it so naturally—it is almost a pleasure.

And a boy is one of the most human things we know. He is suspicious of the man who forgets his name and calls him "Johnny," and he is still more suspicious of him if he says, 'Johnny, my boy." That's the limit. The ordinary boy seems to like noise rather than music, prefers food to silver spoons, enjoys a baseball match more than a prayer meeting, has no love for long speeches, would sooner be outdoors than indoors, and prefers a tennis racket to a volume of poems. Some people get mad at him because he's a boy; some people think he has no religion because he is short on prayers; some are suspicious of him because he is too honest to pretend to like what he does not like; but to the man or woman who takes him as heisand uses him the man or woman who takes him as he is and uses him is a real religion which in its simplicity and downright sincerity is worthy of our admiration.

What are you doing for your boys? Merely scolding? Better quit it! The boys need you, your time, your wisdom, your money—but not your scolding! They are asking, inarticulately, for bread; do not give them a stone. They want men; don't try to give gold as a substitute.—Christian Guardian.

VOICE OF THE PEOPLE

The Editor, The Examiner:

Dear Sir,—In view of the coming tag day for the Peterborough Athletic Association, we feel that this would be a very opportune time to say a word in appreciation of their work.

The purpose of the Young Women's Christian Association is to promote the spiritual, intellectual, social and physical well-being of all girls. We have found the P.A.A.A. a very great help in building up the physical side of girl life, and feel that with their help much progress has been made in games and recreation for girls. During the winter, Mr. Smaill very kindly helped with the promotion of a girls' basketball team in the Ontario Ladies' Basketball League, and scheduled hockey games were much enjoyed by the different girls' groups. This spring baseball has been revived and keen interest and group spirit are in evidence.

We are very grateful for the help of the Peterborough Amateur Athletic Association and wish them continued success.

President of the Y.W.C.A.

To the Shareholders and Creditors of Red Arrow Tires, Limited:

Following the action taken at the Shareholders' Meeting held June 27, 1922, the undersigned are now having prepared a Detailed Statement covering all transactions between it and Red Arrow Tires, Limited. Many Shares subscribed for have not been paid for in full, and therefore are unissued. Many Shares subscribed for and paid for are unissued, due to the fact that Red Arrow Tires, Limited, have for some time past been unable to secure a quorum of Directors with which to legally transact business. These facts will be fully covered in the Statement which, when completed, a copy will be furnished to all Shareholders and Creditors and to the proper officers of the Company. Negotiations are now pending which, when successfully completed, will, we hope, straighten out the unfortunate condition now existing.

Respectfully submitted,
PETERBOROUGH SECURITIES CO.

LORD BYNG PAYS VISIT TO LETHBRIDBE

LETHBRIDGE, Alta., July 4. — (Canadain Press.) — After a visit of four days in the Medicine Hat district, His Excellency Governor General Byng, Lady Byng and party, were welcomed to Lethbridge yesterday morning.

Following an official welcome the veterans' club and Galt Hospital, the experimental farm and the Co-aldale Irrigation district were visited.

At noon the vice-regal party left for Calgary where the remainder of the week will be spent.

HARBOR RATES CHANGED.

OTTAWA. July 4. (Canadian Press.) — Harmony between the harbor rates in Quebec and Montreal is effected in an order-in-council which has just been made public. This order in council brings into force a new bylaw of the Quebec Harbor Commission regarding top wharfage dues, the effect being, as stated in the order, to bring their harbor rates in harmony with the rates in Montreal, which were recently reduced.

GOOD CATCHES FOR FISHERMEN AT LAKEFIELD

Five 'Lunge Landed — Boosting For An Annual Regatta — Street Oiling is Much Appreciated.

NEWS NUGGETS.

LAKEFIELD, July 4.—Fishing has been excellent this season so far and the disciples of Isaak Walton are enjoying their favorite pastime. Crossing the bridge one can always see several patient fishers sitting on the flag stones near the water. Others trawl up the river and past the three islands. Mr. Thomas Watson who is very successful and has landed several fine lunge nearly got one last week which would break the record established by Mr. Woolridge of Little Britain.

Mrs. Tucker caught a fine lunge Saturday evening.

Annual Picnic.

Rev. Father Meagher's annual social ball will be held on Thursday afternoon and evening at Riverside Park Pavilion.

Replay Ball Game.

Lakefield and Otonabee will replay their League baseball game at Riverside Park, Peterboro, on Thursday, July 6th. Local fans are planning to attend in force and cheer the home team on to victory.

Lakefield Regatta.

It seems hard to get preparations for a regatta started in Lakefield this year, and yet if there was a vote taken it would be almost unanimous for the sports day. The real point is who will do the work?

There is no question that a regatta held anytime from July 20th to August 20th would draw a good contingent from Stoney Lake and Chemong.

Last year Kawartha Park ran off a programme of land races on the morning of August 1st and water races in the afternoon and each set of races was in charge of a committee of men who devoted some time to it, and who wanted to boost their locality. It was a grand success and attended by a large crowd. Lakefield has a splendid natural course for water races and the exhibition grounds could easily and speedily be arranged for land races. Why not a regatta to boost this village? That is the question many are asking just now.

Oiling Streets.

The work of oiling the streets was begun last week and is being well done. One half is now completed and when it is dry the other half will be done. This was proved last year to be the best method of laying the dust. and no one minds the temporary inconvenience as it saves so much unpleasantness.

At the Re-Union

A number of citizens of Lakefield are taking in the re-union of the Old Boys and Girls of Norwood. Norwood has set the pace for the villages of Peterboro district and it is hoped that Lakefield will yet have an Old Boys Re-Union.

Church News.

Union Services of the Presbyterian and Methodist Churches were held on Sunday with Rev. S. F. Dixon in charge. Morning service was held in the Methodist Church and evening service in the Presbyterian Church.

The Rector of St. Johns' has arranged for Rev. G. King to take the services for the present as he (Rev. F. Vipond) is a patient in Christie St. Hospital and expects to be there for several months more

THIS LAXATIVE HAD EFFECT

Miss Johnston glad to say Dr. Caldwell's Laxative Syrup Pepsin freed her from constipation.

Miss A. M. Johnston, Sweetsburg, Que.

IT is not always easy to find just the right medicine for chronic constipation, but the experience of many thousands of people is that Dr. Caldwell's Laxative Syrup Pepsin is the best remedy to take. Miss A. M. Johnston of Sweetsburg, Que., sought relief for years and only found it in Dr. Caldwell's Laxative Syrup Pepsin. So did Mrs. H. Lefever and her little daughter of Medicine Hat, Alta., and Mrs. M. Martin of Mussey, Ont. There are, of course, thousands of others, and they recommend it publicly.

There is no need to take harsh physics, cathartic pills, castor oil, calomel or dangerous coal tar medicines. You can get better and quicker results in a mild and gentle way with a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin, and a dose costs less than a cent. This wonderful medicine is a vegetable compound of Egyptian Senna and other simple laxative herbs with pepsin. The formula is on every package. Use it for constipation, headaches, biliousness, feverishness, loss of appetite and other ills due to a disordered stomach and bowels. It is safe for babies.

HALF-OUNCE BOTTLE FREE

Few escape constipation, so even if you do not need a laxative at this moment let me send you a Half-Ounce Trial Bottle of my Laxative Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, 24 Front St., Bridgeburg, Ont. Write me today.

OVER 1000 VISITORS

(Continued from Page3).

quarters of the Reunion Association are located has been converted into a paradise for the Old Boys and Girls in that hundreds of old photographs of personal and intense historical interest have been put on view here. The views have been gathered from alll parts of the country and an interesting half hour may be spent in delving into the past by studying the photographs. One of the photographs of considerable historical value is a small one showing the County Council and officials, 1863, in which year the late Peter Pearce, was warden. The late Mr. Pearce was the father of J. B. Pearce who, 84 years of age now, is referred to as the grand old man of the village. That the picture is not by any means a recent one will be appreciated.

Norwood's first band is shown and a photograph of Mrs. P. M. Grover, nee Harriet Keeler, who named the village. A painting executed with some ability, shows the beautiful village as it was in 1866. The photographs have been inspected by hundreds. The visitors have found them a link with the past that remains when memory fades and friends have passed away.

Back to School Again.

Monday morning at nine o'clock the school bells of the Public and High school rang cheerfully out on the morning air and a big class of the grown-ups responded. Speechmaking that was practically all of a reminiscent nature was indulged in, but there were more songs than at the similar event on Saturday. Addresses were made by E. P. Cuffe, chairman of the Board of Education; G. A Brethen, M.P.; Will O'Reilly, Michigan; M. Knox, Picton; Miss B. Pearce, Mrs. Jennie Forsyth and others. Enjoyable solos were given by Mrs. Emma Witchell of Toronto. High tributes were paid the work of Norwood High school and to the instruction given by John Davidson and those who preceded him. The same standard of efficiency had been kept up to the present day and the speakers hoped that Norwood would always be noted for its educational facilities.

W. H. McConnell, of Detroit, claimed that from estimates he had made Norwood had more High school graduates according to its population than any place he knew of. Miss Pearce who, as secretary of the Reunion Association, has been in a large measure responsible for the success of the Reunion, pointed out that the pioneers who cleared the land and made homes in the virgin forest had even among primeval conditions the highest regard for education and early took steps to provide it. It was little wonder that the village has long had a reputation for producing learned men, she said.

A Rainy Day.

The weather was inclined to be inclement. Although the rain postponed the baseball game in the morning it was not by any means disastrous and if the skies were forboding, people did not stay home on that account. About 3 o'clock in the afternoon another downpour occurred, but did not hold up the programme. The people of the village, their guests and hundreds from the surrounding townships, were at the Fair Grounds in the afternoon. There was an exhibition lacrosse match between Campbellford and Hastings, won by the former 14 to 12, a continuation of the morning's ball game between Warkworth and Norwood and a good card of horse racing. The First Northumberland Band of Campbellford furnished music during the afternoon and sundry hot dog and pink lemonade stop-overs did a good business while games of chance flourished in abundance. An ex-cowboy did clever rope tricks for the crowd, but when he announced he was coming down to pass the hat the people all moved on.

Lacresse Game.

The lacrosse game was the first fixture of the afternoon. Both teams were well matched and it was touch and go all the way. No heads were bashed in and casualties were a minimum. The line-ups were:

Campbellford— Garrison, Blake, Smith, Hormel, White, Heagle, Harte, Copperwaite, Reynolds, Dunk, English.

Hastings—Whitrid Tate, Richardson, Welsh, K. Cruikshanks, Scriver, Stevenson, Gould, O. Cruikshanks, Waye Crawley.

Umpire— R. A. Cole, Campbellford.

Inter-County Baseball.

Two innings of the Inter-County League baseball game played in the morning before rain put the damper on it, left Warkworth with a start of two runs that Norwood was unable to overtake. The final score was 7 to 6, with the result that Warkworth, Hastings and Norwood are tied for second position in the league with two wins and four losses. The teams:

Warkworth — Armstrong, c.f.; Henry, 2b.; Oliver, r.f.; Zufelt, l.f.; Baker, 3b.; Corkery, p; Leonard, 1b.; Wilson, c.; Thompson, s.s.

Norwood—Borland, c.; Green, p.; Robertson, 1b.; Ruttan, 2b.; Finlay, 3b.; King, s.s.; Watson, c.f.; Kempt, l.f.; Munro, r.f.

Umpires — C. H. Curtis, Warkworth and H. Waters, Norwood.

Horse Racing.

The rain was not of such a quantity to spoil the track and the horse racing was of interest to a large part of the crowd. The association put up enticing purses, $500 in the 2.15 class and $300 and $200 respectively in the 2.20 and 2.40 classes. The results were:

2.15 Class—

Bub, owned by P. Moyse, Port Hope 1 1 1 (1)

Time (half mile) 1.52, 1.53, 1.55.

I. M. Nattress of Millbrook, started the horses, while the judges were Dr. Munro, Warsaw and William O'Keefe, Tweed.

Letters Pouring In.

A large number of letters were received by Miss B. Pearce, secretary of the Association from old boys and girls who have been unable to attend, expressing their regret and best wishes. One of the most interesting came from Major General H. W. Leader, an old Norwood boy now stationed in India. During the war he served with distinction in France and now holds a high position in India. He would dearly like to be at the re-union he said. His invitation reached him through the War Office, where Miss Pearce despatched it.

More Celebrations.

The police took an unexpected hand in the programme Monday and provided a double attraction at the town hall, the lower part of which serves as the village lock-up. J. Potts and R. Gamble of Campbellford were arrested by Constable Isaac Puffer, P. C. Gordon Puffer and Provincial Constable T. Y. Stratton at a Norwood home at 12.45 on the charge of intoxication and disorderly conduct. It was alleged that the young men had celebrated the re-union the night before and that morning in a convivial un-O.T.A. manner. At any rate a stone jar partly full of moonshine testified to the presence of liquor While the officers returned from the lock-up, Inspector J. Stewart was encountered and the case turned over to him. He telephoned Magistrate O. A. Langley and arrangements were made to hear the case against the young men in Norwood Tuesday. They will be charged with being intoxicated and with 'having.' J. Wearing will represent the Crown.

During their period in the lock-up yesterday afternoon the prisoners discoursed freely with friends through the prison bars and were regarded with awe and reverence by many small boys. The attraction in the lower part of the town hall developed to such an extent that the popularity of the picture gallery above was seriously threatened.

PROGRESS OF STRIKE ISSUE

Strike of 400,000 Men Is Averted — Chiefs Will Confer.

DETROIT, July 4. — (Canadian Press).— United States railroad labor board late yesterday averted temporarily at least threatened strike of four hundred thousand maintenance employees of Nations railroads in protest against wage reduction. Just as Executive Board of United Brotherhood of Maintenance of Way Employes and Railway shops laborers was mapping plans to send forth strike call Labor Board made request by long distance telephone that Union Chiefs meet with Labor Board in Chicago to-day in an attempt to adjust differences between roalroads and their employees. Invitation was accepted.

DENOUNCES RULING

WASHINGTON, July 4.—(Canadian Press).—Ruling of United States Labor Board "outlawing" Railroad Unions now on strike was denounced by Samuel Gompers, President American Federation of Labor in statement issued last night as "utterly Bolshevik in character" and an attempt by Board to "disband Unions at Will".

On heels of Labor Boards ultimatum to Union, Executives of Railroads declared in statement at New York last evening that strikers had forfeited all rights including pensions and priority of promotion.

STRIKE DEADLOCK

BUFFALO, July 4.—(Canadian Press).—Deadlock in strike of International Railway Company's traction lines in Buffalo and other western New York towns was unbroken last night when men reiterated their determination to fight for recognition of union while company's officials declared such recognition would not be granted.

ASSN. OF HOBOES SUPPORT STRIKERS

Tramps' Convention in Buffalo Pass Resolution of Sympathy For Street Car Workers.

BUFFALO, July 4.—(Canadian Press)—A resolution offering moral support to the striking car men of Buffalo was unanimously carried at the first meeting of the conference of migratory, casual and unemployed workers of America here yesterday.

Dr. James Eads How, millionaire hobo, said that the car men of Buffalo, are fighting for a just cause, and if the "bo's lend their support by refusing to operate cars during the strike they may expect support from the Buffalo car men in a similar emergency.

CRERAR DESIRES TO JOIN PARTIES

Ottawa Citizen Says Progressive Knock at Liberal Door Will Be Heard.

OTTAWA, July 4.—The Ottawa Citizen which has hitherto been giving wholehearted support to the Progressive party, commented cynically yesterday morning upon "Mr. Crerar's quite obvious desire to link the party up wth the Liberals and Premier Drury's frank declaration in favor of something like fusion in Ontario".

The political leaders, says the Citizen, "believe sincerely that they can best serve by being in office They are no different from other party leaders in this respect but seeing no immediate prospect of attaining office by the uphill path of educating an Independent-Progressive opinion in the country sufficiently strong to elect the Progressives to power the easiest way would naturally seem to be to make an alliance with the Liberals."

RICH IN VITAMINES

MAKE PERFECT BREAD

STRIKING SHOPMEN TO LOSE SENIORITY.

NEW YORK, July 4 (Canadian Press). — The Railway Managers' Association of New York announced after a meeting late yesterday, a decision to strike the names of all striking shopmen from the payrolls of the Eastern roads entering this city, thereby depriving them of their seniority rights.

The action follows the declaration of the Railroad Labour Board outlawing the strikers.

E. M. Rine, chairman of the Association, in making the announcement, said the managers also had agreed to refuse further to recognise the unions now on strike. New unions will be formed among the men employed to replace the strikers, he said.

Rinso

For easy washing in the holidays

THERE are some things you *must* wash, even during vacation, but you need not waste the sunny hours over the wash tub. RINSO the new, wonderful scientific cleanser will wash the sheets and towels, the children's play-clothes and your own holiday things spotlessly clean by soaking and rinsing alone.

This is the way to use Rinso

Dissolve half a package of Rinso in enough cool water to make a thick cream. Then stir in two quarts of boiling water. When the bubbles disappear you will have a clear amber-coloured liquid which is the magical Rinso washing solution. Pour this into your tub of cool water and put in the clothes to soak.

In the morning rinse thoroughly and hang out to dry. Just a few minutes at night and a few minutes in the morning and the holiday wash is done. Thanks to Rinso.

CROP CONDITIONS GOOD IN THE WEST

All Western Provinces Make Good Reports of Growing Crops.

WINNIPEG, July 4 (Canadian Press). — Another week of good crop weather has been spread over the West, with moderate temperatures, according to the weekly crop report issued yesterday.

There has been an ample supply of rain in three prairie provinces, according to the report. Live stock continues to improve, with pastures affording ample sustenance.

The Dominion Government has not yet issued figures as to this year's flax acreage, but North-West grain dealers estimate 540,000 acres seeded to this crop.

Manitoba has experienced cooler weather, with frequent showers during the past week. A large percentage of grain battered by the storm on 23rd June is already showing good recovery.

Crops are growing well in Saskatchewan. There have been good heavy rains over many sections, amounting in some instances to .75 to over 1 inch of precipitation.

Crop conditions in Alberta have been greatly improved by the recent general rainfall, particularly in the south, where such rainfall has not been experienced for years.

MOTOR CAR HIT BY G.T.R. TRAIN.

GUELPH, July 4 (Canadian Press). — A Grand Trunk train crashed into a motor car containing six people on the level crossing last night, with the result that George Wilson and his son Robert and his wife were seriously injured. Three children of the latter escaped without being seriously hurt.

FIRE ALARM BOX FOR ROMAINE ST.

Mr. P. Coursey Persuaded Council of Immediate Need of Protection.

Practically all the the residents of Romaine street west of Park street had signed a petition asking the Council to instal a fire alarm box in their neighborhood, and a deputation of three men had volunteered to present this request at last night's meeting. Mr. P. Coursey found himself alone, however, when Mayor Taylor announced that deputations would be heard. He stated that there were some fifty houses on that part of the street, and nearly all of them were owned by their occupants. The nearest fire alarm boxes were at the De Laval factory on Park street and in front of the residence of Rev. J. J. O'Brien on Westcott street.

"My house would be burned down by the time I reached either of these boxes", said Mr. Coursey who said that he felt unsecure and that Council should not leave that section unprotected. He cited one case in that district in which a house had been destroyed because of the distance to the nearest alarm box, and the residents felt that under the circumstances they should hold the Council responsible for any loss in future unless proper protection was provided.

Ald. Crowe said that he and Chief Gimblett had been over the ground and had concluded that the best place for an alarm box was near the west end of Parnell street because it would serve a larger area Houses were few south of Romaine streets was well built up. There were between Parnell and Romaine streets wa well built up. There were many similar places in the city he added, and to set up a signal box on Romaine street would require 1500 feet of wire and a new box.

Ald. Stocker urged that Mr. Coursey's request be favorably considered and Ald. Hamilton remarked that as the city was built up the fire alarm system should be extended gradually by the installation of two or three boxes a year as needed.

Ald. Morrison said that the houses on Romaine street west of Park street should be protected. This was recommended once before but it was one of the extensions the Council had neglected to set up. He moved seconded by Ald. Stocker that the petition be granted and that the box be placed to the best advantage of that neighborhood.

Mr. Coursey had also requested that Romaine street be improved and oiled. A sewer had been laid on the street which was left in an unsafe condition, "even for a wheelbarrow", he declared by way of emphasis.

Another petition had been received from the residents of Elm street pleading for oil, and Ald. Crowe coupled Romaine and Elm street, together in a motion that both be oiled. It also provided for the repair of Romaine street.

Mr. Coursey departed in high elation, thanking all the members of the Council for their courtesy.

PLUMBING INSPECTOR'S REPORT OF JUNE WORK.

Issued 40 Permits and made 126 Inspections.

The report of Mr. A. G. Metheral, plumbing inspector, accounts for 50 permits issued for the installation of the following fixtures: Water closets, 38; baths, 13; basins, 25; sinks, 30; laundry tubs, 4; slop sinks, 2; drinking fountains 6; urinals, 2.

Inspections were: Water tests 47; smoke tests, 37; miscellaneous inspections, 37; layouts, 5; total inspections, 126; certificates issued 52. There are 73 plumbing jobs in progress at present and not completed.

FIRST CANADIAN-MADE RUGGLES TRUCK OPERATING IN SYDNEY, AUSTRALIA

With the appearance of the first Ruggles Motor Truck in Australia, another feather is added to the 'sales cap' of this organization whose trucks are now to be found in nearly every civilized country of the world.

The largest potential market for Canadian-built Ruggles Trucks lies, not in Canada itself, as might be supposed, but in the vast export field afforded by the all-British "league of nations" known as the British Empire, and it is gratifying to see the product of one part of the Empire selling and operating on the streets of another part of the Empire, ten thousand mile away.

The success of the Ruggles Motor Truck Company, Limited, of London, Canada, is quite evident from the fact that during the last few months it has been found necessary to work three shifts night and day to meet the ever-increasing demand for Ruggles Trucks.

Employees' 15th Holiday Annex Sale

New Yard-Wide Challies, 25c Yard

Grandmother knew the usefulness and charm of Chally. It has not outlived its usefulness, for it still makes pretty dressing sacques, verandah dresses, children's dresses, etc. Grandmother would consider this a very excellent quality for 25c yard.

Splendid selection of attractive patterns in light and dark colorings. Ten pieces.

40-Inch Factory Cotton, 19c Yard

A superior Cotton at an inferior price. Fine and firm and free from objectionable specks. Sold in lengths of 5, 10 and 20 yards, and not more than two lengths allowed to one buyer.

$1.75, 36-Inch Habutai Silk, $1.38 Yard

This Habutai is a never ending delight to people who have garments of it. It washes so well and keeps its freshness that they are bound to be pleased.

Obtainable in rose, seal, Paddy, turquoise, navy, maize, Myrtle, Paon, red, Nile, flesh, black and white.

25c Curtain Scrims, 17c Yard

People are expressing surprise at the goodness of this Scrim. They come prepared to find a cheaper grade, consistent with the price. Thirty-six inches wide, open-worked borders and obtainable in white, cream or ecru.

Employees' 15th Holiday Annex Sale

About 2,000 Yards of Yard-Wide Prints, Yard - 25c

Who could resist a value like this? It's our lowest price of the year. Mostly light grounds in a wide selection of neat patterns. An excellent washing fabric for women's and girls' dresses, aprons, etc. Look about and see if you are in need of such. Short lengths of some patterns. Come early.

Children's Blue Chambray Bloomer Dresses, $1.19

Holiday time is, of course, play time, and what is more appropriate than the Romper Dress? These of blue chambray possess exceptional washing qualities. The bloomers are on an elastic band and detachable. The neck and pockets of the dress portion and the knees of the bloomers are finished with a bias fold of blue checked gingham and white ric-rac braid. Sizes 3 to 6.

Children's Chambray Dresses 79c

An inexpensive little Dress, and it would need to be when little daughter goes out to play. Made with a square neck and side buttoning, skirt gathered on bodice, short sleeves, trimmed with bias checked gingham. Obtainable in blue or pink and sizes 2 to 6, inclusive.

Children's Roll Top, ¾ Length Hose, Pair - - 19c

Some people will be skeptical, and we do not blame them; we can hear them say, "They can't be good quality." We know it is difficult to believe that they are good, but we have the evidence to back it up.

The colors are white, pink, blue and brown. Every size from 6 to 9. Not more than four pairs to one buyer and no 'phone orders. Be on hand early for good choosing.

Best Gingham Value of the Year!

Ginghams 15c Yard

Four Thousand Yards

Employees' 15th Holiday Annex Sale

There has been a great crop of Gingham values this season. We have offered our share and made many good friends thereby. In fact the Annex has been the Gingham market of the city, and now to clinch its fine reputation it offers

The Greatest of All the Great Gingham Values

Every yard is brand new goods that the Annex buyer secured last week at about half of wholesale cost. An attractive selection of plaid and check patterns in a varied assortment of colors.

Men's Plain Blue and Striped Work Shirts - - - 95c

These Shirts will fill the bill for strong, big muscled men who require Shirts of a durable fabric and simply must have plenty of room in them to allow lots of freedom of the arms and body.

The GRESSMAN Company Limited

DIVIDED IN UNANIMITY OVER PAVING

Council Makes Another Ineffective Effort to Agree on Paving of George Street South.

NO SURRENDER

Unanimous in their desire to pave George street south this summer, the Council last night once more, and for the 'steenth time, failed to agree on how the work should be done, by contract or day labour. G. N. Gordon, M.P., and Sidney Whatley, secretary of the G.W.V.A., had addressed the members on the unemployment outlook, and after they had departed Ald. Morrison urged that their counsel be thoughtfully considered.

Mr. Gordon said that since his return from Ottawa he had been surprised at the number of men who were out of work. If the Council had any local improvement projects under consideration they would be well advised to start them now in order that men would have a chance to earn money instead of appealing for public aid later on. Mr. Gordon said that he took the liberty of making this suggestion because he felt that the conditions disclosed to him might not have been as plainly presented to the members of the Council. He told of the precautions the Federal government had taken to meet unemployment and also of the extensive works they now had in progress; but above that the city should assist in relieving those men who couldn't find employment by starting some industrial scheme as soon as possible.

All In Favour, But—

Replying to Ald. Morrison, Ald. McIntyre said the whole Council was agreed about going ahead with paving George street, but the impeding question was how it should be done.

Ald. Morrison— That's for us to decide.

Mayor Taylor—There's only one way, and that's by contract.

And that was the signal for the rehashing of the debate on Joh Carrol's tender for the George street job. Ald. Jones pointed out that many of the streets needed repairs and would provide considerable work if the Council would undertake this form of road improvement and let the paving go this year.

In Opposite Camps.

Ald. McIntyre said that the Board of Works could rent a cement mixing plant and do the work by day labour. Ald. Stocker held out for the same method, but Ald. Holloway said that the city would have to pay 20 or 25 per cent. of the cost of the machinery, which he considered too high a percentage, but on the other hand the Council had Mr. Carrol's tender, which was the lowest, and they knew exactly what the work would cost.

Ald. Phelan produced the paving by-law, but it was defeated on the first reading.

"There's no use going ahead with it," said the Mayor.

"Well, let's have the ayes and nays again,' Ald. Phelan asked, and this was the division: Ayes—Phelan, Holloway, Turner, Morrison, Gainey and Mayor Taylor.

Nays—Aldermen Jones, Hamilton, Stocker, McIntyre and Crowe.

This fas a straight majority, but not enough to carry.

No Surrender.

Ald. McIntyre—I'd move that it be done by day labor and that we rent a plant.

Ald. Stocker — No use. That wouldn't go through.

The spirit of no surrender presided, and the members recognized that their difference of opinion was unsurmountable.

City Engineer Parsons was asked to have the plans for the outfall sewer ready for the August meeting.

City To Purchase Wood Lot in Anticipation of Unemployment

If winter comes and with it unemployment and consequent demands for food raiment and rent, the Council will have a wood lot convenient to the city where those who are out of work and who object to accepting public charity will be able to earn money for their necessities. Apparently this is the intention of the forehanded action by the Council last night in adopting Ald. Gainey's resolution instructing Ald. Holloway's unemployment relief committee to get prices on wood lots near the city and report at the August meeting.

"Hear, hear", was Ald. Stocker's comment on the proposal Ald. Holloway said he didn't consider himself quite competent to select a desirable wood lot. He undertook to do best he could and to have a prompt report on his findings.

Ald. McIntyre advised that Burnham's woods east of the city would answer the Council's purpose most satifactorily. He said it was unlikely that the city could buy that wood At any rate the Council is looking forward to an active alternative to the dole system which was generally regarded as a pernicious method of relief.

ALD. MORRISON IS APPOINTED

(Continued from Page 1.)

improvements made to the building by the company at their occupancy of it.

"All of the improvements we have recited have value only as they stand. They either cannot be removed or if removed represent but little salvage. However, we believe the plant left as it is has increased considerably in value and is decidedly more rentable. We trust that some one will occupy the property and benefit by the work that we have done.'

Ald. Gainey moved, seconded by Ald. Crowe that this matter be left to the Property committee.

"With power to act," supplemented Ald. Holloway.

Ald. "Mel" Turner had proposed that the request of Mr. Briggs be granted and the lease cancelled, but he assented to the motion by withdrawing his suggestion.

Tiled Strip in Sidewalk.

D. Belleghem and Sons asked permission to continue the tile floor in the vestibule of their funeral home across the sidewalk to the curb. This will be a strip of tile about 5 feet wide, 4 or 6 inches square, and will be laid flush with the sidewalk. They offered to assume liability in case of accident and to keep the strip in good repair.

Ald. Gainey and Ald. Stocker moved that this communication be referred to the City Engineer with power to act.

Ald. McIntyre said that City Engineer Parsons had already considered this project, and Mr. Parsons himself stated that he had no objection to it.

"I wouldn't like to see highly glazed tile on the sidewalk," he said, but I don't see any objection to the tiles that are being used there."

The motion was altered, granting the request on condition that it was satisfatcory to the City Engineer.

Fire Chief's Report.

Chief Gimblett's report of the activities of the Fire Department during June showed that for 12 alarms the apparatus had travelled 38 3-4 miles. The total loss by fire was $130, of which $25 was on buildings and $105 for contents. The total time spent at fires was 3 hours and 47 minutes.

Chief Gimblett has divided the city into five districts for inspection purposes and has appointed Lieut. T. Hatley to take charge of this work. The inspections are conducted by the "off shift" platoon, working two days a week. One half of the platoon works Monday and Thursday and the other half on Tuesday and Friday. This system was started on June 19 and from that date to the 30th 55 inspections were conducted.

Drills are held with ladders and hose on Monday and Friday of each week from 2.30 p.m. until 3.30 p.m. and on Wednesday with both platoons present from 2.15 p.m until 4 pm.

The Chief also presented a report of the inspection of the fire engine on June 26th.

Licenses Granted.

Eating house licenses were granted to Sam Ferguson, 236 McDonnel street; Fred O. Goodfellow at Lake street bathing beach; E. H. Cooper, 217 Charlotte street; W. J. Kirk, 262 Hunter street.

Competition for Bands.

A copy of the regulations for the band competition which will be held at the Toronto Exhibition on August 31st was passed on to the Finance committee on Ald. Crowe's suggestion that the 57th Rangers band might be interested. In the first class for bands not exceeding 40 pieces, including drums, three prizes are offered of $1,000, $500 and $350, and in the second class, restricted to bands from towns of not more than 8,000 population the prizes are $600, $300 and $200.

Parks Report.

The Parks committee report recommending the acceptance of Grant & Thorpe's tender of $19.50 for installing four lamps at the Lake street bath house, was adopted. Ald. Gainey was authorized to have the grass cut in King Edward park.

GERMAN MARK AT NEW LOW LEVEL.

LONDON, July 4 (Canadian Press). — The feature of the foreign exchange market to-day was the weakness of the German mark, which closed at a new low record of 1,932 marks to the pound sterling, after violent fluctuations between the extremes of 1,775 and 1,955 marks to the pound sterling.

CHAMPION LIFE-SAVER IS DEAD.

OTTAWA, July 4. — (Canadian Press).—Known all over Eastern Canada as champion life-saver, Louis Beauchaump, 53, had to acknowledge defeat at the hands of grim reaper yesterday. He had saved more than forty lives and possessed numerous medals and certificates. He was born in Scholastique, Que., and lived at Hull, Que., and Sudbury.

MARRIAGE A LA MODE

Lithuanians keep the divorce evil down by an efficiency system.

No girl is looked upon as marriageable until 24.

By that time she must have made with her own hands a quantity of clothes which she distributes among the guests at the wedding.

She must also have served a domestic apprenticeship under her mother.

Full Flavor and Color

in your jams and jellies

The more you boiled the fruit the old way, the less flavor and color remained in the jam or jelly.

By using Certo the boiling period is reduced to one minute; thus the full goodness of the fruit is retained.

Your jams and jellies will have the full original flavor and color.

CERTO Trade mark registered

is pectin and it is pectin in fruits that makes the jelly "jell." Certo never fails.

You can make perfect jams or jellies with any fruit because Certo supplies the necessary amount of pectin to make them "jell" properly.

—and you get 50% more from the same amount of fruit.

How to make delicious Cherry Jam

4 level cups (2 lbs.) Pitted and Crushed Cherries.
¼ cup Water.
8 leveled cups (3½ lbs.) Sugar.
1 bottle (scant cup) Certo.

Sour cherries give finest flavor. Stem, pit and thoroughly crush about 2½ lbs. fruit. Measure crushed cherries into large kettle and add water. Tie 2 heaping tablespoonfuls pits in cotton cloth and crush with hammer. Place in kettle with cherries, stir till boiling, cover kettle, simmer 15 minutes, then remove pits. Add sugar and mix well. Stir mixture hard and constantly. Bring to vigorous boil over hottest fire. Boil hard 1 full minute, continually stirring. Take from fire and add Certo, stirring it in well. From time jam is taken off fire let stand 5 minutes only, by the clock, before pouring. In meantime skim, stir a little to cool slightly, then pour quickly.

RAIN DID NOT DAMPEN ARDOUR OF MERRYMAKERS

A Successful Strawberry Festival at Bailieboro — School Report—Personal Mention.

BALIEBORO, July 4.—Despite the rain on Tuesday evening the Methodist Sunday School held their annual strawberry festival on the Methodist grounds. The affair was very successful and the ladies of the Sunday school were kept very busy serving supper from 5 o'clock until 8.30 o'clock.

The berries were extra good and everyone enjoyed a sumptuous supper as there was no danger of running short of victuals, as the ladies had been very generous in providing provisions.

The Cavanville baseball team were present to play ball against the home team, but on account of the rain were unable to play.

A splendid booth was built on the grounds and the candies and ice cream seemed to find ready sale.

Good Home Talent.

After the supper was served a good programme was held in the church by home talent consisting of addresses by Rev. R. M. Patterson, and Rev. Harston of Cambourne. Duets by Messrs. Eldridge, White and Frank Dawson Choruses by the Tuxis boys; anthem by the choir; readings by Miss Ethel Falls; solo by Miss Margaret Falls; duets by Miss Ruth Dawson and Kathleen Bateman.

School Report.

PROFESSOR IS FIRED BY WESLEY COLLEGE

WINNIPEG, July 4.—(Canadian Press.)— Prof. W. G. Smith of the philosophy and sociology departments of Wesley College has been dismissed by a majority vote of the board of directors of the college on the ground of insubordination, it is said last night night in a local paper.

The professor announced yesterday that he intends to fight the charge preferred against him as an "unmitigated falsehood."

Action by the board follows a dispute of long standing between Professor Smith and President J. H. Riddell, which resulted in an open breach at the Methodist Conference held recently in Winnipeg when the professor told the delegates the "moral conditions amongst student at the college were not what they should be."

HAPPY EVENING AT STRAWBERRY FESTIVAL, OMEMEE

Held on Lawn of Methodist Church — Entertaining Features and Satisfactory Revenue.

OMEMEE, Juy 4.— The strawberry festival given on the lawn of the Methodist Church on Wednesday evening last, was very largely attended and a decided success from every point of view.

An excellent tea was served from 5.30 to 8 o'clock in the newly decorated Sunday School room with an over-abundance of strawberries and cream to satisfy everyone's fancy accompanied by a large assortment of cakes pies, etc.

The booth on the grounds containing ice cream, bananas, homemade candy etc., was well patronized. The Bethany Brass Band was in attendance and were very liberal with their numbers receiving the hearty applause of the large audience, at the close of the selection. The total receipts were in the neighborhood of $175.

NOMINATIONS ARE IN FOR BY-ELECTIONS.

BELLEVILLE ARE HERE TOMORROW

Big Game in the Central League, Series is Called For 5.30 p.m.

With tomorrow night's Central Ontario League game at Riverside Park between Belleville and Peterboro called for 5.30 o'clock nearly every fan in town should find it convenient to be on hand and a big crowd is certain. There is always a battle when Belleville play here and tomorrow's game will be no exception whether Belleville uses Jack Wiliams, their Indian southpaw or Mallen, the right-hander from the East. Belleville have Mills brothers, Weir, Ross, Casey and other well known performers of last season in line again and among the new comers is Cook, well known as a Senior O.H.A. goal minder. Cook is playing a snappy game at second base for the Trunks.

Heckman will do the gunning for the Petes. He has had a week's rest since his last appearance, and should be at the top of his form against the Railroaders. Everything points to a real old time struggle between the rival outfits and as the Petes have to win to stay in the running for the first half there is enough at stake to keep the interest at fever heat. A victory over Belleville here tomorrow and a win in Bowmanville Saturday would put the Solomon crew right up with the leaders and they are confident of their ability to deliver the goods although they recognize that Belleville have always been a tough nut for them to crack.

Umpire Jack Rosevear will get the teams away at 5.30 o'clock sharp and the fans should have a real enjoyable evening.

Football

The Canadian Packers, Juniors, will meet the Comrades in an exhibition game at the Exhibition Grounds on Thursday evening at 6.30. The Packers are out to give the Comrades their own medicine back in full measure. All the boys on both teams have been out working hard and the fans are assured of a real good game.

All boys in the City who are interested in Junior Football are requested to be present at a meeting in the Chamber of Commerce next Monday evening at 7 o'clock. The football players of the city are anxious to give the boys a good start in a good game and will supply a good trophy to play for.

Bill Thompson the Secretary of the P. and D.F.A. says he has a real good footballer, but it's a girl.

How about the C.G.E. Juniors?

Teddy Kelso says "that's the how."

A. McKinley will officiate at the game Thursday evening when the Comrade's Juniors will meet the C.P.C.

C.G.E. players are reminded of the practice on Thursday night at 6.30 on King Edward Park. Comrades line up for tonights game with the Owls will be: Fenner, Anderson, Hill, Jackson, Hoggarth, Sayers, Hansen, Brown, Shaw, McDougall, and Mallinson. Reserves Ward and Craig.

CITY BASEBALL LEAGUE MEETING

nA important business meeting of the City Baseball Yeague will be held inthe Chamber of Commerce rooms at 8 o'clock Thursday evening As there is a great deal of business to be gone into all teams are urgently requested through the columns of the Examiner to have at least two representatives present.

RIBBED CLUB IS NOT A MECHANICAL AID

Jock Hutchison is Able to Handle the Ball Equally Well With Either Smooth or Ribbed.

The fine golf played by Jock Hutchinson in the British open golf championship at Sandwich, England, must have been very disconcerting to the members of the Royal and Ancient committee of St. Andrews, which barred the ribbed golf clubs, shortly after Hutchinson had won the British championship at St. Andrews, last year, while playing with such implements.

Many Britishers stated that Jock could not have won at St. Andrews, without the ribbed clubs which made it possible for him to put great stop (backspin) on his pitch shots. Playing at Sandwich, with smooth faced clubs, Jock made the ball behave as well as he did at St. Andrews with the ribbed irons. In his first qualifying round he broke the record for the long Prince's course with a 71, the lowest round of the day.

Cables stated that Hutchinson's mashie pitches were hit firmly at the flags and held fast and close to the cups when they struck the greens, so that he very often was putting for threes on par four holes.

The Royal and Ancient, which is followed in many things by the United States Golf Association, has barred steel shafted golf clubs as well as ribbed clubs, and the United States Golf Association has followed the Royal and Ancient, insofar as steel shafted clubs are concerned. Jock proved that the Royal and Ancient was wrong when it declared that ribbed clubs effected Hutchinson's play, just as the Western Golf Association tests proved that there was nothing mechanical in steel shafted clubs and made them legal for play in tournaments of that association.

JOE GANS SUSPENDED.

NEW YORK, July 4.—(Canadian Press)—The New York State Boxing Commission announced Saturday that "Panama" Joe Gans and his manager had been suspended pending the investigation of the charge that they had violated a contract made with a Havana boxing club.

MENTORS' CLUB HAS GOOD PROGRAMME

Will Have a Boys' Camp at Camp Rotary From July 12 to 24.

The Mentors' Club will have charge of Camp Rotary, Clear Lake, from July 12 to 24 and plans are being formulated to give the boys who attend the time of their lives.

Walter Smaill, director of athletics for the city, will be in charge at the opening of the camp, and will have a staff of able assistants which will include: Allan Doughty, Percy Johnson, Neil Porter, and several others. These assistants will supervise all the camp activities as swimming, canoeing, baseball and other sports.

The following programme will give some examples of the good times that are planned for the evenings around the camp fire—July 13, talk by Joseph Wearing; July 14, sing-song with Reg. Cuffe in charge; July 15, Dr. Middleton on the subject of "Get a good education; July 17, talk by G. H. Roper; July 18, stunt night with Al Doughty in charge; July 19, H. B. Cowan on "Clean Sports"; July 20, H. B. Ferris from Pine Tree Camp; July 21, Cottager's night; July 22, Mentors' night with Vernon Miller in charge.

BOUT FOR JOHNSON WAS DECLARED OFF.

HAMILTON, Ohio, July 4.—The Jack Johnson-"Tut" Jackson July 4 bout, transferred here when a court order prevented its being held in Washington Court House Ohio, has been declared off. Roland Miller, secretary of the boxing commission said the fight will not be held because Johnson refused to post his $2,000 forfeit and because he demanded 33 percent of the receipts. The local commission will recommend the former heavyweight champion of the world be barred from Ohio.

RACER KILLTD.

SAN LUIS, Calif., July 4.—(Canadian Press.)—Enos Bello, a racing car driver, was killed, and Luis Silva, his mechanician, was injured, probably fatally, when their car hit a horse, throwing it into the air. The horse came down on the men, breaking Bello's neck.

Four Contenders For Honors In American League Circuit

St. Louis, Chicago, New York and Detroit All Making Strong Bids For the Lead.

OTHER TEAMS.

NEW YORK, July 4.—(Canadian Press)—With the New York Giants still having the National League race well in hand, despite valiant but fruitless efforts by St. Louis and Brooklyn to overtake them, chief interest in the majors is centering on the spectacular pennant hunt in the American circuit, in which four contenders are battling around the top.

The St. Louis Browns, who have shown no sign of weakening under strain of pace-setting, held a lead of two games Monday, but three other clubs—New York, Detroit and Chicago—are bunched close behind Experts concede the Browns and the Yankees greater reserve power for the drive down the stretch but either of the other two western contenders, on present form, has at least a fighting chance.

Closing the past week with an old-time outburst of slugging that has been conspiciously lacking in their offensive this season, Babe Ruth and his team-mates gave further proof that they are recovering from a protracted slump. With a record of eleven won and fourteen lost on a disastrous trip around the circuit, the Yankees braced against Washington and Philadelphia and Sunday scored their fourth straight victory. Improved pitching and better batting, which Babe Ruth featured with his fourth homer Sunday in three games, promise to put the New Yorkers back in their normal stride.

The Chicago White Sox, with their pitchers in rare form, proved the sensation of the race, however, running their winning streak of eight games and displacing Detroit in third place before the Tigers, who had suffered a bad batting slump, checked the Gleason outfit.

Good pitching, especially by Walter Johnson, who hung up his third straight shutout and the 97th of his major league career, was responsible for an improved showing by Washington, while Cleveland, after taking two from the Browns, proved easy for the leaders, who made it four straight Sunday.

First division teams all displayed wining form in the National League, the Giants retaining a lead of four and a half games Sunday after double victories on the part of both St. Louis and Brooklyn while the New Yorkers were idle. The Giants and Dodgers profited at the expense of the weaker Boston and Philadelphia Clubs, while St. Louis displayed terrific strength at bat against all of its western rivas.

Cincinnati kept fourth place by a slim margin over Pittsburgh and Chicago, despite a double setback at the hands of the Cardinals. The Pirates may brace as a result of a managerial shift George Gibson resigning last week because of the team's disappointing showing and being replaced by Bill McKechnie, his former assistant. Good hitting by Pittsburgh has been offset by ineffective pitching and ragged fielding.

The Chicago Cubs have slumped as a result of erratic pitching while Philadelphia and Boston Clubs in both circuits are battling to keep out of last place.

Voice of the People

Editor of the Examiner:

I read today that Saturday will be tag day for the benefit of the Peterborough Athletic Association and if there is an organization, which deserves the public support, it is in my opinion, the Peterborough Athletic Association.

Athletics have been raised by this organization to a very high standard by numbers of public spirited men, who are trying to make this organization something that will benefit the boys and girls and develop a better manhood and womanhood, in this City.

Its object is to eliminate professional sports and to exclude the intemperate and dangerous part, that has been frequently associated with sport in the past.

Clean and wholesome sport will do much to improve our young people and I feel that we should be grateful indeed that the boys and girls have been given the attention and consideration, they are now receiving from those who have organized and developed this splendid scheme.

I trust that the public will generously support the tag day efforts, which will be made next Saturday for the young people of this City.

The fact that Dr. McPherson, is President and that every sport organization, in the City is represented, should go a long way towards, inspiring confidence in the public mind.

First

FIRST to discard their old-type razors for the original Gillette Safety Razor and first to adopt the New Improved, were the engineers, draughtsmen and technical men of the country.

They recognized at once the soundness of its principle; saw at once the reality of its improvements

—the cutting angle found and fixed;
—rigidity of blade;
—the channelled guard for greater safety;
—to give the cutting edge free access to the beard
—and keep it clear from soap and hair.

It is these improvements that have eliminated the need for shaving experience and skill; made it impossible to get anything but a perfect shave; doubled the efficiency of the blades and lengthened their lives by many shaves.

If you would know the newest luxury of science—a velvet smooth, clean, soft shave every morning of your life—call at any store catering to the needs of men and buy

COBOURG GAME ORDERED FOR NEXT WEDNESDAY

The Peterborough Ball Club received word from Secretary J. G. Nott, of the Central Ontario League this morning that the Cobourg game postponed from July 1st will be played in Peterborough on Wednesday, July 12. Lindsay and Cobourg were to have played in the latter town on that date, but Lindsay objected because of the Orange demonstration in Lindsay, and Peterborough gets the game as a result. No word has yet been received as to when the two postponed games with Leaside or the re-play game with Lindsay will take place. Games in the Central Ontario League to-morrow are:

Bowmanville at Lindsay.
Leaside at Cobourg.
Belleville at Peterborough.

GOLF

Players are reminded that the Oshawa team will visit Peterborough to-morrow, Wednesday, July the 5th. Luncheon will be served at 12.30, also supper at the Club House Peterborough members who have been notified to play, kindly be on hand as early as possible in order to meet the Oshawa players.

Captain.

GIRLS' BALL CLUB TO MEET THIS EVENING

There will be a meeting of the Girls' Baseball Club at the Y.W.C.A. this evening, at 8 o'clock, to arrange a new schedule for baseball and volley ball.

SWEET TOOTH OF CHILDREN

(Contined from page 1.)

he said, that it would not be surprising if in 10,000 years he race is toothless. The distilleries and breweries since prohibition have engaged in the candy business. He advised parents to bring up their children to eat brown, graham or whole wheat bread and not the common 'white' variety.

He outlined the work in preventive dentistry carried on in Minneapolis schools and the splendid results attained. The grave danger of any preventive work of an institutional nature. he said, was in its being socialized.

Dr. Best, who left Peterboro. 22 years ago, regretted that this city didn't go ahead with its scheme for an Old Boy's Re-Union. It would have been a huge success, he said.

In moving a vote of thanks to the speaker, Dr. J. J. Craig pointed out that 700 B.C. to 1911 the dentists practised reconstruction. Dr. E. H. Wood, the seconder said he hoped Dr. Best's talk would bear fruit.

Golf Competition

A golf competition with the Rotarians was mooted today. Russell Widdifield read off a long list of Kiwanis golfers, and the challenge was suggested by Dr. J. J. Craig. Alec. Dick on behalf of the Lawn Bowlers, challenged the Kiwanis to a ball game Thursday night at 6.30 and Bill Phillips, speaking for the club promptly accepted.

Alec. Dick presided at the luncheon of which Jim Skinner was boos ter. The following were guests: Dr. C. H. Fuford, Dr. E. V. Frederick, Dr. Bruce E. Marshall, Rotarian James Hamilton, Harry Black, Toronto.

AT THE ROYAL. TO-NIGHT

U. S. MERMAIDS TO VISIT CANADA

Leading Lady Swimmers From Below the Border Will Invade Canada.

NEW YORK, July 4—(Canadian Press) — A team of United States women swimmers composed of at least five of the foremost natators of the United States, will invade Canada for a competitive tour next month. The American stars are schedule of competition which will schedule of competion which will take them to New Brunswick, Nova Scotia and Prince Edward Island. The tour is the first of its kind in the history of women's swimming. Joe Moore, amateur champion skater, and Miss Charlotte Epstein of the Women's Swimming Association will accompany the invaders.

The members of the team, according to Moore, will be the Misses Helen Wainwright, 150 yard record holder; Aileen Riggin, Olympic diving champion; Ethel McGary, 500 yard champion; Helen Meany, diving star, and Mrs. Charlotte Boyle Clune, crack sprint swimmer. The tour will include ten days of competition in a series of events arranged under the direction of Frank White, President of the Canadian Amateur Skating Association.

Little Lessons For the Golfer

It is of great importance in the swing to stand up to the ball—not too close, of course, but the player should watch that he isn't standing too far away. The arms should not be extended far out from the body. The arms should go up and down fairly close to the body.

This big fellow is now twenty years old and he may be American Amateur champion this year. He is Jesse Sweeters, New York. This picture shows perfect form for the finish of a swing.

BETHANY-MILLBROOK BALL GAME TOMORROW

An Exciting and Interesting Battle Promised

MILLBROOK, July 4.—What promises to be one of the most exciting and interesting games played here in years will be the semi-final event in the C.N.E. League ball game between Bethany and Millbrook, to be staged here (weather permitting) at 6 o'clock to-morrow (Wednesday) evening at the Agricultural Park. Each of the opposing teams has won five games and lost one, and this game will decide the play-off for the final game to be played in Bethany. Mr. Alex. Kay will umpire at the plate.

At The Theatres

CAPITOL — Dorothy Dalton in "The Woman Who Walked Alone," story of a dazzling society beauty who thought she could live without love. And balance of a Capitol programme.

ROYAL — Vitagraph feature, "The Man from Downing Street." Also Hobart Bosworth in a story of the Yukon, "Blind Hearts," and Mack Sennett comedy, "She Sighed by the Seaside."

Capitol Entertainment

An unusual and interesting picture is "The Women Who Walked Alone" at the Capitol Theatre this week. With out-of-the-ordinary situations and a theme that, while far-fetched at moments, is absorbingly attractive; the art of Dorothy Dalton makes it one of the best pictures offered to Peterborough movie goers for some time.

As Iris Champneys, the vivid young sportswoman who marries an elderly English Earl to help her family's fortunes, the heroine has an opening setting of English luxury and country-life magnificence. Her fantastic notions of honor, combined with the jealousy of her husband and her disregard of convention, leads her into a situation that results in divorce. With unimpaired cheerfulness, we find her later at Balawayo, the South African "jumping-off" place, running a tavern on the veldt. And here comes the man to whom she had tossed a rose on her wedding day, Clement Gaunt, the American, who is being hunted for the murder of the Boer farmer, Schrieman. With elements like these, and a setting of South African novelty, the producer has evolved a series of brilliant and spectacular situations, with the daring of "the woman who walked alone" dominating the story. There is a marriage decided by the toss of a coin, a guilty Boer woman brought to justice through superstitious fear, and an atmosphere throughout of bright and abundant vitality in the several characters that go to make up an absorbing romance. Splendid support to the principals is given by the dashing, tall captain of the South African Mounted Police, the unscrupulous Boer woman, enacted by Mabel Van Buren, and the ugly black servant, Mombo.

The concluding chapter of the serial, "White Eagle," is offered at the Capitol this week, with an unveiling of the mysterious "White Rider" at the last moment, and Snub Pollard gets mixed up with a stolen pearl necklace and a stolen umbrella in a hilarious comedy, "Hot Off the Press."

RECIPES

THE daily question, "what shall we have for dessert?" is always the cook's hardest problem. Many details must be considered. Fruit is always proper to serve with fish or fat meats. Either fresh or stewed ruit may be used.

But if a fruit dessert is chosen the salad should not be of fruit nor should a fruit cup be served at the beginning of the meal. A rich, heavy dessert should never follow a rich, heavy meal. A fruit ice or a gelatine dessert served with a delicate cake is the most satisfactory finish for a long-course dinner.

These rules are for every-day desserts that will supply the average dinner with the needed sweet.

Stewed Figs

One pound figs, ¾ cup sugar, juice 1 lemon, 2 cups water.

Choose the whole figs for stewing. Wash well through several waters. Bring the water to the boiling point and add washed figs.

Simmer over a slow fire closely covered for half an hour. Add sugar and lemon juice and simmer uncovered for an hour. Let cool in the sirup. Serve cold with boiled custard or whipped cream.

Rhubarb and Prune Piz

Three cups diced rhubarb, 11 prunes, 2 eggs, 1¼ cups sugar, ½ teaspoon salt, 4 tablespoons sugar.

Wash prunes and soak in cold water to cover for an hour. Put prunes, water and rhubarb in a stew pan and cook until prunes are tender. Skim prunes from mixture and remove stones. Chop stones. Chop prune pulp and return to rhubarb.

Add sugar, salt add the yolks of the eggs slightly beaten. Stir and cook over a slow fire till mixture thickens. Turn into a baked pie shell. Cover with the whites of the eggs beaten till stiff and dry with four tablespoons sugar and put in a hot oven for eight minutes to brown.

Dried Apricot Jelly

One cup dried apricots, 1 cup sugar, 1 lemon, 1 tablespoon granulated gelatine, ¼ cup cold water, 1½ cups boiling water.

Wash apricots through several waters. Let stand in cold place for four hours, changing the water every half hour. Drain and pour boiling water over fruit. Let stand five minutes and drain. Put in a stew pan with boiling water to cover and simmer till tender.

It will take about two hours. Rub through a sieve and measure. Add enough boiling water to make three cups. Add sugar. Soften gelatine in cold water. Bring apricot mixture to the boiling point and stir in gelatine. Add juice of lemon and turn into a mold to chill and become firm. Serve with whipped cream or boiled custard.

Boiled Custard for Pudding Sauce

Two cups milk, 5 tablespoons sugar, ¼ teaspoon salt, 3 egg yolks 1 teaspoon vanilla, 2 tablespoons heavy cream.

Scald milk in double boiler. Mix sugar and salt with yolks of eggs. Pour scalded milk on egg mixture, stirring constantly to dissolve sugar.

Return to double boiler and cook over hot water till custard coats the spoon. Stir in the cream and cook one minute longer. Remove from hot water and put in a pan of cold water to cool quickly. When cool add vanilla.

BANANAS BY POUND

An innovation that has been agitated for some time has been introduced in Peterboro by Mr. H. J. Boyle of the Cash and Carry Grocery, on Charlotte street. This is the selling of bananas by the pound, instead of the dozen, as much fairer method than the old way. By this means, the small fruit are discounted more readily. One gets so much fruit for so much money, instead of half a dozn large and perhaps half a dozen small specimens. The selling of potatoes in this way would probably work out more satisfactorily also for all concerned, but it is often the grocer who loses more by the measure system. A bag of potatoes is supposed to weigh about ninety pounds, but a bag when sold by the indivdual peck might easily weigh more than this.

PETERBORO PRODUCTS FOR THE PENITENTIARY

Another carload of Peterboro-made flour left to-day for the Kingston Penitentiary. While in Ottawa during the session, Mr. G. N. Gordon, M.P., was active in presenting the claims of Peterboro industries and the fact that Peterboro-made flour is being purchased steadily for the various penitentiaries of Canada by the department of Justice at Ottawa, is only one of the many orders received by Peterboro manufacturers as a result of Mr. Gordon's efforts.

WEDDING BELLS

EDIE—STEVENS.

St. Paul's Anglican church, Dunnville, was the scene of a wedding, when Mildred Irene, elder daughter of Mr. and Mrs. Allen A. Stevens, Dunnville, became the bride of George Bruce Edie, of Peterborough, youngest son of the late Wm. and Mrs. Edie, of Toronto. The church was beautifully decorated with daisies and ferns. The bridal party entered the church to the strains of the Wedding March from Lohengrin, the happy couple taking their stand beneath an arch of flowers. The rector, Rev. Capt. Emmett, performed the marriage ceremony. The girlish bride, even in marriage by her father, looked charming in her wedding gown of ivory duchess satin, with beaded georgette overdress and a veil of embroidered net caught with a coronet of orange blossoms. She wore lace mitts and carried a shower bouquet of Ophelia roses, and white heather. Miss Isabel Moote, the maid of honor, was frocked in pale pink georgette, with hat of white georgette, both adorned with pink French rosebuds, and carried Columbia roses. The bride's sister, Doris, was bridesmaid, wearing a chic frock of yellow organdy, with hat to match, and also carrying Columbia roses. The bridegroom, who served overseas with the famous 4th Battalion and was a war prisoner for three years, was attended by his brother, Donald, of Belleville. During the signing of the register, Mrs. Francis sang "The Crown." A reception was held afterwards at the ome of the bride's parents, after which the bride and bridegroom left on a motor trip to their cottage at Chemong Lake, where they will spend the summer. The bride travelled in a suit of navy blue tricotine, with hat to match, and carried a silver mesh bag, the gift of the bridegroom. Later they will reside in Peterborough.—Mail and Empire.

OBITUARY

HAZEL GILLESPIE BROWNE

On Monday afternoon at Nicholls Hospital, Hazel Hepburn Gillespie Browne passed quietly away.

Mrs. Browne had been in the hospital less than a week and she with her friends was looking forward to a rapid convalescence when the heart weakened and in a few hours the earthly journey was over.

It is less than thirteen months since her marriage, and the establishment of the happy home at 110 Lock street.

The bereaved husband, Carl S. Brown, B.A., of the Collegiate Institute staff, with Mrs. T. G. Gillespie the mother, and the three sisters, Mrs. Clayton Hambridge, Mrs. C. E. Sisson, and Mrs. Douglas Loomis, were present when the end came. The only brother Stanley Gillespie of Kitchener, Ontario, has since arrived in the city.

Mrs. Browne was a valued member of Murray Street Baptist Church and a most loved member of the choir.

The funeral will take place on Wednesday afternoon at three o'clock from 110 Lock street. The pastor of Murray street church will officiate.

MARTIN MARTYN.

An old and well-known resident of Peterborough passed away this morning in the person of Martin Martyn, 134 Lock Street. The deceased, who had been ill for some time, had lived in this city for many years, and enjoyed the respect and liking of a large circle of friends. He is survived by a wife and five children: Gordon, Leo, Roland, Olive and Carmen. His mother, four sisters and three brothers are also left to mourn his loss.

The funeral will take place on Thursday morning at 9 o'clock to the Church of the Sacred Heart, and thence to St. Peter's Cemetery.

THERE'S ALWAYS A BRIGHT SIDE.

Though skies are gloomy and o'ercast,
Why yield to vain repining?
Remember that the darkest cloud
Has ever a silver lining.

The sun, 'mid somber shadows deep,
May set at eve's declining,
And yet, on cloudless skies serene,
To-morrow may be shining.

The darkest hour will end at last
In a bright smiling morrow,
Sweet calm succeeds the wildest storm,
And joy aye follows sorrow.

However straight and long, the lane
Will have at last a winding,
The mills of the gods turn out good grist,
Even if slow be the grinding.

Not always will the unfavoring wind
From adverse art be blowing.
The ebbing tide will turn, and come
Unfailing back, full flowing.

The merry heart on sumptuous feast
Continually is faring,
And a panacea for dull care,
Is the face a smile that's wearing.

'Tis surely wiser and forsooth,
More pleasant and more cheering,
Than gloomy dungeons in the air
Fair castles to be rearing.

FOUND AT SEA IN OPEN BOAT

Two Men Rescued in Last Stage of Exhaustion by Oil Tanker.

MONTREAL, July 4.—(Canadian Press.)— When the fog which had enveloped her for hours suddenly lifted off the Grand Banks of Newfoundland last Thursday, the steamer Chitom, an oil tanker, found herself within a few feet of a little dory in which were two men in the last stage of exhaustion. They proved to be Portuguese fishermen from the schooner Laura, which set out from Lisbon to fish on the banks. Four days previously they, with another man, had left their schooner in a dory and had got out of touch with it in the fog. The third man, it was explained by the two saved, either fell overboard or jumped into the sea in a delirium. When the men had been restored one of them fell on the deck and kissed the feet of the captain of th tanker.

INSURGENTS IN IRELAND STILL HOLD POSITIONS

Bombardment of the Buildings in Dublin Occupied by Republicans Was Resumed Today.

RAID ON BANK

DUBLIN, July 5. — (Canadian Press.)—Bombardment of the buildings occupied by Republicans remaining in their Sackville street stronghold was resumed at one o'clock this afternoon after a few hours' lull.

Hamman Hotel, which has been one of the principle points of defense, was ablaze shortly after mid-day, and flames were spreading to the adjoining building on the south. Shortly after the fire was observed in the hotel what appeared to be a white flag was hungout, but when troops and firemen approached the building, they were fired at and the supposed flag was withdrawn.

RETURN FIRE FEEBLE.

LONDON, July 5. — (Canadian Press.)— The insurgents are still holding out in Dublin this morning. National troops continued their artillery bombardment of rebel positions this morning, but the return fire was comparatively feeble. To all appearance positions on O'Connell street seem almost deserted. Certainly few of the rebels can survive the terrible fire directed at their entrenchments by National artillery men. The southern portion of the city is held by the Provisional government, and all approaches to main streets are held by National troops. News from the provinces regarding the progress of the National troops continues satisfactory.

BANK MANAGER SLAIN.

BELFAST, July 5. — (Canadian Press.)—Thomas Mitchell, manager of Ulster Bank branch, Tulmore in the Midlands, was shot dead in the course of a raid on the bank this morning.

DAIL MEN ARRESTED.

DUBLIN, July 5. — (Canadian Press.)—Art O'Brien, former representative of the Dail in London, and Sean O'Kelly, who represented the Dail in Paris, were both arrested last evening.

HOLD POST OFFICE.

DUBLIN, July 5. — (Canadian Press.) — Irregulars at this hour (12.05 p.m.) were still holding out in the post office and buildings in the centre of the block on Sackville street, which has formed their stronghold. Government forces are said to have penetrated the Gresham Hotel.

HOTEL IN FLAMES.

DUBLIN, July 5. — (Canadian Press.)— (2 p.m.)— The Gresham Hotel, in the Sackville street area, was blazing furiously at two o'clock this afternoon.

TEN BUILDINGS ABLAZE.

DUBLIN, July 5. — (Canadian Press).—Ten buildings in Sackville Street, the Rebels' stronghold, were ablaze at 3 o'clock this afternoon. The rebels were firing from the windows of the Granville Hotel, surrounded by an inferno of flames. Five men, the last of the Gresham Hotel occupants, have surrendered, and the end of the battle is believed to be near.

CALL TO ARMS.

DUBLIN, July 5. — (Canadian Press.)—It is learned on excellent authority, says the Press Association this afternoon, that the Provisional Government intends to issue a National call to arms to-morrow.

Ontario Tired of Group Government

VANCOUVER, B.C., July 5. (Canadian Press.)—"Ontario is tired of group government, and when we have the next election, which will be either this fall or next, the issue will be which of the two old parties will be returned to power," declared Hon. G. Howard Ferguson, leader of Ontario Conservatives, here yesterday.

Premier Drury, he said, was an educated man and clever, but he was an idealist and a Fabian Socialist whose legislation is always Utopian in its objectives. He declared that Ontario's administration of prohibition was a scandal which was doing much to weaken respect for the law.

STRIKERS DRIFT BACK TO WORK

Railway Officials Insist Many of Them Simply Wanted a Holiday.

CHICAGO, July 5. — (Canadian Press.)—Striking railway shopmen, who walked out in answer to the nation-wide call from the headquarters of six shop crafts unions here last Saturday, were reported drifting back to work to-day in groups of uncertain numbers.

To-day was considered the turning point in the strike of 350 thousand to 400 thousand workers. Although responding generally to the call last Saturday, railroad officials insisted that many of the defections were due to a desire of the men to take a holiday over the Fourth of July.

The Airdale, which stood by after the collision, picked up crew.

BOTH WIN BUT ONE LOSES IN GARAGE CLAIM

Judgment For $250 Was Awarded to Geo. Evans Who Was Defendant in Recent Suit

IN COUNTY COURT

Both plaintiff and defendant were successful in the action of Fontaine vs Evans recently tried in the Couty Court by Judge Huycke who delivered his judgment yesterday. When the separate claims as allowed were set off on against the other the defendant George F. "Banty" Evans is awarded a balance of $250 without costs. Mr. S. T. Medd was the solicitor for the plaintiff Alphonse T. Fontaine, and Mr. J. F. Strickland for defendant.

The main facts of this case were reported during the recent June sittings of the County Court. Fontaine bought the "Service Garage", 186 Charlotte street from Evans on August 31st, 1921, for $2000. He paid $1200 in cash and gave a mortgage for the remaining $800. Evans agreed not to enter into the garage business for on year, and on a breach of this covenant was to pay $1000.

Scorned Details

Fontaine charged Evans in this action with misrepresentation in other words that there were not goods to the value of $2,000 in the Service Garage. In the appraisal of the property no attempt was made at accuracy. "I cannot find in favor of the plaintiff on this contention" Judge Huycke decides. "I think the whole thing was roughly and speedily adjusted without going into details to any extent. The legal consideration was open to both parties, and there was no special guarantee as to it by Evans".

Plaintiff's item of $55 for the storage of Evans' cars in the garage after the sale. "My chief reason for disallowing this is the tacit consent of Fontaine to the cars remaining there for several months, and no claims was ever made directly or indirectly for storage.

Violated Agreement

"I cannot find any damage to the good will of the garage caused by the actions of Evans, except in the fact of his starting up another business six months after the date of the sale and contract, which is in direct violation of the agreement. The agreement is one-sided being drawn by Fontaine's solicitor, and that Evans had no independent advice. I think under the circumstances I must hold that Mr. Medd, who drew the agreement, was not acting specially as solicitor for either party but as a conveyancer to draw papers, and was really acting as solicitor for both parties at the time of the transfer and contract.

Allows $500 Damages

The question I have to consider is this net sum of $1000.00 to be treated as liquidated damages or by way of penalty notwithstanding the language used taking into consideration all the circumstances. It seems to me to be rather near the border line but the general tendency is where possible to regard these things as a penalty from which relief can be obtained and I therefore so hold. On the other hand, I wish to record my disapproval of any such act as that of Evans, of starting up directly in the teeth of his his agreement not to do so. His claim that he had the consent of Fontaine to his so doing is not substantiated. It would be a very serious matter to disregard a written document, signed and sealed by the parties, merely for the sake of the somewhat loose evidence given by Evans and his witnesses in support of this contention. I think substantial damages should be given though $1000.00 is too much. It is to be borne in mind that six months of the year had elapsed, that Fontaine had gone out of business and that the prohibition could only attach to Evans until August 31st, 1922, after which date he was perfectly free. I do not find that he canvassed any customers of the old business, but I do find that he did work for some of them and that he began such active operations about the 1st of March, 1922. I fix the damages coming to Fontaine under the penalty for this breach of contract at $500, for which amount Fontaine should have judgment.

Fixes $840 Counterclaim

As against this and on the counter claim, Evans is entitled to his mortgage or $800 with interest at 6% until now, $40 or $840 in all. From this must be deducted the $90 credits applied on it and the $300 which I have allowed to Fontaine in this action. Deducting this $390 from $840 there would be judgment for the defendant on his counter claim for the balance of $250.

This is a case in which the plaintiff has succeeded on his claim, and the defendant on his counter claim for a larger amount. Generally speaking there would be costs for the plaintiff on his claim and costs for the defendant on his counterclaim. If the chattel mortgage had been admitted the plaintiff would have been entitled to costs throughout. It was however, not admitted but attacked and application made to have it set aside. On this contention the plaintiff has failed, which consequently entitled the defendant to costs of his counter claim. I think the best solution of the costs problem is to make no order.

Make Business a Family Affair

MRS. LILLIAN SUMMERS AND HER TWO DAUGHTERS — QUEEN (LEFT) AND PEARL (RIGHT).

"Make business a family affair and make a family affair of your business."

That is the policy of Mrs. Lillian Summers, who conducts a real estae business in Arlington, N.J.

She has found her two daughters of great value to her in turning deals and of value to themselves in learning how to do it. She intends to take her daughters in partnership in a few years.

"When I started in business 13 years ago," says Mrs. Summers, "it was a rather daring thing and some of my masculine competitors sneered.

"But I've beaten many a man at his game since.

"A woman can be successful in any business if she uses her head. She knows more about a man's disposition than a man does, and for that reason should be able to outsell him."

Today's Offering of 863 Boxes Disposed of at Fifteen and Thirteen-Sixteenth Cents a Pound

At the regular sale of the Peterborough Cheese Board today 863 boxes were sold at 15 13-16 cents a pound. This is one cent lower than was paid two weeks ago. The price this year has shown marked fluctuations, but the salesmen in their most roseate expectations do not hope for a fluctuation as took place about a year ago when the price jumped from 15 13-16 on June 22 to 21 1-16 on July 6. Three factories, Villiers, Ormonde and Lang, refused to sell in spite of repeated calls and urgings by the other salesmen. The buyers—J. S. Cook, of W. S. Cook & Son, Belleville; G. A. Gillespie and T. Thompson, Madoc, buying for A. A. Aires, Montreal—claimed the price was substantial. J. S. Cook said he understood the United Dairymen offered cheese in Montreal yesterday at 16, so their price to the factories would be not more than 15 1-8 or 15 1-4.

President T. Braden was at first inclined to regard the price as low, but gave his three factories to Mr. Cook. Villiers, Ormonde and Lang steadfastly refused to sell. "I think it would be nice if the whole board was cleaned up," remarked the President. "We might adjourn for a week, if it is necessary."

"Ca we afford to come back here for 1,200 cheese? That's the way to look at it. If it was 2,000 or 3,000 boxes it would be a different matter," said Mr. Cook.

"Well, you go to Campbellford for 300 cheese," remarked Mr. Gillespie.

"Yes; but we take in three or four boards in one day."

Mr. Thompson called in three dissenting factories, but he also was turned down.

The total number of boxes boarded was 1,263. Warsaw, however, which is successfully manufacturing clarified cheese, boarded its cheese on account of the price being regulated by the board's price, and their 180, with the 220 of the three dissenting factories, accounted for 400 not sold. The total offering was as follows:

Keene, 40; Warminster, 100; Selwyn, 130; Villiers, 70; Warsaw, 180; Ormonde, 100; Young's Point, 105; Lang 50; North Dummer, 50; East Emily, 100; Cedardale, 60; South Burleigh, 23; Norwood, 200; Killarney, 55—total 1,263.

G. A. Gillespie opened the bidding at 15 and stopped at 1-2. Mr. Cook and Mr. Thompson contended, with Cook taking selections at 15 13-16. He secured 608 boxes and Mr. Thompson took Norwood and Killarney, 255 boxes. One hundred and five boxes were sold at the last sale at 16 7-8 cents a pound.

Warsaw factory is meeting with considerable success in the manufacture of clarified cheese, according to Secretary E. Hawthorne. About 90 twin cheese, weighing 80 pounds each, are made weekly and sold to the Canadian Packing Company. The price is regulated by the price of the board, the factory receiving in each case a bonus of one cent for clarifying. Warsaw is the only factory in the Province, so far as he knew, he said, making clarified cheese. The process it is claimed, resulted in a cleaner and more sanitary product. The machinery was installed last ... mn, but was not used until this year.

General Riley Has Pity For Fiancee Of Premier King

TORONTO, July 5.—(Canadian Press.)—General Riley was in a humorous vein last night when he addressed a meeting several hundred strong in Queen's Park.

"We are shortly going to hike to Ottawa again," he said. "Mackenzie King is supposed to have gone away to get married. I pity the lady. He might break his promise to her the same as he did to the returned soldiers."

LIQUOR SMELL NOT EVIDENCE

So Ruled Magistrate Langley in O. T. A. Prosecution at Norwood.

A smell, even if all-pervading, can not be submitted as evidence in an O.T.A. case, Magistrate O. A. Langley ruled in Norwood yesterday, when he discharged J. Potts and R. Gamble of Campbellford on the charge of 'having' A gallon 'crock' was submitted as evidence by the Crown, represented by J. Wearing, but, alas for the prosecution, there was not drop left in it. True there was a strong smell, and that the prosecution claimed should be enough to convince the magistrate that there had been liquor in the jar. But Magistrate Langley decided he would have to have more material evidence than a penetrating odour of alcohol.

Gamble pleaded guilty to being intoxicated, and was fined $10. Potts fought the charge, but was found guilty and fined $20. The information was adduced in their examination that the inebriation resulted from the internal application of sixteen ounces of alcohol secured from a Campbellford doctor "for external application." Essence of lemon was added to make the drink palatable, and it had such a frightful result upon the two men that, according to Potts' brother, who went into the box, he drove them straight to his house to sober them up.

While the police court trial was unbilled in the list of entertainments and attractions for the Old Boys' Reunion, it drew a big crowd yesterday afternoon. Even standing room in the town hall was at a premium, and the interest of the villagers and their guests in the O.T.A. proceedings kept up without flagging till the cases were finally disposed of.

N. A. MacColl, of Norwood, represented the Campbellford men.

CHAUTAUQUA'S OPENING BILL MADE BIG HIT

Splendid Audiences at Both Performances Yesterday—Ferguson Operatic Quintette a Feature

UNIQUE PROGRAM

The 1922 Dominion Chautauqua season opened yesterday with splendid audiences for both performances.

The Ferguson Operatic Quintette was the attraction in the afternoon of music, and the same organisation had half an hour in the evening, followed by the elocutionary entertainment provided by Prof. John Duxbury, "England's greatest reciter and reader," as he is described on the programme, gives a unique programme, something out of the ordinary run of this class of entertainment. With a portly, genial presence, a flexible voice, and a delivery that depends not so much on its dramatic fire as on great earnestness, combined with exceptional powers of characterisation and mimicry, he magnetised the attention of his hearers with his high standard of excellence. His powers of impersonation were displayed in the oddity of the offering entitled "The Shade's Banquet." In this, the departed spirits of Christopher Columbus, Shakespeare, Longfellow, Carlyle, Tennyson, Wordsworth, Samuel Johnson, "and, of course, James Boswell," Dickens, Pope and Burns, with George Washington and Mozart, are depicted enjoying an evening together on the River Styx.

The weight of the preliminary opening lightens later to a vein of delicious comedy, with each of these exalted folk giving his version, in his own way, of the nursery rhyme, "Little Jack Horner." To hear Mr. Duxbury imitate Longfellow's rendition in the impressive meter of "Hiawatha," Carlyle's surly growl, and Burns' broad Scotch, with Dickens' own long-drawn-out, imimitable style, is to listen to something worth while. This piece also introduces Lord Bacon and Sir Walter Raleigh in a discussion over the authenticity of Shakespeare's works, which ends with a clever inclusion of every one of the plays in turn.

"A Few Bars in the Key of G," adapted, by the way, from a story which recently appeared in one of our Canadian magazines, was a selection that held its audience from start to finish; and a presentation of an old man at the photographer's, done with twisted face and quivering hands, was splendid in its intense human interest.

Much Appreciation.

Ripples of delighted appreciation rose from the men and women who watched the ease with which he drifted into a humorous selection dealing with the vagaries of haircuts. Rounds of enthusiastic applause followed every number on his splendid programme.

In the afternoon, following the introduction of the Chautauqua by Mr. G. A. Gillespie, and a brief address by the director, Mr. Hartwell DeMille, the entire performance was supplied by the Ferguson Operatic Quintette, composed of a quartette of excellent singers, and a brilliant pianist, who provide a varied and well-balanced programme that can not fail to appeal to every class of music-lover in their audiences.

Miss Exie Burgess, the possessor of a soprano voice of delicate, vibrant quality; Miss Frances Burgess, with a warm, sympathetic contralto; Mr. Francis Diers, a tenor of artistic finesse; Mr. Harry O. Ferguson, manager, and owner of a fine baritone that he uses with marked ability, and Miss Margaret Mullowney, pianist and accompanist, are the members of a bright and attractive aggregation of singers, whose varied offerings were received with marked appreciation.

Their afternoon programme included a sparkling comic opera medley, arranged by Mr. Ferguson, with hits from "Sweetheart," "Maytime," "Mdlle. Modiste," and "My Little Rainbow Girl," a quartette offering of Dudley Buck's 'Te Deum in C," sung with impressive effect, and three negro spirituelles, the "heart music"

NON-RESIDENT FEES AT P.C.I. MAY BE $50

Peterborough Education Board Considering Increase of $25 For Out-of-City Students at the Collegiate.

PUBLIC SCHOOLS MAY BE AFFECTED.

That the fees for non-city residents attending the Collegiate Institute may be increased from $25 a year to $50, payable in three instalments, seems altogether likely from the attitude of the Board of Education in regular session last night. Furthermore, it is also quite probable that out-of-town attendants at Peterborough's public schools may be taxed a fee, payable either by their parents or the township in which they reside. There are quite a number of non-resident students in the Collegiate, and some out-of-town children getting their education at the city's public schools; and from the attitude of the Board, a change in their policy in these connections may be looked for when the schools open again in September.

The Board's attention was earnestly directed to those questions when E. B. Fowler, acting chairman of the Supervision Committee, submitted the following report and recommendations:

"That, dating from 1st September next, the non-resident fees at the Collegiate Institute be $50 a year, payable in instalments as follows: $20 1st September, $15 1st January, $15 1st April.

"That a second male assistant teacher be appointed at the Prince of Wales' School, dating from the 1st September next.

"As authorized, your committee advertised for tenders for text books and supplies, and have awarded the contract to Mr. R. J. Soden."

Sent to Special Meeting.

Mr. E. B. Fowler moved the report's adoption, but Mr. Denne followed with an amendment that the clause referring to non-resident fees be laid over for discussion at a special meeting between now and September next. Mr. Denne also pointed out that a number of non-resident children are attending the public schools, simply paying for their school supplies, and neither their parents nor the townships where they live contribute toward their educational privileges in this city. His views that some definite action in regard to this situation should be taken evidently found acquiescence from his colleagues, and the amendment carried. The report as amended was adopted.

Resolution of Condolence.

On motion by Messrs. Wearing and Denne, a resolution of condolence with C. S. Browne in the loss of his wife by death will be drafted and forwarded. Mr. Browne teaches in the Institute.

More Room Wanted.

Inspector Rogers' report on the Collegiate Institute highly commended the excellent management in the Collegiate Institute and its splendid organization of teachers as evidenced in their gratifying results and attendance by students. But, in his opinion, a building twice the size is needed to meet fast-growing demands in the Institute's accommodation and educational facilities. He also stressed the fact that the functioning of the Adolescent Act is and will further tax the Collegiate's capacity.

Communications.

A number wrote accepting appointment on the Public School teaching staff.

H. A. Yenney, until recently Principal of Queen Alexandra School, wrote in appreciation of the Board's retiring allowance to him.

Teacher Miss C. M. Caldwell asked a year's leave of absence owing to illness at home, otherwise she would be forced to resign. On motion by Mrs. Morris and Mr. Wearing, this leave of absence was granted.

Adjourned Till September.

The Board will hold no regular meeting till the first Tuesday in September. The chairman may call a special session between now and then when occasion demands. This was Mr. Green's motion.

There were present Dr. Neal, presiding in the absence of Chairman A. A. Fowler, and Trustees Roland Denne, J. M. Greene, J. W. Worth, Joseph Wearing, E. B. Fowler and Mrs. W. R. Morris.

Bands of Mercy In Local Schools

The local branch of the Humane Society are taking active and commendable steps in the direction of educating and interesting children in love for and kind treatment of dumb animals.

This was evident last night in a letter to the Board of Education seeking permission to organize Bands of Mercy among little folks in the city's Public schools. The communication came from E. S. Martin, treasurer of the Humane organization.

Mrs. W. R. Morris stated that such Bands of Mercy are customary in English schools, and the request was referred to the Supervision committee with power to act.

The reception of this question by the Board leaves every promise that the committee's action willendorse the Society's proposition.

$200,000 FIRE LOSS, TORONTO

Old Royal Theatre Building a Prey to Flames To-Day.

TORONTO, July 5.—(Canadian Press).—Fire broke out a few minutes before one o'clock to-day in the old Royal Theatre building at present owned by Mrs. J. H. Herman, Toronto, and situated in the densely-built business and factory block bounded by King, Bay, Wellington and York Streets.

Twenty minutes later the roof fell in, and the flames, which soared to a great height, were fanned by a strong southerly wind, causing much anxiety to owners and occupants of surrounding buildings. At 1.30, howered, the fire was brought under control. The Ives Bedding Company of Cornwall and the Standard Hat Co., Toronto, were the principal losers. The damage is estimated at $200,000. Four girls employed in the bedding company reached the street by fire escapes.

UNSETTLED WEATHER FOR ROYAL REGATTA

But Rain Does Not Check Flow of Enthusiasts

HENLEY ON THE THAMES, July 5.—(Canadian Press.)—Unsettled weather marked the opening day of the Royal Regatta, but these conditions failed to check the flow of enthusiasts eager to watch the first heats of the various events, chief of which is the grand challenge cup race between crews of the Leyland Boat Club and the Pembroke College, Cambridge. Three heats for diamond sculls are also down for decision.

BURNED TO DEATH WHEN SPIRIT LAMP EXPLODES

Fatal Accident to Miss Tempush of Toronto

TORONTO, July 5.— (Canadian Press.)— Mrs. Mary Tempush, 231 University avenue, died here this morning in the General Hospital from burns received in an explosion of a spirit lamp at her home last night. Burns covered her whole body.

The explosion occurred at eight o'clock and at five minutes past eight she was on the operating table of the General Hospital, due to the quick response made by No. 3 hose station.

Give the P.A.A.A. a Mandate to "Carry On"

——On SATURDAY the Citizens of Peterborough will be asked to help carry on the work of the P.A.A.A. by purchasing Tags. The response should be generous. The providing of Organized Recreation is a necessity in the modern city, and the Association which has undertaken the task in Peterborough has been doing its work well. Many young people have had reason to thank the P.A.A.A. for numerous happy, healthful hours.

——The answer to SATURDAY'S appeal should be an emphatic mandate from the Citizens of Peterborough to the P.A.A.A. to "carry on."

——YOU, as an individual, can help to stress that mandate.

——BUY A TAG, and help brighten the lives and strengthen the bodies of Peterborough's Young People.

WANTED: LAW TO PROTECT BABIES AT CHRISTENING!

By MARGARET ROHE.

My brother's tough and six feet tall,
And yet his name is Clarence,
Mehitable was wished on me,
Oh, how we blame our parents!

NEW YORK.—Some of the folks so handy at making laws prohibiting food, drink, religion, free speech and inconsequence things like that

ought to go in for something really important.

They should evolve a nice but firm little law absolutely forbidding the naming of infants at birth by misguided parents. Of course, some amateur parents go even further and name the offspring before birth, but this seldom amounts to much, as revisions are so often necessary.

Any naming of infants should be compulsively postponed until said infant has reached the years of discretion when it is able to put its own finger on a nice name that suits its personality.

Just think of all the suffering and heartbreak, shame and derision, ribald laughter and what not such a law would save poor mites named and maimed for life at the same christening!

* * *

Why, I once knew a baby named Job after his grandfather. Yes, of course, grandpa was wealthy, but this instance alone was worthy of legislative proceedings.

Then take the case of that new prize-winning beauty at the Winter Garden. Her name is Lota Cheek, and we know this is true because the press agent swears of it.

If you don't believe it you can look up her father, Leon Cheek, in the Dawson (Ga.) directory and, if you find him, write him about it.

Fond and foolish parents never seem to stop and consider that the dimpled rosebud of a daughter, whom they insist on calling "Bebe," may grow up to be a strong-minded female wearing number eight commonsense shoes, cropped hair and no corsets, or that golden-curled Lancelot will turn out to be a bald-headed bootlegger.

It's an outrage to dub any defenseless infant Percy or Clarence no matter what he grows up to be. And because mamma has been reading Browning is no good reason she should fasten "Pippa" on her girl child, especially when the last name is Jones.

* * *

It's true lots of modern young women refuse to change their names for their husbands' when they marry. They contend it destroys their personality and identity. There is quite a club of them called the Lucy Stone League after the first protestor against losing her own name and personality by donning a wedding ring.

But if marriage affected the first name ten to one if any Lucy Stoner had Aurora Alice or Juliet Ophelia wished on her by a maternal ancestor she would be only too glad to change it, personality and all.

That's the trouble with parents. They will pass by perfectly good names like Gertrude, Helen, Anne or Mary, guaranteed to suit any personality, and insist on straying out after floral specimens like Myrtle or Pansy, or they have a lapidary

leaning for some gem of a name like Opal or Amber.

As for good old reliable male names like John, Thomas, William they are spurned till it's no wonder the poor little heir howls at the fount when he is sprinkled with Rollo or Oswald.

Just take a run over the name list of your own family or acquaintances and see if you don't agree with me that parents as infant namers ought to be suppressed.

CHAUTAUQUA'S OPENING

(Contined from page 1.)

of the black race, that provided a distinct novelty.

Selections in costume from "The Geisha" and "The Mikado" were charming numbers; and the song cycle, "The Morning of the Year," was beautifully rendered.

Solos that specialised in the old favourites included the contralto number, "My Ain Folk," the baritone "Duna," a lovely rendition of the haunting old Irish song, and the tenor numbers, "Little Mother o' Mine," and 'Margherita."

The quartette rendition of "Songs Beloved" was very sweet, with "In the Gloaming," a tender, melodious selection, and a dainty programme of music, full of light and colour, was finshed off with the pretty number from "Floradora," "Tell Me, Pretty Maiden."

Evening Performance.

The evening performance by the Ferguson Quintette was a charming arrangement of a scene from "Martha," done in costume against a black setting. True artistry and a delicate touch were evidenced in the pretty delineation, in which the soprano gives a beautiful rendition of "The Last Rose of Summer," and there is a fine quartette in "The Spinning-Wheel Song."

The leader of the Junior Chautauqua, Miss D. M. Mick, gave a short talk last evening on the work for the Juniors, outlining the programme of games and sports, with the final pageant, and the daily sessins at 9 o'clock, and asking the co-operation of the parents for the week.

For to-day, "Music Day," the programme consists of offerings by Mr. Herbert MacFarren and his instrumental quartette, which supports this evening Miss Hazel Huntington, New York prima donno.

GEO. F. CHIPMAN OUTLINES ISSUES OF PROGRESSIVES

Does Not Want Too Close Alignment of Provincial and Dominion Parties.

PUBLIC DEBATE.

WINNIPEG, July 5.—(Canadian Press.)—The issue of the provincial election campaign as seen by the Winnipeg progressive party and presumably by the United Farmers of Mantioba, is defined in a statement issued by George F. Chipman, whose name heads the progressive ticket.

"From the Progressive viewpoint," says Mr. Chipman, "the imperative need of the hour is for a strong, stable and business-like government, backed up by a sufficient support in the Legislature to enable it to carry on, and the Progressives today offer the only hope of such a government."

As the issue of second importance, Mr. Chipman expresses the demand that provincial matters should be kept entirely separate from federal party interests and alignments and declares that the "close alignment" of the Norris government with the federal Liberal party is "a positive menace to the best interests of Manitoba.

Mr. Chipman makes these statements in accepting a challenge of Hon. Edward Brown, provincial treasurer to a public debate in Winnipeg on the campaign issues, particularly on charges that the government has been extravagant and economically inefficient. Mr. Chipman refuses to accept the government's financial record as the chief issue. "It is only one of the issues and not even the main one," he states.

No date for the debate has been fixed. If it is held it will be a three-cornered affair, with a Conservative speaker participating also.

SILVER PIN FOR SCHOOL TEACHER.

Presentation By North Monaghan Pupils to Miss May MacNevan.

NORTH MONAGHAN, July 5.—The pupils of S. S. No. 3, North Monaghan, before parting with their teacher, Miss May MacNevan, presented her with a beautiful silver pin. The following address was read:

"Dear Teacher,—

"We, the pupils of Elmdale School, North Monaghan, feel that we cannot let this occasion pass without giving you something to remember your "squad" of S. S. No. 3. We have often done the things we should not have done and we have left undone the things we should have done, but with all our failings we have found in you a true friend and helper. We all admit that the two years that you have been in our midst have been two of the most happy years of our lives, and we will often look back on them with pleasure.

"We now ask you to accept this gift as a token of our respect, and may it always carry back to you happy thoughts of Elmdale School.

"Signed on behalf of the school—Mildred Brown and Clarence Laing."

In reply the teacher thanked her pupils for their kind gift, expressing her regret on leaving them and wishing them every success in their future lives.

JURY AND HORSE OBJECTS OF ENVY.

WINNIPEG, July 5.— (Canadian Press.)—Thirsty ones in Winnipeg yesterday were envying a local summer assize court jury and a horse. To-day Judge Galt hearing a liquor theft case told the jury they could open a bottle of the "evidence" and decide whether or not it was Scotch whiskey. The horse is envied for this reason.

Yesterday, although considered cool and cloudy, it collapsed from sunstroke. A veterinary was called and the animal was revived with brandy.

MAINTENANCE MEN STRIKE POSTPONED

All Quiet Over the Holiday in U. S. — Railways Handle Holiday Trade.

NEW YORK, July 5.—(Canadian Press.)—Officials of railroads entering New York banished thoughts of the ship men's strike yesterday and devoted themselves to the problem of getting some half million people home from their holiday jaunts.

Strikers and strike officials also laid aside outward thought of the strike. Strike headquarters were closed, with the exception of a few pickets reported at one or two yards there were no evidences of strike activity.

The members of the maintenance of way workers' union in the metropolitan area have received orders "to continue on the job," folllowing the decision of the Rairoad Labor Board in Chicago to re-open the consideration of thier wage reductions.

THREE BROTHERS WERE SENTENCED FOR USING FRAUD

Short Jail Sentences and Heavy Fines Imposed For Cheating Creditors.

LARGE PURCHASES.

MONTREAL, July 5.—(Canadian Press.) — Three brothers, Joseph, Jean and George Zarbatany, dry goods merchants, were condemned by Chief Justice Decarie in the court of special sessions here yesterday afternoon, to spend six hours in jail and to pay heavy fines for having conspired to defraud their creditors. In addition to the jail sentence Joseph must pay a fine of $1,000 or go to jail for six months; Jean must pay $500 or go to jail for three months; and George was fined $300 or one month in jail.

Albert Lamarre, authorized trustee for the creditors, told the court that during the thirty days preceding Joseph Zerbatany's failure, the accused had bought large quantities of dry goods of which he could not render an account when called on to do so.

HEAVY RAINFALL IN SASKATOON DISTRICT

SASKATOON Sask., July 5.—(Canadian Press). — With a few exceptions, crops throughout the Saskatoon district have received a good drenching during the past twenty-four hours. Rain fell heavily and the shower seems to have been fairly general. Crops already well moistened received added impetus and those lacking rain were saved from impending drought.

Grain, Cattle & Produce Markets

PETERBOROUGH MARKETS.

CASH GRAIN.

MONTREAL, July 5. — (Canadian Press.)—The domestic market for cash grain was without feature yesterday. There was no change in the flour situation. The millfeed market was without development and the market for rolled oats was dull. A steady feeling prevails in the baled hay market. There is nothing new in the egg situation. Trade in potatoes is slow. Demand for butter is steady.

The tone of the cheese market is easy but without price change as yet.

WINNIPEG CATTLE.

WINNIPEG, July 5.—(Canadian Press.) — Receipts 316 cattle, 44 calves, 250 hogs and 105 sheep and lambs

With approximately 400 cattle held over from yesterday the market was fairly active and there was a fair demand for good killers. Bidding generally in line with close of yesterday and steady tone maintained throughout the market. Stockers and feeders absorbed freely at steady prices. Good demand for choice vealers at steady prices.

No trading on the sheep market this morning, with bidding holding steady with yesterday's drop in lambs.

Hog market steady, selects $13.25.

REBEL DEFENCE WEAKENING IN DUBLIN STREET BATTLE

NO ACTION TAKEN IN IRISH MURDERS.

LONDON, July 5. Canadian Press. — Replying to a question in the House of Commons yesterday as to what the British Government was doing about the three British officers who were hanged in Ireland, Colonial Secretary Churchill said the Government had to rely on the Provisional government, which was engaged in trying to bring the murderers to justice. Everything that had happened in the past week had increased his confidence that the Free State government would suppress the horrible spirit of anarchy in Ireland and establish decent and civilized government.

CALGARY FIREMEN REFUSE WAGE CUT

Lively Scrap Between City Officials and Fire-Fighters Is Referred to Ottawa.

CALGARY, Alta., July 5.—(Canadian Press.)—The Calgary firemen union is one of a minority of the locals belonging to the Calgary Federation of Civic Empolyes which has consistently declined to accept wage reductions passed by the commissioners and the city council. The commissioners declined to agree to an arbitration with these dissenting locals separately, asserting that the city wage agreement provides for arbitration with the federation as a whole. The federation officials will not ask for arbitration between the city and the federation, but demand separate arbitrations for each local dissenting from the wage awards of the commissioners. As a result of the deadlock the local firemen applied to Ottawa for intervention.

HAY AND GRAIN DAMAGED BY RAIN AT BAILIEBORO.

Successful Barn Raising in South Monaghan — A Former Minister Warmly Welcomed.

BAILIEBORO, July 5.—In some parts of this district several farmers have nearly finished cutting their hay, and lying in the fields it was in a poor condition to receive the heavy rains which fell the latter part of last week. But the majority of farmers have not yet started haying. They seem to be waiting for the haying weather, which we have not yet had.

The frequent rains have done a great deal of good to growing roots and spring crops, but the fall wheat has been lain flat badly, and in many localities the rust has hit it, which will no doubt do a great deal of harm.

Presiding Teacher.

Mr. Thomas Hardcastle of Baltimore presided here while the entrance pupils were writing on their examinations Wednesday, Thursday and Friday of last week. About twenty-nine pupils from the eight schools in the surrounding district wrote.

Barn Raising.

Mr. Wm. Dawson of South Monaghan held his barn raising on Friday afternoon, when about seventy men helped with the erection of the building. Mr. Harold Fry of Peterborough was contractor for the work, and the raising was consummated without a hitch. This will be one of the largest barns in the vicinity.

A Welcome Visitor.

Rev. D. N. McCamus of Clinton circuit, who formerly performed the duties of pastor on the Fraserville circuit thirty-one years ago, was welcomed to the strawberry social at Centreville on Thursday evening by the many friends made during his pastorate here. Mr. McCamus, who was called on to say a few words during the programme, spoke briefly, bringing his speech to a close by singing a solo, which was very much enjoyed by all. Mr. Wason Handbidge of Peterborough is a nephew of Mr. McCamus.

News Notes.

Many visitors motored to Rice Lake on Saturday and spent the holiday fishing despite the heavy downpour of rain. Most of the fishing parties report a good day's catch.

Misses C. and H. Barnard, Miss E. Falls and friends motored to Campbellford for over the holiday.

Miss S. Southern has returned to her home in Lindsay.

Mrs. Wm. Fell of Peterborough was a guest of friends in the village over the week-end.

On Sunday evening the Orangemen paraded to the Methodist Church at Fraserville. Rev. R. M. Patterson conducted the service, and there was a large turn-out of members from the different local lodges. At the afternoon service at Carmel the Carmel Lodge held their church parade.

GOSSAMER CAPES.

At the English derby gossamer capes were introduced. These were waist length affairs of fine Spanish lace with ruche collars of petaled taffeta.

Irregulars Under a Heavy Bombardment and Are Suffering From Lack of Ammunition.

EVACUATE HOTEL.

LONDON, July 5. (Canadian Press.) — A Dublin despatch to the Times last night says

"To-night the remnant of the irregular stronghold in Upper Sackville street is being bombarded with heavy guns."

The Dublin correspondent of the Press Association telegraphing early in the evening, says that the National forces are making steady progress. The battle in O'Connell St. continued with varying intensity during the day, the firing on the whole being much heavier than yesterday or Monday

In the afternoon the post office was rushed and captured by a bombing party, twenty irregulars being taken.

The correspondent says it is persistently rumoured that De Valera has left Hamman's Hotel.

Fifteen irregulars are believed to have surrendered under the white flag at this hotel and it is rumored that Countess Markievicz was captured while sniping.

During the course of the day, continues the correspondent, there have been fierce duels between the National troops lying in the road behind light barricades and snipers from windows and roofs. There are several indications of the diminished strength of the irregular forces, and that they will no longer attempt to fight all their positions simultaneously. The deserted appearance of the Gresham suggested that the hotel had been evacuated and it was believed that Free State troops once entered the hotel, but did not remain, suspecting that the place had been mined, and later Republicans were again seen firing from the windows.

The irregulars concentrated their attention especially on threatened points, moving about in the underground tunnels. A large number of irregulars are known to have left the O'Connell area, either tired by the struggle or under orders from their leaders. Crowds in the city still watched the fighting; in one case National snipers were firing clear over the heads of the spectators at Shaughans Hotel'

The evacuation of Barry's Hotel, near Parnell Square, was a complete surprise; it was quickly deserted on Sunday or Monday by a hundred irregulars with about thirty women acting as cooks and typists. It appears that they lack arms sufficient to resist a big attack and therefore sliped away in twos and threes through a breach into an adjoining building.

The Dublin correspondent of the Times believes that in addition to a slackening of morale the irregulars are suffering from a shortage of ammunition; they are handicapped because they employ automatic revolvers of different calibres, for which they cannot obtain proper ammunition.

General O'Duffy, Chief of Staff of National Army, is supposed to be justified when he expresses the conviction that the revolt in the city is broken though it may requqire some time to restore normal conditions. Confidence is gradually returning and the shops are reopening.

There seems little for the public to do but sit on the doorsteps and discuss the contents of the newspapers.

The business men think the Cabi. broken though it may require some ough grip on the situation.

ALBANY, N.Y., July 5.—(Canadian Press.)—The Montreal Express of the New York Central was derailed at Childwold, near Tupper Lake, about 5.30 o'clock yesterday morning, officials of the railroad admitted last night. Meagre reports have been forwarded to the offices here, and officials, beyond saying that there were no serious injuries, coud not give any details.

PROVINCES WILL HOLD CONFERENCE ON WHEAT BOARD

Meeting Will Be Arranged For Alberta and Saskatchewan in the Near Future.

TO ACT TOGETHER.

EDMONTON, July 5.—(Canadian Press.)—An inter-provincial conference between Alberta and Saskatchewan, on the wheat board question, may be arranged for an early date. Premiers Greenfield and Dunning are now in correspondence on the matter, the idea being that the two provinces should get together, compare notes and ascertain whether or not it will be possible for them to act in cooperation and in time to secure the functioning of a wheat board this year.

Under the terms of the dominion act it will be necessary for at least two provinces to act together in the adoption of the federal legislation and since Manitoba is just now immersed in a provincial election contest it recognized that the onus is upon Alberta and Saskatchewan, if the wheat baord scheme is to be made operative.

The place and time of meeting for the two province conference have not been fixed, but it is likely such a meeting will be arranged shortly.

CANADIAN COAL NOW SOLD IN MONTREAL.

MONTREAL, July 5 — (Canadian Press).—As a direct result of the labor troubles in the United States, coal is now coming into Montreal from the Cape Breton mines at the rate of 21 cargoes a month carried by the six ships operated directly by companies working under the British Empire Steel Corporation. Further cargoes are also coming in by chartered steamers.

The best season's record reached by the Dominion and Nova Scotia companies in the past amounted to approximately 2,000,000 tons for the St. Lawrence trade. At the present rate it is expected that 1,500,000 will have been shipped here before navigation season closes.

KILLED BY LIGHTNING

REGINA, Sask., July 5.—(Canadian Press)—Ole Knutsen, farmer at Minnie Lake, Sask., was killed by lightning while at work on his farm, according to a report which reached Saskatchewan provincial police headquarters yesterday. The police believe the lightning was attracted by a brass button on Knutsen's cap.

GERMAN WAS FOUND GUILTY OF TREASON.

BERLIN, July 5. — (Canadian Press.)— Baron Leoprechting Monday was found guilty of high treason and sentenced to life imprisonment in Munich, on the charge that he had been in constant communication with French Minister Dard in Munich and was striving for separation of south Germany from north Germany by French occupation troops. The proposed dividing line, according to the charge, was to follow the river Marne.

PIANO AND VOCAL RECITAL, OMEMEE.

Pupils of Miss Florence Scott, of Peterborough, Show Talent.

OMEMEE, July 5.—An enjoyable recital of the piano and vocal pupils of Miss Florence Scott of the Conservatory of Music, Peterborough, was given by her class in Omemee at the home of Mrs. G. N. Earle on Friday evening. There was a fair audience and the performance of the pupils proved very interesting in their accurate and well-balanced numbers. The following was the programme:

Piano, "Vesper Bells," Gordon Parsons; piano, 'In the Garden," Jane Earle; piano, "Valsette," Lenore Jamieson; vocal, (a) "Friend O' Mine," (b) "Forever With the Lord," Mr. Wilkur Clemett; piano, "Consolation," Vivian Parsons; piano, "Maman," Margaret Parsons; piano, "Queen of Roses," Helen Mackey; piano, "La Jennesse," Emily Mitchell; piano, "Sonatina" (1st movement), Floyd Parsons; vocal, (a) "Where My Caravan Has Rested," (b) "Nightingales," Vivian Parsons; piano, "Italian Song," Cuthbert Mackey; piano, Waltz (Gurlitt), Jane Earle; piano, "Allegro," from "Sonatina in Clementi," Lenore Jamieson; piano, "Harvest Home," Margaret Parsons; piano, "Sonatina" (Op. 55, No. 2), Helen Mackey; piano, "Tarantelle," in A flat maj., Vivian Parsons; vocal, (a) 'Until," (b) "In An Old Fashioned Town," Mr. Wilbur Clemett.

By special request Miss Scott favored the gathering with a couple of solos at the close of the evening's entertainment.

VICE-REGAL PARTY STOPS AT CALGARY.

CALGARY, July 5.—(Canadian Press).—To the salute of cheers from a welcoming throng, His Excellency Lord Byng, governor general of Canada, accompanied by Lady Byng, arrived here yesterday morning for a five day visit. The vice regal party was greeted by Acting Mayor Hughill and Brig. General A. H. Bell.

SEVERAL CHANGES ARE PROPOSED FOR THE CIVIL SERVICE

Good Results Obtained From Conference of Government and Civil Service Representatives.

LESS RED TAPE.

OTTAWA, July 5. — (Canadian Press.)—Another of a series of conferences designed to bring about increased efficiency and to remove causes for complaint among the civil servants of Canada took place yesterday when the chairman, Hon. Dr. Roche and members of the civil service commission together with William Foran, secretary, spent most of the afternoon at a round table conference wth Rt. Hon. Mackenzie King and members of his cabinet. It is understood that as a result of the conferences, which have been held by the government, first with the representatives of the civil servants associations, then with the deputy ministers and yesterday with the commissioner, many of the differences between the three parties in the civil service have been ironed out and proposed changes are being developed.

One of the matters which is understood to have received considerable attention in the discussion between the government and the various parties is that of departmental councils similar to the Whitley councils inaugurated in England. The governments and the heads of the departments, it is understood, are not averse to giving the scheme a thorough try out. Resolutions favoring the establishment of Whitley councils in the civil service have been given strong support in the civil service organizations.

Efforts are being made by the government to remove some of the causes of friction which have existed in the past and which have led to a great deal of unrest. At the same time it is proposed as far as possible to make necessary re-arrangements and take steps to remove any overlapping in staffs and duties which may at present exist. One of the changes likely to be made, it is understood, will give the deputy heads of departments a closer control of their staffs in the matter of promotions, etc., than at present exists.

SUNDAY BATHING.

A proposal to have the swimming beaches closed on Sunday has been defeated in Council, and the majority of citizens will agree with the decision. There does not seem to be much ground for objection to an opportunity being given for a cooling dip in the river on a hot summer Sunday, for the average citizen is unable to find any harm in the practice. To close the civic beaches and thus deprive the people who are compelled to stay at home on summer Sundays of an opportunity to bathe while other more fortunate citizens are flocking in motor cars to lake and river resorts for a plunge, or are spending Sunday at their summer homes, where bathing is regarded as a matter of course, would savor of class discrimination, and the Council's decision that the beaches are to remain open prevents an injustice being done. Sunday bathing has been permitted for several years in Peterborough. There is no evidence that the morals of the community have suffered as a result, and little cause indicated for a change. So long as the beaches are conducted in an orderly manner—and they have been up to the present—bathing seven days a week there will not bring anything but dividends of good health and cleanliness, and the majority of the Council are to be thanked for their broad-minded attitude towards the question.

SATURDAY'S TAG DAY.

There have been tag days for various causes in Peterborough; an athletic tag day is, however, something of a novelty. And yet it is a particularly appropriate means of raising revenue for the Peterborough Amateur Athletic Association, inasmuch as it affords an opportunity to the people generally who are benefitted by the activities of the Association to assist in the work. The time will eventually come when cities will appoint and pay for directors of athletics just as they do nowadays appoint sanitary inspectors and health officers for the need of proper supervision and direction for the healthful recreation that is a necessary part of the life of the community is becoming more and more recognized. Until that development is reached, however it remains for organizations like the P.A.A.A. to provide such supervision and direction. To do so requires funds, and while the Association has succeeded in financing itself up to the present, and will get a fresh impetus from the annual membership campaign next autumn, the fact remains that assistance will be needed to carry on the work until that campaign is possible—hence the decision to hold a tag day on Saturday. The response of the public to this appeal should be generous, for the work already done by the Association in providing organized recreation for the young people of the city is appreciated by the majority of citizens, and they will be glad to contribute their quota towards the financing of the activities of the P.A.A.A., much of which are along lines that are not in themselves revenue-producing, and hence represent a steady drain upon the treasury. The appeal is commended to the citizens of Peterborough as in the interests of a cause that merits popular support.

WORK FOR THE UNEMPLOYED.

Provided the cost of the scheme does not prove prohibitive, the suggestion that the City Council should help to solve the unemployment problem next winter by securing wooded lots near the city, where wood-cutting operations could be inaugurated, seems to be one worth serious consideration. Such a plan would be a vast improvement over the doles scheme, for the pauperizing influence of getting something for nothing would be absent, and there would be no tinge of charity about the proposition. The average man would much prefer working for his living than to subsist upon charity doles, and the wood-cutting plan would save the self-respect of the majority of the unemployed. On the other hand, the proposal is a good one too, inasmuch as we are threatened with a coal famine next winter and a civic wood pile under the circumstances would be a contribution to the fuel supply that would not be despised. North Monaghan adopted the wood-cutting method of dealing with unemployment last winter, and it proved most satisfactory. Certain it is that any scheme that offers employment instead of doles is to be preferred to the system in force here during the past two years. The Council is to be commended for taking the unemployment question under advisement at the present time, instead of letting matters drift along until the emergency is here, and for endeavoring to find a satisfactory and economical solution of the troublesome problem.

HAVE YOU CHANGED?

You meet an old friend—possibly on a trip back to the old home town—and find that he has "changed tremendously," says the Calgary Albertan.

Time has gotten in its work. His face has changed strikingly, though you still might be able to pick him out in a strange crowd.

But the change that impresses you most is in his manner, his temperament, his character, his philosophy.

Thus the town drunkard may have become pious. The man who in the old days was the life of the party now is quiet and reflective. The bright schoolboy has matured into a mediocrity. The dunce has evolved into success.

How do you explain all this?

Some philosopher has said that nothing is eternal except change.

In physiology you are taught that the human skin changes entirely every seven years—that a new skin is formed in that period ,as old cells die and are replaced by new ones.

There is an even more startling change in the real being, the inner self—character, temperament, spiritual, nature and philosophy or intellect.

You go back to former friends, pastimes and environments—and are disillusioned. The old-time glamour is gone. You ponder, "Things that used to appeal to me bore me now."

If you follow up this line of reasoning, you come to the rather uncanny decision that you are entirely different being from what you were years ago.

Fortunately for us, that we have this constant change. It is what enables good to overcome evil. It leads failure into success. It permits us to develop our strength to overcome obstacles.

The possibilities of the human being are unlimited. The inner self is as plastic as putty, forever changing.

But there is no such thing as standing still. Every instant, we are either progressing or deteriorating—physically, mentally, and spiritually.

THE MODERN MOLOCH.

One woman was killed and eight persons received more or less serious injuries over the week-end in automobile accidents in or near Montreal. These figures are not unusually high. The insatiable gods of Carelessness and Recklessness demand the blood sacrifice of one or more persons week after week in this city. Nor is Montreal any worse than other places in this regard. Statistics just issued in the United States show that the number of deaths from automobile accidents during the past twelve months exceeded 13,000, which means that one person was killed by an automobile every forty minutes of the day and night throughout the year.

One person killed every forty minutes! The tragedy of the figures lies in the fact that the majority of these persons were young children. The world does not shed many tears of pity when a driver with brain inflamed after a night's debauch scorches along a highway and dashes into a tree at the bend of the road to plunge to death, but hearts are filled with pity when a little life is snuffed out because tottering legs just learning to walk "could not get out of the way quick enough."

The automobilist blames the pedestrian if the latter impedes his progress by crossing the road and execrates him as a "jay walker" if motor traffic is delayed by a second or two. The pedestrian in turn—perhaps with a touch of envy in his thoughts—regards all auto drivers as road hogs who have no respect for laws or the rights of their fellow-citizens. It is just as impossible to generalize about chauffeurs and owners or cars as it is to classify all foot passengers as imbeciles who have either suicidal intent or a total lack of common-sense.

There is one thing that most automobilists seem to forget when they are driving in the city. At street crossings pedestrians have the right-of-way over the car owners. There are breaks in the continuity of the miles of sidewalks of the city caused by cross-roads. The pedestrian has the right to cross the danger zone of this intersection before the car. The honking of a raucous horn by a driver warning pedestrians to get out of his way is an abuse of the proper function of the driver's horn, which is a device to warn pedestrians that a moving vehicle is continuing in the direction in which it is then travelling. It was never intended as a means of frightening persons to get out of the way. If this were to become its normal function the pedestrians may one day arm themselves with similar horns and battering rams to meet the attack.

During the last few weeks there has been an alarming increase in the number of persons killed by passing trains. These accidents will increase as the number of cars grows larger, unless the railway companies are forced by law to adopt the practice of other countries, modified to suit local conditions, of erecting a gate at every crossing. It is not necessary that a gatekeeper should guard every farm road, for the cost of such a regulation would be prohibitive. If, however, the drivers of automobiles had to descend from their cars to open a gate there would be fewer accidents. The old warning post with its "Stop, Look and Listen" has lost its appeal with age.

There is one other regulation that should be enforced with greater severity, the rule about driving a car while under the influence of liquor. Road houses and rural inns where beer is sold under license and harder liquor under the rose are largely visited by automobile parties and the newspapers with distressing frequency have to report fatalities that have been the aftermath of these gatherings. The Parliament of Canada made it an offence, punishable with imprisonment, to steal an automobile. It should be an offence that only a long sentence of punishment will expiate for a driver to be found intoxicated while in charge of a car.—Montreal Star.

EDITORIAL NOTES AND COMMENT.

The City Council has decided that the swimming beaches shall remain open on Sunday, evidently believing that cleanliness is next to Godliness.

Judging by the number of cars standing on George Street, it is about time a parking time limit was imposed.

Riley's army is reported to be preparing to take the road again. This time they would be well advised to take their rations with them.

Campers are asked to be careful in regard to their camp fires and thus protect the forests. Remember you may want to go camping another year.

Ontario is to lose one seat as the result of redistribution. Will East Peterborough as a riding disappear in the shuffle?

Says a despatch to the Globe: "53 goats of the 55 comprising the Manitoba Legislature will be contested on July 18th." Why abuse the Manitoba aspirants?

To Canada.

Greece in Time's portraiture will ever show
A brow of chasteness rare, while Rome is seen
Beside a spoil-heaped chariot, serene;
Assyria's sinewy arms discharge a bow;
Phoenicia's sails to alien moorings go;
Egypt against a pyramid will lean
And dream, while Palestine—her face aglow
With light supernal—'mong them sitteth queen

And Canada, how shall thy visage look
Far hence beside all these? Shall soulful eyes
Thy brow adorn? And blameless hands the Book
Of books hold fast? And high-wrought mind despise
Mere Power and Pelf?—Then in this ample West,
The human family may reach its best.

LIFE'S TEMPTATIONS

Editor Examiner:

Will you please insert this in your valuable paper and oblige.

Dear Lady.—In reply to your letter in the Examiner of Thursday's issue. It was with mixed feeling that I read the same.

There is one thing that I think you overlook when you say "The time has come, etc." and that is the time has always been when we as a people should stop and think of what God has got prepared for us in our future home.

I think we are all aware of the different temptations that face us in the course of our life and also know that we are not all of the strong will to be able to say No at the proper time.

It is with regret that your letter reads with bitterness against dancing for one thing. Why should we as brother or sister try to rob our fellow being of the joys they try to make out of life in that way. For sure, we want to fight the badness that some people try to bring into every walk of life. God does not want us as His children to walk along this life as kill-joys, but mainly to walk in His way with truth, justice, love and purity; to go with that feeling of brotherly love for one another such as our Lord and Master Jesus Christ showed when He walked this sad old earth of ours.

So, Dear Friend, I would say to you, judge not, lest you also be judged. Do not try to point out others' faults, but just do your leevl best to give a helping hand to those who need it, and also a word or truth where it will do good to the individual, for it is by these acts that at last we will be able to bring every one to God's Kingdom.

Thanking you,

I am yours sincerely

GEORGE ERNEST

The Editor of The Examiner.

Dear Sir,—It has been very interesting to observe the valuable work that the Peterborough Amateur Athletic Association has been doing in connection with healthful amusement forour young people. The value of proper direction and oversight of sport has been shown by the large number of groups enjoying hockey, basketball, baseball, etc., by the enthusiasm of the players, and the interest of all friends of sport. Never before have our girls and young women had as large a share of organized sport as this past year. It is an inspiration to watch an outdoor game betwen two groups of girls. The healtful activity of such play, and the group spirit it encourages is as important to girls as to boys. That point has not heretofore been stressed as much as it should have been.

I hope the P.A.A.A. Tag Day will show that the people generally realize that the results we are getting through the effort of the Athletic Association and Mr. Smaill, deserve our support. I will gladly assist in making Tag Day, 8th July, a success.

IF SKIN BREAKS OUT IS FIERY, ITCHY OR ROUGH, USE SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.

OSHKIGMONG

CHEMONG, July 5.—The Rev. Mr. Ireland preached a very impressive sermon here last Sunday from the words, "Wherefore, seeing we also are compassed about with so great a cloud of witnesses, let us lay aside every weight, and the sin which doth so easily beset us, and let us run with patience the race that is set before us," Hebrew, 12:1. During his 12 months as pastor on this reserve Rev. Mr. Ireland gained the affection of the people and was looked upon as a real friend and spiritual adviser. His words and work will be remembered by those who have heard his effective sermons.

Owing to the disagreeable wet weather on the first of July, the programme which was billed did not come off.

Quite a number of the ladies from here spent Dominion Day and Sunday at Rama.

Clifford, the son of Chief D. E. Whetung, had a narrow escape from a serious injury while playing with his brother, Floy, in front of a large stove where some coal-oil had been poured previously. Suddenly the flames rushed out unexpectedly from the stove, enveloping Clifford's face, singing his hair and eyebrows and to some extent burning his face.

In crossing with the ferry onto the reserve Saturday evening, Mr. C. C. Robins of Cleveland, Ohio, met with a misfortune on the reserve shore. Not accustomed to such method of transportation, Mr. Robins drove his motor car into the water, and it was with much difficulty the helping hands extricated the car. It was submerged in the water about four hours.

HER AILMENTS ALL GONE NOW

Mrs. Sherman Helped by Lydia E. Pinkham's Vegetable Compound

Lake, Michigan.—"About one year ago I suffered with irregularities and a weakness and at times was obliged to stay off my feet. I doctored with our family physician and he finally said he could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and I am entirely cured of my ailments. You may publish this letter if you wish."—Mrs. M. SHERMAN, Route 2, Lake, Mich.

There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness. They try this and that doctor, as well as different medicines. Finally they take Lydia E. Pinkham's Compound, and Mrs. Sherman's experience is simply another case showing its merit.

If your family physician fails to help you and the same old troubles persist, why isn't it reasonable to try Lydia E. Pinkham's Compound?

THE FIRE ENGINE FAILED TO RESPOND.

A Number of Residences in Hastings Had Narrow Escape From Fire.

HASTINGS, July 5.—Fire broke out in the stable of V. C. Fisher at 23.0 on Tuesday afternoon.

The fireman were soon at work but the engine failed to respond and the flames spread rapidly.

In a very short time the burning shingles had caught the roof of the brick residences of where E. M. Tate and H. Wilkins resided. At the same time flames were seen on the house owned by Jas. Convey and occupied by T. McGuire and M Simpson.

Fire was also discovered on the roof of A. E. Chapman's building on Front street.

After strenuous work on the part of the volunteer bucket brigade the fires were finally all out about four-thirty.

The engine was finally got in action and the adjoining buildings were given a thorough soaking to be on safe side.

DAIRY COMMITTEES IN EACH COUNTY.

TORONTO, July 5.—(Canadian Press)—At the inital meeting yesterday of the Province-wide dairying concern it was decided to immediately launch a province-wide campaign for the formation of a company which will set up local committees in each county, these committees to approach all cheese and butter manufacturers within their respective areas.

A LINER SINKING IN ST. LAWRENCE.

Concert in Parish Hall.

Apsley has been unfortunate to date with regard to its picnics. The St. George's Church picnic held on Midsummer Day suffered from the inclement weather, while the Methodist picnic on 1st July had to be postponed to Monday owing to the rain, which fell heavily all day.

However, the concert billed for the evening was, through the kindness of Rev. C. Spence, held in the Parish Room, and was a success, the hall being well filled with an appreciative audience. After the programme, the Rev. W. Hall referred to his departure, which takes place shortly, he having been transferred to the Madoc district. Mr. Spence voiced his regret at Mr. Hall's leaving, and trusted that the same pleasant relations that had existed between them would be continued with his successor. As an expression of their sentiments towards Mr. Hall, he called upon the audience to sing "For He's a Jolly Good Fellow," which they did with great enthusiasm.

Mrs. Jones dispensed ice-cream during the evening.

The programme was as follows:

Chorus—"O Canada"—Ambulance Class.
Violin solo—Mr. Chas. Smith.
Chorus—The Choir.
Recitation—Mr. Staples.
Instrumental duet—Mr. and Mrs. W. Carr.
Recitation—Mr. Hall.

ROBBERS ENTER A TORONTO BAKERY.

TORONTO, July 5 (Canadian Press). — The police last night announced that during the week-end robbers climbed through the window at the bakery plant of the Harry Webb Company, Ltd., Davenport Road and Kendall Avenue, and secured $1,264.00 in cash, $950.00 in Victory bonds, and $2,230.00 worth of bread tickets.

The money, bonds, and tickets were taken from the vault in the office, and the police are puzzled to know how the entrance was obtained to the vault, unless the door was left unlocked.

There is no evidence of a forcible

SPECIAL SERMONS TO ORANGEMEN.

Carmel and Fraserville Lodges at Church.

MILLBROOK, July 5.—Rev. S. T. Tucker preached to the Carmel L. O. L. on Sunday afternoon when, accompanied by a number of visiting brethren from Garden Hill and other points, they attended divine worship. Mr. Tucker took his text from Galations, 5:1, "Stand fast, therefore, in the liberty wherewith Christ hath made us free, and be not entangled again with the yoke of bondage," and delivered an inspiring message which could not fail to prove a call to higher Christian service to those who were privileged to listen. Rev. Joseph Wilks took charge of Mr. Tucker's work at Zion in the afternoon to leave him free for the special service at Carmel.

The Frazerville L.O.L. also attended church in a body on Sunday evening, when Rev. R. M. Paterson preached a sermon specially to their organization. In both cases the churches were filled to capacity. Messrs. J. L. Byam, N. Stewart and C. Lunn motored over from Millbrook and joined the lodge for the service.

FOUND GUILTY OF THREATENING WIFE.

LINDSAY, July 5—Charged with threatening his wife in certain specified terms, a South Ward man appeared in Police Court for an adjourned hearing before Magistrate Bradford. Crown Attorney Anderson represented the complainant and Mr. C. Frost the defendant. Evidence of a rather unsavory nature was given, when the husband attempted to deny the charge. Magistrate Bradford found the accused guilty of the charge. In order to give the parties an opportunity to come to a settlement among themselves the court adjourned until nine o'clock tomorrow.

TWO TORONTO GIRLS INJURED IN ACCIDENT

NEW WESTMINSTER, B. C., July 5.—(Canadian Press.) — Miss Ethel Campbell and Miss E. Burton, of Toronto, were seriously injured when an automobile in which they were being driven by Miss Alice MacDougall, was run into by another car near here. Both Miss Campbell and Miss Burton are graduates of Toronto General Hospital. They are members of an automobile party which left Toronto May 24, on an automobile trip across the continent, reaching here last week. Other members of the party are Miss Mabel Pugh and Miss Doris Hooper.

GERMANY RATIFIES TREATY OF RAPALLO

BERLIN, July 5. — (Canadian Press.) — The Treaty of Rapallo, signed between Germany and Russia during the Genoa Conference, was ratified by the Reichstag yesterday. There was no debate over the question of ratification, with the exception of remarks by a Communist Deputy, who demanded that the treaty be amplified to include the other Soviet republics.

The Unspoiled Wilderness

The lover of Nature has to search farther and farther for the unspoiled wilderness as the years go by. Every year miles and miles of the "forest primeval" are being sacrificed to the onward march of civilization. Soon the majority of the great Northland's forest playgrounds will be things of the past, and the sports man and the wilderness lover will have to go farther afield to find the unbroken haunts of their finned, feathered, and furred friends. Resting in the midst of the green wilderness of the Timagami Forest Reserve (300 miles north of Toronto) like some gigantic octopus with its innumerable legs and arms and feelers, lies Lake Timagami.

There you must go, if you really wish to enjoy Nature. Imagine this lake with its 1,600 islands. The fishing is excellent. Lake trout tipping the scale up to 35 pounds, small mouthed black bass, speckled trout and wall-eyed pike abound. Altitude of the district 1,000 feet above the sea level. Illustrated publication with good map, list of hotels and camps and all particulars has been issued by the Grand Trunk Railway and can be had free on application to any Grand Trunk Ticket Agent or C. C.P.R. TO BUILD NEW PIER AT VANCOUVER

Foundations Are in Place and Tenders Are Asked For Work on Superstructure.

VANCOUVER, July 5.— (Canadian Press)—The Canadian Pacific Railway Company is calling for tenders for the superstructure of the new pier which the company is constructing here for the accommodation of its ocean liners. The foundation fill for the pier is already in place. The new work will give employment to several hundred men for approximately twelve months. This is the largest work undertaken in several years in Vancouver by the Canadian Pacific Railway. The pier will be 850 feet long and 330 feet wide and its estimated cost is about $2,000,000. It is proposed to have it competed by September 30, 1923. Tenders are to be in by July seventeenth.

BANDITS GOT AWAY WITH A HUGE HAUL

Held Up Bank Messenger For Currency and Cheques.

ST. LOUIS, July 5.— (Canadian Press.)— Bandits to-day boarded a street car, disarmed a policeman accompanying Joseph Mosson, messenger for the Tower Grover Bank, and escaped with a satchel containing $21,200 in currency and $780,000 in cheques.

THE MARKETS

NEW YORK, July 5.—(Canadian Press.)—Heaviness of Mexican Petroleum which soon declined 3 1-2 points was the only exception to higher trend of prices at opening of to-day's stock market. Developments over the holiday evidently were favorably construed, Studebaker, Cocoa Colo and Dupont were among the stronger features at average gains of one point with Baltimore and Ohio, General Asphalt, Pullman, Virginia, Carolina, Chemical and several of secondary Rails. Early exchange rates were irregular.

High records were established during a dull morning by a few selected issues. These included Cocoa Cola, Mallinson and Dupont, the latter extending its gain to six points. Crucible led Independent Steels, gaining 2 5-8 and Motors were featured by Studebaker and Macktrucks at 2 point gains. Rails were not influenced by strike conditions. Market wavered before noon, however, on renewed selling of Pan-American Petroleums at an extreme decline of three to four points. Call money opened at 4 3-4 p.c.

Lack of support and weak speculative following in Mexican Oil shares enabled the bears to offer these issues down steadily when rumors circulated that salt water had invaded Toteco Cerro Azul pool. Mexican Petroleum slumped 2 .-4 points to 146 1-4 and Pan-American, A and B shares, lost 6 1-4 points each. The resisting power of the general list was undermined by pressure against high priced Oils.

STERLING EXCHANGE.

NEW YORK, July 5.—(Canadian Press.)—Sterling exchange irregular. Demand rates Great Britain 4.43 15/16. Canadian Dollars 1 1/16 p.c. discount.

CHICAGO GRAIN.

CHICAGO, July 5. — (Canadian Press.) — Opening wheat prices, which varied from unchanged figures to 7-8c. higher, with September 1.17 to 1.17 1-8 and Dec. 1.20 to 1.20 1-4, was featured by a set back all around to well below Monday's finish. Corn and Oats were firmer, chiefly as a result of elevator interests being active buyers of Corn. After opening unchanged to 3-8 higher, Sept. 66 7-8 to 67, the Corn market continued to point upward. Oats started at 1-8 off to 1-4 gain, Sept. 38 7-8 and later showed a slight general advance.

MONTREAL STOCK MARKET.

MONTREAL, July 5.—(Canadian Press.)—Abitibi and Toronto Railway featured trading on the local stock exchange this morning. The former continued to register much strength and a great number of shares were sold at 55 to 54 3-4, new recent high. It closed at 54 1-8. Toronto Railway was also active. This stock sold at 79 3-4, a quarter point above its close yesterday. Atlantic Sugar sold up half a point at 24. Brazilian registered a quarter point advance at 46 1-4, as did also Spanish River Preferred at 93 1-2.

TORONTO CATTLE MARKET.

TORONTO, July 5.— (Canadian Press.)—Cattle market receipts 632, trade good. Heavy beef steers 8.25 to 8.75; butcher steers, choice, 8 to 8.50; butcher cows, medium 3.50 to 5; calves 9 to 10; lambs 14.25; hogs, selects 14.65.

How to Make the Most Delicious Raspberry Jam You Ever Tasted

New Certo process astonishes housewives

Never fails—only one minute's boiling—retains the delightful, natural flavor of the raspberries—so easy to make—and your jam costs less—keeping quality excellent

Raspberries are now plentiful at very moderate prices. Sugar is cheap and housewives are putting down more raspberry jam than ever because they have discovered that by the use of Certo they can make the most delicious jam with so little work and at less cost than the old way.

Just take 4 level cups or 2 lbs. crushed raspberries, add 7½ cups or 3¼ lbs. of sugar. Stir and bring to a vigorous boil over a hot fire. Boil hard one full minute, continually stirring. Take from fire and add while stirring, one-half bottle (scant half cup) of Certo. Allow jam to stand a few minutes to cool and then stir again and pour into glasses. This recipe will make, from two lbs. of raspberries, about fourteen 6-ounce glasses of delicious raspberry jam for less than six cents a glass.

Certo is just concentrated fruit pectin. Contains no gelatine or preservatives. It is Mother Nature's "jell-maker." Try it right away with fresh fruit like cherries, currants or raspberries, then you will do all your preserving the new and modern way—the easy, economical and better Certo way.

If your grocer does not have Certo we will mail you a bottle, to save delay, postage paid, for 40c in stamps. Send us his name and we will send you a recipe book of fifty-three recipes for making jams and jellies.

TRUE DETECTIVE STORIES

THE PERFECT COUNTERFEIT

(Copyright 1921, By The Wheeler Syndicate, Inc.)

The discovery of a new counterfeit does not, of itself, cause much excitement in the ranks of the United States Secret Service. Hardly a month passes that someone does not try to pass an imitation banknote, and the majority of these are so crudely executed as to be spotted instantly.

But when a counterfeit appears, as it once did, which is so well engraved and perfectly printed as practically to defy detection that constitutes a case of sufficient importance to turn every man in the Service loose on it.

The "Monroe-head counterfeits," as they are known to the Treasury Department, by reason of the fact that these $100 bills bore a portrait of President Monroe, were so skilfully made that it is doubtful if anything but an accident could have caused their detection. The paper was perfect—every tiny silk fibre in place and the weight of each bill correct to the fraction of a grain. In the engraving itself there was not a single point of difference between the counterfeit bills and the genuine ones. Each scroll, each microscopic wave was exact and the printing—the "finish" of the notes—matched the engraving and the paper. In fact, had the paying teller of a certain band in Philadelphia failed to note the smear which resulted when his wet thumb touched the red seal on one of the Monroe-head bills, it is doubtful if the counterfeits would have been detected for several months, if at all.

Even when the attention of the Treasury Department was called to the matter, there were numbers of experts who claimed that the notes were genuine, and it was only when W. H. Moran, now chief of the Secret Service, placed one of the bills in water and it split two lengthwise, that the deception was definitely proven.

The first act of the Department was to call in the entire Monroe-head issue, more than $25,000,000 in all, and to notify banks throughout the country to watch the bills very carefully and investigate anyone who appeared to possess many of them. At the same time the best men in the service, including William J. Burns, were turned loose on the case, with instructions to go the limit and spare neither time nor money in running the gang to earth.

It was evident, working backward from the first appearance of the notes that the men had been working on the plates during the winter proceeding the discovery of the counterfeit. It was also evident from the extremely workmanlike way in which the bills had been printed and the plates engraved, that several men had been engaged in the enterprise —men who were familiar with every trick of printing and engraving arts, but who, presumably at least, had not tried their hand at counterfeiting before.

"They weren't turned out by anyone we've ever landed," Burns declared.

"The work of an engraver is almost as distinctive as that of an artist and there's no one that we know of in the country who's capable of faking bills as cleverly as these have been faked. No, the men are experts—but they are new to the game. Probably figured on making some easy money by making it themselves."

Inasmuch as the bills had first been located in Philadelphia, that city was selected as the logical starting point for the inquiry for the Secret Service operatives. After several weeks of careful observation there, it was found that there were two men who, though they might be entirely innocent of the crime bore all the earmarks of successful counterfeiters. The pair, Trumball and Bradley by name, had served their apprenticeship as engravers and printers in one of the foremost commercial houses in the city. Some months before the appearance of the spurious bills, they had set up in business for themselves, and although they had secured but little trade, they appeared to be well supplied with money and the luxuries of life.

Constant shadowing of the two men brought to light the fact that they were connected in some way with a cigar manufacturer in Lancaster, Pa. More out of curiosity than anything else, Burns invested in a box of cigars from the Lancaster factory—only to find that the revenue stamp upon the box was also a counterfeit!

This supplied the reason for the frequent visits of Trumbull and Bradley to Lancaster. The withdrawal of the Monroe-head issues of bills had wrecked their plans and they were forced to look elsewhere for ready money. Lacking the time in which to attempt the counterfeiting of currency, they had sought to fill in the interval by making spurious revenue stamps—an occupation in which they were allowed to continue undisturbed by the Secret Service because Burns considered it inadvisable to close in until not only the men but the plates were within the Government's grasp.

For more than a year, matters were allowed to drift along in this fashion, but neither Trumbull nor Bradley ever moved without being overshadowed by a Secret Service operative. Then the trap was sprung. By the clever expedient of luring their office boy into a wax impression of his keys while his clothes were in his locker, Burns got hold of the pass-key to the heavy door which guarded the entrance to the Trumbull-Bradley plant. There, as he had hoped, he picked up the missing links to the entire case, including completed plates for a new series of counterfeit which the men intended to spring shortly. When the men arrived at their office on the following morning they were immediately arrested.

QUEBEC, July 5. — (Canadian Press.) — Gustave Dube, who is charged with the murder of his wife at St. Adalbert, Lislet county, will appear before Judge Godbout at Montmagny for Enquete.

VOICE OF THE PEOPLE

Peterborough, July 4, 1922.

The Editor of the Examiner.

Dear Sir,—Allow me to commend to the citizens of Peterborough the tag day that is to be held on behalf of the P.A.A.A. Since the P.A.A.A. came into existence, Peterborough's sports have been run in a business-like and organized manner. A great many lines of sport that were not prevalent in Peterborough have been taken up, and those that were in being have had the advice and counsel of the P.A.A.A.

The school children have also benefited greatly by its existence by having the assistance in all sport matters of its sports director, Mr. Walter Smaill, who is always willing and desirous of helping all classes of citizens in matters appertaining to sport, whether they are members of the P.A.A.A. or not.

As I feel that the recreation of the citizens should be in the hands of an advisory body, such as the P.A.A.A., I think that its future existence should be secured by generous subscriptions to its tag day on July 8th.—Yours truly,

J. W. WORTH.

TWO DRUNKS EACH PAY A FINE OF $10.

Two drunks, who happened to be brothers, were fined $10 in Police Court this morning, and one of the pair had to pay another ten spot for reckless driving. The offences were all pleaded guilty to. The Crown declared that driving through a fence on Lansdowne Street at 7 p.m. last night constituted reckless driving, and accused admitted it. G. N. Gordon, K.C., M.P., appeared on their behalf.

Greater Value at Lower Cost

The Essex has always been an outstanding value by every standard of price and quality comparison.

Especially interesting now is a price to price measurement of the Essex against cars you have regarded as comparable to it in quality.

Will you find today any car that even approaches Essex in quality and ability, within hundreds of dollars of its cost?

And doesn't its low cost with such quality appeal to judicious buyers, whether they are considering a car slightly less in cost, or have been seeking Essex quality in some much costlier car?

TORONTO LOST BOTH ENDS OF DOUBLE WITH SYRACUSE

New York and Brooklyn Battle Fourteen Innings to a 5 to 5 Tie—Hornsby Gets a Home Run.

INTERNATIONAL.

Syracuse 4—Toronto 3.

SYRACUSE, N.Y., July 5 (Canadian Press). — Syracuse took two games from Toronto yesterday, in each case winning by one run. The morning score was 1 to 0 and the afternoon 4 to 3. The winning tally in the afternoon resulted from Bottomley's single and Niebergall's double in the eighth, off Enzmann. Wingo, of the Leafs, hit his seventeenth home run of the year in the first inning, with one man on base. Scores:

Afternoon Game.

Philadelphia 5—Boston 2.

BOSTON, July 5 (Canadian Press). — Because of rain and wet grounds, Philadelphia and Boston played only one game yesterday instead of the scheduled doubleheader, Philadelphia winning 5 to 3. The visitors played under protest after Umpire McCormick had refused to permit Fletcher to play. Fletcher claimed that President Heydler had lifted his suspension, but the umpire said he had received no notice of this. After Boston had scored three runs in the ninth and had the bases full, Rapp ended the rally by his barehand stop of Cruise's bounder over third and a quick throw to Leslie. Score:

Brooklyn 5—New York 5.

NEW YORK, July 5 (Canadian Press). — In one of the most spectacular games ever played at the Polo Grounds, the New York Giants and the Brooklyn Dodgers battled to a 5-5 tie yesterday afternoon. Wet grounds caused a postponement of the morning game.

Rawlings tied the score for the Giants with a homer in the third, with two one, and the New Yorkers went into the lead in the seventh. Johnston brought in the trying run for Brooklyn in the ninth, with a triple, but was caught at the plate tryingto stretch the hit. Each team scored a run in the tenth, and rain ended the game after the fourteenth inning. Score.

GETTING READY FOR DEMPSEY

(By Billy Evans)

Harry Greb, the Pittsburgh "Giant Killer" doesn't bar any fighter in the business.

After his bout with Tommy Gibbons last winter I asked Greb what he thought about a match with Champion Jack Dempsey.

"I know it is going to make some people laugh" he replied "but I am positive I can defeat Dempsey in a 12 or 15-round decision bout.

"Of course I wouldn't expect to knock Dempsey out. My biggest thought would be to keep from getting knocked out.

"That is all I would have to do in order to win a decision bout with Dempsey, who is no harder to hit than Gibbons, and who, I feel sure, would have much trouble reaching me as Gibbons did.

"I haven't the slightest fear of Dempsey, regardless of the fact that all the experts say he is much too big for me.

When a fighter enters the ring there is always the danger that he may be knocked out. That is the only thing I would have to guard againts.

Dempsey is strong and can hit. If he reached me on the button it would be curtains. However, I feel that in a limited bout I would be able to stay away from him. In the meantimeI would be doing so much execution that the judges would have to award me the decision."

That is the way Greb sized up Dempsey for me after the Gibons fight.

Gibbons practically had been matched to meet Dempsey. The bout with Greb was not treated seriously. Gibbon's defeat at Greb's hands cost him a fortune.

Greb failed to receive the credit due him for his win over Gibbons. In many quarters it was regarded in the nature of a fluke—an off night for Gibbons.

Then Greb was matched with Gene Tunney, holder of the light heavyweight title of America. Tunney had seen Greb fight. He figured he knew the system that would beat him. Greb deefated Tunney even more decisively than he he outpointed Gibbons.

Now they are talking of a bout with Georges Carpentier, who holds the world's light heavy title. Such a match would attract widespread attention and prove a popular dish for fight fans.

I recently had a talk with Greb after he had beaten Tunney. Once again I put to him the question of a match with Dempsey. His reply was the same as when I queried him last winter.

"I feel positive I can win a decision over Dempsey in a 12 or 15-round bout."

Greb is willing also—yes, even anxious to take on George Carpentier before a Dempsey match.

"A meeting with Carpentier would please me immensely," said Greb. "It would determine whether the Frenchman or myself is entitled to fight Dempsey.

"I am positive if I meet Carpentier there will be no further demand for a battle in England or France with Dempsey.

"Size isn't everything in the fight game. I believe I have convinced the public that a good little man is much better than a fair big one.

"I have polished off Tommy Gibbons, Charley Weinert, Gene Tunney, Captain Roper and a number of other husky heavyweights without any trouble."

THREE BALTIMORE MEN TO BE SOLD

Ultimatum Issued at a Secret Meeting of Club-Owners Has Effect.

BALTIMORE. Md., July 5. Canadian Press. — Jack Dunn, President of the Baltimore International League Baseball Club, said last night that he would sell three of his regulars to the majors during the fall or winter, and admitted that an ultimatum had been presented to him at a meeting of the owners held in New York, June 28, which demanded he dispose of some of his stars or face the return of the draft.

"Matters came to a point on June 28th, in New York," said Dunn, "when a secret meeting was held and the representatives of Rochester, and Reading claimed that the Orioles were too strong for any other club and that they would fight for the return of the draft if I did not dispose of a set number of my players."

Dunn would not say what players would be sold.

Lessons in Golf

As the arms are drawn up in the swing and as the body pivots, the left shoulder drops a little. Don't exaggerate this drop—just let the left shoulder fall naturally, unconsciously. Then, on the down-swing the right shoulder drops a little after the clubhead has followed the ball through. Be careful, however to see to it that the drop of the right shoulder does not take place until after the ball has been hit. If it hapens to soon your club will hit the ground back of the ball and rob your drive of all its power.

The Countess Haig, London, knows how to hit 'em all right, this picture of her would indicate. The action here pictured shows that the Countess' drive has been rhythmic and well timed. This is fine golf form—a picture well worth studying.

CARE IN SELECTING GOOD GOLF CLUBS

Steel - Shafted Clubs Are Now Coming Into Popularity—A Great Saving.

As steel shafted clubs and their advantages become more and more appreciated there is a certain to be less experimenting. Discarding this or that club because of ills, real or imaginary, will be practically unheard of. If for no other reason, the saving certain to result over a period of years, should appeal to the average player though it has been a fact that a golfer will part with his money with less grumbling when it comes to the purchase of clubs, than in any other department of the game.

For many years, in fact ever since the ancient sport attained a foothold in his country it has been customary for a player to buy a club with little or no idea as to whether or not it would remain long in use. If it fails to come up to the expectations, immediately he discards it without further ado in favor of a new purchase.

Furthermore, when a favorite implement is broken it rarely matters how exact the duplicate may be the new member of the kit never performs its work quite so satisfactorily as the old one, though possibly if given sufficient time, it might become an equally willing servant.

The golfer when selecting a club should be careful to get one that suits his style, for he, best of all persons, is the one to know what amount of "feel" he requires in the shaft. If his swing be of the slow deliberate kind, then a stiff shaft will obviously not get the best results. It is not sheer weight that produces the long ball, rather accurate timing, and to bring that about the player should use a club that he can swing without effort.

MURPHY WINS AGAIN.

BOWLING ANCIENT HONORABLE GAME

Was Known and Played in Scotland Many Years Ago — Very Popular in Canada.

TORONTO, July 5—(Canadian Press)—Many Canadian cities are now in the throes of the great summer epidemic, lawn bowling, and there is scarcely a city, town or village through the eastern Provinces that does not boast is bowling club and greens. The popularity of the game increases year by year and as result the competition at the various tournaments becomes keener. This year the big tournaments conducted by the Ontario Bowling Association at Niagara-on-the-lake opened July 3, while the Dominion Lawn Bowling tournament, which takes place on the rinks of the various clubs throughout Toronto during the week of August 12, and it is expected that these will be "bigger and better" than ever.

It would be difficult for one unacquainted with the history of bowling to believe that such a pleasant pastime could ever have come under the authorities to such an extent that a ban would be placed upon it. Such was the case however in the early days, as during the reigns of Edward III, Richard II and other monarchs, statutes forbidding it and other sports were passed, on the ground that it was feared that the popularity of bowling was interfeering too much with the practice of archery, which was then so important in battle. By act passed in England in 1541, and which was not repealed until 1845—artificers, labourers, apprentices, servants and the like were forbidden to play at bowls any time save Christmas, and then only in the presence of their masters. It was further enjoined that anyone playing bowls outside of his own garden or orchard was liable to a penalty of 6s. 8d.

It was well on in the 19th century that bowling acquired popularity in Scotland. It had been known there since the close of the 16th century when the Glasgow kirk session fulminated an edict against Sunday bowls in 1595, but greens in those days were few and far between. The early clubs did nothing towards organizing th game and it was not until 1848 and 1849 that meetings of the various clubs in Scotland were held in Glasgow to promote a national association. To the secretary of the Association, W. W. Mitchell, fell the duty of preparing a code and this was adopted immediately in Scotland as the standard laws of the game. In the meantime bowling in England had falle ninto disrepute through excessive gambling but the action of the Scottish bowlers had a good effect and saved the game.

The appearance of women on the bowling green is not to be regarded as innovation of recent days, nor an invasion of man's sporting domain. They took part in bowling on the green as far back as 16th century.

OWLS WINNERS IN SEMI-FINALS

Defeat the Comrades in Phelan Charity Cup Game at King Edward Park.

Owls and Comrades had a hard tussel in the semi-finals tie for the Phelan Charity Cup at King Edward Park last evening. The Owls were the victors, 2 to 0 and will meet the Quaker Oats footballers at Nicholls Oval on Saurday afternoon for the finals.

Comrades kicked off and were the first to attack. Jones clearing a good shot from Brown. The Owls then made the pressure for a period and forced three corners in rapid succession without any tangible results. A nice shot from Burrows was well saved by Fenner at the expense of another fruitless corner. The Owls were now doing most of the attacking and Fenner made one very close save, just getting the ball with his fingers to tip it over.

Jones also saved a good shot with a spectacular play, by diving across his goal to stop a low grounder. The game continued even until half time without score by either side.

At the start of the second half fast play by the Comrades then a corner but again it was cleared. The Owls made their first score when a long shot from "Wag" Hostone slipped through Fenner's hands, just under the cross bar. Burgess was responsible for their second goal. He carried the ball the full length of the field and cut into goal. Fenner saved his shot but Hutton caught the rebound and scored. The game ran on in a give and take fashion for the remaider of the game without further score.

The players were: Owls—Jones, Frost, Ralston, Burrows, Hostone, Edwards, Burgess, Hutton, Turner, Hardie and Ted Hotstone.

Comrades—Fenner, Anderson, Hill Jackson, Hoggarth, Sayers, Hansen, Brow, Shaw, McDougall and Mallinson.

LEONARD KNOCKS OUT CHALLENGER.

Seconds For Rocky Kansas Threw Up the Sponge in the Eighth Round.

MICHIGAN CITY, Ind, July 5.—(Canadian Press)—Benny Leonard, world's lightweight champion, knocked out Rocky Kansas of Buffalo, N.Y., in the eigth round of a scheduled ten-round contest before a crowd of between 20,000 and 25,000 persons in Floyd Fitzsimmons open air arena here yesterday afternoon. The challenger, bleeding and groggy, was reeling helplessly around the ring when his manager, Dan Rogers, threw in the towel.

Kansas was no match for the champion. Leonard was his master from the start and probably could have won earlier, but Kansas refused to open up and always was on the retreat. Kansas did not land more than hal fa dozen solid punches during the eight rounds, while Leonard had trouble in reaching his foe with solid smashes to the chin and body.

This was their third meeting since Leonard became lightweight champion. In their previous contests Leonard won the decision. The match attracted a big crowd which included several thousand women

LEONARD WON THE LIGHTWEIGHT TITLE.

MICHIGAN CITY, Ind., July 5.—(Canadian Press).—Benny Leonard yesterday evening knocked out Rocky Kansas, challenger for the light weight title, in the eighth round of their fight before more than twenty thousand spectators. Kansas was reeling around the ring when his manager tossed his towel through the ropes.

A BIG GOOSE EGG FOR HOLY NAMES

Lakeviews Applied the Whitewash Brush at Riverside Park Last Evening.

The Lakeviews splashed the whitewash all over the Holy Name team in the City League fixture at Riverside Park last evening, taking the game by a score of 8 to 0. Gilchrist did the twirling for the winners and the absolutely air tight support from all the men behind him was the biggest factor in keeping the losers scoreless, while heavy and concentrated hitting piled up the runs for the Lakeviews. The Holy Name boys were held to two hits by good pitching and sensational fielding, which on several occasions resulted in the man going out on a wallop that looked as if it should have been a safe hit.

The Lakeviews got on to McPherson's curves early in the game, and in the first inning three hits, two of which went for two bases each, sent two runs across the plate. They failed to score again until the fourth frame, when two errors and four hits, one good for two bases, followed one another in rapid succession and sent five more runs in. One more tally was registered in the sixth.

The Holy Names assumed a dangerous attitude in the third inning when they got a man to third and one to second with none out. A snappy double play, however, in which Gilchrist, LeBarr and Huff figured, retired the batter and the man on third and the next man up went out at first, retiring the side without a score.

McPherson, who pitched for the H. N.S., and Gilchrist for the Lakeviews, each fanned eight men and walked two, but Gilchrist showed up better in the pinches, and McPherson was hit freely at times.

WE WANT BALBA SALES MACHINES IN EVERY CITY TOWN AND RECREATION RESORT.

We have thoroughly proved that Balba Bouquet Perfume is a good seller, it repeats, it makes new users. Balba Sales Machines in good locations show an increasing business, proving that the self-serve plan applied to perfume is a safe, sane logical selling method. We are offering a tested, proven, big profit, permanent business to a live person (man or woman) in each territory. Instead of territory rights we sell an allotment of Balba machines in proportion to population. We give the purchaser exclusive rights to sell Balba perfume in that territory. No perfume but Balba is sold like this. Balba is being advertised Nationally.

FREE NEWSPAPER ADVERTISING in Your Territory.

When you have bought and placed a full allotment of Balba Sales Machines, we will run advertising in your local newspaper, giving locations of all Balba Sales Machines. This starts people buying from your machines, and the high quality of Balba keeps them buying. We tell you how to place machines and handle them. We are rapidly getting general distribution and are placing advertising in the National Weeklies and Women's Magazines to make perfume users throughout Canada want to buy Balba.

Read What Balba Sales Machine Owners Say

Leamington, Ont., June 14th, 1922.

Balba Company of Canada, Leamington, Ont.

Dear Sirs,—Please note that on checking over my records today I find that the original machine placed by me in front of my Barber Shop just three months ago has received a total of 267 plays in that time. This means that I have received more than double the original cost of the filled machine in the three months' period. At the present time this machine is still receiving on the average of three plays a day, and this in spite of the fact that I have now in the neighborhood of thirty machines placed in this little town.

I feel that I have been very lucky in securing a territory for Balba Sales Machines and Perfume, and as you know I am putting out the machines as fast as possible. I have two men out in the County now placing machines, and I intend to fill my territory as soon as possible, knowing that I am losing money every minute of the time that there remains one location without a machine.

Hoping the above information pleases you as well as it does myself, I am,

Yours very truly,

R. M. FLETCHER.

JACK PRIMEAU EXTENDS AGAIN

Progressive Sale a Preparation For New Department Open in August.

Plans and preparations for the opening of a new department in August are responsible for the Progressive Sale which began to-day at Jack Primeau's Fashion Craft shop on Hunter street. The details will be announced when the fixtures are installed and the department completed for business, but in the mean time room must be made for this extension. With that object in view Mr. Primeau is offering the men of this city and district an unusual opportunity of buying at specially favorable prices from the local House of Fashion Craft—the hall mark the beginning of a new stage and haberdashery. This sale will continue for fifteen days and will mark the beginniog of a new stage in the progress of one of Peterboro's enterprising young business men. The space requirements which Mr. Primeau's plans call for in laying out a new and compact department necessarily entail certain interior re-arrangements of stock and additional fittings that demanded a sacrifice in order that the change may be proceeded with and put into effect without delay. Today's activities showed that many men were quick to avail themselves of the attractive buying advantage of this Progressive Sale.

BASEBALL FOR HALF HOLIDAY

Double Header in Juvenile Series at Riverside Tomorrow Afternoon.

A snappy baseball bill has been arranged for the half-holiday crowd to-morrow afternoon at Riverside Park, when two games in the juvenile series will be played. Holy Name Society meet Sacred Heart at 2.15 o'clock, and Lakeviews and Maple Leafs take the second contest. Here is an opportunity for the baseball fraternity to see the youngsters perform. All four teams have strong batteries. Good pitching and fielding is the general rule in this series, one of the recently played games being put over in sixty minutes, with but five runs being scored. There will be no admission fee at the gate.

"U.F.O." in Evening.

In the evening at six o'clock, Lakefield and Otonabee will play in the East Peterborough league. The game has an important bearing on the standing for the first half. A Lakefield victory will tie the northerners with Keene, and make a play-off necessary.

WORLD OIL SUPPLY TO EXCEED DEMAND?

Advance in Crude Oil Prices Is Predicted.

The world demand for oil is rapidly outstripping the supply, and the most recent statistics indicate that a considerable shortage is near. This is reflected in the recent heavy gains made by oil stocks on practically all the important exchanges.

Recent reports show that of the Mexican fields there are only a few where peak production has not been reached and still more recent figures indicate that Mexican production is on the decline in certain localities. It is thought among conservative oil men that Mexican production may drop considerably within a comparatively short time, and if this is true the situation will develop so that American and Canadian stocks will be drawn on heavily. Upon these facts are based the prediction now being made in conservative circles that the price of crude oil will move upward.

This would have an important effect on producers of oil in Canada, where the Government bounty paid to encourage production practically pays the cost of maintenance of the wells, and would swell the profits of oil companies in the Dominion, as the production of pertoleum is still in its infancy as compared with the country's great oil resources.

C.P.C. JUNIORS FOR THURSDAY'S GAME

The team to represent the C.P.C. Juniors in their game with Comrades Juniors will be selected from the following players—W. Davidson, C. MacDonald, H. Bradley, M. Shadgett, F. Storey, H. Taylor, Art Birdgenaw, Al. Birdegnaw, Tom Ball F. Ball, J. Edwards, J. Downer, J. Lynch, H. Wilgar and A. Anderson. The game will be played at the Exhibition Park Thursday evening July 6. Kickoff at 6.30.—Referee A. McKinley.

SEARCHES FOR SIXTH VITAMIN

Discoverer of Mysterious Element Necessary to Life Predicts More Will be Found.

FIVE NOW LISTED

NEW YORK, July 5.—Dr. Casimir Funk, who ten years ago discovered the mysterious unidentified chemical factors necessary to life for which he invented the name of vitamins, explained recently his discovery of Vitamin D. Dr. Funk is the head of the laboratories of ex-Controller Herman A. Metz, and a collaborator in the biochemical laboratory at Columbia University.

The new vitamin is one without which micro-organisms of yeast cannot grow. The absence of Vitamin D would be fatal to life, because life depends on the yeast, as the yeast in turn depends on the vitamin.

In addition to the new Vitamin D, and the fifth vitamin reported in cod liver oil after researches at Johns Hopkins, several other vitamins are likely to be discovered, according to Dr. Funk. Vitamin research, according to him, has barely started. Dr. Funk is working now on evidence that pellagra, a widespread disease in the South in this country and in many foreign countries, is due to the deficiency of a sixth vitamin—that is, due to a diet which furnishes the undiscovered vitamin in quantites less than that necessary to maintain normal life.

Vitamin D apparently is always found naturally in association with Vitamin B. Vitamin B is the one which prevents beri-beri.

Process of Separation.

The existence of the substance now called Vitamin D has been suspected for a long time, but only recently was it isolated by Dr. Funk by its separation from Vitamin B. The process of separation is a curious one. One method is simply to start yeast growing in a solution containing the combined vitamins The yeast absorbs the D vitamins. When it has absorbed them all, the growth of the yeast stops. The yeast is then filtered out.

The proof that two distinct vitamins have been separated is found by tests on rats and pigeons. The yeast alone is added to a diet otherwise deficient in Vitamin B. The pigeon loses weight and shows incipient beri-beri. The fluid left behind after the yeast has been filtered out is then added to a diet deficient in Vitamin B. Again the pigeon loses weight. When, however, the yeast is combined with the fluid from which it is filtered and added to the same diet, the pigeon continues to thrive. Vitamins B and D also are separated by Fuller's earth, which absorbs one faster than the other.

Pasteur suspected the existence of the substance now called Vitamin D, according to Dr. Funk, because of the unaccountable variations which the great French scientist found in the growths of yeast.

Studied by Belgians.

"The idea was the subject of research in 1910 by Belgian chemists," said Dr. Funk, "but the results were not recognized at the time. It has been revived in the United States by Dr. R. J. Williams, who, when he was with the University of Chicago, described a method for testing the growth of yeast under the influence of vitamins which he considered identical with the anti-beriberi vitamin.

"While the results were entirely correct, there has been a change in the interpretation since that time. The growth of yeast does not depend upon the presence of Vitamin B, but upon the presence of the new vitamin which I called Vitamin D, and which always accompanied the old B vitamin."

Regarding the studies at Columbia University which indicated that plenty of sunlight seemed to make up for the deficiency of one vitamin, Dr. Funk said there was no probability that the sunlight created vitamins, but that it enabled the rickety child to "utilize more efficiently" such vitamine as were in the bloodstream. The vitamin in this case is the long-suspected one whose discovery has just been reported at Johns Hopkins. It is the anti-rickets vitamin in cod liver oil.

The result of this work is expected to be to make rickets a thing of the past. The vitamins have been concentrated to 200 times the strength in which they were found in cod liver oil. This has so far only been done in the laboratory, but eventually vitamin pills will be administered for the cure of rickets, which is very widespread disease among children, especially in large cities.

The powerful effect of vitamin administration in diseases caused by their lack is demonstrated by the fact that a strong dosage of Vitamins B and D has cured a pidgeon of beriberi in forty-eight hours. In his work on the separation of Vitamin D, Dr. Funk was assisted by Dr. Harry E. Dubin, Louis Freedman and Miss Olive Sheets.

The List of Vitamins.

The enlarged list of vitamins as it exists today is as follows:

Vitamin A—The anti-ophthalmic vitamin. It is associated with fats and has the chemical characteristics of a fat. Its absence causes an eye disease. On a diet lacking in this vitamin rats and pigeons contract the eye disease and eventually die.

Vitamin B—This behaves chemically like an organic nitrogenous substance, and in conjunction with Vitamin D prevents beri-beri.

Vitamin C—This is the vitamin against scurvy. It probably is also nitrogenous in nature, is soluble in water and associated with fats.

Vitamin D—The newly discovered substance which promotes the growth of yeast and is believed to be a nitrogenous substance simpler than Vitamin B in composition.

Vitamin E—The anti-scorbutic vitamin reported at Johns Hopkins.

Reports of vitamins in fresh meat have been made, according to Dr. Funk, but this supposition may be due to the fact that the deficiency of certain vitamins is less injuries, for some unknown reason, in the case of diets rich in meat.

Dr. Funk began at the Lister Institute in London in 1911 the researches which led to the discovery of vitamins. It was then known that a diet of polished rice produced beriberi, and a diet of unpolished rice did not. The theory was suggested that an acid essential to proteins was missing from the polished rice, but might be found in the polishings. Dr. Funk found this theory to be wrong and made the discovery of vitamins, predicting that further study would show the existence of a series of such substances, the absence of which produced the so-called "deficiency diseases."

WALES HAS DOUBLE IN LOS ANGELES

George Hackathorne, Film Player Mistaken For Royalty

When the Prince of Wales left the shores of California for Honolulu during his recent American visit, he carried with him the remembrance of a double he left behind him in the person of George Hackathorne of Los Angeles, who is playing the leading juvenile role in T. Hayes Hunter's production of Irving Bacheller's novel, "The Light in the Clearing", which theatre opens a Thursday engagement at the Capitol.

Hackathorne and a party of friends motored to San Diego for a week-end trip. As they entered the tea room of the famous U. S. Grant Hotel, Hackathorne was accorded courtesies beyond those for the ordinary civilian, and wondered at the curious attention directed his way.

When the Prince of Wales entered, the matter explained itself, the resemblance being so striking that royalty and Hackathorne exchanged smiles and handshakes. They are the exact height, coloring and bearing, with the facial contour very similar —and incidentally of the same age.

DOROTHY DALTON CLEVER ACTRESS

A Paramount picture featuring Dorothy Dalton will be shown at the Capitol Theatre for the last time tonight the production is one of the most attractive vehicles for Miss Dalton's particular talent that she has had for some time. Long before she was as well or as widely known as she is at present, she won a place for herself in the hearts of theatregoers for her emotional and dramatic ability, especially in such plays as "The Flame of the Yukon", and other pictures with strong heart interest. Since then she has come into the forefront as a woman who can portray all kinds of roles but she shines in scenes which call for beautiful clothes and any drawing room drama in which she appears, is bound to be successful.

'The Woman Who Walked Alone' by Will M. Ritchley, is the screen version of "The Cat That Walked Alone" a short story by John Colton. It is a combination of life in the highest circles and out on the African veldt—fashionable society with all its little side lights and outlook and upon people in other less fortunate walks, and there is the charming actress, Dorothy Dalton. This woman can put more action into her work than most people can who have the spoken words at their command as well. When Miss Dalton deserted the screen for a short period and returnd to the legitimate she appeared in the sensational spectacular offering "Aphrodite", which succeeded "Chu Chin Chow" at the Century Theatre, New York. The movies held a powerful appeal for her however, and at the request of the producers and the public, she returned to pictures.

Paramount has been fortunate enough to secure Miss Dalton's services for some time and critics who have seen her in her latest picturse, say that she is doing some of the best work of her career.

CLASSIC BEATS JAZZ

DOROTHY DONNELLY

Jazz music reached its height during the season of 1921 and 1922.

Yet in the course of this jazz season Dorothy Donnelly wrote the lyric "The Song of Love", set it to the tune of Schubert's unfinished symphony, one of the most classic melodies, and made it as popular on Broadway as the most jazzy blues!

She made it the theme of "Blossom Time," a play based on Schubert's life.

This was so successful she is writing lyrics and books for two more plays, based on the lives of great musicians. One deals with the life of Chopin and will incorporate some of his most familiar melodies.

REBEKAH LODGE HELD A BANQUET

Mrs. B. Watt, Mrs. W. Hartley and Mrs. I. Bentley Honored by Oddfellows.

The Golden Link Rebekah Lodge of the I.O.O.F. held a very successful banquet last night in their George street hall, to celebrate the appointment of Mrs. B. Watt as president of the Rebekah Assembly of Ontario, an appointment made at the June Convention of the Assembly held in Owen Sound. Mrs. Wm. Hartley of this city and Mrs. I. Bentley of Millbrook, were also honored with offices in the Assembly and their triple appointment was commemorated last even ing by a banquet attended by over 200 member of the I.O.O.F. and Rebekah Lodge from Peterboro, Lindsay, Midland, Havelock and Millbrook. Among those present from out of town was the vice-president of the Ontario Assembly, Mrs. Esterbrook, the assistant secretary, Miss Pearce, the district deputy president Mrs. Booth, all of Toronto; the past president, Mrs. Watson of St. Thomas; the Grand Warden for Ontario, J. E. Anderson of Lindsay; and the Grand Master T. Sharpe of Midland.

A short business session preceded the banquet which was presided over by the Noble Grand, Miss Bella Brealey. A programme of songs, under the direction of Mr. Alex. Dick, added to the enjoyment of the evening, which was followed by speeches from visiting Assembly officers, and the presentation to Mrs. Watt of a large bouquet of flowers. The remainder of the evening was spent in dancing.

HANNON—CLEMENTS.

At St. Aiden's church, Young's Point, on June 28th, the Rev. Mr. Hughes, rector of the Stoney Lake Mission, united in the holy bonds of matrimony Miss Verna Elizabeth Clements, youngest daughter of Mr. and Mrs. Geo. Clements, to Mr. Arthur James Hannon, both of Dummer township. The bride was charmingly attired in a Belgian blue dress of charmeuse silk, with bead and embroidery trimming and white hat, while the bridesmaid, Miss Bertha Hannon, sister of the groom, was gowned in grey satin and georgette with hat to match. Mr. Maxwell Clements, brother of the bride, supported the groom. After a sumptuous wedding supper, partaken of by the immediate friends of the bride and groom, they enjoyed a pleasant motor trip to Campbellford and points east. On their return they will reside in Dummer.

A DOMES IC LOAN MAY BE FLOATED

OTTAWA, July 5 (Canadian Press). — If it is decided to raise money required by the Government to meet loans maturing on 1st December in Canada, a domestic loan will probably be floated in the early fall.

This was the statement of the Hon. W. S. Fielding, Finance Minister, to-day.

MEN REFUSE TO ACCEPT A JOB

"OVER THE TOP TO OTTAWA, OR BUST" IS THE SLOGAN OF RILEY'S SECOND CONTINGENT.

BRANTFRD, July 5 (Canadian Press). — "Over the Top to Ottawa or Bust was the slogan of six returned men who left here to-day by motor truck, commanded by Lieut. Price, to join in the march to the Capital.

General Riley had announced that 250 would start from Brantford.

Before leaving, the men were offered $35.00 a month and board, but neither they nor any of the veterans not participating accepted the offer.

LEG FRACTURED AT THE DE LAVAL PLANT.

Heavy Piece of Machinery Fell on John Corrin—Removed to the Hospital.

In moving a "cooler" at the De Laval warehouse this morning at 10.15 o'clock, John Corrin, 231 Bethune Street, received a compound fracture of the leg when the heavy piece of machinery, weighing 1,100 pounds, overbalanced and fell upon him.

Two other men escaped injury.

Dr. G. R. Scott was called at once, and the injured man was removed to Nicholls Hospital.

The accident occurred in the factory warehouse.

In addition to the fracture, his leg was severely lacerated. The Examiner was informed at the hospital.

GUNN IS IMPROVING.

Bullet Has Not Been Recovered—X-Ray Unsucessful.

Donald Gunn, son of Brigadier-General John A. Gunn, of Toronto, who is in Nicholls Hospital with a bullet wound in the left side, was reported resting easier to-day, although the small calibre bullet which is supposed to have entered the body in the shooting accident, has not yet been located.

A number of X-ray examinations have been unsuccessful in their purpose, and the physicians are baffled in their search for the bullet.

The seventeen-year-old boy was shot near Kawartha Park on Saturday morning while sniping frogs.

TAX DIVISION IS COMMENDED

Today Was the Last Day for the Fayment of Taxes—A Big Rush.

The arrangement with the Bank of Montreal whereby taxes are collected there, in addition to the City Hall, has worked out splendidly, according to Ald. N. E. Phelan, chairman of the Finance Committee.

By dividing the collection between the City Hall and the Bank, crowding has been avoided and the opportunity for errors eliminated.

The period for payment of the first instalment ended at four oclock this afternoon.

"The taxes have come in very well, considering conditions," Ald. Phelan remarked. "Of course, a large number will wait, because the 5 per cent. interest does not amount to much. We have been busy in the bank all day. There has been a steady rush here, and at the tax collector's office the crowd has kept up all day."

On account of te illness of City Tax Collector W. J. Green, W. J. Stacey is in charge of the office, assisted by Mrs. D. Drummond and Miss Grisdale.

According to Ald. Phelan, the three-payment plan this year has been commended on all sides.
